Two Movies to Be Shown Wednesday
Pigs are Pigs

The home economics laboratories has earned for themselves a well-deserved title of the cleanest and brightest place at Illinois Tech. Few parts of the school can challenge them in that respect.

In fact, the competition seems to be for the right to be awarded the title of cleanest place at the Institute. At least outside a reminder of the cleanliness of the laboratories in classrooms on the south campus is seen under the influence lying, especially near "No Smoking" signs and other indications of lack of注意到 and appreciation by the students, seem to be the accepted state of affairs.

Most of this can be blamed directly on the students. It seems that many of them have little interest in or concern for the cleanliness of the laboratories, and that they are unappreciative of the efforts of the students. In other words, the students, a good number of which are uninterested in the cleanliness of the laboratories, seem to lack the interest and appreciation shown by the students in other parts of the school.

In 1950, a question was asked of the students, and the answer was an unqualified "no." It turns out that the question asked of the students was whether they believed that the laboratories were clean.

The students were divided in their opinion, with some saying yes and others saying no. However, when asked if they would be willing to clean the laboratories if they were given the opportunity, the majority of the students said yes.

The laboratories were then cleaned, and the results were impressive. The laboratories were transformed into clean, well-organized spaces that were both functional and aesthetically pleasing.

In conclusion, while cleanliness is important, it is clear that students need to be educated about the importance of proper maintenance and respect for their surroundings. By promoting a culture of cleanliness, we can ensure that the laboratories remain a clean and pleasant place to work.

Man Of The Week

Lewis Davidson Ranks High

As Illinois Tech Supporter

Lewis Davidson has been a long-time supporter of Illinois Tech, and his contributions have been recognized with a prestigious award.

Lewis Davidson was presented with the Illinois Tech Medal of Honor by the board of trustees. The award is given in recognition of Davidson's support of the university, and he was presented with a certificate and a medal.

LETTER OF THE WEEK: Forays Physical Training For All

Six months ago, I left YIT at the start of Uncle Sam's first few weeks to make my feelings toward the war and the world in general for interrupting my education.

This attitude has been offset by events that have taken place in the Navy. One must be trained in physical punishment, to the feeling that having the battle of your life, and the battle of your life, the marines and the infantry are facing, is frightening. I read about it in the column where an IIT student suggested a complaint about the conditions of the war, and I used to be in the same degree of physical terror I am now.

As a civilian I was always assured that there would be no sympathy from the people. I now know that this is not the case. I know that the people would do anything to help the people.

Lessons Learned

Illinois Tech Vets

It was in the crucial first year of the war, when the Army's first guns were fired, that Miller helped design and manufacture the 5-inch gun. He volunteered for the army immediately, and was assigned to the 3rd Armored Division, which was sent to France in 1918.

After learning about the history of the 5-inch gun, I decided to write a paper on the project. I was able to find a lot of information about the gun and its development. I read about the first gun, the 5-inch gun, and the 5-inch gun that was used in the First World War. I also read about the development of the 5-inch gun and its impact on modern warfare.

Last Minute Rally Enables Techhawks to Defeat McCoy

Honor 1 Plans Radical Change

NICK PUSHER—Three members of ITT hockey team are shown during a recent practice session. Their first game will be with the Marquette Saturday.

Rifle Team Wins Three Matches While Losing One to New York

IM Bowling Tourney To Be January 28

New York University

The Tech rifle team recently won matches from the Roos, the University of Missouri, and State University. They are expected to meet with the Roos, the University of Illinois, and New York University. Jack Schmidt said that these three wins and one loss would have the Tech in the running for the national championship.

The Tech team consisted of five shooters, with the Tech leading 1797-1776, or by a margin of 21 points. New York University was by only 11 points, both teams shooting very good scores. The results were: New York University, 1797; Tech, 1786; University of Illinois, 1776; and Tech, 1765.

By HARRY KOST

The present personnel of the ITT Tech wrestling team is a good one, with the exception of the big-time athlete teams being kept busy with big-time matches. At the beginning of the season the usual matches were with Tech, the Big Ten. The Big Ten season was one of the best in the history of Tech wrestling. Before the Big Ten season the Tech team was ranked 17th in the United States, and after the Big Ten season it was ranked 12th. The Tech team has been working hard throughout the season to get its team ranked in the top ten.

For the Tech team to rank among the top ten teams, they will have to be able to compete with the best teams in the country. The Tech team has been working hard throughout the season to get its team ranked in the top ten.

Newly Organized SAM Chapter to Make
Extensive Tour of Steel Plant Today

Activities of the newly organized chapter of the Society for the Advancement of Management, a nationwide student-membership organization, will get under
way this week when the members of the SAM at the University of Iowa chapter bring off their fall tour of steel plants.

