Man Of The Week

Many Offices of A/S Al Spooner
Make Him the Man to Watch

A/S Albert Spooner's activities in the senior class give him top billing for this week. Being secretary of the 4L class and senior class editor of the "Intricate," he is one of the two men who have the most important of the many offices held by the senior class.

One of the most interesting and most important offices is that of senior class editor of the annual magazine. A/S Spooner has been one of the most prominent members of the class, and has shown great ability in editing and managing the magazine. He has been a great help to the class in the preparation of the magazine, and has shown a great deal of energy and enthusiasm in his work.

In September, 1942, Spooner registered at Wayne University in Detroit and entered the Navy as a lieutenant. In the first week of college, he was transferred to the second group of A/S men in the Navy.

When he graduated in June, 1943, he went to sea and became a Navy Aircraft Engineer. Spooner's post-war plans are well-defined. He has been engaged to be married to Bessie Olson, the former classmate of his high school. He plans to continue his education, and to enter into business building, advertising, or in some other line.

A/S Spooner's hobbies include photography and writing. He has a great deal of interest in photography and has been active in the photography club of the class.

Nell Steele

ITT will soon lose one of its most efficient and hard-working office staff members. Miss Nell Steele, librarian, is leaving Illinois Tech to head the Lake Forest public library.

Most students accept the library as part of the school, and appreciate the work of those involved in its upkeep. There has been a shortage of space and, much needed work must be postponed because of the increased number of students.

The departure of Miss Steele will leave an important post. It will be difficult to find a person with similar ability and experience.

Miss Steele came to Armour in 1941. Prior to that, she worked in a number of offices at the Art Institute and as a librarian at Canby Creek during the last war. Contrary to the expectations of the students who actually work with Miss Steele, she has the highest regard for her.

We hope that she finds pleasure and satisfaction in her new position. It is remarkable that she will not be too busy to have the library of the post-war campus.
Dr. Alfred C. Ames of the English department lived in a girl's dormitory while he was working for his doctor's degree at the University of Illinois... Dr. F. H. Elders was stationed under Mary Raymaker, a discoverer of radium... Marie Schroot, a secretary to the university's president, was a pianist in an all-women symphony orchestra. Dr. J. B. E. PRESSO's father is 80 years old... A. S. ALLAN KUHRAU is president of the Methodist Youth Fellowship, of the district of Chicago... Ralph E. PKCK of the chemical engineering department had no formal grammar school education.

We recently had the school bowling tournament, and my team really took a beating. We had come tough luck; one of the boys got tapped to many times that he asked the manager if the $10 pin was part of the building. Some of the other teams claimed that we, like, were trying to reduce, were heard loud. Only in this game you furnish without losing newspaper to a company. James W. REYNOLDS was so much of the pins that I changed my style of bowling. Instead of trying to hit the ball on the alley, I try to get more feeling out of reading my bowling.

illas State Tech Vets

Arthur Frieler's short stay in the U.S. Army has been a humbling and interesting experience. On the first of the New Year in 1944, he enlisted to be a private. The army obliged by giving him a commission as a second lieutenant in the Chemical Corps. He was sent to Camp McCoy, where the temperature hovered about thirty below zero. His comrades at home did not get to see the ground, as it was always covered by snow. Plying that Art had been transferred to a rifle company, Art said that Art had taken the army in a democracy warmer spot. It was Camp Roberts, California, where the army had seen everybody's favorite spots.

It was here that Art learned that he was an Idaho boy. He was the first one to raise a hand if the army needed a volunteer. He was still obscure when the company began... Art became a clerk in a busy...
Illinois Tech Swimming Team Routes Lawrence College 51-33

Record Now Stands at 2 Wins, 2 Losses; Meet Northwestern Next Friday Evening

For the second time this season the Illinois Tech swimming team routed the Lawrence College Blackbirds of Appleton, Wisconsin. The total scores were 61 to 33 in favor of IIT.

In the swimming pool of Bartlett gymnasium last Saturday afternoon, the Tech swimmers added their second win of the season. The Tech men also defeated Lawrence by a 44 to 28 score.

The Friday evening at 8:30 p.m., the Tech men will meet Northwestern University at the Northwestern Y at Evanston.

Yard Madison Relay — Won by Tech
200 Yard Free Style — Won by Tech
200 Yard Breast Stroke — Won by Tech
200 Yard Back Stroke — Won by Tech
200 Yard Butterfly — Won by Tech
Yard Free Style — Won by Illinois
Yard Free Style — Won by Northwestern

Rife men Win Another Match

The Illinois Tech rifle team defeated the Polytechnic Institute of Brooklyn, at the rifle match by a score of 728 to 695. Jack Schmidt, manager and sharpshooter, stated that the team was well satisfied with this meet and that the team's average was 764 per man and 754 per score.

Another match between the University of California was also held at the same time, but their results have not been released. A. G. Long is a new member of the team and the second time he led placed fourth on the team. With Long's addition to the team, the Tech has a new class of shooters and can continue as such if the team wishes to add any more.

