Seminis Farewell

ANNOUNCEMENTS

This will be the last issue of The Arumial News to be published during the summer months, but the first issue of the next school year will appear on September 23, registration day for freshmen. Ocuil can also be distributed the next day, September 24, in connection with registration day for sophomores, juniors, and seniors. The staff members and their present positions will further notice.

Initiates Seniors to Alumni Banquet

The Arumial Association will hold a banquet Tuesday, May 3, at 5:30 P.M., in the Alumni Social Room. During the banquet, five new senior members will be initiated into the Arumial Association. The banquet will be attended by the active members of the Arumial Association, and by their guests. The banquet will be held in the Alumni Social Room at 5:30 P.M.

Mironoziw Wins Local I. C. Contest

A letter from L. A. Davis, president of the Illinois Central System, Bloomington, Illinois, Valentine H. Mironoziw, M.E., to the Engineering Department, states that he has accepted Mr. Mironoziw's application for the position of党委书记 in the Illinois Central System. Mr. Mironoziw's application, presented to the Illinois Central System, was accepted and he was selected as the new党委书记 in the Illinois Central System.

Fall Registration

More than three hundred applicants have been received to date, and the Registrar for enrollment in the fall semester has been selected. A total of approximately one hundred and five hundred applications have been received so far.

The Dean's Office, which is located in the Bobst Library, has been inundated with applications. In fact, the applications have been so numerous that it is impossible to estimate the total number of applications. The Dean's Office has received thousands of applications, and the number of applications continues to increase.

The selection of students for admission to the fall semester is based on scholastic achievement. Students who meet the criteria for admission to the fall semester are invited to apply. The application process is open to all students who meet the criteria for admission to the fall semester. Applications for admission to the fall semester must be submitted by the deadline date.
Advisory Board

- Editor, David T. Smith, 39
- Managing Editor, John E. Knapp, 30
- Managing Editor, Robert L. Miller, 30

The following are some additions to the list of positions to be held by seniors upon graduation:

- Associate Editor, E. E. Smith
- Associate Editor, J. A. Smith
- Associate Editor, C. E. Johnson
- Associate Editor, J. E. Johnson
- Associate Editor, L. E. Johnson
- Associate Editor, J. E. Johnson

SPORTS DEPARTMENT

- John E. Knapp, 30
- Robert L. Miller, 30

Stake Horses

In horse racing, the difference between a "stake horse" and a "setting-up" lies chiefly in the ability to finish a race. There are thousands of thoroughbreds that can dash from the barrier with wonderful speed and ease, but the number that can sprint at the starting end of a race are few indeed. There is lack of stamina, lack of that endurance that is called "class," which definitely rules out the plater from contending in the open-race contests.

The same lack of ability is not out the race. Some horses are bound to be more people in plain truth. The school year is coming to a close at Armour; next week the final examinations will be held. Many students who have been in the life of a college student, have let their school work slacken. At present, the majority are hesitating between work and play. Senior work is a grade on the final mark that must pull them through the course. To continue are thus as serious a factor. This is the time when they will show whether they have the stamina, the "class," to pull a good grade at the end of the race, and come home with the honors, or whether they will crack in without trying to win. How many have the stamina to make a good finish, and how many have not?

Armed Forces of the World

- John E. Knapp, 30
- Robert L. Miller, 30

SUMMER WORK

The majority of the undergraduates will soon be engaged in work during the summer which will help them earn part or all of their school expenses the next year. Naturally, such job hunters are prompt to accept the anything that comes along at the present time. This is one job which promises the biggest salary at the time, the most advantageous for such a person to accept? After graduation, it is often better for the student to be as student as the student, before being followed for a period of years. By selecting that local store, he may gain valuable experience in the store for school work, and find knowledge of the various offices of a publishing house, as well as a view of the publishing business as a whole.

The undergraduate student should pick his summer job carefully, and not accept just any job that comes along, without considering present conditions. The dreamer often desires to join a publishing house, while that of the engineer should suit with experience.

"The way for a young man to rise is to improve his own self. He will never succeed, never succeed, that anything is happening him." - Emerson.
FINAL EXAMINATIONS
Second Semester, 1928-29
FRIDAY, MAY 31, 1929

Nomenclature
Chemical Engineering (C.S. E.)
Physics I & II
Physics (Arch.)
Analytic Geometry
Plane Trigonometry
Steam Power Plants
Architectural Construction
Electrical Apparatus

SATURDAY, JUNE 1, 1929

Chemical I
College Algebra
Electricity (C.E. & E. E.)
Graphic Statics
Precision of Measurements
Descriptive Geometry

MONDAY, JUNE 3, 1929

Engineering Mechanics
Qualitative Quantitative
Chemistry
Chemical Measurements
Machine Design

He united the country with nails

Our pioneering work has just "begun"
Have you a "camera taste"?

The Hindut Buddha has this and that, he has his thoughts and feelings, and he also has this and that. He has his own camera taste, and he can take pictures of whatever he likes. He can even take pictures of himself, if he wants to.

The Buddha, however, is not like that. He never takes pictures of himself, because he knows that it is not important to do so. He is more concerned with the things that are important, such as helping others and spreading the Dharma.

So, even if you have a "camera taste," it is important to remember that there are more important things in life than taking pictures. The Buddha's teachings can help guide you towards a more meaningful and fulfilling life.

JENNINGS DOWNS.
H. COGGSHELL,

Jennie, Unbeaten, Leaves College

Although the season has not been the most successful for the track team, H. Coggsell has continued to excel. His performances have earned him national recognition, and he is considered one of the top athletes in the country.

INTER-FRATERNITY
Tennis Progresses

The inter-fraternity tennis tournament has been progressing rapidly, with each team giving their best effort. The Tri Sigma-Rho Delta Phi-Rho Alpha Phi-Wilshere-Columbus-Huntington St. team, led by President H. Coggsell, has been leading the pack.

The team has been working hard to improve their skills and strategies, and they are determined to maintain their lead in the tournament. The other teams are not far behind, however, and the competition is heating up.

The tournament continues to be a great opportunity for the teams to showcase their skills and for students to get involved in a fun and competitive activity. The inter-fraternity tennis tournament is a great way to promote friendly competition and camaraderie among the students.
