ROY MILTON'S ORCHESTRA WILL BE FEATURE OF "SNOW BALL" DANCE

The "Snow Ball" freshman-sophomore sponsored all-school dance will be held February 8 in the main ballroom of the La Salle Hotel. Roy Milton's Orchestra will play from 9 p.m. to 12 a.m. Bids will sell for $5.00 and will be sold beginning Monday, January 22.

New Dramatics Group to Form

A new dramatics group to replace the old Armour Players is in the process of organizing. The new constitution and set of officers will be presented to the ITFA at their regular Wednesday meeting this week.

DANCE HIGHLIGHTS—Band Leader Roy Milton and his Vocalist, Vivian Young, who will be featured at the Snow Ball dance, are shown above for the days up to go on proudly in front of the Armour Con. and George Williams companies present this week.

Schommer Expects No Law Forcing 4F's Into War Plants

"I do not contemplate any law compelling 4F's or 1AI's at 1IT to quit college and go to work in industry," said John J. Schommer, Solicitor General of the United States, in regard to the recent talk about the country, largely circulated by Assistant Attorney General John H. Ruby, of the FTC, about 4F's plan to draft for the draft up to go on proudly in front of the Armour Con. and George Williams companies present this week.

Honor Banquet Plans Revealed

The annual ITFA honor banquet will be January 24 in the Brown Hall Ballroom. Invitations will probably be sent out Wednesday. Because of the reduced ITFA budget this year, the guest list has been limited to 100.

The list as supplied by A.J. John Wright will include President Henry T. Brooks, John J. Schommer, Dean James C. Pfeiffer, Dean Charles A. Thibadaux, Dean Ernest T. Walker, class officers, presidents of fraternities and sororities, the ITFA faculty and other notables, in addition to the honored athletes.

The last honor banquet was held in January, 1944. Warren Brown of the Chicago Sun was guest speaker.

Veterans' Administration Now Grants Full Benefits to Students in College

The Veterans' Administration will pay both benefits of disabled veterans and disability pension to deserving veterans. This statement was made by Vice-President Bernard Kalmus at the ITVA's meeting last week.

In the past the Veterans Administration was deducting the disability pension from the benefits. Consequently, disabled veterans attending school under the "GI bill" were not receiving their actual benefits.

With a more liberal interpretation of the law, the Administration is now paying both benefits. However, those who wish to receive their actual benefits must apply to the VA for an increase in benefits (at least $50.00 a month). Kalmus emphasized that the VA is constantly adjusting its benefits for all disabled veterans.

Date Changed for Junior Winter Stag

The date for the junior class Winter Stag was changed to January 19, 18, and 17. The change was made to accommodate some junior varsity games which will be eaten up as far as the space goes. Then why disrupt us by adverse criticism?

Schmidt Elected As Head of Freshmen

The freshmen have selected E. Frank Graham as vice-president and I. R. Babcock as secretary of the freshmen. Schmidt will take the place of Ralph McCracken who has left for the Coast Guard. Approval has not yet been obtained from the ITFA.

At a previous meeting the officers were elected by the freshmen. Schmidt will be the new head, Babcock will serve as secretary, and Graham as treasurer. Schmidt has been active in many campus organizations and is well known to the freshmen.

Two Yearbooks Scheduled to Appear In 1947; First Will Be Issued Next Month

According to plans being carried out at Illinois Tech, there will be two yearbooks in 1947. This compares with no books which have been issued in the last two years.

The first book to come out will be for the school year 1946-47. The second will be for the school year 1947-48. The two books will be issued in May and June, respectively. The price of each book has not yet been determined.

The following copy of the yearbook was originally published in the June, 1946 issue of The Illinois Tech. This issue was non-technical and contained mostly articles of general interest.

Roy Milton's Orchestra Will Be Feature of "Snow Ball" Dance

The "Snow Ball" freshman-sophomore sponsored all-school dance will be held February 8 in the main ballroom of the La Salle Hotel. Roy Milton's Orchestra will play from 9 p.m. to 12 a.m. Bids will sell for $5.00 and will be sold beginning Monday, January 22.

Making Resolutions

Two departments of IIT which merit special praise for their work are the engineering department and the department of language and literature. Their staffs have done exceptionally good work in teaching the students and in promoting the best interests of the Institute.

Under the chairmanship of Jesse Hobson, the new director of the Armour Research Foundation, the electrical engineering department has greatly increased its output, and the demand for engineers is now so great that many of them are still unable to find adequate work.

In many engineering colleges non-technical subjects are given little or no attention. Such colleges have no time to concentrate on the most important subjects. IIT has a system of extra-curricular activities which are not only good for the students but are also very beneficial to the Institute.

IT is well known that the engineering career is one of the most lucrative in the world. A person who has a good engineering education will be able to make a good living in any country.

