Tabulation of Election Results

West Campus Females Favor Women
Mon Outnumbered 11-7 Girls to Rule Juniors

A summary vote of approval for the plans made by IIT students last week. Of the 11 female members in the Technology News, all expressed a desire to have the same conditions.

Efforts Made to Improve Lunchroom, States Spach

The administration and the cafeteria management would like to change the seating arrangement so that it would allow for improved conditions in the lunchroom.

Civilian Grades to Be Out Next Week

The faculty members will receive photostats of their entire academic record with the new system. The students will receive a grade card with their grades.

Red Cross Fund Nets $3,260.95 Here; Navy Drive Starts Today

A total of $3,260.95 was contributed to the Red Cross in a War Relief Fund Drive. This sum is not final as several secretaries have yet to make a contribution.

ASSC Names Band For The April Folly

"It's the time of the semester when the boys and girls will be adding their names to the membership rolls," stated the ASSC president. The band will be made up of Harvey Hyde and his two-voice chorus, to be presented at the end of the month.

The information was set up at a committee to handle the operation of the F.M. station and the necessary amplifying equipment. It was installed in the early part of the month.

Competition Is Keen for Many Class Offices

44% of Students Vote; Kilgourf, Negelaach To Fill Two Positions

Seventeen offices were filled in last Friday's election, leaving ten offices to be decided in next Monday. Ballots were cast by 47% of the 1665 civilian and navy students.

The only office without a candidate was that of SSB representative. Only three offices were sought for the election, and SSB representative will be elected in the next run-off. There were only three candidates for the election of that time.

The most hotly contested office of the election was that of freshman IIT representative, for which six candidates ran. The office will be held between Joseph Czezowsky and Tom Price, who received 15 votes.

7 to Represent IIT At National Meeting

Illinois Tech will be represented by seven faculty members at the meeting of the American Chemical Society to be held in Chicago. The members are: Dr. Maurice J. Murray, Dr. W. L. E. Komarowski, Dr. Harold I. Mackay, Dr. F. E. Shreve, Dr. R. H. Ekman, Dr. H. R. Schottelius, and Dr. H. T. Swenson.

F-M Music Gets All "Yes" Votes

The plans for the music program were approved by the students in a vote yesterday.
Co-operation Needed

The strength of Illinois Tech depends today upon the support of its entire student body as it has depended upon it in the past. The west campus has always seemed stronger to those living in the heart of the city. Recently, members of Lewis have decided that the west campus needed more representation in various school activities. The ASCC has several Lewis members and a new member of the ITSA elected last Friday has a weekly ITSA member at large to aid in Lewis students, 2nd vice-president, in west campus representation.

Equality of the campuses is slowly being reached as professors and instructors have classes at Armour and Lewis. Nevertheless, the south campus has always appeared to have the driving forces of its students solidly behind it. Lewis continues to fail to show the cooperative spirit of its student body up to the present time.

Last term the moves of the administration and interest of Walker at Lewis failed to have complete union irrespective of the fact that Dr. Walker showed his interest in Lewis students by attending classes. The meetings were very poorly attended.

The large influx of freshmen to the campus has created a strong influence on the students. The majority of this body appear to have started a new trend. They are expected to choose persons to represent their classes in the student government.

Several semesters ago the ITSA printed activity handbooks through which those entering classes could find the facts of the student government and the extra-curricular activities offered them. It would be highly desirable if the ITSA would again print a limited number of these activity handbooks for the benefit of the started freshmen at both Armour and Lewis.

The sportsmen at both campuses have shown a true spirit of cooperation and friendly rivalry which will well be taken as a sample by all of the student body. Only through their united interest and activity will Lewisham demonstrate their support of and pride in the Illinois Institute of Technology.

Such is Life

In the search for new areas of research in the biological sciences, it has been found that the study of the structure of the human body is of great importance. This has led to the development of new techniques and methods of investigation, which have enabled scientists to gain a deeper understanding of the human body and its functions.

The research has focused on the structure and function of the human body, with particular emphasis on the musculoskeletal system. Scientists have developed new techniques for imaging the human body, such as magnetic resonance imaging (MRI) and computed tomography (CT), which allow for detailed visualization of internal structures. These techniques have been used to study the effects of various diseases and injuries on the body and to develop new treatments.

The research has also focused on the role of the immune system in disease prevention and treatment. Scientists have developed new methods for studying the immune response and for identifying new targets for drug development.