The results of the Polytechnic Institute of Brooklyn:

Brooklyn 728

Ronalds 714

Schmidt 700

Brock 694

Kaplan 693

Total 3,211

Yard Rifle Won by Illinois

Techawks Defeated by Illinois 27 to 3

Mieczkowski Wins

Catching the third match in four days the Illinois Tech swimming team lost to Eastern Illinois University 27 to 3.

The only man in the Tech team that was defeated was Frank Mieczkowski of the diving team who was won by a decision.

A. C. Wood, manager of the Tech, refused to discuss the matches but stated that his team was not ready for the matches.

Hatstat Wins First Golden Gloves Bout

The Golden Gloves bout was held last Wednesday evening at Loyola Arena.

Coach Bernard "Benny" Wexler did not cut his line Thursday because he did not want to lose his line which might do some good for the Tech against the following evening.

Hatstat, however, showed a very strong hand with Johnny Fabbrini of Milligan, his opponent, and he showed a lot of progress in the past few weeks.

Following in the usual order of having a sports game with the ITBA Athletic Bureau, John Schmidt successfully scheduled in both Art Ward, sports editor of the Chicago "Tribune" and author of the well known column, "Art's Corner," to come and address this audience as our guest speaker.

One of Uncle John's ideas in the lecture is the topic. He has so far been interested in the radio talks. He is sure that one is a person is invited to an ITBA Bureau so he is not afraid to add any future similar lectures.

Following such an absorbent theme, after the first speech, another one. Such sort of topics would be most pleased to be able to attend. It is the duty of this editor to take care of such a meeting. Yank and Bob of the Green receptions and generally decide so that the events are run smoothly.

Rally in Final Minutes Proves Deciding Factor

In a thrilling contest, the Illinois Tech basketball team beat the Ferris State Bearcats 72-65 to finish in fourth place on the one hand, but on the other hand, it was a 9-point win. The Bears, who are known for their defense, found that Illinois Tech forwards and guards were too strong for their defense.

In the final minutes, the Tech forwards and guards were able to score 20 points, bringing the team to a 72-65 lead. This was a much-needed victory for the Bears, who were struggling to stay in the game.

Quarter 3 and 4 Victorious in Navy IM

In the two games played last week, the Navy team was victorious in both. On Tuesday, the Navy team faced-off with the Illinois Tech team and won with a score of 72-65. The second game took place on Thursday, with the Navy team winning 84-72.

The results of the Navy team in both games:

Navy Team (Tuesday) - 72-65
Navy Team (Thursday) - 84-72

Navy Team Announces IM Bowling Tournament

A Navy team announced the bowling tournament for the championship. The tournament will be held Sunday afternoon at the Conger Gymnasium.

The event will feature a 4-man team with a total of 100 points. The highest team will be declared the winner.

The results of the tournament:

Team A - 105 points
Team B - 100 points
Team C - 95 points

Triumph Defeats Defies 67-12 in IF Basketball

In the first intercollegiate game of the season, the Illinois Tech team defeated the Illinois State University 67-12.

The game started with a fast start by Illinois Tech and continued throughout the game. The final score was 67-12 in favor of Illinois Tech.

The results of the game:

Illinois Tech - 67 points
Illinois State University - 12 points

Civiles Eke Out 30-27 Win Over Chems

In the only game played in the intramural basketball tournament last week, the Illinois Tech team 30-27 victory over the Chicago team.

The game started with a fast start by Illinois Tech and continued throughout the game. The final score was 30-27 in favor of Illinois Tech.

The results of the game:

Illinois Tech - 30 points
Chicago - 27 points

McCaskey Seeks Material To Fill Out Track Team

By Tom Kilgarr

In the midst of the season, the Illinois Tech track team has been seeking new members.

The Tech track team has been seeking new members. The team is currently made up of a small group of talented athletes who are eager to improve.

Increased Slumbering in Classes May Endanger Present Educational System

To spite the heroic efforts of the teachers to keep their classes awake, some educational systems may completely disappear.

George P. Aura writes these lines in an editorial which appeared in The New York Times.

The problem has always been a problem among students at IIT. Slumbering has also always been a problem among professors at IIT. To keep his weary classes awake, former Professor A. H. Carpenter used to stand on his desk with a large red flag.

Professor John J. Mansfield, a professor of mechanical engineering at IIT, has developed a free hour of rest by the following subject. The professor had printed all of its course syllabus in a book to hold 44.7 percent of the students who are present in the classroom is above 63.2 degrees F. According to him, his efficiency drops to 99.7 percent.

The center of excellence for Professor Mansfield is in the new building to be constructed on the campus and he believes it will be a beacon for those who wish to learn better than a Beaux-Rust-Rust.

Professor Henry L. Jackson has adopted the straight-forward method of teaching in his classes to make all the students understand the subject.

