Tutoring Classes

Underclassmen at Illinois Tech are missing one opportunity to ease their scholastic work. For the first two days that tutoring facilities were made available to underclassmen by the Engineering Department, few responded. The underclassmen, timid, or ignorant of the chance they are missing, are obvious in all classes, as the registrar can verify. Perhaps they feel that the time would not be well spent, or they may dislike their study with mathematics, physics, or don't know that the service is free. Free.

At other colleges, tutors are paid for the service, and there is no lack of customers. A tutor is able to bridge the gap between student and instructor, to translate, explain, and summarize the intricacies of the text-book, and correct the mistakes of the instructor's lectures.

The Pi Tau Sigma, who have volunteered to tutor are students who have taken the same courses and who had the same troubles as the present underclassmen. They are both able and willing to spare succeeding students of the same difficulties.

These fellows are available in 306 Machinery Hall from 8 a.m. to 5 p.m. five days a week. A few minutes spent with one of them is worth an hour of reading a text on studying, with a problem.

Last Wednesday's Balloting

The last balloting in the 1924 Constitution election would be called an election, although sometimes I wonder. With only 76 people balloting on the north campus, the poll was hardly worth the effort. So few students responded that the following booth was practically empty most of the time.

This poor demonstration is another evidence of the decline in class spirit which has been going on during the past few semesters. Students who are interested in most student activities anymore are

It's true that voting on the revision of the constitution probably does not appeal very strongly to many students, but the changes is one of the more important changes in things of a less serious nature. Nevertheless the true I.T.T. man would be interested enough to take the time to vote and that the revisions are made in the constitution and then vote upon them.

Many of the students voting actually did not know what they were voting for. They probably did not notice the slight differences of the changes which had been made in the document. The proposal had been given adequate publicity but students did not care to get out for the necessary facility. To vote over the proposition and then vote upon it would probably not be taken more seriously. The students just didn't have time to do something constructive for a change.

GOSH! THIS SURE HELPS ME A LOT

A Stitch in Time Saves Nine

By W. C. CARY, Head of the Department of Industrial Science

The educational testing program is in effect in the different grades and the progress of the students is being evaluated through the educational testing program. The program is designed to improve the academic progress of the students by providing a method for evaluating the student's progress through the educational testing program. The program was developed to meet the needs of students who are unable to participate in traditional classroom instruction. The program is designed to be used in conjunction with traditional classroom instruction to provide a more comprehensive evaluation of student progress. The program is designed to be used in conjunction with traditional classroom instruction to provide a more comprehensive evaluation of student progress.
Collegiate World

An open forum in which all students and faculty members are invited, called the "Exchanges." is in operation at the Central YMCA college. The "Exchanges," founded in 1922, by the president of the college, invites various guest speakers for an informal discussion of current problems. The "Exchanges," sponsored by an informal tea, has proven very popular, and its appeal has spread across the country's educational institutions.

One would think that this form of discussion would be widely welcomed in educational circles as an indication of the new teaching methods. The "Exchanges," however, seem to indicate that there is a need for more of this type of discussion in the college community.

One of the most interesting of the speakers at the recent "Exchanges" was a professor of psychology at Northwestern University, Dr. W. J. Bowerman, who was there to discuss current trends in psychology.

One student said, "Our college needs more of these discussions. They can be very helpful in our studies."

"Yes," said another, "they can help us to think and to understand better what we are studying."

"I agree," said a third, "these discussions are very important in our education."

One student added, "I hope we will have more of these discussions in the future."
**Junior Mechs Win IM Softball for Second Consecutive Time**

The Junior Mechs have successfully defended their intramural softball championship, winning both games in the final to claim the title. Their victory caps a season marked by consistent performance and teamwork, securing their place at the top of the standings.

**Horseshoe End Is Approaching**

The horseshoe end is quickly approaching, with teams gearing up for the upcoming competition. The horseshoe end is a popular extracurricular activity, fostering both skill and strategy among participants.

**Rainy Weather Halts Touchball**

The touchball tournament was unfortunately halted due to unfavorable weather conditions. Rainy conditions made it challenging for players to perform at their best, and the unpredictable weather led to the suspension of the games.

**Im Softball Victors**

The Im team emerged victorious, demonstrating their prowess on the field. Their victory is a testament to their hard work and dedication, setting a high standard for future contests.

**Tech Rifle Team Bows Before 1.C.**

The Tech rifle team faced a strong challenge from 1.C. in their recent match. Despite their efforts, the team fell short, offering valuable lessons for future competitions.

**Intramural Tennis To End This Week**

The intramural tennis season is coming to an end, with the final matches scheduled for the week. The last round promises to be intense, with competitors vying for the top spots.

