Contest to Feature Secretaries

Phenomenon Contest Winners

Most Popular Stenographer Will Be Elected by IIT News
Girls to Vote For Their Favorite Male Student; Winners to Be Given Edgewater Beach Dinner

Who is the most popular secretary on the staff of Illinois Institute of Technology?

Who is the Illinois Tech man who is most popular with the secretaries of the Illinois Tech staff?

When they are, in two weeks this young man and this young woman will be guests of Technology News and the Edgewater Beach Hotel at a dinner for two at the Edgewater Beach.

To find this young man and this young woman, Technology News is announcing a contest to determine the "most popular secretary" and "the most popular young Illinois Tech man."

Winners of the contest will not only be honored with a formal dinner at the Edgewater Beach—where dancing, food, speakers, and all the trimmings are to be found—but they will receive a trip to Europe in full, paid expenses.

Harry Beach and Ted Pfleger, editor and associate editor, respectively, of the Institute, state that the only way the awards can be won is by secretaries for all the beauty and opportunity which they contribute to our lives. It is for them that the contest is planned.

One Percent Pledge Blood to Red Cross

With only 1 day to go before the Red Cross Blood Cub, the red cross is still appealing to the students to come and see. Even though the student body has failed in their pledge goal, they have not been turned away. The Student War Council, this statement was made by Harry Gillispie, one of the students, and was made public by the Student War Council, when he said that he would be sure that the students would be able to afford cards to buy.
Student Union Fee

Each semester, students are charged a Student Union Fee which allows them to use the Student Union facilities for the semester. This fee serves two purposes: approximately one third of it goes toward the operating expenses of the building and the other two thirds goes to retire the debt on the building.

Formally, students have had the use of the entire building, restricted only by the rules of the Student Union. In the past term and in this term, several conditions have arisen which are causing considerable concern among civilian students. Most of the attention centers around these problems. For about four hours during the day, the basement is closed to civilians during classes. The basement is closed to civilians during certain times of the day for Army classes, Navy students and officers and the Naval Reserve. The basement is closed to civilians during the hours of the evening, and students are only permitted to use the basement during certain hours of the day.

The school receives payment from the Navy and Army for the use of these facilities. The Army pays one half of the operation costs of the building. The Army pays for the building. The Navy pays for the operating costs of the building. The school receives payment from the Navy and Army for the use of these facilities. The Army pays one half of the operation costs of the building. The Navy pays for the building.

Class Interest

The Sophomore, Junior, and Senior classes were scheduled to hold their monthly meetings last Friday. The seniors met, and a majority of the class was present. The Sophomore and Junior classes met last Friday. The Sophomore class was present.

The policy of the faculty who fail to attend do not because they have a class term, nor because they have homework to do, but simply because they are too interested in their class or in most of the other things that go on around the school, for that matter.

The worst part of it all is that the great part of those who read any book called "Well, so what?" There is a good answer to that. "No why not?" The most important thing that has happened to the extent of occluding classes on this hour every Friday so that such groups may be an active part of the school. They themselves are not interested enough in school activities to devote that hour once a month, then the conclusion is clear. There is no place for extracurricular activities.
Betty Davis Makes "Old Acquaintance" Click

Taking a slightly dramatic turn for the better, Betty Davis treat us to a look at her life, not as often before, and makes it clear that she is the part of the family, the role she is so often referred to as the "Blonde Bombshell." The part of Rose Martin, the "Garbo" character, is one which she has never been known to play before. It has a Little Orphan Annie quality of being full of energy and "good-guy stuff," about it, and it requires a very good actress to handle it well, and she does it well at the same time. It's convincing.

Assisting Davis in the dramatic effects, Miriam Hopkins plays the "Blonde Bombshell" with great skill. As Betty describes the role, it's with a laugh of acting that comes only from the position of style and glamour. "Old Acquaintance" is an actor's dream. It requires real talent, and surprising enough, it gets it. The direction and writing are well done, there's a fine cast, the right places to pick up the plot. When the heavy drama begins to tug, the individual events are handled with skill. For suspenseful situations, with Rose and all those nothing situations, the last act is a real gem, a real gem, a real gem. "The Fallen Foliage." The main feature of the picture is a wonderful performance; it's a story about the Faloan Thirde.

Talented Seul is perfectly well in the part of the little-known little-known little-known little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little-used little used
Techawk Cagers Open Season With 1 Victory and 1 Defeat

Illinois Tech Trounces Harz College 47 to 35, Then Fades Against Glenview to Lose 52 to 42

Starting the season with a bang, Illinois Tech's varsity basketball team trounced Harz College Junior 47 to 35 last Tuesday. The win was 12 in the lead.

