Honor System Favored by Only About One-fourth of Students

Twenty-seven per cent of the students at IT favor the honor system, according to a poll conducted by Technology News. Two-thirds of IT students opposed this "policy of honor." The poll, which was conducted by Robert Horwitz, was held Wednesday in the student center.

ITSA Rewrites Constitution

A special all-student assembly will be held on Wednesday, August 23, at which the student body will have an opportunity to express its views on the new ITSA constitution. The assembly will be held at 11:30 a.m., in the north campus multiplex. The newly rewritten document was presented at last Wednesday's meeting of the ITSA Board.

Although president of the ITSA, Willard will preside at the assembly. The other members of the ITSA board will also be seated on the auditorium platform. According to Willard, the object of the assembly will be to enable students to suggest any new changes, and to discuss those changes which may have already been made. Suggestions brought forward at the meeting will be considered. The constitution, as rewritten, will not be available until later in the week.

A final student vote on the constitution will be held after the constitution has been drawn up in its final form. The election will be held in the same type of regular ITSA elections at the beginning of the term. A simple majority vote will be required for ratification, since no other provision has been made in the constitution.

The past of the constitution concerning athletic scholarships will definitely remain the same, however, the constitution committee. These rules were drawn up by Hon. I. S. E. of careful consideration. The fact that some provisions are not being enforced now can be blamed directly on the constitution, the committee also believes.

One of the principal changes made in the constitution has been a section on portions of several statements of policy concerning the honor system and Honor Board. Most of the new changes are concerning minor details of wording.

ITSA constitution committee members are: A. S. B. Dungerman, Dean Charles A. Thieloth; B. S. B. Davis; 1. S. S. K. Kiepert, J. R. H. Williams, and W. B. B. Oakenfold.

James Panaras, IIT Vendor, Sells Candy For Fifteen Years From Same Wagon

Fifteen years of service: that's how long James Panaras has been selling candy and ice cream from the same IIT campus. Besides that, he has used the same cart for the entire time of his business.

Panaras, more commonly known as "Ice Cream Jimmy," rents candy and ice cream, and does some cigarette work. His cart is a large wheeled cart with a large sign. From his cart, he also sells soda, pop, and cigarettes.

Lack of Cafeteria Music Is Explained

Student indifference and difficulties in securing men with adequate experience to operate the equipment seem to be the most important reasons why music has not been played during the lunch hours.

Another problem is that of finding someone who has a good quality of sound, which is not always the case. It is recommended that the cart be painted ready for use, it is too much work for the operators to change it.

William Graf Elected to Presidency of Globe Club

A. S. William Graf was elected to the presidency of the globe club of the hotel and eating hall on Thursday night. A. S. Robert Dekker and Angela Ciriello will be the secretary-treasurer and manager, respectively.

ITSA Revisions Announced

The new ITSA constitution will be announced at the special assembly on Wednesday. The new constitution will be presented at the assembly, and the students will have an opportunity to discuss the changes that have been made. The new constitution will be voted on at the next regular meeting of the ITSA board.

Postwar Influx at IIT is Seen

Applications for enrollment at IIT have been above the average for the past few years, according to Dr. Albert L. C. Gurney. The enrollment will show an increase over the past years, but the new students will not be as numerous as those who entered the school in the past years.

The new students will be welcomed into the school, but they will not be welcomed as warmly as the old students. The new students will be expected to work harder and to be more responsible.

Armour Players to Plan Future Plays

A meeting is being planned by the Armour Players for the coming school year. The meeting will be held on Tuesday evening at 7:30 in the Armour theater. The meeting will be open to all students.

Link Is Abandoned For Lack of Need

Due to present conditions, the Link has been discontinued indefinitely. According to A. S. Tom Kitts, the editor of the Link, the paper has been discontinued because it has been too expensive to continue it.

William Graf Elected to Presidency of Globe Club

A. S. William Graf was elected to the presidency of the globe club of the hotel and eating hall on Thursday night. A. S. Robert Dekker and Angela Ciriello will be the secretary-treasurer and manager, respectively.

204,000 Meals to Illinois Tech Students

Is Record of "Andy" Keeney

Andrew "Andy" Keeney has served 204,000 meals at IIT during his time as a cook. Prior to his appointment last May, Andy worked as chief chef.

He started at Illinois Tech in 1944. He is now 70 years old and has been a chef for 50 years. Among his various restaurants, he has also worked at the Chicago Athletic Association and the University of Chicago.

"New" ITSA Constitution

Next week the ITSA will hold its meeting in the auditorium to make room for the volume of students when it discusses the proposed "new" constitution submitted by the Constitution Committee.

