Former Head

Pi Delta Epsilon Elects Officers For New Term

Journalistic Honorary Society Completes Plan For Current Semester

As its monthly meeting, the following officers of the IIT chapter of Pi Delta Epsilon, national journalistic honorary society, were elected by the members present

President: A. R. Benson, editor of Illinois. News
Vice President: A. S. Boice, editor of Illinois. News
Secretary: A. T. Doane, junior
Treasurer: A. T. Doane, junior

Dr. Benson, the president, called the meeting to order and proceeded to explain the purpose of the society. It was decided that the society would hold a meeting every month and that the officers would be elected by the members present at each meeting.

Colbert Named FSC Chairman

Succeeds Winston As Committee Head

Professor W. C. Colbert, of the physics department, has been appointed chairman of the freshman scholar committee. This is a new position which was created to help freshmen adjust to college life.

The committee will be responsible for organizing freshmen activities, providing guidance for freshmen, and helping to create a sense of community among freshmen.

Ask Mothers To IIT Concert

Invite 7500 to First Affair for Mothers

More than 750 invitations have been sent to Chicago area mothers of IIT students inviting them to an annual spring concert of the music club to be given Friday at 11:00 a.m. in the auditorium. The concert will feature music by local and national composers, and will be conducted by a well-known conductor.

The concert will be followed by a reception where mothers can meet their children's friends and other mothers from different backgrounds.

Medical Arts Guild to Hold Picnic at Brookfield Zoo

The Medical Arts Guild will hold its annual picnic at Brookfield Zoo on May 3. The picnic will feature games, music, and food, and is open to all members of the Medical Arts Guild.

The Medical Arts Guild is an organization of medical professionals who work together to promote the health and well-being of the community. The guild holds annual picnics to provide a relaxed and enjoyable setting for members to interact with each other and share their experiences with the residents of the surrounding area.
Magnetic Wire Sound Recorder Developed at Armour Research

The Armour Magnetic Wire Sound Recorder was invented by Marvin Carliner while he was a student in electrical engineering at Illinois Institute of Technology. The device was developed and perfected at the Armour Research Foundation and is the most important product to result from the Foundation since its inception in 1934.

Although much scattered information has been released concerning the recorder, there has been an elaborate series of events made available concerning the invention. The first report was published in 1935, followed in 1936 by the News Bureau of Armour Research in a form of a 6-page press release.

In 1938, Kehoe published an article in the Scientific American concerning the use of the recorder. The article was reprinted in a number of journals and was influential in stimulating interest in the device. The first commercial model of the recorder was introduced in 1939, and the device has since been improved in many respects.

The recorder is a simple device that consists of a spool of wire on which sound waves are recorded. The sound waves are translated into electrical signals, which are then recorded on the wire. The wire is then played back, and the recorded sound is reproduced.

The recorder has been used for a variety of purposes, including the recording of music, speech, and human voices. It has also been used for the recording of animal sounds, such as bird songs and whale calls. The recorder has been used in a number of scientific applications, including the recording of seismic waves and the monitoring of environmental conditions.

The recorder is a simple and effective device that has been used for a variety of purposes. It is a valuable tool for the recording of sound, and it has many applications in science and engineering.

Robert's Rules of Order

At last the ITSA has finally adopted Robert's Rules of Order as the official parliamentary procedure to be followed at its meetings. After much bickering and lengthy debate, the proposal was finally passed by the board.

The adoption of Robert's Rules of Order was an important step for the ITSA. It is a long overdue move and one that the organization has been afraid to make. Those arguing against the proposal at the last meeting stated that the ITSA's Rules of Order were too cumbersome and that they interfered with the spirit of the group. They argued that Robert's Rules of Order were too rigid and that they would stifle the creativity of the ITSA.

The ITSA is a group of young people who are interested in technology and science. It is a group that is dedicated to the advancement of knowledge and the betterment of society. It is a group that is committed to the pursuit of excellence and to the development of new ideas. It is a group that is dedicated to the improvement of the world.

**LETTER OF THE WEEK:** Navy Men and the ITSA

As many men know, Saturday was pay day. Occupying such a position was a great job, but there were many who did not agree. A few ITSA representatives with their jobs to do, and to spend it on necessary things. Some of them are still working, but others are not. A few of us have been working on the same tasks for many years. But the most important thing is the understanding of what is happening in the world.

