42 File
Petitions for Election
First Candidate to File Petition

Underclassmen Will Not Elect
Usual Officers

To Follow Commission Plan, Leaders Will Be Elected for One Term

The conventional freshmen and sophomore class officers of the Undergraduates' Union will be elected in April, for an additional term, as usual. However, under the new plan, the leaders of the Undergraduates' Union will be elected by the Undergraduates' Union for an additional term. This will make it possible for the freshmen and sophomore class officers to serve for two years, instead of one. The new plan also provides for the election of a class officer for each class, from the freshmen to the seniors.

There are still two days left in which to file petitions. Freshmen and sophomores are required to file petitions to be considered for the election of leaders. The petitions must be filed in the Union office by 5:00 p.m. on Thursday, March 22nd.

General Dissatisfaction With Lunchroom Shown by Poll

Students to Elect Honor Board Friday

The Honor Board elections will be held on Friday, March 23rd. The poll will be open from 10:00 a.m. to 4:00 p.m. in the Union building. The Ideum will be installed at 3:00 p.m. in the Union building.

The Ideum will be installed in the Union building at 3:00 p.m. on Friday, March 23rd. The Ideum will be open to the public from 10:00 a.m. to 4:00 p.m. on Friday.

IT 1944 War Relief Drive Starts Today; Red Cross Hopes for $50,000 Donation

Today starts the Illinois Tech Red Cross 1944 War Relief Drive. The drive will continue until Wednesday when the 10:00 a.m. to 4:00 p.m. hours are observed. The drive is being conducted in cooperation with the Red Cross, and the drive will be held at 10:00 a.m. to 4:00 p.m. on Wednesday.

The drive is under the direction of Miss Grace Knobloch, who is responsible for the drive. The drive will be conducted by the Red Cross, and the drive is being conducted in cooperation with the Red Cross.

115 Students Take Army-Navy Exams

This number of students taking the Army-Navy exams is the highest number of students taking the exams in the history of Illinois Tech.

Harold Burkart

SNYDER FINISHES SIX YEARS OF RESEARCH

The research project of the six years of research, by Dr. F. A. Snyder, of the Department of Psychology, of the Illinois Institute of Technology, is to be completed in June. Dr. Snyder's research project has been in progress for six years, and the results of the research will be published in a book that will be published in June.

The results of the research will be published in a book that will be published in June. The research project is being conducted under the direction of Dr. F. A. Snyder, of the Department of Psychology, of the Illinois Institute of Technology.
Your Political Duty

You have an important job to do this week. And you probably know it every IIT student. Sure, you’ve got a lot of other things to do, too. There’s that lab report you have to work on, and that meeting up in a couple of days. And there’s a stack of math problems overdue. But this means more than any other activity, to do it all. This is the answer you’ll be given, at least if you’re like most of us. It’s an old American custom, this one of giving things in good faith. And that’s the chance to DO something about the things you don’t like. It’s one of the few chances you’ll have during the term, and if you don’t grab it at all, there’ll be another one for a long time.

There will be an election this Friday. You’re going to run for the role of President. You’ll have the opportunity to elect an ITSA representative, who will have a hand in governing various student activities. Remember, it’s the ITSA that spends the money passed to you.

Certainly, you’re being foolish if you don’t vote on Friday—and vote wisely. Give a little thought to the matter before you cast your vote. Most of the candidates are presented briefly in Technology News today, and there will be an assembly this week to acquaint you further with the facts of political life at IIT. Take advantage of these. For if we have a good election—and by that we mean if responsible, competent officers are elected—there’s no reason why the new administration will not be temporarily—and that’s the student body.

Let’s Continue This Way

This past semester saw one of Illinois Tech’s best intramural seasons ever carried out in fine style. Touchball ran into some trouble due to starting the season later than usual and the adverse weather, but still came through with some good games.

