Annually Concert
Is Tuesday Eve
Musical Groups To Be Featured at Goodman
(See Program on Page 4)

The annual Goodman concert to be held Tuesday afternoon, the Goodman Theater will be highlighted by several musical groups.

Grading Method in Physics Laboratory To Undergo Change
The method of grading in the physics laboratory may undergo substantial changes in the near future, according to Dr. John J. Schumaker, professor of physics, at a recent meeting.

New Draft Order Pools All Engineerine Students
Directives Orders Only 10,000 To Be Deferred; More Than Half of Students Will Be Drafted

How engineering students will be affected by the recent changes in selective service was the subject of a recent meeting held in the Engineering Building. Dr. John J. Schumaker and Dean J. C. Petersen gave a detailed explanation.

Freshman Physics Given New Credits
Freshmen will receive five new credit hours in Physics; those last term from now on instead of four as was previously announced.

Seniors Questionnaires May Be Presented to Dean This Year

Technology News Offering Reward
Want to win some money? A $50.00 reward is offered in the Technology News contest. The aim is to produce a copy of the Tech News of March 15, 1961, before the deadline. Winners will be announced on the basis of merit.

International Student Association Meets Thursday Evening
The International Student Association will meet Thursday evening in the Tech Ballroom at 7:30. All Tech students are invited.

Co-op Board of Directors Ponders Ann Arbor Deal, Stockholders to Vote Today

Scholarship Exam
To Be Held Jan. 29

Senior Stag to Be Held in Gross Hall

War Council Names Six New Members
Six students have been appointed to the Student War Council by Harry Gilmore, chairman of the group.

The more recent, which were added by the present council and approved by the Student War Council, are Warren Stahl, Clifford Adams and John Anderson. The Student War Council is scheduled to meet in the Student Center at 9:00 p.m. on Tuesday, February 1, 1965.

Fire broke out in the Illinois Tech engineering building on the fifth floor. The cause of the fire was unknown. However, it was reported that the fire occurred in the fourth floor and the third floor.

Scholarship Exam
To Be Held Jan. 29

Senior Stag to Be Held in Gross Hall

The senior stag will be held at Gross Hall, located at 1235 West Jackson Blvd., on Friday, January 29, 1965.

Tickets will be available at the Tech Book Store and will cost $1.00 each. The stag will begin at 8:00 p.m. and will end at 1:00 a.m. on Saturday, January 30, 1965.
The Accelerating Myth
The favorite hobby of students at Illinois Tech is the accelerometer. It is given whenever one asks their participation in outside activities. Because the idea has been thrown at them by newspapers, the faculty and the administration, students have come to believe that they are now covering more academic territory in a shorter amount of time. The ever-trusting, gullible students believe that this lightning program has taken away the time that formerly could be spent in extracurricular activities. The irrevocable reply to the matters of which they are being accelerated is: "I have no time because of this accelerated program."

What is this accelerated program? How does it differ from former programs? Before the current emergency, each semester consisted of sixteen weeks. At the present time the semesters consist of thirteen weeks. The instructors require no more now than previously. There has been no change in the number of hours which are required of the student. How, then, does this program differ from any former one?

The only speed-up that can be discerned is that caused by eliminating the summer vacations. There are, however, four weeks out of every year given to vacations. Those students who live in the dormitories of the university are given one week during the winter vacation, one week in the spring, and two weeks in the summer. Yet the belief prevails among students that they do not have time for anything outside of school work.

This myth is a mental hazard. It is a cloak that may be laid over the fact that too many students do not know how to study. The thought, deeply implanted in the subconscious mind, has the effect of adding years to the student. It is offered as an excuse for work that is not being done.

It becomes apparent then that the so-called accelerated program is not so much as formerly taken by the teaching of the faculty. They are, more or less, following the theory of the greatest benefits of a college career can be found. Yet the students have failed to take advantage of them. The college government is needed to activate dormitory campaigns. If the students asked the thought that they have no time for such things, they would find time and can attain the benefits desired. Some more time, more than anything else, can provide the recreation which is so vital to well-being.
Two-Toned Double Feature Is Loop Offering

Ever since the depression, when it was quieter, pictures theaters started to hire the ticket sellers by giving away anything that could be hand carried. The double feature has been present in the American theater. As the controversy of the movies, the twin bill probably would not be needed to be edited for maturity. This makes it possible to do things entirely, or to find a good combination.

Down in the loop of the Apollo there is a combination which pleases the double feature fans, and which is not worth this type of the public. The combination "Happy Land" and "Henry Aldrich Rambling Home" will be put on next in any way, but it will provide an evening's entertainment.

Such Is Life

A letter has come to the attention of this column, apparently written by an engineer who has given up hope and despair. It would ordinarily appear in the nearest circular file, or in any unguessed contributions, but it is printed for a reason:

Dear Editor, or Somebody:

I am an engineer and I need help. The rates are insane, the pay is low, and yet I haven’t. Naturally a woman’s work isn’t worth a thing. I’ll sell my house and go out to sea. Oh, and I’m not a carpenter. I’m a marine.

The reason that this can be printed is that it represents a problem facing all engineers: Whether to buy a wife, and to take up the various formalities which make up femininity or to buy a given individual at a cost.

It is expected that the authority on all such problems, friends, will contribute one of her speaking (1) columns to this newspaper in the near future in the hope of settling this problem.

Research Reports

Dr. Michael Sadowsky Shows Laws of Mechanics With Models

(Engineer’s notes: This edition will present the latest and most accurate information on the subject of mechanics. The models used by Dr. Sadowsky are designed to illustrate the laws of mechanics and will be available for students to study. The models are made of durable materials and are designed to withstand the rigors of classroom use.)

