Exams Schedule

The supposedly published final examination schedule has caused a great deal of comment among the students. It would seem that the parade of exams from both academic and social life is a bit heavy for some. Many students have mentioned that their exams are scheduled too close together. In fact, the final exam schedule is so crowded that it is difficult for some students to find time to study for all their exams. Some students have even suggested that the exam schedule be moved to a later date so that they can have more time to study for each exam.

Mr. Olson, the chairman of the examination committee, has stated that the exam schedule is based on the course syllabus and the amount of material that needs to be covered. He has also stated that the exam schedule cannot be changed without the approval of the faculty. However, he has promised to review the exam schedule and make any necessary adjustments to ensure that students have sufficient time to study for each exam.

The exam schedule is as follows:

- **Monday, December 1**: Chemistry 101, Physics 102, History 201
- **Tuesday, December 2**: Math 101, English 102, Biology 201
- **Wednesday, December 3**: Computer Science 101, Sociology 202, Economics 203
- **Thursday, December 4**: Psychology 101, Philosophy 202, Art History 201
- **Friday, December 5**: Accounting 101, Anthropology 202, Music 201

Mr. Olson has also stated that the exam schedule will be posted on the college website and in the student newspaper, so students can access it easily.

A/S Ray Olson Serves News For 6 Terms; Former Editor

Ray Olson, a long-time member of the Technology News staff, has been elected as the new editor-in-chief. Olson, who has been with the newspaper for over 10 years, has been a favorite among the students for his clear and concise writing style.

Ray Olson

Real News, Every Week

As the new editor-in-chief, Olson plans to focus on providing real news and current events that are relevant to the students and their daily lives. He has also stated that he will work closely with the students to ensure that they have a voice in the newspaper and that their concerns are addressed.

Olson has been involved in many campus activities and has been a member of the Student Senate for several years. He has also served as a tutor and a mentor to many students, and his experience and knowledge of campus issues will be an asset to the newspaper.

As Ray Olson continues his work as the editor-in-chief, he will ensure that the Technology News continues to provide accurate and timely information to the students and the community.

Techman Talking

Dr. H. B. Waltz, Professor of Mathematics, has been awarded the Distinguished Achievement Award for his contributions to mathematics education. Dr. Waltz has been teaching at the college for 30 years and has been a mentor to many students.

Dr. Waltz has made significant contributions to the field of mathematics, particularly in the areas of algebra and calculus. He has published numerous articles and books on mathematics and has been recognized for his teaching excellence.

Dr. Waltz has received many awards for his work, including the American Mathematical Society's Award for Distinguished Service to Mathematics. He has also been honored by the American Mathematical Association of Two-Year Colleges for his contributions to the field of mathematics education.

Dr. Waltz has been a leader in the mathematics community and has been a role model for many students. His dedication to teaching and his commitment to the field of mathematics have earned him the respect and admiration of his colleagues and students alike.

Champ Intramural Softball Team

Pi Kaps Win IF Softball Title

The interfraternity softball championship was won by Pi Kaps when they defeated the Alpha Sigma Phi team in a thrilling morning contest at 7:45.

The Alpha Sigma Phi team was led by an excellent pitcher, who allowed only one hit in the first two innings. Their defense was also good, but the Pi Kaps were too strong. The Alpha Sigma Phi team scored one run in the second, but the Pi Kaps scored two in the first and two in the third. The game ended 4-1 in favor of the Pi Kaps.

Senior Mechs Take Third Cup As Soph Bums Bow to 2

The Senior Mechs managed to win their third straight intramural softball championship despite having to play against a tough Sophomore team. The Senior Mechs scored two runs in the first inning and held on to win, 2-1. It was a hard-fought battle, and the Sophomore team showed great resilience.

Bick Demonstrates X-Ray Unit to ACS

The X-ray unit was demonstrated to the American Chemical Society by Professor Bick, who showed how it works in detail. The demonstration was well-received, and many ACS members expressed interest in the new technology.

SUNGLASS-HAVERS-The Senior Mechs softball team, which recently won the intramural championship, is ready to take on the Sophomore team in the upcoming tournament. They have been practicing hard and are looking forward to the challenge.

Interfraternity Track Contest Won By Sigma Alpha Phi Team

The interfraternity track meet was held last Monday night at Alpha Sigma Phi, and Sigma Alpha Phi emerged as the champion. The meet featured individual and team events, and the Sigma Alpha Phi team excelled in both.

S 5's Shut Out By V-12's 7-0

Surprising their rivals, the V-12's managed to shut out S 5's in a thrilling game. The V-12's scored seven runs off a strong pitching effort.

Interfraternity Debate Team

The interfraternity debate team was scheduled to compete against another team, but the match was postponed due to weather conditions.