Bowling produced a photo finish and all the bowlers seemed to be satisfied with the management of the season. Bowling was the best all-around sport. Every detail was carried through on time and that double-elimination championship game was a real thriller.

This shows what can be done in intramural activities. Let’s do as well this term because of the being an electrical favor, which makes it easy. ROBERT OLEKSIAWICZ

Your Chance To Make Changes

MARCH 24

Land operations of the Navy were unsuccessful this week as A/S Tom Klipper, one of Lee’s boats, went to the bottom. The freeboard was determined when it was found that all attempts to obtain a normal line-up of the boat were made thus far by the salvage company. The salvage company, who was ordered during the war to train a normal line-up of the boat, could not be obtained at the time due to the weather. It is possible that the boat was not successfully salvaged.

The weather was too bad to salvage the boat. The salvage company, who was ordered during the war to train a normal line-up of the boat, could not be obtained at the time due to the weather. It is possible that the boat was not successfully salvaged.

Research Reports

Higgins Finishes Biographical, Historical Research Project

Two research projects of widely different natures, both performed by members of the electrical engineering department, were presented this week.

The first is an ambitious reading project of Dr. Thomas J. Higgins, professor of electrical engineering. About a decade ago, Dr. Higgins set out to seek out and record:

American Journal of Physics

The use of crystals as a convenient device for ultra-high-frequency waves is the problem being studied by Edouard M. Soria, B.S. engineer. Soria, who is a graduate of the University of Illinois, is studying the use of crystals for the purpose of generating and detecting ultrasonic waves. He was a student of William Z. Rapp, who is now a professor of physics at the University of Chicago.

Soria, who is a graduate of the University of Illinois, is studying the use of crystals for the purpose of generating and detecting ultrasonic waves. He was a student of William Z. Rapp, who is now a professor of physics at the University of Chicago.

Such Is Life

Nowadays, one always hears that "happiness is faith," and especially in the field of religion. However, we must realize that there are many different ways of being happy. The best way is to find what makes you happy and to pursue it wholeheartedly. This is not easy, but it is necessary for true happiness. ROBERT OLEKSIAWICZ
The New Head of War Council, Bob Negele, Merits Honor

Being the newly elected chairman of the student War Council and having an outstanding scholastic and extra-curricular record, Bob Negele this week was the subject of a tour of the Man of the Week.

Bob became a member of the student War Council last semester, and was chosen as chairman for this term. At chairman of the group he will have the duty of organizing, editing, and assembling student activities in aid of the war effort.

A judicious and energetic manager, he was elected to the council, but after that council was dissolved, he continued as a full member of the group, and was elected chairman of the freshmen class. As an example of his activities the student council, under the direction of Mr. Negele, will be the advertising staff of the Intelligencer. As the school's representative, he is in charge of the student council's activities in the News Bureau.

By JAMES OLDSHUE

Criticism Welcome

The last issue of the Intelligencer was under "new management" this term and when the first paper came out I had hoped that this would bring some improvement in the Journal. The paper was rather thin, and it seemed to me that there was not enough news in it. The next issue was improved, but it still did not seem to me to be as good as it could be.

In the same issue, Dean James J. Campbell wrote an article on the possibilities of improving the Intelligencer. He said that the staff was working hard to improve the paper and that there were several new ideas that were being considered for the next issue.

"I think it is a good thing," he said, "that you are interested in improving the Intelligencer. It is important that the paper should be as good as possible, and I am sure that if we all work together we can make it even better than it is now."

Upon this occasion, the student editor of the Intelligencer, Mr. Negele, made some remarks about the improvement of the paper. He said that he and his staff were working hard to improve the paper, and that they were confident that they would be able to make it better than it has ever been before.

By JAMES OLDSHUE

Co-operation

When Uncle Sam's navy first went to sea, there was quite a bit of friction between the housewives and the sailors. Since then, this matter of co-operation between navy and civilian sailors has not improved to any considerable extent. In fact, some navy men have already been able to publish their own newspapers, apparently because they are not too well represented on the Intelligencer. The situation was by no means improved by the last registration.

