Tech News Poll Finds Students Sleep Deficient
Navy Averages Only 6 1/4 Hours While Civilians Total Seven

The greatest majority of students interviewed in a poll conducted by Technology News this week are in favor of increased sleeping hours. Several students, on the other hand, obtain an average of almost 8 hours sleep.

When the navy was asked about their sleep hours, they were satisfied with what they appeared to be in the survey. The average navy student got only eight hours sleep. The average civilian student thinks he should have nine and even ten hours sleep.

Many of the girls given by students, when asked how many hours of sleep they would be satisfied with, appeared to be in favor of increased hours than the civilians. The average student would get only eight hours sleep. The average civilian student thinks he should have nine and even ten hours sleep.

The ESMWT Offers Radio Courses

In a popular program, the Engineering Society of Women at Illinois Institute of Technology, that the college is incorporating advanced courses in these subjects. The new advanced courses will be offered in Illinois Tech's new radio and electronic engineering major, which opens this fall. The courses are oriented to advanced mathematics, physics, and electronics.

The college is offering a free advanced radio and electronic engineering major, which opens this fall. The courses are oriented to advanced mathematics, physics, and electronics.

Music Clubs to Play in Pontiac

The IIT musical organizations are scheduled to perform in Pontiac, Illinois, Friday, according to O. O. Kemberling. The organizations will be the guests of the city, and the concert will be held at the Ebell Club.

A hundred men will be at the Ebell Club to see the concert. The city will provide the orchestra, the glee club, and the choir. All high school students who have been invited to the concert will be present. The high school students will be present. The high school students will be present. The high school students will be present.
Man Of the Week:
Actuities, Social Life Studies, Mark Life of A/S Doug Snyder
Alumni read to us in extra-curricular activities, more than an average student,
and a socialite deluxe — these are the qualifications which have earned A/S Doug
Snyder the title "Man of the Week."

Light Fingered Loungers
Call them what you will, flirts, lapses, flourishes, flappers, the despisers of
the student lounge are the lowest form of life on this campus.

"...those who walk off with reading lamps can hardly be called absent-minded. These
are so uncalled for and out of place that one wonders how such students could ever
come to college when their morals are on a par with those of a common thief.

Drinks and nudes may be a carry over from high school days when many fellows think
it smart to lift things from drug and dime store counters. The practice is even more despicable
now.

...The student lounge is run for and by the students. By depriving the lounge of facilities,
these thieves are rendering the entire student body, both directly and indirectly, Students
who rarely use the lounge are hurt by having there Touch and Touch in order to make repara-
tions for stolen goods.

If warnings will help the situation, the lower elements of IIT society should be told that
immediate expulsion awaits them if they are found.

...Although hardly on a par with stealing, other abuses should be mentioned here. These
include throwing paper on the floor, screaming at the other end of the line, doing
not having enough of the box, changing the usual seating, climbing on chairs, taking things out
the window, and all the other childish acts which human beings can conceive of.

Quiet Places:
There are on the south campus two places where a student with a free hour and a lot of
homework can do some studying. These are the library and the study section in the auditorium.

...The conscientious student who is interested in getting a college education more
often than not finds both places contami-
nated with "students, who are asleeping,
others who are whispering, etc., and in the
way quite an extensive noise. However, I
was able to find a very loud voice at last
Saturday's date. The librarian certainly
had the time to stand watch and make them obey these rules, if necessary. After all
this is not a grammar school.

Another type of offender is the student whoSE quiet period so it is necessary to have a quiet
period. I have found that all around my
self in this room, there are so many people
...in the library, there are probably at least 200 people who are talking at once. This is
a very common occurrence, and I cannot help but notice that almost everyone has a
phone book in his hand, and that most of them are talking to each other.

...I have found that at night, the library is
never quiet, and that the only way to get
any study done is to go outside and find a
quiet place. This is not too difficult to do,
as there are plenty of trees and benches
around the campus. I have also found that
the library is never empty, even at night,
and that there are always plenty of people
around.