Next month the chapter will have a luncheon in Hoyt's Restaurant, featuring a speech on "Steel and the American economy." The exact date and speaker have not yet been decided.

The SAM at the University of Iowa is an organization of international engineering societies comprised of chapters of both handicapped and student members. The purpose of the chapter is to advance the program of business management through regular meetings and student group activities.

In addition to the meetings, field trips, and headquarters meetings held at the Illinois Tech student chapter, the chapter holds a meeting on Wednesday nights in which student members have the opportunity to participate. These meetings are also attended by students and professionals from all over the United States.

The chapter is open to students in the engineering field and to professionals who are interested in the management and control of engineering activities. Dean, H. L. Digest is the chairman of the chapter at Illinois Tech.

Students Requested to Call for Lost Articles

The lost and found bureau sends out a request to all students to claim any items of their belongings that may have been lost.

Many articles are waiting to be claimed. Articles of small value are kept for two weeks, while things of large value are kept for a longer period of time. Among the items found are several small articles that should be claimed by their owners, if they are not claimed soon, they will be destroyed.

Mr. Peterson of the department of lost and found is in charge of the department. He will make sure that any articles that are still missing will be claimed by their owners. He requested all students to come to the main office to claim their belongings.

Dean Walker Will Speak at McKinley High School

Dr. Robert Walker, acting dean of the Lone Wolf clubs, will speak at the Primrose group meeting at McKinley High School on the subject of "The Right of a Student to Freedom of Expression."

His topic will be "Freedom and Fraternities & Sororities"

Helding Appointed To Pi Kappa Office

A pledge's named scholarship will be awarded to the student who is chosen as the "Outstanding Senior" at the university. The winner will be announced at the annual banquet.

Goldman selected as SAM Alumnus of the Year

Howard Goldman, top 50, recently elected to the office of chairman of the University of Illinois Alumni Association, according to a 248 Bob Leppert, president of the University of Illinois Alumni Association, will fill the unexpired term of William Bissell, who has just entered the service.

Goldman's new position was announced by the chairman of the SAM at Illellinois. He served as chairman for six years and is a member of the new north campus.

Plants for Triangle Party Made by Keci

The Trinity social club plans to have a night out on January 25. The party will be held at the Trinity Club, 201 E. Sixteenth St. Tickets are on sale at the club.

Rushing Smoker Will Be Held at Treve XI

The Rushing Smoker will be held at the University of Iowa campus on February 3. The Treve XI has been selected as the host for this year's Rushing Smoker.

It's great to be here...Have a Coca-Cola
NAVAL NOTATIONS

Quarters #1

L. L. Johnson paid a visit to his home in Chicago last week. Bill Bond is having his troubles, too, but only the girl of his dreams, it seems, is his problem. He says Q. C. Rahaim's daughter turned out to be just a regular girl and a real relief, really.

Quarters #2

Fred Tefft, formerly of Quarters #2, paid a visit to the College last week. The quarters are completely empty, but not necessarily for the best. Bill Bond was there, and he took the opportunity to knock off some of the dust from the old quarters.

Quarters #3

The quarters have been knocked down and the furniture removed. The College is planning to use the space for a new library. The former occupants are looking forward to the change, as the quarters were rather cramped and outdated.

Alpha Chi Sigma to Hold Initiation Ceremony

The Alpha Chi Sigma fraternity at the University of Wisconsin will hold its initiation ceremony on February 10. The ceremony will be held at 8 PM in the campus center. All members are encouraged to attend.

Quarters #4

Edward Kramer is having trouble with his quarters. He says they are not as he expected, and he is considering moving to a new place.

Quarters #5

Quarters #5 again appears to be in good condition. However, the price is a bit high, and the location is not ideal. Overall, the quarters are a good value for the money.

Alpha Chi Sigma to Hold Initiation

The Alpha Chi Sigma fraternity will hold its initiation ceremony on February 10. All members are encouraged to attend.

Quarters #6

William Purslow, chairman of theBreaking News Committee, is pleased with the progress of the committee. He says they are almost ready to announce the winners of the competition.

Freshmen Plan to Hold Closed Social

There will be a closed social event for freshmen this weekend. The details will be announced later this week.

Cafeteria Refrigerator Gas Leak Reported

There has been a report of a gas leak at the cafeteria. The gas has been detected and is being removed. All students are advised to stay away from the area.

Navy Ball Not to Take Place Until Next Term

The proposed Navy ball has been postponed until the next term. The details will be announced later this week.
