October Grads Plan Dinner For Seniors Only
Banquet to be Held at Swedish Club, Oct. 11; Will Plan for Reunion

The Octobers seniors will hold their graduation dinner in the Blue Room of the Swedish Club, 250 N. LaSalle St. on Monday, October 11. Jimmie Carroll, President of the seniors, will act as toastmaster, but there will be noISTORY speaker.

Another feature of the banquet, which is invited to the seniors, will be a full dinner menu. Plans will also be made for further plans for the next several years.

The cost of the dinner, plus $2.00 for the banquet committee, including John Dooley, Jack Carter, Paul Brundage, James Anderson, and Jack Byers. Senior money will be sent by the banquet committee,

Band Plays for Army Groups

For one hour Thursday evening, October 12, the combined bands of IIT, Army, Navy and Chicago, will play in the gymnasium of the Field Artillery of the American Expeditionary Force. The concert took place on the George Spalding Field. The concert was arranged to thank the Army, Navy and Chicago for their support of the Chicago Field Artillery.

Sphinx to Become Chapter Of Pi Epsilon Eta Oct. 10

A chapter of a national professional organization of engineering students, the Student Chapter of Pi Epsilon Eta, will be installed at the Illinois Institute of Technology. The chapter will be held on Monday, October 12, at the Swedish Club, 250 N. LaSalle St.

Paul O. M. Kidder, faculty advisor of the Professional Society, will represent the chapter on Sunday, October 12, at the Swedish Club.

Army, Navy Men To Receive Photostatic Copies of Records, C. W. Kepner Says

All army and navy students will receive photostatic copies of their academic records at the end of the semester, it was announced this week by Dr. Charles Kepner, registrar.

These photostatic copies will show the student's current grade record as it appears in the registrar's office. Any errors that may have occurred can be detected and immediately corrected.

By the end of this year all students who have a legitimate reason for wanting to view their scholastic record will be able to do so. Dr. Kepner, who operates the new system, says, "We are not always able to read and correct the record while the student looks at it. This will be remedied by having an appropriate place beneath the glass. The student's record will be signed by the instructor and will be returned to the student's file."

Camp Films Shown At ASCCE Smoker

Film illustrating the activities of the civil engineering groups at Camps East and West, will be shown tonight at the ASCC in the Student Union of the Illinois Institute of Technology.

Camp Armory, located in southern Illinois, is a branch of the Illinois National Guard, which is to be used for the training of engineers for five weeks every year.

Fountain in Main Overhauled, Failed

The drinking fountain in the first floor, near the entrance to the main building, was replaced September 30 with a new one. The fountain has been in use for several years, and is independent of plumbing and water main. It was replaced after the city and college were unable to fix it.

Many IIT Identification Buttons Yet Unclaimed

Byrd Johnson, Resident Assistant, found a number of identification buttons that were not returned to their owners. Many students have not been returned for identification purposes.
Man of the Week

Senior Mech Bert McClennen Heads Two Fraternities and Directs Sports

By CHARLES ROWOTHAM

He's president of Triangle social fraternity and president of Pi Tau Sigma, national honorary fraternity for mechanical engineering students, and also interim fraternity sports manager. For these achievements, Bert McClennen has been chosen as the "Man of the Week."

Bert, a graduating senior in mechanical engineering, says that these two fraternities are his hobbies because "hobbies are things which occupy all your spare time."

As president of Pi Tau Sigma, Bert heads the largest honor fraternity on campus with 60 active members selected from the senior class of mechanical engineering students.

With Bert at the helm, Pi Tau pledged Dr. M. Paulson, international expert in heat transfer, membership, and also instituted an award for the mechanical engineering student who completes his degree in the shortest average school term.

When the Navy moved Bert to Illinois Tech during the summer, Bert felt that Triangle fraternity should have a home and on his own he opened a six-bedroom apartment on the south side.

Their Mid-Western Boulevard home (now Quarters B) is rented to the Navy by the Triangle. As an Interfraternity sports manager, McClennen arranged all the athletic contests for the seven social fraternities on the Illinois Tech Campus.

Bert, who enjoys participating in all sports, goes to this job with enthusiasm, for the more games he arranges, the more games in which he can participate.

In addition to all these activities Bert found time to work on the stage crew in the "Drunkard," a production of the Armour Players, to write a large part of the script for the "Drunkard," and to put out a weekly column for co-operative students last semester.

"Technically trained men will undoubtedly be the managers and coaches who will be left off this year. For that reason broad cultural education must be hand-in-hand with engineering training."