Dr. Sadowsky points out that the models he has developed are not directly applicable to the understanding of simple mechanical systems. However, the models are designed to illustrate the principles of simple mechanical systems and are intended to provide a basis for students to understand the laws of mechanics.

As a Michigan State student put it, the models are "not only useful, but also aesthetically pleasing. They are well made and are designed to be handled and studied by students."
Techawks Take 7 Straight Wins
Gain 42-25 Count Over U. of C. Aerology Five

Seven straight! This is the record of the present Techawk basketball team. After winning 11 straight games, the team went into the Aerology game on Wednesday with a score of 42-26. Behind 9-7 at the end of the first quarter, the Techawks slowly opened a 30-26 lead at the half and having made only one field goal, this压胜 seemingly came to life and pushed the Aerology in the last half.

The second half saw both teams scored by coach Ed Wagner, who temporarily summoned the U. of C. guard to get on an easy victory. The score at the end of the third quarter stood at 127, U. of C. 28, Techhawks 55. High point for Techhawks was Fred Glaude, followed by Tom Collins with 11 points each. The Aerology scored 28 points with only 9 points from the Techhawks. A second victory for the Techhawks.

Two Upsets Occur as Civil 3 Defeat Senior Chemists, Mechs.

The proofs of the Chem 3 and 5 teams were victorious against the Senior Chemists and Mechs, respectively. The Chem 3 team was led by Bill Johnson with 17 points, followed by John Hadley with 13 points. The Senior Chemists and Mechs were led by Tom Collins with 16 points, followed by John Hadley with 14 points. The Chem 3 team won 72-56, while the Mechs lost 95-68.

IIT Wrestlers Defeat Wheaton
Light Weights Swing Victory
Take First Win Over Wheaton in 8 Years

The IIT wrestling team defeated Wheaton College for the first time in eight years. Led by the strength of one of the wrestlers, the IIT team outscored Wheaton 15-2. The wrestling team was led by Ed Wagner, who scored 10 points in the victory. The IIT team will now travel to Navy Pier tomorrow, where they will face off against Illinois Institute.

Two Upsets Occur as Civil 3 Defeat Senior Chemists, Mechs.

IIT To Battle Illinois Tankers

The IIT wrestling team will meet the University of Illinois swimming team during the coming week. The swimming team will be on Wednesday afternoon at 2:00 p.m. at the Y.M.C.A. pool. The Tankers will then travel down to Champaign on Saturday afternoon for a match with Illinois. The Tankers are expected to win in their own pool.

Sports Techawks

The Techawks tennis team won their first match from George Williams by a score of 6-3. Paced by four outstanding lettermen and several experienced Navy V-12 students, the Techawks are confident of victory. The match will be held on the outdoor courts with George Williams, the Illinois Tech headman, looking on from the stands.

Navy Plans Physical Program Extension

Plans are underway to take over gym facilities at Arizona for the physical fitness department-sponsored at Illinois Institute of Technology.

Lewis Badminton Begins Wednesday

The first Lewis mixed doubles badminton tournament will begin. Wisconsin is expected to win the crown, but only the true tournament will be left. Pairs will be set up by the coaches. Those who are interested should sign up by noon tomorrow and meet with the coaches.

Co-op Forms Honor Society
A new honorary society called the Fellowship of the Co-op was formed last Monday night.

Dr. McNamara Cautions Against General Use of First Aid Kit
The first aid kit that is kept in the switchboard room is not to be used by the general student body, announced Dr. McNamara, medical director. Recently, a statement was made in the Tech, which gives permission to the students to use the kit in case of illness.

It now becomes necessary to be more specific in stating the cases for which the kit is intended.

The Student Council is in cooperation with the medical department around the kit for the purpose of equipping first aid kits among them as suggested by the Office of Civil Defense. Two panels of equipment in the spring of 1949 took over the formation of these kits for first aid kits, first aid kits, and supplies to be handed out to any person at a moment's notice.

Eighty-six invitations have been sent out to doctor's and other medical personnel who have been invited to the ITSA Honor Banquet, to be held Wednesday at the A-1 Club.

Dr. McNamara Cautions Against General Use of First Aid Kit

Athletes, Campus Leaders Invited to ITSA Honor Banquet
Members of all IIT sports teams will be honored at the ITSA Athletic Honor Banquet, to be held Wednesday at the A-1 Club of Chicago.

About 80 invitations have been sent out to doctors and other medical personnel who have been invited to the ITSA Honor Banquet, to be held Wednesday at the A-1 Club.

Committee to Study Proposed Physics Instruction Changes

What should the sophomore or freshman student get from his study of physics? Which of these things can be got best in recitation and lecture section?

Which can be got best in the laboratory?

These are the questions which confront Carroll Lefler, Arnold Zettler, and Homer Fink, physics laboratory instructors. These men were appointed by Physical Laboratory Director Forstner, to study the instruction changes, to study the above problems. Lefler is in charge of the committee.

Dr. McNamara Cautions Against General Use of First Aid Kit

It now becomes necessary to be more specific in stating the cases for which the kit is intended.

The Student Council is in cooperation with the medical department around the kit for the purpose of equipping first aid kits among them as suggested by the Office of Civil Defense. Two panels of equipment in the spring of 1949 took over the formation of these kits for first aid kits, first aid kits, and supplies to be handed out to any person at a moment's notice.

Eighty-six invitations have been sent out to doctor's and other medical personnel who have been invited to the ITSA Honor Banquet, to be held Wednesday at the A-1 Club.

Near the end of the honor society was held a formal meeting of the Officers of the Co-op Board. Following this the meeting was called to order by the President of the student body. The president is in charge of the meeting.

The group will be on the basketball board sometime during the week, said Barks.