...I have found that the study section is
never quiet, and that the only way to get
any study done is to go outside and find a
quiet place. This is not too difficult to do,
as there are plenty of trees and benches
around the campus. I have also found that
the study section is never empty, even at night,
and that there are always plenty of people
around.

Soph-Iistics Come to Fore; Knock Out Tough Junior Mechs

Matching the league-leading Senior Chemists game for marks, the Soph-Iistics defeated the freshmen Chemists 28-8 and the former champions, Junior Psychiatrists.

In the Junior Mech game a four-bit-rally in the first of the seventh quarter parts of the Soph-Iisticers resulted in their sweeping the second advantage of the game.

Henry Dyson scored the first point of the rally, drawing the attention of the Chemists and making the second quarter a struggle. With 28 seconds remaining in the first period, Bath overall led the Chemists by only one point, 28-16. The Chemists then went on to score three more points in that period, setting the scene for the rally.

The Chemists rallied with a three-point rally in the second quarter, but the Soph-Iistics had managed to hold off the Chemists, maintaining a lead throughout the game.

Triangle Still Holds Its Lead

In its second game of the evening, the Soph-Iistics did not manage to hold off the Chemists, losing the game 60-50. However, the Soph-Iistics did manage to pull ahead of the Chemists in the first quarter of the game, leading by a point, 14-13. The Chemists then went on to score three more points in that period, setting the scene for the rally.

The Chemists rallied with a three-point rally in the second quarter, but the Soph-Iistics had managed to hold off the Chemists, maintaining a lead throughout the game.

Wagner Is All Around Leader

Coach Ed Wagner, C.H. ’38, ORB ’39, recognizes much on the sports staffs, in his department, and athletic officer at ITT. The junior's performance was above the usual standard, and his 7-5 score was a good indication.

Rossie Gluey added further that the athletic program does not lack, he added, building, but he, who only had to listen to the boys' comments, had that he was a good player.

The Chemists, with their three-point advantage in the first quarter, went on to score three more points in that period, setting the scene for the rally.

The Chemists rallied with a three-point rally in the second quarter, but the Soph-Iistics had managed to hold off the Chemists, maintaining a lead throughout the game.

Horseshoe, Tennis

To Begin This Week

Play in the intramural tennis and horseshoe tourneys will begin this week, stated Intramural Manager Fred Perry. The tourneys have been known the regulations governing the play.

All games are to be played at the scheduled times to avoid complications, and the results are to be sent in on the same day with the signatures of the coaches.

The tennis doubles have been posted for a double round of matches from now over at Arrowhead Square, where all matches are to be played.

TENNIE SNELLER

Henry Brooks vs. Allen Pihaden
Opal Goseman vs. Joseph Gehrlein

WEDNESDAY

Henry Haywood vs. Joe Le Rock

HORSESHOE SINGLE

Fred sausage vs. Sid Schloeder
Kendall Hutt vs. Jim Kagor

HORSESHOE MATCH

B. N. Stovall vs. C. F. Schloeder

BY TECH

The much talked about basketball game between Quarters No. 6 and No. 7 is over, enough to give the charges of the former team and A. E. Warfars. Forced to back up in the third twenty seconds of the game, Quarters No. 6 was soaked Thursday night in Valentine gym in an encounter with the afternoon edition of the Soph-Iistics.

The result of this engagement as recorded on another section of this page was 37-26.

Due to his persistent efforts to score with more skill, Paul was the subject of much consists by those watching the contest. In the future it is hoped by many that the "wind in the sails" of Wagner and his cohorts will show a marked decline.

Unusually the west side corner of the
tennis team that suddenly decided to participate in the Stewar’s intramural program the Lewishaves have shown themselves to be the most interested of all teams in the intramural basketball league. Through not possessing a power-house aggregating of their steady play has not gone unnoted. They may soon get a hold on any of the teams played through having to put up an hour with the hour leader from Lewishave on field they should serve to develop the measure of the Rossie.