In conclusion, the research on the human body has led to significant advances in the field of medicine and has provided new insights into the workings of the human body. These advances have the potential to improve the quality of life for people around the world.
Woman of the Week

Viola ("Vi") Sievers Selected
As She Is Lewis ITSA Officer

Viola "Vi" Sievers, who was born in Kansas City, is now living in Chicago. She has been selected as the "Woman of the Week." She was previously selected as a "Woman of the Day" in March. This is the second time she has been selected as Woman of the Week.

Viola is a Sophomore in the College of Commerce. She is very active in the ITSA organization, and has been working hard to make it a success.

Her hobbies include reading, writing, and music. She is also very interested in politics and current events.

Viola is a member of several clubs on campus, and is very involved in student government. She is currently serving as the President of the ITSA organization.

She was born in Kansas City, and is the daughter of Mr. and Mrs. J. W. Sievers.

Names in Notes

LEO STREETER, mechanical engineering student, went through the 1940 and 1941 classes at the University of Illinois, and is now working on his thesis. He was born in 1895 in New York City.

Baseball Starts With 63 Out
10 Lettermen Back; No Schedule As Yet

With a turnout of 63 candidates for the baseball team, organized out-
field practice will begin this week. Perhaps permitting, all 63 will
be scheduled to play four or five games.

The warm weather at the end of last week brought out most of the
tryouts at the practice diamond, but no organized drill has taken
place as the Big Red practice program will even as the batting net is
in position.

The schedule has been drawn up so far, but it has not been decided as
to the days available for meetings. Records of previous seasons will be
played throughout the sum-
mer up to October.

Two men from last year's squad reported for practice. New men with
previous experience include Vic
Missiroli and Bob Bhattistelli, who
have played some amount of small ball.

One thing that is clear is that with the current roster, the show of this
current team will not only beat, but
probably better than last season's team.

Women to Battle Men
In Volley Ball Tourny

For the first time in the history of Illinois Tech, women will compete against men in a volleyball tourny. The tournament was made last week, by Moe Soucek, intramural manager on the Tech campus.

Women will be required to play volleyball with the same rules set
by the NCAA without any dis-allowance of the rules in the game.

The need for women in intramurals was made necessary due to the
lack of good players on the West Side. Previously women partici-
pated in sports such as badminton, archery, and softball.

Former Varsity Tanker
Returns From Sea
As Member of V-12 Unit

Among the new group of V-12 trainees entering IIT this semester are
Delbert A. Finlor, lead swimmer and winner of the Frankau Award. A transfer from Michigan State University, he played on the Tech swim team.

Finlor received his bachelor's degree in engineering from West Point, and
is now in the last year of his Navy service.

The Tech football team will be missing its starting quarterback, H. A. "Bud" Nystrom, who is in the last year of his service.

Lack of Enrollment
Hamper FPE Clubs

There will be no meetings of the five production engineering departments because the members of the groups, who are in the last year of their service, cannot attend regularly.

Opportunity for the members to continue their studies will come when
they are discharged from the service.

IIT Matmen Lose Chicago Times
Central AAU Meet By One Point

Albert and Johnson Advance To Finals

The point-spread 1160-1159 in the Central AAU meet, held at Marigold Gardens. The finals were to be held at Marigold Gardens last week.

Honor 1 Lists
12 Eligible Men

The meet consisted of 24 matches to determine the winner. The matches were played in pairs, with the winner advancing to the semi-finals. The semi-final matches were played on the 12th.

42 Tech Men Report For Track; Prospects For Team Are Bright

A turnout of forty-two men, the greatest number to appear at any tryout for Illinois Tech's track team, was witnessed last week at this year's first track assembly.

The lack of a coach is the only thing that dimm what appears to be the brightest outlook in Tech track history. However, af-
fert members are being made
by John A. Havens, athletic director, to assure Dr. Victor Nisbett of the
Avery Football Foundation, coach of the track team.

Kinsman entered last year's Tech track meet as a freshman and had
dismissed from the team. He was later reinstated.

The meeting will be held on the Tech track at 3:00 p.m. on the 12th.

Bill Cooley
1944 Purdue Relays

Illinois Tech track competition has already begun this year. Bill Cooley, letterman from last year, was at the 1944 Purdue Relays last Saturday.

Cooley was IIT's lone entry to the meet, but he was one of the few finishers in the team's track meet.

Cooley has been working on the Tech track team for a year and a half, and has been named captain for the meet.

O'Brien Field was bustling with activity as the post-war game with the coming
of sunny weather. The field is still under construction, and the sod is not
in place.