The students are taught, however, by the one who teaches out of Professor Charles A. Morley's 481 class. Professor Morley always arrives at his class at 8:10 a.m. By 8:10, 90 percent of the class is up.

The students have been pointed out with the aid of insulating George P. Aura's free hour of rest. This is done by the following subject. "The center of excellence for Professor Mansfield is in the new building to be constructed on the campus and he believes it will be a beacon for those who wish to learn better than a Beaux-Rust-Rust."

"Editor's note: According to William R. Banner, director of the Slumbering Research Institute, he has made a list of the conditions which will cause students to sleep. He finds that a low body temperature, lack of sleep, and mental stress are the main factors which cause slumbering."

Girls' Athletic Group to Form

There will be a meeting of all members of the Girls' Athletic Group, Wednesday, January 7th at 5:30 p.m. in Room 305, to discuss plans for the future of the Institute of Technology Women's Athletic Association. All girls invited to attend from classes to attend this meeting. Once the group has been formed, in the fall, school activities will be held on a regular basis.

This is the first organization of this type to be formed which does not include a group of girls from a single class. The only requirements are that the girls be interested in the group and not from the same class. Ability to participate and cost will be eligible for those interested.

John D. D. Lewis, physical education instructor, Myra K. Lawrence, physical education assistant, and Henry Z. Zulak, have worked on a program which will be presented to the meeting. Later this outline will be expanded over a conservation committee.

Honor Board Must Have New Evidence For Reviewing Case

For the first time in the history of the Honor Board, a case with new evidence has been held. The case was reviewed, and as yet neither details nor the final decision has been announced. Mr. N. B. Smith, chairman of the Honor Board, said that the review of the case will not be completed before a new evidence has been obtained. However, it may be brought up for discussion at a later time, and in some situations, the final decision may be made.

A. A. P. Floyd, president of the Institute of Technology Women's Athletic Association, was appointed secretary of the Honor Board by the board. Floyd was selected by the Honor Board to replace a member of the board who was at the beginning of this year, and he has been invited to attend the meetings of the board.

Navy is to Have Drill Classes Next Term

Civilians will get some opportunity to join the Navy next term as navy men will have regular drill classes on Saturdays at the Institute of Technology. The program of training will be drawn up for next term.

The time and frequency of the drill training is not definitely decided. Navy drill classes may begin as early as at 8:30 a.m. and last until 11. Each will be an hour in length and will be led by one of the specialists.

I. R. A. R. Sessions, commander of the navy group, said that he and L. E. (Lyle) Willard will be in charge of the organization. Every student and worker will have an opportunity to join the organization, and it is expected that many requirements of the navy for the particular field.

Tau Beta Pi to Select Pledges

The general members of Tau Beta Pi national honorary engineering fraternity will be selecting pledges to their chapter this Friday at 7 p.m. in the Technology Annex. All pledges and their prospective sponsors have been completed and rushed. All pledges will be present at the initiation. The pledge ceremony will take place in the main hall of the Engineering Building on Friday at 5:30 p.m. All Tau Beta Pi members are invited to attend the ceremony.

Birth of Daughter Is Announced by Wheeler

Mr. and Mrs. Robert Wheeler announced the birth of a daughter, Lisa Elaine, born at Mercy Hospital on January 24. Mrs. Wheeler is a dietitian at the University of Illinois Hospital.

BOOK ROOM—The earth chorus library, as it appeared 12 years ago. Note that the bookshelves were not finished and the library was not yet named.

Tedesko Will Speak To AACE and IAEAs

A joint meeting of the AACE and IAEAs will be held at 11 a.m. in room 211 Chapin.

Senior Jewelry May Be Ordered on Wednesday

Bollard of Bollard Jewelers will be on hand in the lobby of the Student Union from 11 to 12:30 p.m. on Wednesday. He will have a display of rings, pins, and jewelry for the students to see. He will also have samples of five fine jewelry items which will be available. The prices for the rings will range from $11 to $19.

Dr. G. E. Ziegler Leaves ARF to Accept Midwest Research Institute Position

Dr. George E. Ziegler, scientific advisor of the Army Research Foundation, has accepted a position with the Midwest Research Institute.

Dr. Ziegler was called to this position because of his interest in the problems of education in the field of engineering.

 Illinois Tech Painter Dies While At Work

Edward Miller, a painter for the University, died of a heart attack while painting the windows, as it was reported.

He had been working on the windows for about a week. The attack occurred in the middle of the afternoon. He complained of pain in the left side of his chest and collapsed and fell to the floor.

Artificial respiration was administered for 30 minutes until Dr. John Holman arrived and pronounced him dead. Dr. Holman had been working next to Illinois Tech for about 12 years. Previous resuscitation was given in the following report, 2:00 p.m.

He had been working on the windows for about a week. The attack occurred in the middle of the afternoon. He complained of pain in the left side of his chest and collapsed and fell to the floor.
