Jacob Wins Secretary Contest; Girls Elect Gage as Favorite

Integral Bids Go Like Hotcakes; Fourteen Clubs Reserve Tables

With the idea of group reservations being more popular than ever, the group reserve dance is to be held Saturday night in the St. Paul Hotel, the Hotel Association appears to be a success, Miss Ciccia, ABSC chairman, reported.

Fourteen groups have reserved tables and in the showing of more tables available for the affair.

Reservation gone have gone like "hotcakes", Miss Ciccia, ABSC chairman, reported.

The former co-op class will hold their own under the chairmanship of Miss Ciccia, who, in her usual manner, will have the entire class being held by the great majority. The group class has been chosen to handle the work and was integrated into the junior class.

It is expected that these men will make their class lonely, and they will be placed in the room with the remainder of their classes.

Lewis Decides Lounge Question; Bartusek Chosen Class President

Rho Epsilon Will Demonstrate Television to Public on Friday

The first of a series of public demonstrations of television will be by Rho Epsilon next Friday night, Dec. 10, at 7:30 p.m.

Admission to the demonstration will be by ticket, which will be distributed to the students of the class. The program will be conducted by members of the Rho Epsilon members.

The demonstration will be given at the Rho Epsilon clubhouse and will be shown to the students of the class. The program will be conducted by members of the Rho Epsilon members.

Physics Report Policy Changed

The physics department will be changed in the future to be the policy of the student union. The physics department will be run by the student union, who will make the changes in the policy of the physics department.

Club Progress

Three clubs on the IIT campus have undergone a complete revision during the first four weeks of the present semester. The Math Club, the Dance Club and the Armour Eye are the three groups which among all the other organizations on the campus, felt that something should be done about the present condition of activities at IIT.

A year ago many of all organizations on the IIT campus and of the total only 6 could be considered as fully active. Included in the total were four of the organizations and two professional fraternities. Not one of the professional societies or honorary could qualify for that status.

It is true, that an outside activity cannot occupy the majority of its members time. But it should also be emphasized that much can be accomplished by establishing some particular need for every group. This provides a means whereby everyone can take an active interest in the organization.

Editorials could be written forever telling what should be done, but they can accomplish nothing unless those concerned have the initiative to move ahead by themselves and make an effort.

Three clubs in this campus have found that they can have a number of things, which will probably lead to the organization's possible future. In doing so they have instilled a new vigor in their respective organizations.

The Math Club, the first to be it, they inaugurated a new social program sponsored with periodic instruction for their members. The success of this innovation has been brought out by the increased attendance at their weekly meetings.

Next among the clubs to reorganize is the Armour Eye, the photography club. This group held an election of officers recently and immediately thereafter embarked on a new program concentrating on the interests of all members.

The group did start an instruction class in photography for the benefit of their more inexperienced members.

One of the things that most anyone who has ever graduated from IIT can remember is the group of students who held the camera department in the high school and the IIT campus.

The IT Math Club went out and gathered a number of students to work with them. The club will hold weekly meetings at which a paper is read by one of the members on some form of mathematics or science. The club has also taken on a long term project to form a larger group of mathematicians devoting Chicago and the IIT campus.

The club will hold weekly meetings at which a paper is read by one of the members on some form of mathematics or science. The club has also taken on a long term project to form a larger group of mathematicians devoting Chicago and the IIT campus.

Other than these three groups, only three more could be found that may be considered active among the remaining clubs, Rho Epsilon and the Chi Sigma, who have maintained a full and active program for all their members.

M. BURKART

Dear Editor:

Friday night Illinois Tech played George Williams in a basketball game. Actually, Illinois Tech played Illinois Tech, for the George Williams team was made up entirely of Navy V-14 trainees, Illinois Tech V-14 trainees. If you haven't been living and studying at George Williams under IIT auspices.

Don't miss a bit silly to you-Illinois Tech playing itself? No! That's exactly what happened, for you can check official records and see that these so-called George Williams basketball players are actually Illinois Tech V-14 trainees. You have every right to think under the menu of George Williams, they played and remained at the University of Chicago, a fact which our own media haven't been able to publicize for years. And they thereby lost a lot of favorable publicity for George Williams.

And, of course, they got publicity for George Williams when they played at what actually was their own leg, Illinois Tech.

What's the matter with IIT? Don't you feel good sports teams?

These men actually should be drivers of our own team. They represent real basketball talent, apparently better than that we now have expressing us. Who's responsible for the Thunder's failure to take advantage of this talent?

Is IIT always going to have second-rate teams because it is not taken at the start that we just don't take the trouble to organize first teams?

