4 Professors Soon to Retire
Served a Total of 133 Years at Illinois Tech

The faculty of the Institute of Technology will retire this week at the end of the term because they have served a combined total of 133 years. The faculty members are:

- Arthur R. Carpenter, associate professor of mechanical engineering
- Robert W. Parry, professor of mechanical design
- Marcia Carpenter and Mrs. Harold H. Carpenter, who have both been teaching at Illinois Tech since 1939. Prof. Parry has served for 37 years and Mrs. Carpenter for 35 years.

Proposed ITSA Constitution
Referred Back to Committee

The ITSA Constitution revisions have been referred back to the committee following the ITSA assembly on Wednesday.

War Training Classes Open

Chicago war workers can find technical training for many skilled and unskilled jobs this fall, when Illinois Tech opens its 15th training program in September. Eighty-six classes, free courses, covering virtually every field of war work, will be available.

Queen Reigns At Annual Ball

Height: 5 ft. 7 in., weight: 143 lbs.; age: 19; years in college: 3; years in Illinois Tech: 4. Miss Presson was presented to the Queen at the annual ball at the Institute of Technology Ballroom on Friday, September 9. She is the daughter of Mr. and Mrs. Presson of Joliet and is a junior in the College of Engineering.

ASCE Stag to Have Speaker and Movies

ASCE will hold its first stag of the present term on Wednesday, September 14. The event will be held in the Alumni Lounge, and Prof. Phil K. Christensen of the University of Illinois will be the guest speaker.

New Armour Players Plan Production Of Vane's "Outward Bound" for Next Term

Dr. Yale Brown has announced that his new production of Vane's "Outward Bound" will be performed by students next term. The play is scheduled for Thursday, September 6. The faculty club plans to produce the play.

Faculty Club Plans Now Being Mapped

According to the club president, Dr. Charles L. Bolte, all students enrolled in the civil engineering department should definitely attend the affair and enjoy themselves.

Charles L. Bolte, 18
Heads 34th Division

Major General Charles L. Bolte, former student of Armour Institute of Technology, is in charge of the 34th Division in World War I. He was wounded in France in 1918 and is now serving as an adviser to the Civil Engineering Division.

Phil Lambda Upsilon Pledges Four Men

Four men were pledged last Monday night in Phil Lambda Upsilon. They are: William C. Hebert, William G. Murray, and William C. Henderson. The program included a dinner in addition to the pledges.

Dr. Yale Brown to Have Workbook

Announced: "Economic Problems"

Dr. Yale Brown has been announced as the author of an economic problems workbook, which will be published next term. The workbook is available in the economics department.

Charles L. Bolte, 18
Heads 34th Division

Major General Charles L. Bolte, former student of Armour Institute of Technology, is in charge of the 34th Division in World War I. He was wounded in France in 1918 and is now serving as an adviser to the Civil Engineering Division.
Too Busy for Work?

A/S Dick Michalek is Active in ITSA, Sports and Integral

Since "Mike" began his career at Illinois Tech numerous activities have claimed his attention. At the present time he is vice-president of the ITSA, president of the junior faculty council, member of the Delta Epsilon fraternity of the National Science Honor Society, and a member of the AIEE. In addition, Mikeirez is a member of the Student Senate, a member of the board of directors of the campus newspaper, and a member of the TILSA. The TILSA is a student-run organization of approximately 100 members who publish the campus newspaper, The Illinois. Mikeirez has also been active in the Illinois Tech Academy of Science, which he joined in his junior year. He has decided to become active in the Illinois Tech Academy of Science, where he plans to work on a project involving the design and construction of an experimental engine.

In the future, Mikeirez does not plan to attempt any difficult project involving the design and construction of an experimental engine. Instead, he says, he will work on projects that are more relevant to the needs of society. "I want to be able to make a positive contribution to the world," he says. "That is why I chose to study engineering. I want to be able to help solve some of the world's most pressing problems."
Collegiate World

Albany Polytechnic Institute is really going all out in the war effort. According to their college paper, The Polytechnic, the student body has decided it was now or never and a real sense of patriotism has taken hold at any event. Not only are they working hard for the army, but they are also taking a few steps to make sure that they are working hard for the home front.

President Henry T. Horsfield takes note. At a recent college meeting, he said, "This is the time for us to show that we mean business. We have a duty to our country, and we must perform it with the utmost efficiency."

On this day, early in the morning, the president of the College called up the various departments and asked them to inform him if there were no delays in the work. The president was informed that there would be no delays.

From "The Polytechnian," college paper of the Albany Polytechnic Institute, we learn that a former student of ANH who had never been seen since he was 21 years old, completed a 200 mile trip in three days. He claimed he could do anything with his bare hands that a normal person could do.

When he got back to campus, he kicked a football 15 yards on the roof to prove it.

The Carnegie Hall, located in the heart of the city, has been completely restored. The new hall is said to be the largest in the world. It is the home of the New York Philharmonic Orchestra.

What kind of students do we have at IIT?

We are always interested in what our students are doing. Are they all successful? Do they all have jobs? Do they all have a good time?

Well, we have seen some students who seem to be doing well. Others, however, seem to be having a bit of trouble.

One student, for example, has been given a scholarship to an expensive university. He has been doing well until recently. He has failed a few exams and is now having a hard time. He is feeling very depressed.

So, we ask you, what kind of students do you have at IIT? Do they all have a good time? Do they all have jobs? Do they all succeed?

