Pleased and privileged to announce "Basketball Week" and to know several beautiful girls on the north campus. If you girls will contact the editor of this column, you will be given a chance to rid yourself of your burdens. Also, if any fellows on the campus are troubled by a girl who is just being a pest and stalking them, she will be called in and pruned at no charge. For $40 each, you can also have your own private column. Just write to me, and your problems will be solved. You have nothing to lose and a lot to gain. Just pick up the phone and we'll do the rest.

Man Of The Week
W. Parisoli, Chem. Eng. Major, To Work On Doctorate In July

It has been said that travel is educational; this being true, William Parisoli, senior chemical engineer, began his education at the age of two while making a tour of Europe with his parents. He continued his education in Chicago elementary schools and later in Beloit College where he studied in the Holt and Kimble libraries.

Upon his graduation from Beloit, Bill entered at ITT. He was Alpha Chi Omega professional fraternity. Upon graduation, he served as president of the engineering fraternity of his senior year. He was a member of the American Institute of Chemist Engineers. He is now an engineering assistant at Illinois Bell. He is an active member of the AIEE and the radio club.

Honorary Fraternity

Why is it that some of the honorary fraternities at Illinois Tech have been doing while others have not? One would ordinarily think of an honorary as a natural organization whose memberships are reserved to those who have shown outstanding ability in their line of study. Yet, one doubts this after the treatment these societies have received.

Hazing might be the proper treatment for freshmen pledging into a social fraternity, but an honorary is an adult organization. The pledges should be treated as men. There is no reason why the honor societies should follow the procedure of the social fraternities.

Honorary Bonding
Henry Barrett, Instructor in Electrical Engineering, has been appointed head of the Electric Power Laboratory at ITT.

His experience in the electrical engineering field is wide and varied. He has held a number of positions in the electrical field, including that of assistant professor of electrical engineering at the University of Illinois and assistant professor of electrical engineering at ITT.

Barrett's work has been recognized by the American Institute of Electrical Engineers, and he has been awarded a number of professional awards. His research has contributed significantly to the field of electrical engineering, and he has published numerous papers in reputable journals.

Barrett's appointment as head of the Electric Power Laboratory at ITT is widely viewed as an important step in the advancement of electrical engineering education at the institute. His expertise and scholarly contributions will undoubtedly help to further the goals of the laboratory and of the institute as a whole.
Hope... for women

W.A.A. (Women's Athletic Association) D سريع

Lately, the board of the W.A.A. has been in a meeting with the President, Mrs. T. H. Peters, to discuss the future of the organization. The meeting was held on Monday night at the school. The President expressed her desire to see the organization continue and asked for suggestions on how it could be improved. The meeting was attended by several members of the organization, including the President, Mrs. T. H. Peters, and several other students.

In the meantime, the board has decided to hold a meeting on Tuesday night at 7:00 p.m. in the school library to discuss the future of the organization. The President will be present to answer any questions or concerns that may be raised.

If you have any questions or concerns about the organization, please feel free to attend the meeting. The meeting is open to all members of the organization and those interested in joining.

—W.A.A. President

DAVID PHILLIPS was elected valiantly to his second term as Students' Council president.

The campaign for the presidency of the Students' Council was intense, with numerous candidates running for the position. However, David Phillips emerged as the clear winner, receiving the most votes and being declared the new president of the Students' Council.

Phillips began his campaign by reaching out to students and organizations across the campus. He emphasized his vision for the future of the Students' Council, promising to bring new ideas and initiatives to the organization.

During the campaign, Phillips faced a number of challenges, including criticism from some students and faculty members. However, he remained focused on his goals and continued to work hard to win the support of the student body.

The victory was a significant achievement for Phillips, who will now lead the Students' Council for the next two years. He plans to use his time in office to address the needs and concerns of the student body and to work towards a brighter future for the campus.

—W.A.A. President
Pledges to Honor I Expound on Stellar athletic qualities

As one of the duties of Honor I pledge, I have written this speech which is intended to justify how good they were to all who were present.

"Upon being pledged in this honor and upon the advice of our commander, I will now explain why you should accept the pledge."

Illinois Tech Baseball Squad Defeats Shore Patrol Nine, 9-0

Evers allows 5 hits for third win; Strehlow and O'Garey leading Tech batters.

Unleashing a 14 hit assault on opposing pitchers, Illinois Tech defeated the Shore Patrol five runs to one at 9:00 last Saturday at Ogden Field. Gene Evers went all the way for Tech and allowed only 5 hits and 3 walks. He also contributed to the victory by hitting a home run in the third inning.

Senior Mecks Best House 5

Stevens of the senior class, last year's pitcher, staged a great victory over the quarters 5 runs to 0. Murph, who was the pitcher, faced 29 batters and did not allow a single hit. Several hits were made against him, but they were all cut off in time and theout was made in time.

Baseball Co-Captains

II. Tech Vets Will Meet to Plan Party

The Illinois Tech Vets will hold a special meeting at 6:00 p.m. on Wednesday, May 10, for the purpose of planning a party. The organization, which includes all veterans interested in the event, will be held during the first week in June, but the exact date and place has not been decided.