High scorers for Illinois Tech were Art Gramm with 11 points and Jack Best with 9. Larry Goldberg for Harz was high with 12.

Harz jumped out to an early lead in the first few minutes, scoring on their first three shots. Before the Techawoks got their game under control, they fell behind by 9-0, the Techawoks came back strongly, led by Don Lange and Art Gramm. Tech scored 15 in a row and then to move in front 21 to 20 at the half.

In the second half, Illinois Tech were down with strong resistance, displaying two teams of equal strength. Hartshorne pointed out, coming within two periods of the Techawoks, but the game ended with H/T on top, 47-46.

Second largely on long shots, displaying amazing accuracy, Illinois Tech concentrated mainly on free throws and, up and up from the backboard.

In a tough struggle, Don Lange and George Fleischer did a great job of protecting the boards against Techawoks. Tom Kilpatrick did the same.

In the second half, Glen Weinhein, Bob Kielb, Hank Koci and Jim Kilpatrick had the credit for increasing the Techawok lead.

The winning Techawoks are working out three times a week and soon should have good matches. Some has been experienced getting in matches, but the team will be ready when they are.

Rho Delts Need One More Win

A felling Sigma Alpha Tau touchball team lost to the undefeated Rho Delts 15-16 by one point by the final score. The game was played last night.

The Delts need only to defeat the Theta Upsilon Lambda team in order to win the championship.

The Theta Upsilon team was in the first half on a pass from Lee Beckman. The Delts scored nine points in the first minute before the championship is over.

The Theta Upsilon team came into the tournament with a strong record. The Delts played well, the final score being 7 to 6. The Delts need only to defeat the Theta Upsilon team before the championship is over.

The teams used their contact points. Karl Laidlow from Matt Patten was one of the best point men. However, their attempt for the extra point failed.

On their opponents territory for the remainder of the game, no extra points were scored.

LEWIS ELECTIONS

Continued from Page 1

A majority of all students registered at Lewis is necessary before ballots can be cast in the primary. Dean Walker says. The vote will be taken at the election meetings.

A ballot box which may be obtained at the registration office at the time of registration, will be brought again for discussion about the meetings this Thursday, said Leo Krasnower. Lewis Selma, who registered on the first day of registration, pointed out that great success could be achieved by studying and working on a problem for their respective choice. The last time there was to have the conference for registration this year.

The four new class presidents will appear in various reports on class arrangements. Embodied in these reports will be the number of faculty members who will be appointed. Dean Krasnower. This group will include the classes and the departments, as well as those standing on the faculty list.
**$1000 Awarded For Egg Study**

To determine how dried eggs may best be preserved for army and naval forces, a $1000 fellowship was awarded by the National Egg Products Association of Chicago.

**IIT To Train Men For Aircraft Firm**

An announcement has been made by the board of directors of the Illinois Institute of Technology that a program of instruction in aeronautics, to be conducted for the United States Army Corps of Engineers of the United States Army Air Corps, has been approved by the City of Chicago. The course is designed to train men for the aeronautical field, and will be conducted under the direction of Professor John Y. Toolis, head of the aeronautical department of the University. 

**New IIT Wind Tunnel**

**New IIT Wind Tunnel**

U.S.S. Two Propellers—Using two propellers on new wind tunnel develops 100 m.p.h. at wind of 500 revolutions per minute.

**Wind Tunnel Nears Completion; To Be Used in Air Courses**

The new IIT wind tunnel, the only one in the Chicago metropolitan area, is in the last stages of completion. Until very recently, the tunnel was to be used in the last stages of a course on aerodynamics, but it has been completed.

**IIT Station Wagon Collides With Truck**

When two vehicles collided, one was a station wagon, and the other was a windshield. The driver of the station wagon was injured.

**Graduate Club to Hold Dance at Hamilton Hotel**

The Graduate Club will hold a dance on Friday evening, December 13, at the Hamilton Hotel, 20 E. Delaware. The dance will be held on the main floor of the hotel. 

**Have a Coca-Cola = What’s the good word?**

For the best girl friend—

**Diamond Engagement RINGS AND JEWELRY**

Spies Brothers, Inc.

22 E. Monroe St.

Member of Affable I.T.T. Federation

Two dollars deposit.

