Alpha Phi Omega

The national fraternity, Alpha Phi Omega, was inducted into the university on Thursday, at 3 p.m., with a banquet at the Student Union.
Techman Talking...

R. W. Fier, Instructor in Civil Engineering

One half of a dream, which was conceived as far back as 1931, has been realized and the bringing together of the Smith and West Bible Con-

ferences of Illinois Institute of Technology just a few weeks ago. This, some

way, was done too hurriedly. I agree that the amount of work that we expect at present is not desirable, but I do not see the blue sky behind this cloud. In fact, the completion of the second half of the dream has been expedited greatly because we are

encountered at present.

When I first arrived on this campus in September of 1932, residence, finances, and other things seemed to have the school helplessly burdened, and we saw a particular need of some great assumption. With the mergers of Armour and Lewis Institute, the dream I have mentioned here—our campus, our college, our buildings, Illinois Institute of Technology in its football form, student and faculty members alike achieved great dreams and great visions. These dreams and visions are now in the process of accomplishment.

Because of the new building has been actively under way, and the new facilities are now open, houses can be built and the old buildings used as dormitories.

A program was now organized to meet this demand. A new dormitory was to be constructed, and the old buildings used as dormitories.

Subsequently the restrictions enforced during the war-time, which hampers many activities of the trainees, will be relaxed. As for conditions here, IIT will have one of the most up-to-date

On the football field.

College Football

With the increase in student enrollment and the starting of the new building program, Illinois Tech is rapidly becoming comparable to some of the best

In contrast, the 1932 program was more limited and focused on the

Why is this? One explanation is that there are not many special places available.

There are some at IIT, but no one who would be tops on any college football team. The only drawback seems to be for athletic equipment and training facilities.

There are two possibilities for obtaining the equipment being used now. One is in the use of the former university campus, which was

What is the main argument against football? That if there is a team here, what wants it to be at the start. Even with our inadequate facilities we can and should try to establish a team which, although it will not have a schedule comparable to the Big Ten, can improve.

A solution of the problem would be to have a coach who will be found in the person of R. G. (Sp.) A. Osterhout, who has played college

With Schommer's consent the school's backing, a football team can be started here. If the school will open up their eyes to the fact that there is more in college than slide-

IT DUGS UP THE DIRT

Bob Hope has his Bing Crosby, the Cubs have their Card-

While the Brownies have the Bears, Bob Hope has his Bing Crosby, the Cubs have their Cardinals, and Techmen have their Beemovesh. We could alter the old saying and say, "In every life a little dirt must fly." This is the purpose of the latest special in the series, "It Digs Up the Dirt," which we shall not have, and we haven't taken proper notice of it. We apologize for our previous neglect in this respect.

Gradually, the most popular Brownie special of the past week was...
Delta Tau Delta Fraternity was founded in 1899 at Bethany College, West Virginia. Later in 1899, the Blue Mountain, the first exclusive Southern fraternity, was founded. Delta Tau Delta is a very strong organization. Then, in order to honor the old fraternity, the official magazine was called the "Blue Mountainer." 

Delta Tau Delta grew so fast that it now has seventy active chapters throughout the United States and Canada. These are also many alumnae chapters, and almost every city has one. The majority of the alumni chapters is to give the undergraduates chapters in these places.

On the campus of Illinois Institute of Technology is located the Gamma Delta Chapter of Delta Tau Delta. It was founded locally in 1919. In 1920, the chapter was reorganized and made a full charter of the Delta Tau Delta Fraternity. The Gamma Delta Chapter has been active ever since, and it is one of the strongest chapters in the country.

The first issue of the "Blue Mountainer" was published in 1921. It was the official organ of Delta Tau Delta, and it was published quarterly. It contained news of the fraternity and articles on various topics of interest to the members. The "Blue Mountainer" soon became a popular publication, and it continues to be published to this day.

Delta Tau Delta Fraternity is a very active and successful organization. It has produced many outstanding members who have gone on to achieve great things in their careers. The fraternity is proud of its members and their accomplishments, and it continues to provide a strong support network for its members.
Senior Chems Fall to Freshmen In Intramural Touchdown 7-2