**Juniors’ Victory Reiterates Commitment**

The win by the Juniors reinforces their commitment to extracurricular activities, showcasing their ability to excel both on and off the field.
Musical Organizations Have Been at IIT Since Founding of 50 Years Ago

Some organizations have existed at IIT in one form or another since the school’s founding in 1890. In 1942, Dr. E. W. Ankeney, director of music at IIT, organized the IIT Wind Band, which has since become one of the most prestigious bands in the country.

ITV Makes Leggett Honorary Member

Captain William R. Leggett was made an honorary member of the ITV TV club. The captain was the guest speaker at the fall meeting of the club, which was held in the ITV TV lounge.

Eight New Members Accepted by ‘Eye’

The Eye, the student organization that oversees all student groups, has accepted eight new members into the group. The new members will be welcomed into the organization during the next meeting.

Civil Visit Chinese War Plant as Part of Study

The student group, organized by Raymond M. and Robert R. Robert, visited the Chinese War Plant as part of their study of the war effort.

Fraternities

Phi Kappa Will Have Initiation Saturday

An informal initiation of the Phi Kappa Kappa fraternity will be held Saturday afternoon. The formal initiation will be held on Monday evening.

Robert Harper Honored By Chemist Association

Robert Harper was honored by the Chemist Association at a meeting held at the University of Illinois.

Radio Fraternity Pledges Six Men

Five new members were pledged by the radio fraternity on Monday night.

Origin of 13 Illinois Tech Honorees Outlined; Tau Beta Pi Longest at IIT

The origin of 13 Illinois Tech honorees was outlined yesterday by the Tau Beta Pi chapter. Tau Beta Pi, the national honorary engineering fraternity, was founded in 1895 at Lehigh University, and its chapter at IIT was founded in 1906.

Co-op Questionnaire Will Be Distributed

The co-op questionnaire will be distributed this week to students by the co-operative program.

Kupec to Address Polish Club Oct. 26

Lawrence Kupec will address the Polish Club at their next meeting on Monday, October 26. Kupec is a member of the Polish Congress and will speak on the subject of Polish literature.

Five Are Initiated into Eta Kappa Nu

Five new members were initiated into the Eta Kappa Nu chapter on December 15. The chapter was founded in 1909 by the American Institute of Electrical Engineers.

Have a “Coke” - Welcome Back

There's an easy way to make a donation to the IIT student center. Just order a Coca-Cola product through our online store. It’s easy and it helps support ourcause.

Brothers Visit Sigma Alpha Chi Chapter

The brothers of Sigma Alpha Chi visited the chapter at the University of Illinois last week. The brothers were welcomed by the chapter members and enjoyed a meal at the chapter house.
Pinup Contest Ends This Week

The two finalists in the Technology Fair Pinup Contest will appear in the next issue. One will be a very curvy and pretty girl, the other a very curvy and pretty girl. One of these will be designated as the winner and will receive a $1000 scholarship for the Appleton Art School.

It is still possible to submit entries, however, and they will be accepted before the deadline. All entries must be submitted by the deadline of this week. Students who submit entries can win extra money at the Appleton Art School.

Armour Eye Has Complete Facilities for IIT Students Interested in Photography

The Armour Eye rooms on fourth floor Chauncey administrative office building are open to all students interested in photography. The studio is equipped with all the latest equipment necessary for serious photography. The studio is also open to all students who wish to learn the basics of photography.

Charles Smith New Aid on Sports Page

Owing to his continuing work for the last few months, Charles Smith is the new sports editor of the Technological News. He has been working closely with the sports editor on the staff of the Technological News and will be a valuable addition to the staff.

Sodaro Elected to Presidency of AIEEE

Sodaro, a senior student, has been elected president of AIEEE for the current term. Sodaro, who has been active in AIEEE for several years, has been a valuable asset to the organization.

NAVY NOTATIONS

Quarters #1

After questioning it was discovered that the issue is the lack of parking space in the dormitories. The question was raised at the recent meeting of the AIEEE Board.

Quarters #2

A group of students have expressed their concern about the lack of parking spaces in the dormitories. The group has requested that AIEEE take steps to address this issue.

Quarters #3

A group of students have expressed their concern about the lack of parking spaces in the dormitories. The group has requested that AIEEE take steps to address this issue.

Quarters #4

A group of students have expressed their concern about the lack of parking spaces in the dormitories. The group has requested that AIEEE take steps to address this issue.

Quarters #5

A group of students have expressed their concern about the lack of parking spaces in the dormitories. The group has requested that AIEEE take steps to address this issue.
