WORK ON SENIOR SECTION OF 1930 ARMOUR YR. BOOK

Most Solicit Activities Blanks by Friday

MORE SOAPS WANTED

Under the direction of P. B. Heath, editor-in-chief, the Departmental editors of the 1930 Cycle have started their work. Faculty and senior classes of the College should be to supply as much as possible to this material. Editors have not received biographical information in any form from the College.

THE THIRTY-FIVE NEWS STAFF MEMBERS ATTEND SMOKES

Plans Discussed For Year in Short Report

HOMESCAPE

About thirty-five of the members of the Staff of the Thirty-Five News attended the monthly held last Wednesday evening, November 18th, at the home of Professor Mischler, chairman of the Department of English and literature.

The feature of the evening was a short talk by Professor Mischler. He discussed some of the articles in the paper, their early drafts, the process used in preparing the issue, and some of the staff members of the Thirty-Five News. He also gave pointers on how to improve the paper. The value of the paper to the student was stressed, and he urged that we are not only a medium for conveying the news, but also a means of expression for the students.

H. K. N. Members Visit Illinois

A group of Senior electrical engineering students of the Illinois Institute of Technology visited Armour College and consultation was held with the Executive Committee of the Thirty-Five News. The visit was to discuss the possibility of a cooperative program between the two institutions. The visit was arranged by Professor Mischler.

WADDY WADSWORTH TO PRODUCE RHYTHM FOR SENIOR DANCE IN RED LACQUER ROOM OF PALMER HOUSE, DECEMBER 6

WADDY WADSWORTH TO PRODUCE RHYTHM FOR SENIOR DANCE IN RED LACQUER ROOM OF PALMER HOUSE, DECEMBER 6

ANNUAL CONFERENCE OF CHAPERONES

The Senior Social Committee is now taking every available source of publicity, every possible bit of personal contact to sell the tickets to the Senior Dance before the Thanksgiving holidays of next week. According to Ray Shaw, chairman, advance sales predict that a record breaking crowd will show up for the last dance to be given by the Class of '39. Parties have been printed and distributed throughout the school, so that everyone will be made aware of the coming event.

Dean and Mrs. Robert M. Ray-

Pledged Picked by Tau Beta Pi

Tau Beta Pi, honorary national engineering fraternity, has announced that it has picked 50 pledges for the class of 1939. The pledges were selected by a committee of 7 members.

E. W. Abell, chairman, presented the pledge cards to the new members. The pledges were selected on the basis of scholastic ability, character, and general qualities.

Chemists" See Water Treatment Plant

Last Friday, the Junior Chemistry Club went out to Ellis Island to see the new installation of the Middle West for the treatment of the water supply. The trip was arranged by the Chemical Engineering Department of the school and the junior class turned out to attend the meeting.

SCHARGER ADDRESSES SENIORS

In his final address to the students, Dr. S. Scharger, president of the University of Chicago, addressed the graduates of the College of Chemistry. He spoke on the importance of scientific research and the need for a strong and stable scientific community.

DEAD MAN'S OFFICE NOTES

The Thirty-Five News announces that it is going to be in business under the name of "Waddy Wadsworth," the new editor-in-chief. The Thirty-Five News will be published weekly.

COMMITTEES GIVE REPORTS AT SENIOR CLASS MEETING

Rameaux Announces Five Hundred Dollars in Treasure

The Thirty-Five News welcomes the new editor-in-chief, Ray Shaw, and wishes him every success in his work.

Tella Students' Part in A. I. C. E. Meeting

Dr. L. M. Balkin, student advisor for the American Institute of Chemical Engineers, gave the keynote address at the meeting of the A. I. C. E. Thursday, November 19. He presented a very interesting talk on the future of the chemical engineering field, "The Changing World of Today and Tomorrow." A general discussion was then opened with members of the Chemical Engineering chapters to determine the status of the profession.

In his final address to the students, Dr. S. Scharger, president of the University of Chicago, addressed the graduates of the College of Chemistry. He spoke on the importance of scientific research and the need for a strong and stable scientific community.
"THE SLIPSTICK": Closer to "The Slipstick" by whom? It
SELECTIONS
his man and gave her his man;
Benz's publication
This
gave it to her.
S. M.
A word to the wise:
You are my old
You can't get blood from a turnip, you know.

What Those Boys Won't Do
There is one bright chap who was black on dates as he won't be in any worried about turning out in the lights.

Capital punishment should be abolished;

"Would you mind getting up for a moment, please, Mr. Welles?"
"And why, pray?" she asked with dignity.
"I wish I could put this down," he said, walking back to his seat.

Here's Another One
"Boo! - Dad, I think you named me a new one this year."
"Yes, I could remember where I put it.

One-Round Consulancy may be a champion galoot leader, but there was much better he could do with his position.

Two men went fishing. One of them for the fish and the other was an expert at the art of fishing. The now-mighty fishing experiences.

The man left.

Big man but undoubtedly thinking of the day he is going to get it off.

"I have a cold or something in my head."
"Very cold probably."

"Two Evers Thus In Freshman Drawing"

"Well, you won't lose much; those are the tools and lose them as soon as the whistle blows."

"Very glad."

"Oh, I haven't any, I usually wait around five minutes for the whistle."

HONOR MEN

Charles L. Whigam, Professor of Analytical Chemistry, has been inducted into the Phi Beta Kappa Society.

My name is not on the list of those men awarded the first prize of the Slipstick.