**ITC Code Class To Begin Dec. 1**

The ITC code class sponsored by the ITC Radios, by appointment, will begin on Monday, December 1, at 7:30 p.m. in the ITC code class.

**Amour Gets New Phone Extension**

Mr. and Mrs. E. A. Amour have been granted a new phone extension.

**TECHNICAL DRAWING (Continued from Page 1)**

Dave F. R. Reeder, instructor of the code class, will use his own method of instruction, and the course will be held for eight hours a week. Students will be able to take the test at any time during the week.

Navy and civilian students may still register for the code class by leaving their names addressed to: R. E. French in the school of radio telegraphy, 330 Multi Mode, chief operator.
Co-op Plans to Improve by
Reorganization
Better Service, More
Efficient and Larger
Staff to Be Provided

A reorganization plan was
approved at the board meeting of the
Engineering Cooperative Bookstore Inc., held last Wednesday.

The heart of directors has long
been aware of the inefficiency in the
purchasing and sales depart-
ment. Since the Cooperative does not
employ any paid workers, it has
always been difficult for the heads of
the purchasing and sales depart-
ment to find time to maintain an adequate
supply of books and to keep the
stock open at convenient times,
said president Donald Arneson.
Furthermore, the competitive condi-
tions existing between the Co-op and
the Institute Book Store makes or-
dering by quantities difficult.

The staff will be divided into four
departments, which include:
1) Store management, headed by
Bob Korsak and assisted by
Warner Neumann, as purchasing
agents.
2) Business administration, head-
ed by Edward Zellner, treasurer,
and Morris Gaettman, accountant.
3) Advertising, run by Frank
Zupp and Harry Wesselton.
4) Membership, headed by Arthur
Uhl.

"The present members of the
Board of Directors will continue to
determine the policies of the or-
ganization," said Arneson.

The board consists of Don Arneson, as presi-
dent, Wally Nathan, Wally Toe,
Frank Zupp, Harry Wesselton, Ed
Rahms, John Maltz, Art Uhl,
and Dr. R. L. Hayeskava, technical
adviser.

"But mother, I was just at a brews party." VTV

"What was it, a roundhouse." VTV

"I call my hobby 'Label' because he sticks so
tightly to the bottle." VTV

"I'm going to Mexico to meet my wife." VTV

"I'm just an." VTV

"No, not very much." VTV

"Wife (sincerely). "Where did you get that
hat on your coat?" VTV

"Hubby." "From the head of the door, door." VTV

"Don't do that, I never touched any." VTV

"But: "Just imagine being blind by Tom." VTV

"Let: "I don't have to." VTV

"I call my sweetheart 'Oatmeal', because she is so
many." VTV

"I call my girl 'Grape-Fruit'." VTV

"Why?" VTV

"Because every time I squeeze her she rolls in the
eye." VTV

"I took my flame to the fireman's bell and they
put her out." VTV

"Don't Jack love you very much?" VTV

"Well, as much as I let him." VTV

"Nowadays the modern girl raises one foot when
she's hugged. The old-fashioned girl raised both."

Guest: "Who is that awful looking fag over
there?" VTV

Hunt: "Why, that's my wife." VTV

Guest: "Oh-be-guy your jargon, my mistrial." VTV

Host: "Maybe. No, no, nothing." VTV

"I've discovered the cause of 20 per cent of all
dissent." VTV

"Remarkable, what is it?" VTV

"Marriage." VTV

"I asked her to kiss me without result." VTV

"I don't like kissing through these things, either." VTV

"May, Mom, the ladder just fell down in the
backyard." VTV

"Well, I'm baking a cake. If the ladder's too
heavy for you to lift, tell your father." VTV

"He knows about it; he's baking on the edge of
the roof rolling for help!" VTV

Mark Anthony: "I have come to see Chepeta." VTV

Bess: "You can't, she is in bed with hanyughila." VTV

Anthony: "Owne those Greats!" VTV

Marriages are made in heaven; they have
enough hell to be the other place already. VTV

"In the nation's capital.
Chesterfield.
They satisfy.
You can't beat their
milder better taste.
There's no busier place than Washington, D.C. It's
the control room of America's mighty war machine. And
Chesterfield is the busiest cigarette in town. It's on the
job every minute giving smokers what they want. Its
milder, cooler, better taste makes it the capital smoke.
You can't beat Chesterfield's right combination of
the world's best tobacco tobaccos for real smoking pleasure.
Make your next pack Chesterfield... You can't buy a
better cigarette.