**A Look At Alumni**

From the Philippines Islands, Ensign C. G. Shanks writes us to say that he went to the Philippines Islands, where he was stationed. He joined the Navy, and has been there for some time. He enjoys the climate, and the people are nice. He also mentions that the food is good, and that he has made some friends.

**Hope for Women**

Armory Girls

I’ve been wondering for a long time how many girls are in the Armory on the weekends. I wonder if there are any other girls who are interested in coming. I don’t know much about them, but I think they are worth a look. The Armory is open from 8 a.m. to 10 p.m., and there is always something happening there.

**Chemistry Fees**

To the Editor:

I am a student at the University of Illinois, and I am writing to express my concern about the high fees for chemistry classes. I understand that the university needs to make a profit, but I think that the fees should be more reasonable. I have heard that other universities charge less for similar courses.

**The Illinois Tech Vets**

Robert Pake

Contrary to common belief, Illinois Tech is not adone university. In fact, it is one of the largest and most respected institutions in the country. The Illinois Tech Vets is a group of veterans who have attended the university and have made significant contributions to society. The group meets regularly to discuss issues of common concern and to support each other.

**THIS COLLEGIATE WORLD**

Wheaton College is currently engaged in a debate as to whether or not the college should offer a nuclear physics course. Some faculty members believe that such a course is necessary for students who are interested in pursuing careers in physics. Others believe that the college should focus on providing students with a broad education.

McCAuley's Thinclads Attempt All-Out Blitzkrieg Against Marquette's Power-Hitting Aggregation

By J. F. KELLEY

The true test of a team this week will be the one from a team that has already competed in the event, for we have a grand total of 11 VVIF track uniforms. The bandwagon allowed to the squad was extremely small under the circumstances. Could be it that athletics are in the process of disintegrating entirely at VVIF? The new plan calls for it to become a 'sole' rule as in the case of the other engineering colleges in the country.

Tech Netmen Bow to Chicago

The Tech tenpin squad dropped their second match of the season to champion Chicago last Saturday, 6-3. In doing so, the Maroons ran their string of victories to 15.

The Maroons, by virtue of their title to Chicago, are expected by the fact that this is the Chicago that has come to have a definite style of playing. The Maroons ran their string of victories to 15.

The match was made in Chicago and was a highly sophisticated affair. The Maroons ran their string of victories to 15.

IIIT Loses To Concordia, 6-5

Eggerning's Hit Breaks 13th Inning Deadlock

Travelling to River Forest last Friday, the IIT Techs were defeated in the 13th frame by a score of 6-5. In that thrilling free-for-all, were two runs scored in the 11th and 12th for IIT, and two runs scored in the 11th and 12th for Concordia. Eggerning connected for the game-winning hit.

Resume IM Play Today; Sr. Civils to Battle Quarter's?

Fair weather will afford us an opportunity to play on a better day. The IM play will be held in the 11th and 12th for IIT, and two runs scored in the 11th and 12th for Concordia. Eggerning connected for the game-winning hit.

Western Michigan Host to Tech Golfers Saturday

The golf season, after beating Bradley University, 5-0, and holding two previous matches preparatory to the season's opening, Western Michigan will host the Tech golfers this Saturday at Kalamazoo. A/B Prof. Flinn and W. C. Lumper will be in charge of the event.
Navy Contest To Offer Prizes To Writers; Trainees Eligible

A Navy public relations officer in charge of the Public Information Branch of the Bureau of Naval Personnel said that a total of forty prizes will be awarded in the contest in order to attract the best stories, sketches, monologues, or news items that can be written by the contestants. The material should be neither story nor non-fiction, and may be based on any aspect of the Navy's work. A group of professional writers has been selected as judges for the contest. Among them are well-known authors such as Ernest Hemingway, George B. Beall, and Ellery Queen. The judges will award the prizes on the basis of originality and merit, and each prize will be worth $250.

Trainees to Be Given Officer Rating After 18 Days

The new member of the deck crew of the USS Iowa will be assigned an officer rating after qualification ratings with the next 18 days. All new ship's officers are required to take a 10-day course at the U.S. Naval Academy, which will include lectures in subjects such as navigation, tactics, and strategy. The course is designed to prepare the officers for their roles in the Navy's operations.

SUN KIPIES Are Served Exclusively In The ITT Cafeteria

Time for a get-together... Have a Coke

...or making the party a success

It's easy to plan a dinner at home when you have easy-to-prepare Coca-Cola recipes. Many of our favorite recipes are featured in our cookbook.
