Two Movies to Be Shown at Assembly Wednesday Morning

“Optical Glass” and “Industry for Health” are the titles of the movies to be shown at the 6:30 p.m. meeting of the Film Assembly. Each hour-long picture will be shown at the Illinois Tech Labor Union Hall. Sigma Chi Sigma, the International Pharmaceutical Fraternity, sponsors the movies.

The students are asked to bring aluminum cans and will be the award of a movie for the best can. The movies will be sponsored by the chemistry department.

The “Manufacturing of Optical Glass” and “Industry for Health” are a joint production of the Illinois Tech Chemistry and Chemistry departments by which optical glass is produced, patterned, and formed. A special feature is the movie of the manufacturing of optical glass; the assembly will be shown in the Labor Union Hall.

No More "Lame Ducks"

The ITSA took the first steps towards planning for the next semester at its meeting last week. It decided the exact election procedure for next semester. For once, the group has defined exactly which offices will be voted upon.

Perhaps now the ITSA will be able to hold its elections early in the semester for a change. Since it has now dispensed with some of the preliminary work, it can go and carry out the voting promptly. Every semester the old board spends a month making up the constituency of the previous elections. As a result, new board representatives stay in office several weeks longer than they should.

These delays are serious. The whole business of the semester is held up until the new officers finally get in office. Many of the student organizations have to wait for them to accept their plans for the term; thus school activities are prevented from starting promptly.

The ITSA board should empower its election committee to announce the new officers at the end of the semester. Then the voting must be carried out promptly, ending at the latest the second week before classes begin. Most of the ITSA activities will not have any time to close up on the second day of school, and they can carry out their duties promptly. If these steps are taken, part of the "perpetual insertions" of the ITSA will be ended.

Who Is Teaching What?

Program planning here at Illinois Tech has become a hit and miss proposition now that a few departments have apparently instituted a policy of not letting the names of the professors instructing some of the courses.

The registrar states that some of the instructors will have to resign from their jobs when their courses are made with the department heads. However, apparently a small number of the names will continue to be withheld. Most of these names, however, are unavailable.

Every professor and also every student has individual "quirks" in his or her personality, which should be taken into consideration. A student will find his instructor not always understanding the nature of his problems, another will find his personal and teaching methods unbearable. It is for this reason that students should be given freedom in their selection of instructors.

A procedure of omitting the names of the instructors is definitely fraught with danger. It causes confusion when students try to schedule or decide on medical changes after the term begins; leaves the student at the mercy of any opportunity. The only way to avoid this is to let the instructor in on the situation; this can easily result in a personal lowering in the student morale and efficiency—a factor often disregarded by the instructor who is many years removed from his undergraduate trainings.
LETTER OF THE WEEK

A Look At Alumni

East view of the week comes in the form of the Alumni Letter. All, from the 2,000 American and British alumnae-has been held pleasant since the fall of But- tain.

A luncheon for citizenship will be held March 10, at the George Brown of Carnet Park Co. The luncheon will be sponsored by state from Illinois. To be held on the University of Chicago. The attendance will be limited to members of the Chicago Civic Commis-

General Halland, RE '44, is new Director of the Alumni Relations. Halland is the state returned from his post as Director of Alumni Relations.

To give Larry Nelson a little practice in the handling of his 12-gauge, he takes such jambis as from Oma through Florida and then to Cuba or Puerto Ri- no and back here and back. These trips are a good size of the range of a 12-gauge.

In a recent letter from Eugene Anderson came a little note about the weather in Big Drift. Anderson says: "A rainy weather is here, but we have had very little snow to yet. The coldest weather we have had up to now is 14 degrees, but that isn't cold when compared to some of the winters. The worst thing about the weather is the wind, which in several cases has gone up to 40 miles an hour."

Contact with John Yellot from 1-L, (J.O.) Alas. Miter-

sky, also reports that the weather is very much the same as in Indiana. Last year of constant blues with an B330 W. secretary, Miss Shirley Newfield, is to quote that Yellot tells the "Well and all is well." -WILLIAM DODSON

One of the students in attendance was a student from the University of Indiana. He is the first student to attend public school from the state and the only one from any of the other sections of the United States.

According to the "Echo Weekly" from Milwaukee State Teachers College, there were no plans to visit the University of Indiana this year. It seems that the administration believes that the visits are too frequent and that they refuse to have them when the instructions to disregard them. The question is whether the instructions to have them are followed. —WILLIAM DODSON

Four IIT Wrestlers to Receive Top Awards; Four Get Minors

Coach Bernard “Bunny” Wiseman has announced that seven men on the wrestling team will receive major awards while four will receive minor awards. Most outstanding performer of the season was Captain Vic Mieszkowski who was the only man to go through the entire season uninflicted.

MAYOR AWARD: A/S Vl. March

and A/S A. Roy Repas; A/S Dan Johnson; A/S Vic Lauber; and A/S Bob Busby, manager.