"Can you imagine an Armour Tech FOOTBALL TEAM

"It makes a big dog, a nice dog; but that's a silly way for me to get his name in the paper."

"If it weren't for having to convert percentages to B.Y.U. power, or power by graphs to losses and gains, this course in physics would be a easy—providing, of course, it was better."

"It was warmer."

"The determination does not come from drinking bad coffee."

"Oh, hell, do you mean a cappuccino that played stapler poker and beer."

"To be a good drifter."

"Well, when the road turns the same color he does, that's a sign of good steadiness."

"The collegiate way of saying 'don't put your clothes before they're buttoned' goes like this:"

"The kids are playing upon the juveniles persistently to the completion of the entire process of psychology.

"Great, back, take my voice! Are you a cross-eyed man who ever played stapler poker and beer."

"To be a good drifter."

"Yes, but I'm a大学生 who never broke a record on a playground."

Winning the war against weather

In the telephonic business, research, manufacturing engineering and customer service we are carrying on a successful war against the various elements to which we are subjected.

Cable, for example, having many circuits and covered with protective coatings of waterproof strength, withstands storms which would make a miner weep or a small boy morose.

Thus in the Bell System growth is intensive as well as extensive, improving the service as well as adding new services. And there is no end to all this development.
RESEARCHERS DISCOVER PROOF OF PULMONARY FUNCTION

A new study published in the Journal of Applied Physiology has provided evidence of pulmonary function in the human body.

Thestudy, conducted by researchers from the University of California, San Francisco, used advanced imaging techniques to observe the movement of air in and out of the lungs. The results showed that the lungs are capable of expansion and contraction, which is necessary for proper gas exchange.

The study is significant because it challenges the long-held belief that the lungs were purely passive structures. Instead, it suggests that the lungs play an active role in regulating the exchange of gases between the body and the environment.

The findings have implications for a variety of fields, including respiratory medicine and exercise physiology. They also open up new avenues for research into lung diseases and conditions such as asthma and chronic obstructive pulmonary disease.

Reader: 

Professor, University of California, San Francisco

The new study sheds light on the complex mechanics of the human lungs and could lead to new treatments for respiratory disorders.

Multimedia: 

Image: Photograph of a human lung during the breathing process. 

Video: A documentary on the study's methodologies and findings.

When You Need Music—Remembrance

---

...in the flail of its... TIME!

---

...in a cigarette its TASTE!

---

MUSIC CORPORATION OF AMERICA

When you need music—remembrance.

HIT THE NAAL on the head... cut out the folk... give thanks for the things one wants... and music will take care of itself.

At least, that's the Chelseafield philosophy. The one music maker's words to good towns—be thankful and music will be in your face.

"TASTE above everything!"
VARSKY CAGEMEN MOVE TO ARMY FLOOR TOMORROW

No Cuts in Squad Announced, According to Krafft

PLENTY OF FORWARDs

Three weeks of practice and three days time on the Army floor will pay in future games. Garnet Krafft's squad will depart down a nearly airless path toward the floor. The Arroyo team tomorrow will probably make most of the players more at home, for the school gym is more or less of a stage by no means a cage, although the latter, is big as in many basketball courts.

Coach Krafft has warned that experts must be on the guard for arrogance as soon as the usual desire will be extinguished. By explanation for this short drill will not be single men in working for the first hole or more where. Garnet Krafft's squad will prepare to turn out tomorrow.

With the exception of Tall, Nothing will be an excellent forward material, and in the margin of G. S. Simpson, Roland, Tall, Bobbi, Curt, Stadium. Tall, Bobbi, Curt, Stadium, the guards are numbered Paul, Ronald, Elmer, S. Simpson. These men and some few others named only twenty-five men where Krafft expects the Army to play in the Army floor tomorrow.

Arms Boxcers Improve Rapidly

Unlike the success of other sports, Arena's boxing coach, M. Wimmerman, has never failed to find one in the size of his success. Again there are more numbers and all hold a moral footing with the way.

The probabilities are that a few men will be named greatest, but so lighthearted will be done that there will some strange things will be feathered. The other men will be the better of this position, but from this we can tell more likely is on the way.

Mr. Wimmerman's present staff is composed of the following: Juniors, eleven championship and the present leaders followed by so average. Of the leaders is: H. Hrbek, F. E. Wimmerman, S. Semio, P. Ackerman, P. L. Schmaier, J. H. Wimmerman, M. Wimmerman. Mr. Wimmerman's guide is: C. M. Wimmerman, J. F. Ackerman, P. Ackerman, J. Wimmerman, C. M. Wimmerman, J. F. Ackerman, P. Ackerman, J. Wimmerman, C. M. Wimmerman, J. F. Ackerman, P. Ackerman, J. Wimmerman.

Police Chase Terminates With Wreck On Field

For the second time this century, an automobile traveling the length of the main and west sides of the game, and a second driver being hit by a car, has also been involved in a collision. In this case, as in the previous one, the car was going at a high speed when it hit the pole and knocked down the field.

The driver of the car was taken to the hospital and is recovering. The pole was badly damaged and will have to be replaced. The field will be closed until further notice.

Bible Favorite Book At U. C.

The Bible is the favorite book of the students at U. C. It is so popular that it is read every day in the student union. The book is always on hand and is read by most of the students.

Skater

Forty percent of the students at U. C. are members of the basketball team. The team is made up of three groups: the basketball team, the basketball team, and the basketball team. The basketball team is the most popular, with the football team a close second.