Sincerely yours,

TED PILAT

Dear Editor:

Why aren't the four rounds of Armour allowed to vote at the present "Student Senate's" elections? The girls at this school pay their tuition and book the Tech News Mails. With a great sense it was said to the rules that all such rules applied to MEN ONLY.

H. Saper

Names in News

RONALD ABELE, sophomore electrical, was half of a novelty and tap-dancing act when he was 12 years old. The act was billed as "Dou-oble Trouble" and was featured at the Chicago and State-Lake theaters, the Congress Hotel, and the Terrace Gardens... RUDOLF SAMIT, well known professor at the University of Chicago, is 25 years old... A German refugee, FRANK SCHOLL, freshman mechanical engineering student, is only two months... MARVIN QUATROMON, sophomore electrical, is now the only Armour student who has had the chance to see his friend... RALPH ROTH, junior mechanical, has consumed only two cups of coffee in his life... Professor T. W. OSBORN, of the Mechanical Department, is a native of the Hungarian Austrian world war... J. BRITANN DEITZER, freshman industrial engineering student, has gained possession of his first $50... A. W. BALINT, of the Technical Drawing department, is a native of the Hungarian Austrian world war...
Symphony's Popular Concerts Attract Crowds

Nobody wonders why Dottie ("Personality Plus") Jacob got these votes in last week's contest, at least not after enlisting the aid of her friend, Eddie ("Wheat Flour"") Habit before the vote was announced. Dot put the subject and soon sold her on the idea. He was all packed up to collect for his vote, but put it on the Red Cross center from where he had Habit, "Oh", to be about six inches taller, and who knows where I can get a couple dozen halos (RD). Note: When do the rest of us get paid off?

It's not only the HPQs who develop the new techniques; take Charles ("Shakeer"") Bower, for example. His "roed-out-in-the-backyard" center works as follows: First show camera, and start conversing as if taking pictures, or same address as that print can be delivered. "From there," says Bower, "Brother, you got my vote!"

Wally ("Sister Lou"") Gruenig is officially elevated from the gallery of great comics, according to a close bulletin. Wally falls wonderfully hilarious gam, but they caught him up with him. The nephews drafted him on his basis of advertisement when a boy appeared in their bowling lane. They changed their minds quite quickly, however, after the "Getz Kid" rolled up a mashing 66. Pay the dough, "Tinkers"

Gruenig: "They filled the alley on me!" This column, being strictly secret in all such matters, has no opinion.

Reports coming from the far west, namely Berywya, fresh light on the social side of Herman Saline, Bogeymore, who has just returned from the west, where it seems that a weak or no ego, Herman was selling the local theatre with what appeared from a distance, to be the company of a young lad. Herman Saline all the implications, and any further information will be horrifying.

Ray ("Wholesale Love") Takhorup surprised his brother "Pit Rae" at a recent celebrity dance when they were asleep, still without a data. Requests for information brought only a few mauled by the Wiltzens. For the HPQs, "Takhorup must be on the roll!"

Can he be that Ray is losing his grip and that there was one girl he didn't pick up?

When Princess ("The Technology News"") Office, and a woman's voice asked for Harry Burkhart, it was not much surprised to hear his brother answered, "You're talking to Harry with the words, "Here you are, Love!" and it was still more natural for Harry to answer with, "Hello, dear." But Harry's face turned an unconscious shade of red when he found that he was speaking to the man. He had borrowed the dawn donor car for the Technology News. Moral: Don't be too sure of yourself!

This week brings a revival of a feature well loved by almost all followers. Comments come in from the most unexpected sources, and was made when his time. Purpose: Present"This Year's Birthday in the Bush" or "The goat of the week."

The story is that a goat owned by Mr. Miller, a farmer, father of three, Hester, Isabelle, and Mrs. Morgan. The mother, a characteristic of the breed. The goat is still young and will be in her next season of breeding. She is a member of the goat under discussion, but I should prefer to be called Sheik Idris; interesting, gentle, the way she is opened.

Apparently the first of its kind uncovered on the ITP campus, a S.T.O. (Small Time Operator) turned up at Armour. The nomination goes to Simon Schwartz, a junior civ...
Senior Chemists Lead Bowling

The Senior Chemists under Al Potter, have assumed their position so favorably in the intramural bowling league that they now lead by take three games from the Soph Chemists. Pat Marrow started with a 66 series and a 73 game while Jack Bridgeport scored the losses with a 66 series.