Another team to be congratulated in the Soph-Iistics. Members of a spontaneously diverse group, they have emerged from the naturalness of the game.

In last week's story about Coach Grant Steiger a definite error was made. Last week's issue stated that Grant spent his army life in Texas. Unfortunately brought to light is the fact that he was born in Texas.

Frank Pomeroy vs. Ted Grosbalt
Jack Dellenback vs. J. L. Scater

FRIDAY

HORSESHOE MATCH

Navy Softball Ends

With 6A Champions

The curtain has been run down on the intramural softball this year. Team 6A has undoubtedly swept the field, taking the nod in the 4-3 victory over the 6A champions.

The final score stood at 37-26.

Tom Kilgarriff
LETTER OF THE WEEK: Defending the Honor System

What use is it to have the form of the honor system if it is not enforced? The Honor Board is not active, and no acts of cheating have been reported.

LESLIE PRICE and HARRISON LEE claim that they have repeated ROBERT MILLIKAN’s oil drop experiment though they admit it was done on a much smaller scale.... BERNARD NAISIC, 65, said he had never heard of the experiment until yesterday.

He spent over a year of this time in England and North Africa. A young man from the state of Georgia, he was a member of the United States Navy Reserve. He was later assigned to the aircraft carrier "Hercules" and served in the Pacific Theater.

If you have any questions or comments, please contact me.

I would like to ask the standard bearers of the great many new groups that are currently forming to consider the impact of their decisions. Too many students are jumping on the bandwagon without thinking about the implications of their actions.

Many thanks for your understanding,

JOHN WEBER, JR., Senor. Ed.

BEST OF THE FUTURE:

The best of the best students will be selected based on their academic achievements and extracurricular activities. The award will be presented at the annual banquet.

MAN OF THE WEEK:

The Stuco candidates for the upcoming election have been announced. The election will take place next Wednesday.

The campus newspaper has published its final issue for the year. It will be available in the student center starting tomorrow.

The honor system is not being enforced, and no acts of cheating have been reported.

Any acts of cheating should be reported to the Honor Board immediately. The board will take swift action to ensure the integrity of the academic community.

If you have any questions or comments, please contact me.

[Cut from previous page]

The question is often asked by Neil Steinhart, a student who does much of the work in the library, whether pictures are available for sale. Neil is responsible for the purchase of new pictures and has been asked by the librarian to provide a list of pictures that are available for sale. Neil has provided a list of pictures that are available for sale, and the librarian is considering adding them to the library's collection.

Edison Workers to Take IIT Courses

Refining a trend toward increased cooperation between industry and academic institutions, which employed workers can work at the university while they receive training, will be available to Edison workers in the future. The program, initiated by Edison's director of education, is expected to be popular among employees.

Navy Small Stores Now Have Rubber Stamps, Ink

Rubber stamps, pads, and ink are now available at the small stores, according to a Navy League representative. The stamps will cost five cents, regardless of length, and the ink pads will cost forty cents for a one-half moon. Navy League members are encouraged to use these supplies for their own needs.

Dramatic Honorary May Resume Activity Again

Georgia Theta, honorary society for dramatics, appears ready to stage another production. According to the society's president, they are preparing for a new production for spring semester.

Ten Men Initiated Into Pi Tau Sigma Wednesday

Pi Tau Sigma initiated its first pledge during last week's meeting when three new members were received. The initiations were held last Wednesday. The new initiates were sworn in by the chapter's presiding officer, who is in charge of initiating new members.
Veteran Pilot From Southwest Pacific
Captain Remond, Former IIT Student,
Marine Captain Frank A. Remond, Jr., a combat transport pilot who served in the Southwest Pacific, returned to his alma mater, the University of Illinois, to attend a session in Chemical Engineering. As is customary, Captain Remond flew in on a private plane from San Francisco to the University, where he was met by his brother, Capt. Frank A. Remond, Sr. Remond, who is a member of the University's Air Force Reserve, was member of the Southwest Pacific Air Force Reserve, where he served as the deputy director of operations for the 2nd Air Force Reserve unit. He remained in the reserve for several years, flying with the 14th Air Force Reserve unit.