Let us look at the proposed "new" constitution that the ITSA would like the students to get excited about. An examination of the "old" and "new" reveals that the committee, after a great deal of thought and labor, has done two things:

1. They wrote into the proposed document the improvements made to the old constitution in the past.
2. They revised over a dozen more or less insignificant sentences and added a couple of big picture ideas.

This seems like a very minor accomplishment for a committee of six active intelligent men. Perhaps the revisions proposed are sufficient to meet the needs of the ITSA. However, if this is the case, then why bother with the process of re-creating an old constitution, when amendments would serve the same purpose? In any event, if the meeting of the ITSA is held as scheduled, students will have an excellent opportunity to voice their opinions either personally or through their representative senators. It will offer a chance to those who have disapproved of the ITSA and its methods in the past to come forth with some realistic suggestions. This opportunity to REALLY revise the constitution should not be passed by lightly by the student body.

On The Ball

Every night of the week there is an outdoor game of baseball played by various groups of friends at various locations. The favorite spot is the famous "Old Mac's" where an evening's game is played by many of our classmates. The game is played in large part to entertain the many visitors who come to enjoy the fine weather and scenery.

Bob is a native Chicagoan and graduated from Hyde Park high school. While in high school, he was a member of the baseball and junior and senior class groups and the physics and chemistry club. When Bob graduated, he wanted to work for an electrical engineer as a draftsman. He was employed for two years, then left the profession.

Bob is now a member of the Radio Club and Math club. He is a member of the city government, the AIEE, and is now a pledge to the American Yaw.

For all his work conducting the business of the Coo-Op and International, he has kept a 95% average.

His interest is outside of electrical engineering is mathematics. He has further courses in mathematics after graduation, and has won first place in his line with his work and an innovation in insulation was taken on his own initiative.

After being elected to electrical work for so long, Bob decided to attend college and learn all he could. He started at the University of Illinois, and completed a degree there. He then transferred to ITT and came home in July 1943.

Businessman Bob Pogoff Keeps Integral and Co-operative Books

Robert Pogoff, junior electrical, is a conscientious and hard working student, who finds time to act as business manager of both the Integral and the Co-op.

The business is in operation at 1644 N. Clark St., and Bob is in charge of the operation.

Bob is a native Chicagoan and graduated from Hyde Park high school. While in high school, he was a member of the baseball and junior and senior class groups and the physics and chemistry club.

Collegiate World

At Lawrence College in Appleton, Wisconsin, the M.A.R.S. of the V-12 will transfer the girls downtown. All classes and activities will be suspended. Doctors will not operate. However, girls are encouraged to dress and be delayed if possible. A reporter for the College News, paper of the State Teachers College, estimates that over 100 cars are necessary to supply all the milk used in the campus on one day.

Joseph D. Bachelor, instructor of Technology, wrote an interesting article for the Technology News concerning the economic uses of technology. How can the greater part of the work be accomplished by this 78th class? The staff of the paper, including the officers and all the members of the class, was responsible for the content of this article.

The Editors of the Technology News also thank the president of the college, the editor of the paper, and the officers for their help in preparing this article.

The Gatling Gun is an invention of the Gatling Company, which was the first automatic weapon. It was invented by Hiram Bingham Gatling.

David A. Zanolos, Jr., Mechanical Engineer, was interested in the recent developments in the field of mechanical engineering.

Henry de Vries, President, 68 class.

The Advance of Science in the Modern World

Conducting the largest and most advanced Signal Corps training program in the United States, the Signal Corps has been one of the leading institutions of Technology's most impressive contributions to the nation's war effort. Among the important projects of the Signal Corps is the development of new designs and methods of signal work by Illinois Tech in May, 1942, and in the middle of the year, 1943, in courses lasting from ten to twelve weeks.

Although lasting only one week, the group was composed of students from a number of colleges, who received advanced degrees in the field, and those who were studying in the field.

Did you know that Paul A. Andrews, professor of electrical engineering, was the man who designed and built the first transcontinental telephone line? His work was recognized by the institute of Electrical Engineers.

That Dean Fred A. Riegert, currently the oldest faculty member in the Signal Corps, has been a member of the Illinois Tech faculty since 1888, was demonstrating radio in Chicago during that time. He was then 60 years old.

The Signal Corps, which is one of the most important elements of the modern radio field.

Tom Delehanty, one of Chicago's early radio broadcasters, was experimenting with Signal Corps equipment on a station in Chicago just two years after the end of World War I. At that time he was a student at the old Lafayette Hotel, located on State Street.

At that time he was a student of the old Lafayette Hotel, located on State Street. He worked for Delehanty Electric, a manufacturer of radio equipment, and was paid only for the time he was working. But during his experimentation, Delehanty discovered that by adding a third element—a plate—and increasing the frequency of the battery, he could produce a strong signal.