The thing we lack badly are some civil-service naval school spirit. It is happening to be the opinion of the author of this notice that the situation is worse than the reason for. The men, M. E. M. & M. Man., and other from the Intelligencer, are fully able to meet the requirements of the Intelligencer and the student.

Leander Keefer

Juke Box—Dance Club

A juke box was installed in the residence hall, and the students have been using it to good advantage, according to the students of the Intelligencer. The box has been a great hit, and the students have been using it to good advantage.

By JAMES OLDSHUE

Comments

This column is for the expression of ideas from students, alumni, and friends of the Intelligencer. We are glad to receive your comments and we will try to publish them as soon as possible. We welcome all comments, and we will do our best to publish them in the order in which they are received.

Cling to the Slipstick—Let the Slapstick Fall Where It May

A young sailor with a reputation as a Lothario, e.g., J. J. Roberts, tried to refuse when he was invited to a charity affair. He gave the reason that he was working on something important.

"Oh, in that case, just bring your work along with you," the hostess suggested. "I'd love to have you, too."
Call issued for Spring Sports: Baseball, Track, Golf Begin

Eleven Baseball Lettermen Returning to Squad; Cinderella Need Coach, Golfers Need Players

Baseball

The Lewis baseball team will launch its 1944 season with a meeting of all prospective candidates Tuesday at 5:30 p.m. in the gym. The call will be made by "Sunny" Wisdom.

I M Swimming To Begin Soon

The deadline for entries in the intramural swimming tourney is Friday at 12:30 p.m. announced temporary intramural swimming manager "Bonny" A. Dunkel.

He also made known that entries are to be given in person or placed in the intramural office before the deadline.

This tourney is to have competition between the four campus teams only, and medals will be given to all first place winners.

The events are to be as follows: 100 yd. Free style, 150 yd. Breast stroke, 100 yd. Back stroke, 150 yd. Medley.

This last event is to be run in off-years only. The winner will receive a trophy.

Full entries are on file in the intramural office.

The tourney is to be run in the 14th week of the spring semester.

Track

A meeting of all track candidates will be held Wednesday at 3:45 p.m. in the gym. The meeting is open to all male students who wish to participate in track.

The first 11 men entered will be included on the track team, but only the top five will be selected as starters.

Lewis Intramurals To Begin Shorty

Intramural activities on the West Campus will begin in the next few days, according to Stan Beretta, intramural manager. The activities will be open to all students, including boys and girls.

ITTA To Have 3 New Home Base Courts

Three new home base courts will be constructed on the Armero Campus W. J. Parshol, supervisor of maintenance and grounds, reported.

The courts will be built on the lawn of the campus. They will be to the specifications of the ITTA's new permanent court building.

The courts will be built to withstand all weather conditions. A shelter will cover the courts. When rain is forecast, the players will seek shelter for the postponed match.

Gym Required For West Campus Men

All Lewis men students feeling the required number of credits hours in physical education must sign up for intramural classes, according to John F. Conley, director of physical education on the campus.

ITTA Awards Cagers Medals

Special awards are given to ITTA's basketball team, announced Ronald L. Smith, ITTA official. A banquet was held last week to honor the basketball team for their outstanding work.

Two of the league's honors were awarded to the varsity team, which was undefeated.

20 to Wrestle in AAU Meet

All members of the wrestling team will be entered in the Open Division of the Chicago City Championships.

The team will consist of eight wrestlers, including four seniors and four sophomores.

Four of the wrestlers will be eligible for the national championships.

The AAU meets will be held in Chicago from May 20 to 22, and the team will be represented by the following men:"
Jazz Causes Hot Time in English Department

Dean Must OK All IIT Events

Dean Thibodeaux, dean of musical and dramatic activities, will have a list on "Tech Timeinel", the second floor of the Main Building. The list may be found on the bulletin board.