Post War Placements Are Filed by Schmehm

The issue of reemployment for veterans remains a significant concern. Veterans face unique challenges when seeking employment, including a lack of experience, skills, and training. The federal government has implemented several programs to assist veterans in transitioning to civilian life, including job training and placement services. The government has also established partnerships with private sector employers to provide job opportunities.

Polish Club Election to Be Held September 10

The Polish Club will hold its annual election on September 10. The election is an important event for the Polish Club, as it determines the leadership of the organization for the upcoming academic year. Members of the club are encouraged to participate in the election process, which involves registering to vote and casting their ballots at the designated polling location.

Rheingold Will Address Math Club Wednesday

Dr. Rheingold, a prominent mathematician, will be speaking at the University's Math Club on Wednesday. His talk will be titled "The Challenges of Modern Mathematics." The event is open to the public and is sure to attract mathematics enthusiasts, students, and faculty alike.

Technician Drawing Office, Being Painted This Week

The Technicians' Drawing Office is currently under renovation, with the office being painted and cleaned. The renovation is expected to improve the office's functionality and overall appearance, providing a more conducive environment for the technicians to work in.

Naval Notes

C & SS Will Be Open for 3 Days, Sept. 20, 21, 22

C & SS will be open for 3 days, Sept. 20, 21, and 22. All full-time employees must be present during these days to maintain the facility's operations. C & SS will be closed on other weekdays.

Quarter 4

The quarters of the academic year are as follows:

- Fall (September 1 - December 18)
- Winter (January 1 - April 18)
- Spring (April 19 - July 18)
- Summer (July 19 - September 1)

Each quarter has its own unique characteristics, with the fall quarter being the beginning of the academic year, the winter quarter being the midpoint of the year, and the spring quarter being the end of the year. The summer quarter is a break between the academic years.

Quarter 5

The quarter of the academic year is from August 1 - October 31.

Quarter 6

The quarter of the academic year is from November 1 - January 31.

Quarter 7

The quarter of the academic year is from February 1 - April 30.

Quarter 8

The quarter of the academic year is from May 1 - July 31.

Quarter 9

The quarter of the academic year is from August 1 - October 31.

Quarter 10

The quarter of the academic year is from November 1 - January 31.

Quarter 11

The quarter of the academic year is from February 1 - April 30.

Quarter 12

The quarter of the academic year is from May 1 - July 31.

Quarter 13

The quarter of the academic year is from August 1 - October 31.

Quarter 14

The quarter of the academic year is from November 1 - January 31.

Quarter 15

The quarter of the academic year is from February 1 - April 30.

Quarter 16

The quarter of the academic year is from May 1 - July 31.

Quarter 17

The quarter of the academic year is from August 1 - October 31.

Quarter 18

The quarter of the academic year is from November 1 - January 31.

Quarter 19

The quarter of the academic year is from February 1 - April 30.

Quarter 20

The quarter of the academic year is from May 1 - July 31.

Quarter 21

The quarter of the academic year is from August 1 - October 31.

Quarter 22

The quarter of the academic year is from November 1 - January 31.

Quarter 23

The quarter of the academic year is from February 1 - April 30.

Quarter 24

The quarter of the academic year is from May 1 - July 31.

Quarter 25

The quarter of the academic year is from August 1 - October 31.

Quarter 26

The quarter of the academic year is from November 1 - January 31.

Quarter 27

The quarter of the academic year is from February 1 - April 30.

Quarter 28

The quarter of the academic year is from May 1 - July 31.

Quarter 29

The quarter of the academic year is from August 1 - October 31.

Quarter 30

The quarter of the academic year is from November 1 - January 31.

Quarter 31

The quarter of the academic year is from February 1 - April 30.

Quarter 32

The quarter of the academic year is from May 1 - July 31.

Quarter 33

The quarter of the academic year is from August 1 - October 31.