Football seems to be as popular as baseball if not more. All the
students seem to be thronging the old ball ground as if it were the
middle of summer. They'll soon find out that they were in the
dog days of summer when the
season begins in full swing.

One man's opinion is that the Tech football team is the best in the
state. He is a Tech fan, and has
never missed a game since the team started.

The Tech football team will be playing against the University of
Illinois, the University of Chicago, and the University of

Wien. The Tech football team is the only team in the state to have a

No Standards for the IIT gold team will not be held in the near future.

Bibb Promises Golfers
A Season of Swingin' Clubs

The IIT golf team will not be holding their season, despite all handi-
caps.

The two principle handicap tournaments will be held at the IIT golf course. The first will be held at the end of the season, and the second will be held at the end of the season.
**Students With 1.0 Averages May Be Deferred Until June**

Students having point averages between 1.0 and 1.4 may be allowed to stay in school this semester, it was learned in recent interviews with Dean Janin C. Poblenz. The dean also explained that this low figure of the physical examinations given by Dr. John McMillan enter into the picture.

Dean Poblenz said that a point average of 1.4 would allow him to accept a student's being in the quota of 201 set up by the National Register of Medical and Dentistry Personnel. However, he said that in the case of the students who fall to get in the quota but who have averages above 1.4, the school will request the local boards to grant a stay of induction on the order that the man may finish this semester.

Whether this temporary deferment is granted will be entirely up to the local boards, he pointed out. The local boards have not been exhaustively tough in this respect, he stated, as evidenced by the fact that fewer HIT men have been taken on this semester than at the same time last year. Hence, it seems probable that the present number of 257 civilians enrolled at the school campus will not drop too greatly.

However, he stated that any student who is in the stay group having point averages above 1.4, and that some men might go into the service at any time.

Dr. McNamara's summation is designed to find out which men will almost certainly be called up. The school does not ask for a place in the quota for those men. However, if one of them is ultimately found to be physically fit when he takes his physical examination, the school will immediately request the local board for his deferment with the National Register, if there are any always open places in the quota. The dean also stated that planes will be kept in the quota for those men with high averages but who are at present under 1.2.

**Yeoman Noble T. Hawkins Will Receive Commission**

The promotion of Yeoman First Class Noble T. Hawkins to a commission officer was revealed last week by the office. Hawkins, a member of the navy staff since last June, has not been officially announced until now because his commission will be for a speed record received by the office last week only stated that the commission had been approved.

Hawkins has been with the ship company of the Illinois Class V12 since last June. He has not been officially announced until now because his commission will be for a speed record received by the office last week only stated that the commission had been approved.
"Power Promotes Victory: Planning Promotes Prosperity" will be the theme of the seventh annual Midwest Power Conference sponsored by the Illinois Institute of Technology and sponsored in conjunction with the Palmer House in Chicago.

The theme of the conference will be "Planning Promotes Prosperity," and the main theme of the conference will be "Power Promotes Victory." The conference will bring together experts in the fields of energy, engineering, and planning to discuss how power can be used to promote victory and prosperity.

Musicians Plan For New Term

The music organizations on the north campus have scheduled two concerts this term. For one concert, the Ensemble will perform "A Shakespearean Night," and for the other, "A Christmas Carol." The concerts will feature music by composers such as Mozart, Bach, and Beethoven.

Huge Crowd Packs Lounge at Dance Session

Over 1300 students and faculty gathered in the Union last night to attend the Winter Dance. The dance was held in the Union Ballroom and featured music by the Union Orchestra.

Foundrymen Attend Research Conference

The Amoco Foundry Research Foundation was host to 600 members of the American Foundrymen's Association last Wednesday. The conference was held in the Joseph E. Layne Auditorium, and featured speakers from companies such as General Motors and Ford.

Technology News and Guests to Dance at "Junior's Jive" April 8: Navy Band May Play

The "Junior's Jive," a Technological Society dance, will be held Saturday, April 8, in the Union Ballroom. The dance will feature music by the Navy Band.

CLASS

Continued from page 3

In May, we decided to make the break now, otherwise we wouldn't be required to wait until 66 years of age to be eligible for our own citizenship, as Paul Dumeaux stated.

A delegation of second term members will visit Chicago later this month to discuss the TIAA CREF board meeting tomorrow to request favorable action on their retiree rights proposals. The pension center has also been asked to help them to secure the TIAA CREF board's approval of their requests.

Fleischer is Elected President of Dells

The election of Jack Fleischer as President of Dells was announced this week. Fleischer, who has been a member of the board for many years, will take over the leadership of the company from the outgoing president, who is stepping down for personal reasons.