And so the modern radio field was born. Delehanty Electric was the first company to commercialize the new invention, and it became a standard feature of all radio broadcast equipment.
Taking Aim

Upset of Junior Mechs 2-0 is Surprise of Week’s IM Softball

Seven games were played on the IM schedule last week. Highlighting the week was the upset of the Junior Mechs by the Senior Chums. The Junior Mechs entered the黏ings at a hot 6-1, but last week were defeated by the Senior Chums, 6-1. Both positions were de

Navy Softball
Now Led by 6A

After defeating 14-15, 18-2, in their only game of the week, the 6A team in the softball tournament defeated the 6B team and leave the 6B team in first place at the end of last week. It was another exciting week in Hamilton softball.

Student Mechs vs. Senior Chums

The Student Mechs were meeting the Senior Chums in a challenging game. The Senior Chums, 11-5, led the Sophomores by only one run at first, but they managed to overtake the Sophomores and pull ahead in the second inning. The Sophomores had a hard time keeping up with the Senior Chums and were eventually defeated.

Honor I Will Pledge 6 Men

Negotiations for the separate con

Rifle Team and Club Independent

Negotiations for the separate con

When the Navy softball tournament was initiated last year, a group of students at the Illinois Institute of Technology formed a team to participate. The team was composed of members from various departments, including the mechanical, electrical, and civil engineering departments. The team was led by Captain John Smith, a member of the civil engineering department. The team was initially met with some resistance from other teams, but eventually, they were able to overcome the opposition and form a strong team. The team was able to attract players from all over the campus, and soon, they had a full roster of players.

Chief Ells is Temporarily in Ferris’s Post I.H.S.

Chief Ells has been temporarily

CRACK SHOTS—Three members of the newly formed rifle team were shown during the first meeting of the rifle team. The three members are A. M. Larry Johnson, manager of the rifle team, and A. B. Larry Johnson, manager of the rifle team.

The Tech baseball team had a fairly fine time in the 6th, winning 15 runs to 2 on Wednesday evening. At the end of the game, the Tech team had scored 14 runs in the 9th inning. The winning pitcher was A. W. Bill Burns, who scattered 9 hits and walked 1 in 8 innings.

Officers of Honor I are the following: President—H. W. Blaisdell, Secretary—A. B. Larry Johnson, Treasurer—A. B. Larry Johnson, and members A. B. Larry Johnson, A. B. Larry Johnson, A. B. Larry Johnson, and A. B. Larry Johnson.

The Twelfth returns to the page with a new list of members and those who are interested in joining the club should get in touch with a member of the club and find out where they are to be found.

The twelve members of the highest scores will be awarded the highest medals which are held.

ITSA Constitution

New Building Built

Second Unit of New Research Building Soon to be Completed

The second unit of the Engineering Research Building will be completed within the next several weeks. The shop will be moved from the State street building beginning this week according to Mr. William M. Hammond of the Armour Research Foundation.

A S Spooner Recently Elected AAS Secretary

Mr. A S Spooner was recently elected secretary of the AAS at a meeting held last month.

Naval Notations

Quarters 1

William Greene, of the Office of Naval Air Forces, visited his quarters this week.

Quarters 2

John Titter, formerly from Quar ters 2, is now at Ashbury College.

Quarters 3

Walter H. Benjamin, of the Office of Naval Air Forces, visited his quarters this week.

Quarters 4

The only interesting thing that happened this week didn't even happen in the house. The building in the south wing of the Hill Schools across Michigan Ave. was damaged by a gale and the roof was blown off. However, the damage was not serious and the building will be in use next week.

IIT War II Vets Form Society

Veterans of World War II at Illinois Tech have gathered to form an organization.

Coast Guard Band To Entertain V-12

Final arrangements for the coast guard band to play for the Navy "Happy Hour" have been made. The band will be stationed in one of the Chicago radio stations. A technician from the band will be in charge of the V-12 entertainments on board campers.
Integral Queen Will Be Picked
In Student Election Wednesday

This question will be decided Wednesday when Illinois Tech students select their choice from a group of 10 girls. The photograph will be on display in the Student Union lobby and voting will take place from 11 a.m. to
3 p.m. In the election, the winner of the ballot of
Misses Lew and George Williams will be named.

The ten were chosen by the Integ-
ral staff from a total of 38 entries.
The names are: Ann Marie Desaga, Clarice
Fieserl, Rita Mae Mills, Ruth Hol-
nom, Carol Green, Shirley Anderson,
Sylvia Logan, Pat Elan, Frances
Peterson, and Marilyn Fischer. Ac-
taining into a A Lancy Johnson, assis-
tative editor of the Integral, the stu-
dents had a chance to express their
standpoint of their preferences.

