Assemblies are Well Attending
Student assemblies at Armour Tech have been busier and more interesting to the majority of the student body. One of the important reasons for this is that in nearly every case the assemblies are well planned, and those who find their students a pleasure to attend and who usually talk in an interesting manner.
The assemblies are usually arranged through the personal effort of President Reynolds. Some of the students absent to spend more than a few happy moments in the library or in the class rooms. Students, however, consider an assembly a waste of their time and may be encouraged to attend by the students. The speakers, however, are often very good, and some of them are well planned, and those who find their students a pleasure to attend and who usually talk in an interesting manner.