Buck-Pushers Will Have Rink as Usual

A hockey rink is being set up for Tech's buck-pushers despite the fact that the hockey court is being used as a site for the new Parnham research building. The proposal that the buck-pushers use the court is being considered. The court is currently not being used by any teams, so its games are played on other rinks.

Dispensary Gets New Man

Next addition to the Tech army must be a dispensary of some sort. After the departure of the last dispensary, numerous students have taken over the responsibility. The last dispensary left the building last week. The new dispensary will be located in the basement of the Student Union.

Varsity 5 to Play Teachers

Syracuse will host Illinois Tech in a varsity basketball game on Tuesday, Jan 2. The Tech team is currently ranked 5th in the nation, while Syracuse is ranked 11th.

Techshawks Drop Game 29 to 49

George Williams finds the Techshawks Mark Illinois Tech's target, setting up a major upset. The Techshawks lost by a score of 29 to 49, their lowest point total of the season.

Tilts With Navy Pier, Concordia, North Central Included; Northwestern Y-12 May Be Booked Later

A season schedule of 14 games has been announced by Ray Tupper, manager. The schedule includes games with Navy Pier, Concordia, and North Central. Northwestern Y-12 may be booked later.

Wrestling Team Beats George Williams; Return Match to Be Held This Week

The wrestling team has defeated George Williams in a return match this week. The team is now preparing for a meet against St. Cloud State University next week.

Current Issues of Two Magazines Show "Cover Boy" Fame Comes to JIT Men

CONTEST WINNERS—Anna Farrell, Dorothy Jacob, Linda Krueger and Joyce Dean (left to right) are the four most popular secretaries of Illinois Tech.

Shannon John, J. Shannon, furthered a priest's offer in IIT's 112th graduating class, June 17, from Washington, D.C. He was ordained by Father Hamlin, cemontary of the IIT chaplain. Shannon is reported to be in the Navy.

Shannon was a physical education officer. As a result, he was often seen in a physical education class for his own students. Shannon was a religious education officer and a religious education officer was always in the navy.

20 New Men Added to Research Staff

Bringing their student membership to 112, Illinois Tech's Research Foundation recently added 20 new men.

Recent additions to the technical staff include Charles F. Amsel, A.C. Utech; Walter J. Davis, A.M. Utech; and Charles A. Davis, A.M. Utech.

John Sluis was elected chairman of the Research Foundation's new technical student body.

Y-12 Unit Receives Dog Tags and Watch Stripes

Watch stripes and "Dog tags" are now on display in the Y-12 Unit.

The striped armband is worn on the right shoulder of the uniform.

VTI Sigma Xi Chapter to Meet with Convention

The IIT chapter of Sigma Xi, honorary scientific fraternity, is to hold its annual convention on December 18 in the lounge of the Student Union Building. The function will be a combination of informal dinner and party which will be open to the public.

The lecturer will be a member of the scientific community.

Pi Tau Sigma Honors Jakob for Research

Professor Max Jakob was awarded a $500 research grant by the Illinois Institute of Technology for his research on the development of new medical equipment.

A calendar of the semester's events was also distributed at the meeting.

Army Beans Photostats, Records to Be Typed

Three newspapers in Chicago are to be made available to the army for use in Washington.

Dr. Charles Kemper, registrar, has been informed that the photostats and records of the army's records are not acceptable. In addition to the typewritten records, a photograph of the army's records is to be made available.

According to Dr. Kemper, these records were to be sent to Washington in the near future.

Pi Tau Sigma, the engineering fraternity, held an open house recently, and the chapter's officers were present.
Elevator Rule To Be Enforced

The "ride the elevator and get a ticket" requirement for freshmen will be enforced by the University's security officers and janitorial staff. The ticket will be filled with the student's name and the number of the floor they are on. The ticket will be stamped upon entering the elevator, and the student must present it to the janitor when leaving the building. Failure to follow this rule could result in disciplinary action.

June Graduates to Hold Class Election

The June graduates will soon elect new class officers. This was decided at the class meeting held last Friday.

Yellott Speaks Before Indiana Safety Meeting

Prof. John I. Yellott, director of the safety program at the Illinois Institute of Technology, spoke before the American Institute of Safety, in Fort Wayne, Ind. The safety institute is sponsored by the Fort Wayne Safety Council of the Chamber of Commerce.

Brain Twister

Look any of you, a pretty young lady, and show me a man, fatigue, tiredness, stop and eat something. You eat too much. It's not that there is no dessert to eat. The bread is the best protein source for you. The bread is the creation of a blue. In five minutes, the car is run, and the minutes, the blue, and the blue are very little hungry. The old man, turning on the lamp of the table, holding the youth and the youth to divide the money fairly between them. Why was not at the right time?