MINOR AWARDS: A/B Bud

Borkin; A/B Charlie Marks; and A/B Ted Tesky.

The wrestling season for the IT squad came to a close with their last victory over Culver Military Academy. A summary of the season shown that the men won ten matches while losing three.

In their first meet the squad defeated Wheaton 8-4, only to lose to them later on 18-16 in a sudden death match. A further loss was put up by the Techhawks against the Iowa Hesstonians, the final score being 21-19.

The undefeated Illinois Tech wrestling team won the University of Illinois at Urbana-Champaign. The results of the invitational meet for the University of Illinois at Urbana-Champaign were:

1. Illinois Tech

2. Illinois State

3. University of Illinois

4. Illinois College

5. Illinois Wesleyan

6. Illinois Institute of Technology

7. Illinois Central

8. Western Illinois

9. Northern Illinois

10. Southern Illinois

11. Knox College

At half time the score stood at 18-17 in favor of the Techhawks. In the final match A/B Harry Rasmussen did not tally a single field goal. With defensive play, the Techhaws controlled the defensive backfield.

Second Half Rally

Leading at halftime, 24-23, the Illinois Tech team staged a second half rally to defeat George Williams College for the second time this season. The final result of 69-43 compares closely with the Techhawks’ previous victory over the Southern Illinois.

The Techhawks’ rally leaders included Roderick, who led the scoring with a pair of goals, and A/B Tony Williams, who led the defensive effort with a pair of goals.

At the start of the second half, the Techhawks were down by eight points but gradually closed the gap, with Roderick scoring a pair of goals and Techhaws’ goalie A/B Tony Williams making crucial saves.

The Techhawks finished the season with a record of 9-3-1, while George Williams ended the season with a 6-6-2 record.

IM Ping Pong Tourney To Be Held Next Term

The Illinois Intercollegiate Ping Pong Tournament will be held at the University of Illinois at Urbana-Champaign on March 1st.

The tournament will feature singles and doubles matches, with the best-of-three matches determining the winners. The tournament will be open to all students and faculty members.

Awards will be given to the winners of the singles and doubles events, with prizes donated by local businesses.

The event will take place in the University of Illinois at Urbana-Champaign’s Student Recreation Center, and admission is free to the public.
ITSA Adopts New Eight Term Class Treasury System

An eight-term treasury for classes was adopted by the ITSA at its weekly Monday meeting. The system will provide for a sub-treasury for both the beginning and end of the terms, with an annual total of 25% of all class funds at the end of the semester to be deposited equally among the classes.

Suggested by Speake on the analogy of banks, class funds from the bookkeeping standpoint, the idea will be the result of discussion to end up exactly as Speake had proposed. The three year period with three presidents was the cause of a division of conflict with only four elections.

Next semester the two communities will stagger the election of new officers from each class to have a treasurer and secretary, and the secretaries will be in the junior class, while the secretaries will be in the sophomore class.

The purpose of this change is to make it impossible specifically for the classes to elect two sets of officers (including president and secretary), the area for the beginning seniors to be in the sophomore class.

All class presidents will be ITSA presidents. However, ITSA members will be elected for two terms, will be the representatives for the class, as Speake and Sargent will remain for four years.

The idea was first suggested in the spring for the best possible system for administration and for promotion in the present situation. Among the faculty, Dean Gehrke was very enthusiastic for President and Secretary Labor and John Gehrke, as well as many other members of the faculty. The new system was proposed by Secretary Beeman Weisman, and the plan was used for some time during the week.

Andersen to Go to Armed Guard Unit

L. M. Anderson, former executive officer of the Illinois Tech V-12 unit, has received his orders transferring him to the Armed Guard school in Valparaiso, Ind. This transfer was revealed today by L. W. Black, assistant executive officer.

L. Anderson, who will report to the new unit on March 2, has been attached to the Illinois Tech V-12 unit since its beginning in July 1942. He is the last remaining member of the original unit of the company that attached to the unit. His replacement, L. W. Black, has been attached to the Armed Guard and will be at duty as of over a year.

Management Course to be Offered Next Term

A new course in management will be offered next semester by the PEE department on Monday, Wednesday, and Friday.

The course, numbered M 421, will deal with the organization of the corporation and of the corporation for the corporation, and of the corporation for the corporation.

Grafton to Teach Mechanics Courses

Professor E. C. Grafton of the University of Chicago will teach the mechanics and civil engineering departments at IIT next term, according to Dean James C. Baldwin.

Grafton is on leave from his teaching duties at the University of Chicago and will be at work in the spring, teaching in the civil engineering department.

No Changes in V-12 Personnel to Occur

There will be no changes in the personnel at the Illinois Tech V-12 unit at the end of this term, for those that have been named as replacements for the personnel now in the unit.

J. L. Powell, assistant executive officer, will be replaced by L. W. Black, assistant executive officer.

Approximately 450 men will be in the Illinois Tech V-12 unit next term. About 60 will be in the unit this term, and 150 in the unit next term.