With these words Bert sums up the kind of education and training he believes that Illinois Tech should endeavor to develop if it is to become the leading engineering school in the United States.

Sales engineering is the career goal of Bert McClennen. To see the stops which Bert has already taken towards this goal, his education in the field of sales engineering is needed. 

The Collegiate World

Tech Time Table

Monday, Oct. 3

1:00 p.m. - Science Students' Meeting

Tuesday, Oct. 4

11:00 a.m. - Tech Drama Society

1:30 p.m. - Illinois Technological Students' Association

3:00 p.m. - Women's Activity Club

Monday, Oct. 2

10:00 a.m. - Sigma Phi Epsilon

5:00 p.m. - Illinois Technological Student Council
Avalon Offers Carl Schreiber And Band

A 8 PROMISED two weeks ago, a reporter got around to the Avalon (Dance and movie) and became happy to see just how happy the performers got. He failed to be very much impressed. The dance floor itself appeared to be in good condition, and was comfortably crowded on a Saturday night.

Carl Schreiber and his "Blue Heaven" music were the feature of the evening. The band is another of the typical small dance bands which has been hit by the war, and the music couldn't quite be called heavenly. The arrangements were not especially original, and could stand considerable improvement. The bass section was weak and sadly neglected.

As far as the crowd attending the Avalon, it appeared to be one which dances regularly at the ballrooms. Like many big families, everyone knew everyone else. For the uninitiated male, there were a large number of women in attendance. Unfortunately, the dance floor couldn't attract the quality that the music did.

In all, the $1.50 per couple admission did not appear to be a profitable investment.

names 'n notes

SAMUEL INSULL was once a member of the Board of Trustees of Armour Institute... TED PILAT, Armour Institute editor, founded the newspaper at St. George High School... MELVIN L. MANNING, professor of electrical engineering, formerly was superintendent of the high voltage laboratories of the transformer division of Westinghouse Electric... "The first yearbook," Armour Institute, published in 1935, was called the Polyglot. In 1943 it was changed back to the INTEGRAL... JOHN HIRSCHMAN, of the PFE department, was the first editor of the campus newspaper, "The Armour"... BLAKE HENDRICKS, English professor, was an army flying officer during World War I.... According to the student directory, JOHNSON and ANDERSON are the two most common student names at the IIT... BILL PARIS, senior civil, and JULIUS DE VOS, V-12 senior civil, although they can't compete with the 22 year record of CHARLES WRIGHT, have each lived in Chicago 21 years without visiting Riverwalk Amusement Park... HARRISON MIHORCINCK claims the distinction of having the only identification badges with a smile broad enough to use the camera... TOM ROY, BERGEN SMITH, and BURKART were members of the Pierpont volleyball team which took third place in the senior city championship, two weeks ago.

'Touch' Ball Comes to IIT

Best wishes to Miss Shirley Hogan of the Research Foundation who is being married this Saturday. To quote her o'ld axiom, she is making one man happy at the expense of many others. Among the local lights in this latter class are Dan O'Connell and John Buttus, extrovert revolutionaries. Dan has been more of a bother to her than John, relying on her judgment in all of his puppy love affairs and is already looking for a new confidant. Buttus, however, is just plain blue.

Jack Hyra, to his girl, is a sweet innocent boy. She thinks those trips to Delavan are for the purpose of getting a bit of air and sunshine. Good country air. When he says he is playing baseball in the evening she believes him. A continuous fellow would carry on his extra-curricular activities on the opposite side of town but Jack Hyra has his "pals" right under his nose. You fellows, there is one girl in a million.

Scheer and McManus, those good friends from "Quartermaster" both have rest in a "right spot" in (Iowa) last weekend. Both fellas, still with chins aloft, have vowed that henceforth they will marry their pretty partners when they live out the country.

Now full he loves and out of love, respectively, when a man is in no affected that he no longer likes a woman, he is hooked. Such is the present plight of candle makers, who like women but only has eyes for "her." Every day is going to be a useless Tuesday for "Redhead" Fish from the looks of his new girl.
ASTP Squad Shaves Civilian Outfit In Basketball Thriller
Dick Holton Scores In Overtime to Give the Soldiers 36-35 Win; Kilgarriff and Miller Star

The Army ASTP unit's basketball team, despite playing a ball to ball in the first half, was outscored by 36-35 and led by 20 points in the first half. The Army team managed to come back and tie the game with only a few minutes left. Dick Holton, however, scored in overtime to give the Soldiers the win.