Peebles Tells Recent Draft Developments

Estimates 115 Juniors, 44 Sophomores and 80 Seniors Will Continue

About 200 students on the University campus are classified as in the draft, having returned to school since the last report. In addition there are about 110 men classified 4-F, and about 200 who have received deferments on a temporary basis. This latter group is composed of students who have been selected for the service of war, or whose draft classification is pending, but who have submitted to the University the necessary information. 

A number of the 4-F cases have been classified 1-A, and it is expected that the last draft call will be made at the end of the month. 

Results of Faculty Questionnaire Show Need for New Grade System

A new simplified grading and grade system, for the purpose of uniformity, is under consideration by a committee consisting of Dean James O. Peebles by the junior grad e systems committee. 

The new system is based on the idea of "satisfactory" and "unsatisfactory." Grades are assigned according to the following criteria: 

A: All grades above 90 in all courses will be assigned a grade of "A," and an "A" in all courses will be assigned a grade of "A." 
B: Grades between 80 and 89 in all courses will be assigned a grade of "B," and an "B" in all courses will be assigned a grade of "B." 
C: Grades between 70 and 79 in all courses will be assigned a grade of "C," and a "C" in all courses will be assigned a grade of "C." 
D: Grades between 60 and 69 in all courses will be assigned a grade of "D," and a "D" in all courses will be assigned a grade of "D." 
F: Grades below 60 in all courses will be assigned a grade of "F," and an "F" in all courses will be assigned a grade of "F." 

LUNCHROOM

(Continued from Page 1)

The LUNCHROOM was opened last week in the basement of the building. The committee in charge of the lunchroom is composed of: 

MR. 1: "The selection of food is very limited and often very dry." 
MR. 2: "But the specials are good." 
MR. 3: "But the specials are good."

The manager, Mr. J. L. Johnson, stated that the food is "excellent," and that the specials are "outstanding." He also added that the specials are "excellent." 

The lunchroom has been very popular with the students, and it is expected that it will continue to be so. 

Musical Clubs Call

For More Members

Both civil and navy students have been invited to apply for membership in the band, orchestra and glee club of G. S. W. Grinnell. 

At present the glee club has forty members and plans to increase this number. 

There is no set time for the choir rehearsals, but they will be held every Thursday afternoon at 5:00. 

The band has 18 members and will be held every Thursday afternoon at 5:00. 

The orchestra has 15 members and will be held every Thursday afternoon at 5:00. 

Research Foundation Has New Lab on Wheels

A new laboratory is now in operation on the University campus. 

The laboratory is located in the basement of the engineering building and is equipped with all the necessary equipment for the study of biology. 

The laboratory is open to all students and is available for their use at any time. 

35 Join Radio Club

At First Meeting

Thirty-five radio interested students turned out for the initial meeting of the newly organized Radio Club last Wednesday. 

The club will be under the direction of Dr. Z. L. Herndon, and will be open to all students interested in radio. 

Radio Club's Activities will be in charge of the operation of a Morse code class. 

The next meeting of the club will be on Wednesday afternoon at 5:00 in the X1 room. 

Nuptial Party Held

By Sigma Beta Theta

An engagement celebration was held by Sigma Beta Theta at a private home. The engagement of a member of the fraternity, 

The engagement of a member of the fraternity, was announced at the party. The engagement was announced at the party. 

Singer for the ceremony was Betty Yocum, a member of the fraternity. 

AIEE Will Hold Contest

Best Paper To Get $25

The Associate chapter of the American Institute of Electrical Engineers will present a prize of $25 to the student who submits the best paper on electrical engineering. 

The contest is open to all students enrolled in the electrical engineering program. 

The judges for the contest will be selected from the faculty of the University. 

Engineer's Co-op Board Elects 3 New Officers

All members of the University are eligible for the positions of director and vice director. 

The positions of director and vice director are open to all members of the University. 

The positions of director and vice director are open to all members of the University.