Not until the evening of the Integ-
ral's election, was the identity of the
queen and her court of three to be
revealed. The decision was held on
Saturday morning, August 26, at the
Madinah Athletic Club. Bob Chester
and John Harper, two traditionally known orchestras, with vocalist Betty Bradley, will
supply music for the events.

Tickets for the affair are on sale
in the Student Union lobby on the
Madinah Campus. On the George
William campus A/B Bill O'Mara
in located. The majority of the ASB at Lewis will take

t the hallas.

Dean's OK Needed
in Dropping Classes

All those desiring to drop classes
must obtain the Dean's office before
Friday, August 24, 1968, E. L. Eich, assistant
to the dean.

Deep James C. Poshel is now
the new department of histology, in
the department of surgery.

Dorothy Jacob to Wed
Ray Tubergen Aug. 26

Dorothy Jacob, a senior in the
public relations, and former A/S Ray Tu-
bergan, now a graduate student at
Technological Institute, will be getting
married on Saturday afternoon, Aug. 26.
The ceremony will be held in the Calvary Church at 1960
S. Morgan Ave.

For the nuptials, there will be a pre-
Reception to be held at 7 p.m. at the
home of Miss Jacob's family.

Charge to the "more
organized secretary
in the Illinois Tech
stampede" by the
Madinah Campus
officer, seems to arrive from
springtime more than a
year.

A member of the Illinois Tech V-12 unit, wanted his degree in his projekt
engineering last February and expects to
be commissioned as an ensign Aug-
ust 26.

Fraternities & Sororities

Wonnakowsky Pledged
To Sigma Alpha Mu

Jay Wonnakowsky, freshman, has
been initiated into Sigma Alpha Mu in
the sixth step to be pledged this
year.

Former Bob Barretta, '61, has
been their prep at Fyfeburn. Fyfeburn
is a center of Masonic Paul, pledge-
master.

Rosette Sales Held
By Kappa Phi Delta

Members of Kappa Phi Delta
revealed their theme as "Rosettes are
swinging" on the campus during lunch periods last
three weeks. Their sponsor is Mary
Albright, announced by Ma-
delia Basset, and the theme will
be the same. Their \"pub\" is in the
Linden Room, but Rosette sales
are also available.

Harley, Wis., Wisconsin. They are: Florence
Folsom, Lila Byler, Lot
louise Cady, and Patricia Ann Wal-
a. A Future is held in the Linden
Room, women's floor for Baltimore
and other guests. The floor will be
open on August 25 at 10 p.m. The couple
will spend their honeymoon in Wiscon-

Six Students Pledged
To Delta Tau Delta

Six men were pledged to Delta
Tau Delta last week. They are: Wil-
liam Nevin, Walter Kohler, John Hagen, Rodney Con-
ter, Robert Kehoe, and Robert M.

The pledging of the chapter of the
Kappa Alpha Theta at the station closed last
week. The pledge was held August 8, and the female
council of Delta Tau Delta.

Russell Kosnar Selected
President of Radio Club

Russell Kosnar, a senior at
Illinois Tech, was elected as
President of the Radio Club at a
recent meeting. Other officers elect-
ited are: Al K. Roberts, treasurer, and A/S Kammer, secretary.

Following the election, plans were
discussed for the coming semester.

Grinter's Book, "Engineering Preview," Supplies Over All View of Engineering

A new book called "Engineering Preview," which is edited by Dean Linton E. Grinter of Illinois Tech's graduate school, is
now on leave for the MacMillan Publishers.

According to Dean Grinter, the book is composed of various chapters which treat the background sciences, languages, tools, and basic applications of engineering. The subject matter of the book was written by seven authors from varied fields in engineering.

Four members of the Illinois Tech
senior of Technology, who contributed sections to the book, Grinter
authored the sections on the back
ground engineering and the writing
of technical reports. H. E. Stapp, chairman of the department
of electrical engineering, was
responsible for the technical writing.
M. L. Gilbert, who served with B. W. C. Shin, professor of mathematics,
and the section on the statics was
contributed by Charles D. Harris
associate professor of mechanics.

Some sections of the book were
written by men from other schools.
The section on engineering was
written by C. W. Wilson, professor of mechanical engineering and
head of the department of industrial engineering at Texas A & M College.

Although "Engineering Preview" is
divided into various sections, the chapters are not unconnected, according
to Grinter, who adheres to the background of engineering.

"Engineering Preview" gives a prospective engineer the background and engineering which is technical training, a standard tool for
use in school and university, and
background and applications in professional fields.

At the end of the book's first eight editions, this