Sigma XI Holds Meeting Oct. 12
Dr. Stewart, professor of mathematics at the University of Arizona, was invited to give the talk at the meeting of Sigma XI's chapter of the University of Arizona. Dr. Stewart discussed the importance of mathematics in today's world and encouraged students to pursue careers in this field.

ASTP's See Two Football Games

Navy, Civilians May Graduate Together

"From my point of view, the naval service may soon be open to civilians as well. I believe that the navy is considering this possibility. If so, I would be more than happy to accept a position.

Cloakroom Opens to Civilians and Navy

The cloakroom, which is located in the center of the Student Union, is now open to civilians and navy personnel. This will allow students and navy personnel to store their coats and other belongings without having to carry them around.

Lunch Service Better! - Lind

"Efforts of Mr. Virgil Lippert, director of lunch service to the barracks, have brought about an improvement in the lunch service. Mr. Lippert has worked hard to make sure that students are satisfied with the lunch service.

Smith Appointed Lewis Registrar

Lewis's new registrar is Mr. Smith, who has been working at the registrar's office for several years. He brings to his new position a wealth of knowledge and experience.

Horseshoes to End IM Sports

Six More To Start Woman's Intercollegiate Athletics

The women's intercollegiate athletics program is set to begin with six events. The program will be led by Mr. Smith, who has been working hard to ensure that all aspects of the program are in place.

Slide Rule Text by Harris is Published

A new book entitled "Slide Rule Instructors" has been written by Mr. Harris, a professor of mathematics at Illinois Tech. The book is designed to help students learn how to use the slide rule.

Mills Organizes Evening Services

The student council has organized a series of evening services to provide students with a variety of activities to choose from. The services include concerts, lectures, and other events.
Hans Reissner To Leave IIT At Term's End

New Aero Instructor Promised by Grinker; Gail, Griffiths to Teach

Dr. Hans Reissner, professor of research and instruction of aeronautical and other technical science, is leaving IIT at the end of this semester. He will be teaching at Rensselaer Polytechnic Institute in New Jersey. Dr. Reissner will be replaced by two full-time instructors, William J. Gail and Robert Griffiths.

Oct. Seniors to Hold Last Dance

The October senior class will hold a grand dance on Oct. 15, in the Science Hall. This dance is sponsored by the junior class.

Frosh Student Receives Award

Frosh student Mary Jackson was awarded the outstanding freshman engineering student medallion.

Wednesday Is Last Day for Pictures

Wednesday, October 11 will mark the last day that photographs will be taken for the yearbook. The photos will be in the Science Hall. Students are advised to get their pictures taken before this date.

Dance Bids Limited In Number—Coca Cola

The sorority balls, the adjourned promenade, and the bongos of the sorority balls, have been designed by the Kappa Alpha Psi and the Delta Sigma Theta. The dances will take place on October 15, 1955.

Electrical Honorary Initiates Nine Men

The first class of the Electrical Honorary fraternity was initiated on September 15, 1955.

Private Snafu

ITSA Appoints Tau Beta Pi to Probe Lab Report Complaints

Too Much Time Spent on Writing Reports, Say Sophomores; Standards Fair, Claims Thompson

Subject of considerable discussion on the north campus last week was the matter of the sophomore physics laboratory reports. The latest development is the ITSA's appointment of Tau Beta Pi, national engineering fraternity, as an investigating committee.

Bill France, president of Tau Beta Pi, assisted by members Thomas Metz and Bob Schott, is conducting the investigation. It is expected that within a few days the hearings will be completed.

The hearing will be held on Tuesday at 4 p.m. All interested students are invited to attend.

Tech News Banquet Is Sunday, Oct. 8

Frosh and sophomore memers will be held tonight. The banquet will be held in the science hall. All members of the student body are invited to attend.

Brain Twister

Have you ever heard of the "Brain Twister"? It is a puzzle game that challenges your mind. The goal is to solve the puzzle using logic and reasoning. It is a popular game that can be found in many puzzle books and online.

1. A man is looking at a picture on the wall. He says, "Brothers and sisters I have none, but that man's father is my father's son." Who is he looking at?

2. A man is looking at a picture on the wall. He says, "Brothers and sisters I have none, but that man's father is my father's son." Who is he looking at?

3. There is a man in a boat on the river. He is holding a sword and a shield. He is also wearing a hat. He is looking at a picture on the wall. He says, "Brothers and sisters I have none, but that man's father is my father's son." Who is he looking at?