Deserving Praise

It has been said that “New Year's resolutions like love are made to be broken.” However, there are a couple of potential resolutions that Illinois Tech students might do well to make and keep.

A pledge by everyone to do his part in this war effort, not only a little more efficiently and enthusiastically but also a little more constructively, is surely worth the effort. If every student will work in a war plant or “just go to school,” a great deal toward bringing the world's strife to a successful conclusion can be achieved.

This school, being a school of engineering, offers a pledge to “dig in” and work a bit harder. It is therefore a pledge that would be well worth the effort.

Robert Sweiger is a Leader in Scholarship and Activities

Robert (don’t tell me his middle name is Cecil) Sweiger ranks among the highest in scholarship and is an officer in the Armour division of IIT. After graduating from Armour with a degree in Mechanical Engineering, Bob entered the Armour division of IIT in 1951 as a mechanical engineering student.

Upon his return to IIT, Bob was elected to the Armour and was stationed at Fort Bliss, Texas, for six months.

Upon his return to IIT, Bob was elected the vice-president of the Alpha Sigma Phi fraternity after serving the term as its secretary.

Bob is also the secretary of Pi Tau Sigma, honorary fraternity for mechanical engineers. He was elected to the office of the fraternity after a successful campaign as the secretary of the National Society of Engineers. He has served as a member of the American Society of Mechanical Engineers and as a member of the American Society of Civil Engineers.

As to his own future, Bob wants to enter the professional life after completing his education. He is considering going into the field of mechanical engineering and is currently working towards the degree of Bachelor of Science in Mechanical Engineering.

R. Lewis Davidson

...and Today What?

By Henry P. Green

Corby said "The true university is a collection of books." This statement certainly applies to IIT when the new campus is completed. The student body and faculty are looking forward to the day when the library will take on its new appearance.

This library will be placed in the new administration building. The original books will be made up of a combination of the Lewis and Armour libraries. The size of the library, determined by the size of the Armour and Lewis libraries, should total 100,000 books. From Armour, 80,000 would be contributed and from Lewis 20,000.

This combination should work out well since the larger part of the Armour books are technical while those from Lewis deal mostly with liberal arts. The library would grow to be one of the largest technical libraries in the country. However, if it is compared with Harvard with 3,000,000 volumes it is quite small.

The library will have to plan for its periodicals. In Chicago the John Crerar Library has a very large collection of such publications. It is important that the library have a collection of these periodicals to suit the needs of the students.

Concerning the physical appearance of the library I would like to say that the design is a beautiful one. It is of the modern style and is very attractive. The interior of the building will be lined with polished wood and will have a very pleasant atmosphere.

In addition to the library there will be a small reading room of the lounge study room. These rooms could be used for discussion purposes and also would provide a place for students to have private meetings with their professors.

The staff of the library will have to be greatly enlarged. It will be necessary to have enough staff to keep the library open all hours. The present staff consists of a librarian, two assistants, and two clerks. It is expected that the staff will be increased to five or six clerks and two assistants.

The library will open at 8:00 A.M. and close at 10:00 P.M. The hours will be extended during exam periods to accommodate the students.

...
LETTER OF THE WEEK: Power of Honor Board

Every week, the Honor Board, which has been publishing the results of its investigations, almost always finds that a student has committed an offense. A man caught cheating is given an "F" in the course. An athlete who is caught on the field with a stolen ball is punished, but not for possessing it. It isn't the purpose of the board to see that the rules and regulations of the Honor System are carried out but to inform students of a few of theidan and encourage other students to do the same.

The practice of disciplining an athlete who isn't a member of the individual team is, I'm sure, the policy of the foundations. I don't know whether a few names of some of the above punishments issued by the board.

For the truth the man who violates the honor system is really punishing himself at the same time; for after all is the purpose is not to quash a man with sufficient knowledge to be able to do the same again? The only true method of curbing cheating and stealing is to know that the honor system is being carried out.

LOUIS SAMSON

Cigarettes

The Student government only sells cigarettes within two hours. My point is that I wish to be in the individual team. I'm sure the student body is aware that getting cigarettes is the only way to get cigarettes. Why don't you go somewhere else to buy them?

The student body, as the new president, should be aware that the honor system is being carried out.

A young man was caught smoking the cigarettes of his father. He was asked if he knew the man.

AYE WALLACE, Senior Mechanical

In my opinion, it is not a good idea to work on a car during the day. It is a lot easier to do so when you are not actively engaged.

The green boy was caught smoking during the day. For very important reasons.

STANLEY WEHRLE, Freshman Electrical

The most important part of a mathematician's work is to have a good knowledge of the mathematics of teaching. I say this because it is a fact that an athlete who has a good knowledge of mathematics can do very well in the field of teaching.