Edward Scholl, Senior Chemical

The key point of view is that the chemical is the root of all things. If you want to know why, you must look at the chemical.

The chemical story is a story of progress. It is a story of how we have learned to control the elements.

Kathy Martino, Senior Chemical

I have always been interested in the chemistry of the world. I have always been interested in how the elements interact with each other.

When I was a little girl, I used to play with my parents' chemistry set. I would mix different chemicals together and watch what happened.

Now, I am a senior chemical and I am trying to understand how all the elements work together.

A.W. Whitney L. Pearson

A.W. Whitney L. Pearson of Quester, Illinois, has been appointed as the new Director of the Hospital Apparatus.

Pearson then proceeded to an interesting experiment involving the chemistry of the human body. He mixed various chemicals together and watched what happened.

After several months, Pearson was transferred to the main hospital at the Lake. On November 12, 1943, he shipped out to the front where he was killed in action.

Illinois Tech Defeats Gardner General Hospital by a Close 4-3

Illinois Tech's baseball team added another victory to their record when they nipped Gardner General Hospital 4 to 3 last Thursday afternoon.

The game was a major victory for the Army Air Force personnel who had previously been located at the Tech campus.

Grantsburg

Grantsburg defeated Central 11 to 1 in the opening game of the state tournament. They will play Wright in the quarterfinals.

Stenger Knows By All Students

Known by the entire student body as "Stengers," the Illinois Tech baseball team is known for their exceptional performance. The team not only won the conference championship but also placed second in the national tournament.

GRANT STENGERS - Coach, Instructor, and Athlete

Stengers, also known as "Stenger," is a former Illinois Tech baseball player who went on to become a successful coach. He has been a fixture on the campus for over a decade.

Varsity Golfers to Meet Faculty Team

The match was a tight contest, but the varsity team emerged victorious, winning 4 to 2. The faculty team, led by Professor John Smith, was unable to match the intensity of the varsity team.

Tennis and Horseshoe Entries Close Today

Several entries have been submitted for the upcoming tennis and horseshoe tournaments. The closing date for entries is tomorrow, and all participants must submit their entries by then.

Senior Chems Still Remain in 1M Lead

The senior chemistry students are still leading in the 1M lead category. They have consistently outperformed the other teams, and their dedication to the sport is remarkable.

TACHE SHORTS by Tom Kilgarriff

Riding the wave of enthusiasm in the annual softball tourney, the varsity 7-up team is challenging to be the best this year. The team has decided to increase their intensity and improve their skills.

The situation is further complicated by the recent arrival of new members entering the varsity softball team. The team is currently in the process of adjusting to these new additions.

Honor Pledges Commence Today

For the first time since its inception, the Honor Pledge is being enforced on campus. Student bodies are encouraged to participate in this tradition.

The pledge requires students to be honest and have integrity in their daily lives. The pledge has been designed to promote a positive and respectful campus environment.

Unlike previous Honor Pledges, this one has been designed to be more inclusive, ensuring that all students, regardless of their background, can participate.

The pledge ceremony will take place in the main quad on Monday, with all students encouraged to attend. The ceremony will be followed by an informal gathering in the library.

The pledge is an important step towards fostering a community of trust and respect. Students are encouraged to take this pledge seriously and to uphold its values in their daily lives.
Orton to Head News Bureau

Vivian L. Orton has been appointed to the directorship of the II State News Bureau, a position he has been holding since the previous administration.

Triangle Overwhelms Delta Tau Delta-18-1

Delta Tau Delta, the new men's organization, is already ten members, reports an interested official.

New Gas Research Lab Will Open Soon

A new research laboratory is being built on the campus, according to J. A. Y. Albers, director of the Gas Institute. The laboratory, which will be ready in September, will be used as a science laboratory. The institute will open in the fall, according to Mr. Albers.

Meteoroogy-As a new meteorology class is being taught this fall, the Illinois Tech Weatherman is predicting a dry fall season.

Illinois Tech Vets Meet To Draw Up Constitution

The committee is the result of the work of the committee of the Illinois Tech Vets last week. The committee met in the morning to discuss the details of the new constitution, which was adopted by the committee.

Dance Club to Give Free Instruction

All members of the dance club will be instructed in the art of the Waltz, according to Mr. A. T. M. Enns, dance instructor. The club meets every Wednesday at 8:00 p.m. in the Illinois Tech gymnasium.

Lt. Thomas A. Ernst: 45 Killed in European Air

Lt. Thomas A. Ernst, Illinois Tech co-op student and member of the Illinois Tech track team, was killed in action on the Eastern Front. His body was returned to his hometown for burial.

Rho Delta Phi Halts Fraternal Activities

Rho Delta Phi, the Illinois Tech fraternity, has been suspended by the Illinois Tech administration. The fraternity was accused of violating the Illinois Tech Code of Honor.

Phi Kappa Phi Pledge To Have Alumni Dinner

Phi Kappa Phi, the national fraternity, will have an alumni dinner on Friday evening. The dinner will be held at the Illinois Tech Alumni Club.

Fraternity Initiation

Sigma Alpha Mu to Have Alumni Dinner

Sigma Alpha Mu, the Illinois Tech fraternity, will have an alumni dinner on Friday evening. The dinner will be held at the Illinois Tech Alumni Club.

Dance Club to Give Free Instruction

All members of the dance club will be instructed in the art of the Waltz, according to Mr. A. T. M. Enns, dance instructor. The club meets every Wednesday at 8:00 p.m. in the Illinois Tech gymnasium.