The Tech Vets are planning a party and because the club is with the support of a majority of the veterans, they have already secured commitments from all interested parties.
Summer Term Courses Added

Courses will be held in the summer term at the 15231 Eagan, Illinois campus, which is located on the campus of the Illinois Institute of Technology. The courses will be held Monday through Friday, from 9:00 a.m. to 12:00 noon. The cost for each course is $250.00. For more information, please contact the 15231 Eagan, Illinois campus, 312-477-6515.

BON Members To Reorganize

Plans for the reorganization of the Bon Omega Nu, the IIT chapter of the Bon Omega Fraternity, are pending. A meeting will be held at 3:00 p.m. on Wednesday, May 11, in the Bon Omega Fraternity House. All members are encouraged to attend.

Bill Rathers to Play At Fraternity Ball

Bill Rathers, the new president of the Bon Omega Fraternity, will be playing at the fraternity ball to be held on June 26 at the Bon Omega Fraternity House. The ball will feature dancing, refreshments, and a prize drawing.

Fraternalities & Sororities

A new national sorority for women has been established. The sorority will be open to women of all races and ethnic backgrounds. The sorority will be located at 15231 Eagan, Illinois.

Chi Epsilon Awards Banquet at Stevens

The Chi Epsilon chapter of the engineering fraternity will be holding a banquet at the Stevens Hotel on Friday, May 19. The banquet will feature speeches, a keynote address, and a social hour. The banquet will begin at 6:00 p.m. and will conclude at 8:00 p.m.

Automotive Lab Has Three New Inclined Monometers

The automotive lab at the Illinois Institute of Technology has three new inclined monometers. These monometers are used to test the performance of various automotive components. The lab uses these monometers to test the performance of various automotive components.

Theo XI Pledges 8 Plant Sports Program

Theo XI has pledged 8 plant sports. The program will include football, basketball, and track. The program will begin on September 1.

Jaroffsky Will Head Rho Delta New Term

Jarroffsky will be the president of the Rho Delta chapter of the Rho Delta fraternity. He will be joined by a group of new students.

Enid Furst Guest At Alpha Sig Meeting

Enid Furst will be the guest speaker at the Alpha Sigma Phi meeting. She will be speaking on the topic of women in science.

Name Tom Feehey

Name Tom Feehey was elected pledge captain at a recent meeting.

Back To The Future

Back to the Future, a new science fiction film, has been released. The film is set in the year 2015 and follows the adventures of a Marty McFly.

Buckner Cup Hahn-Term Scholarships

The Buckner Cup Hahn-Term Scholarships are awarded to students who have shown excellence in their academic work. The scholarships are administered by the Buckner Foundation.
Whiting Corporation Inaugurates Engineering Scholarship at IIT

Looking toward the tremendous need for trained engineers which will arise in post-war industry, Harvey H. Hammond, President of the Whiting Corporation of Harvey, Illinois, today announced the establishment of a $35,000 Whiting Scholarship Fund for the use of the IIT.

Dr. Hammons gift to the Institute of Technology is $20,000, a gift to be used largely for scholarships to students of the Institute in engineering, architecture, and related fields. The balance of $15,000 will be used for other scholarships, such as a fellowship for a graduate student in the Department of Mechanical Engineering, and for the support of a faculty member in the Department of Chemical Engineering.

Navy Dental Office

To Be Established

At IIT in Few Days

A n army dental office will be set up at IIT for the training of dentists within the next few days. Under the direction of the IIT Department of Dentistry, the office will be located in an existing office of the Institute. It will have complete dental equipment, including X-ray machine and all other necessary facilities.

Phil Lambda Upsilon

Pledges Seven Men

Seven men have recently been pledged to Pi Lambda Upsilon, chemical and metallurgical engineers, by the Institute of Technology, according to Dr. J. W. B. Stelz, the IIT Department of Dentistry.

Landry Plans Formation

of ARF Sports Groups

Landry, W. H., of the Armour Research Foundation, has been appointed by Dr. J. W. B. Stelz, chairman of the Institute of Technology, to organize a student group in the field of chemical engineering.

Tutors Move To New Office

Dr. Charles E. Harris, Acting Director of the Technical and Non-Technical Tutors, announced today that the new office for the tutors will be located in the structure adjacent to the main building. This move will be made by April 1, 1945, and the new office will be open for business.

Gas Institute Searching For Better Fuel Gas From Coal

The Gas Institute of Technology is working on the problem of developing processes for the production of coal gas which can be more efficiently and cheaply from coal. Gas produced by the water coal reaction method is currently being used for heating purposes, but the new process will be used for other purposes, such as for the production of synthetic fuels.

SUNKIST PIES

Are Served Exclusively In The

IIT Cafeteria

Sunkist, the world's largest producer of citrus fruits, has announced that Sunkist Pies will be served exclusively in the IIT Cafeteria. This move is part of a larger program to promote the consumption of citrus fruits among the students.

High School Students to Try for Scholarships

One hundred and twenty-five high schools, who have been invited from Chicago schools or universities, will participate in the selection process for the IIT Scholarships. The selection process will be conducted by the Institute of Technology.

Historical Documents Are Rediscovered in Library

Documents of historical importance have been discovered in the library of the Institute of Technology. These documents include early drafts of the Constitution and the Bill of Rights.