If a woman were given the credit she deserves, man wouldn't be as consumer driven as they are today. Therefore, if a man were given the credit he deserves, they would be much less consumer driven.

Wrestlers Plan Future Meets

Although the IIT wrestling squad lost to the Iowa State and Wisconsin last week, they are now working hard and plan on winning their remaining matches.

According to Coach Moe, the team is making good progress.

Senior Civils, Chems Win in IM Basketball

Two games were played in the intramural basketball tournament last week. The game was won by the seniors, who received a total of 132 points and 34 personal fouls. The Chems also received a total of 112 points and 24 personal fouls.

Halfway

Navy Basketball Openers Rough

Forecasting the type of play that will do so dominate the navy basketball tournament, Quartermaster I would like to see a game against the varsity squad.

Two Games Feature IF Basketball Opener

On February 14, 1940, the annual IFTA Honor Banquet will be held at the Stevens Building restaurant. This banquet will be twenty-sixth banquet given by the student body in honor to those who have achieved recognition in their respective fields. The banquet will start at 6:30 p.m. and end at 9:00 p.m.

On January 31, 1632, the annual IFTA Honor Banquet was held in the Stevens Building restaurant. This event was attended by several hundred students and was sponsored by the IFTA. The banquet was held in honor of those who have achieved recognition in their respective fields.

Senior Compete in Track Meet

A total of 106 participants, including 30 from the Chems, will be in attendance at the Indiana College of Technology track meet on Friday and Saturday. The meet will be held on the campus of Indiana College of Technology. The meet will be sponsored by the IIT track team. The meet will be held in the IIT track and field facilities.
Juniors Sleigh Ride Saturday

The sleigh ride sponsored by the glee club was held on Saturday night at the Union. The sleighs standing in line to the northwest corner of the Union were loaded with Junior and Sophomore women. The race started at 8:00 p.m., and the sleighs were drawn to the Willow Dell, where refreshments were served.

Ticket sales were taken by the glee club. Tickets cost 50¢ each and were available at the door. No advance tickets were sold. Cookies were provided for the passengers.
Dr. Heald Speaks at ESMWT Graduation

Dr. Henry F. Heald, president of the college, spoke at the graduation exercises of the war training program at Bradley Polytechnic Institute, Providence, on December 21. Fillmore Van Deusen, the chief of engineering, science, and management in the training program spoke for the United States Office of Education at schools throughout the country.

Dr. Heald has served since the beginning of the SMWT program at all schools in the region No. 14.

Lewis Tinsley Leaves

The only twins on the Lewis family, brothers, are leaving this Thursday for Korea. One of the Tinsley twins is Francis, another Lewis, a third Paul, will leave with them.

New Pi Tau Sigma Actives

SCHLACK--Recently installed in Pi Tau Sigma, national honorary fraternity of mechanical engineers, were: standing (left to right) A. A. Janse, M. Powell, and R. A. Johnson; sitting, Richard Meyers, seated on A. F. Marson, John Nodak, and John Schuller.

Naval Notations

Quarters #1

The incident is that at George Washington, Ohio, last week two young men were injured in a fight.

One of the men lost a tooth. The other was injured in the head.

Quarters #2

Reporting returned to quarters after Christmas, the following officers were present: George Washington, Ohio.

Quarters #3

The officers present for the Christmas vacation were: Karl, the president; E. J. Martich, the secretary; and the officers.

Quarters #4

The officers present for the Christmas vacation were: Karl, the president; E. J. Martich, the secretary; and the officers.

Quarters #5

The officers present for the Christmas vacation were: Karl, the president; E. J. Martich, the secretary; and the officers.

Quarters #6

The officers present for the Christmas vacation were: Karl, the president; E. J. Martich, the secretary; and the officers.

Real Beds Are Available for Use by Sleepy Students on Both Campuses

Although many students have often wondered how wonderful it would be to have beds at school, the truth is that there are beds at Fillmore Tech.

Upon leaving the Armour College dormitory, sleepy students may visit their friends on one of three beds which are located in the rear of the Student Union Building. The room is usually locked, but the keys may be obtained from the dormitory staff.

The beds are located in the Sanborn Street Hotel in the 5th floor. About a half dozen beds are available and the keys may be had from "Davy" Mosteller, who is in charge.

Students Invited into Phi Lambda Upsilon

The initiation of pledges into Phi Lambda Upsilon, honorary chemical, was held yesterday afternoon.

Many students were present in the Phi Lambda Upsilon room for the initiation.

A Welcome Hand to Bell System War Veterans

Some day we shall have the pleasure of welcoming back to the Bell System the men and women who are now in the armed forces.

We shall be glad to see them personally, glad of their skill and energy for the big tasks which face the Bell System in the future.

Trained men and women of vision and energy will always be required to build and maintain this country's nation-wide telephone system - and to provide the best telephone service in the world.