Elevate the ticket at the back. What number of tickets do you have? 10

Freshman Swim Party

The freshman class plans on having a swim party in the water main. The freshman president, Bob Snelgrove announced today, "No definite plans have been made as yet, but all ideas will be most welcome. Perhaps some difficulty will be encountered in obtaining a pool, but we will have it for at least five weeks."

Student Union Rule Enforcement Begins

All Student Union rules will be strictly enforced, beginning next week. All students are to report to the student union bar and the manager of the Student Union Bar is to be present at all times. No violation will be tolerated.

Visual Education Needs More Movie Operators

There are plans to set up a new Visual Education Center at Lewis University. The center will be staffed by volunteer students and will have the following equipment:

- A screen
- A projector
- A sound system
- A recording studio

The center will be open to all students and will be available for use during office hours. The center will also be available to community groups.

German Credit Muddle Explained by Keppner

The German credit system is explained by Dr. Keppner. The system is divided into two parts: the "B" and "C" parts. The "B" part is for students who are enrolled in a college or university, while the "C" part is for students who are enrolled in a high school. The system is designed to help students plan their courses and to help them understand the requirements for graduation.

Polish Club of IIT Takes Part in Festival

The Polish Club of IIT will participate in a Christmas celebration at the Polish Cultural Center on December 23rd. The event will feature a Polish dance, a Polish song, and a Polish food.
ITSA Announces New Budget; Still to Pay Coaches' Salaries

ASSC Money Increased From $300 to $1,300; School to Pay $1000 for V-12 Memberships

The salaries of ITSA coaches will continue to be paid by ITSA funds, Harry Anderson, president of the ITSA announced last week. However, this time from $300 to $1000 in this year's ITSA fund.

The ASSC will receive $1000 instead of the $200 originally proposed on the addition amount.

Lewis Chemistry
Club Reorganizes

A meeting of the Lewis Chemistry Club was held last Friday, November 18th and the club was reorganized. A faculty advisor and elected a committee to inaugurate new club activities.

Brinkman Appointed To Home Ec Staff

Dr. W. H. Brinkman of River Forest, veteran home economics teacher in Illinois high schools, has been appointed as an instructor in home economics at Illinois Institute of Technology.

Engines to Play with Toy Balloons in Study of Weather Conditions Here

A group of engineers with balloon equipment, attended the 84th annual meeting of the Chicago Weather Balloon Research Board held Nov. 26th at the Argonne National Lab. The researches were given in aid of the study of the behavior and movement of the balloons.

Electronic Speed Control Acquired By Roesch's Automatic Laboratory

Recent acquisition of the most modern equipment facilities for speed control testing is the very latest precision in the field of altitude measurements by the Automatic Laboratory of Roesch's Automatic Laboratory.

Dr. E. J. A. Roesch, former chairman of the Executive Committee, announced the installation of the new equipment.

This emblem is familiar throughout the nation as the symbol of a well trained and organized service in peace or war—The Bell Telephone System.
Instructors to Decide Senior Finals Question

Teachers Given Free Hand; Lot-Down Must Be Avoided—Peebles

The question of final examinations for seniors will be left to the individual instructors, it was announced today by James O. Peebles, dean of engineering.

At the last meeting of the supervisory committee it was decided to leave the decision to the instructors, he said. The faculty members may take any action at their discretion to ensure that no lot-downs or essay examinations will be given during the last few weeks of the semester. Students who do not wish to take the examinations may drop them any week before the exam period begins, he continued.

The exam schedule or final exam-ina will be given to all students at the end of the course and the time for oral and written examinations will be set.

**AS I SEE IT**

(Continued from Page 1)

A special committee of the faculty has been formed to examine the complaints of the members of the group. The committee is composed of the deans of the various schools, the di-rector of the Extension Division, and the secretar-y of the college.

The members of the committee will have the power to enact regulations and policies for the group.

**INTEGRAL BIDS**

(Questionnaire 5, 6 and 7)

The members of the group are to submit their bids for the various bids on which they are participating.

The bids will be considered on a merit basis and the highest bid will be accepted.

**Women's Club to Meet on Wednesday**

A meeting of the Women's Club will be held Wednesday night at 7:30 in the Memorial Auditorium. The meeting will be on the topic of women's rights and will be presided over by Mrs. J. Smith, the president of the club.

The program will include a presentation by a well-known speaker on the history of women's rights and a discussion with the audience.

The meeting is open to all members of the club and guests are welcome.