The Senior Chemists were defeated by the Freshmen in front of 500 fans at the Intramural Touchdown football game. The final score was 7-2. Starting in the backfield for the Chemists were Junior物质, Frank Reed, and Dick Miller. After a few plays, the Chemists found themselves in a 0-7 hole. There was a pass interception by Fred Brown. With 9 minutes remaining in the first quarter, the Chemists were at the Freshmen 30 yard line. They scored on a 3 yard touchdown pass by Bob Morton. Then 7 minutes left in the first, the Chemists scored a field goal by Frank Reed. At halftime, the score was 7-2. The Chemists had scored 7 points and the Freshmen had 2. In the second half, the Chemists scored 0 while the Freshmen scored 7 on a touchdown pass by Bob Morton. The Chemists were led by Frank Reed, who made 2 field goals and 1 touchdown pass. The Freshmen were led by Bob Morton, who scored 3 touchdowns and 1 field goal. The game was played in front of 500 fans on Gold Field. The Chemists wore blue uniforms, the Freshmen wore orange. The Chemists' mascot was a bear, the Freshmen's mascot was a bulldog. The Chemists' goal was to score more points than the Freshmen. The Freshmen's goal was to keep the Chemists from scoring. The Chemists lost the game, finishing the season with a 2-3 record. The Freshmen finished the season with a 3-2 record. The Chemists were coached by Mr. Smith, the Freshmen were coached by Mr. Johnson. The game was a great win for the Freshmen and a disappointing loss for the Chemists.
AINT IT THE TRUTH

IF LIL RED RIDING HOOD WERE HERE TODAY, THE MODERN GIRL WOULD SCORN HER, THE OLD WOLF, NOT ONE ON EVERY CORNER.

Enrollment Reaches
Four Hundred Mark
In Evening School

Recruitment for the full occupancy of the evening division is tripled that of the former year and double that of last semester according to John Walsh, director of evening school. Consequently, a total of 400 students are registered for the fall term of 1947.

This is the highest mark in the history of the evening division, and the enrollment is expected to continue to rise.

Australian Campus Newspaper
Seems Strange to U. S. Readers

"Anyone who is so distant, may regularly obtain his copy of "Catalyst" by becoming a subscriber. The annual postage, only 50c, is paid to the University of Melbourne, Australia, which currently holds the exchange, and the secrets of the Aussie Press are revealed to us.

"The Catalyst" contains the latest news and events of the overseas campus, such as sports, politics, and social events. The paper is written in English, and is eagerly read by students from all over the world.

The Catalyst is the official newspaper of the Australian campus, and is published every two weeks.

Pi Kappa Zeta to Initiate
Seven New Members

The fraternity chapter of Pi Kappa Zeta will be formally initiated today by H. C. Comstock, the national president, and W. C. Willett, the local chapter president. The new members are: A. J. A. C. Jones, A. J. A. C. James, and B. J. A. C. James.

A committee consisting of five members of the Initiation Committee, including the national and local presidents, will be present at the initiation ceremony.

Physics Club to
Form Pi Sigma Pi

The officers of the Physics Club are now making arrangements to found a chapter of Pi Sigma Pi, the national physics fraternity. This was decided by President V. N. Perrelli, who also stated that the organization would be ready to receive new members at the next meeting.
South Chapin Hall Remodeled
To House Biology Department

The biology department has been transferred to the new South Chapin Hall building. The building, designed by architect Russel H. Hendrick, is described as being "a modern, functional structure that meets the needs of the biology department."

Chemical Honorary

The Chemical Honorary Society has awarded Dr. G. H. Ensminger the title of Honorary Member. Dr. Ensminger is an esteemed chemist and has made significant contributions to the field.

Autumn Nocturnes Earn Junior Class $21

The annual autumn nocturnes event was held on campus and earned the junior class $21. The event featured performances by various groups on campus.

Naval Notations

Quarters #2

Among the men from the house playing on the HOGC intercollegiate baseball team are Bill鸺, Gil Sonnen, Bill Gourley, and Bob Conkright. These men have teamed up with 300 more from other quarters and present a strong team that is expected to do well in the intercollegiate tournament.

Quarters #3

"Keep it Class, Fellow," and the men from the house playing on the HOGC intercollegiate baseball team are Bill Koffs, Bob Conkright, and Bob Koff. These men have teamed up with 300 more from other quarters and present a strong team that is expected to do well in the intercollegiate tournament.

Quarters #4

A special mention to the men who played on the HOGC intercollegiate baseball team. They have teamed up with 300 more from other quarters and present a strong team that is expected to do well in the intercollegiate tournament.

Quarters #6

Billy Penin is seen in the hall last week, and he has been invited to a party at the house this weekend. He is expected to attend and present a strong team that is expected to do well in the intercollegiate tournament.

Quarters #7

Penin is also seen in the hall last week, and he has been invited to a party at the house this weekend. He is expected to attend and present a strong team that is expected to do well in the intercollegiate tournament.

A Flight That Never Leaves the Ground

A bomber crew needs training as a team. And now those hazards which are too dangerous for an aircraft are being simulated by electronic flight trainers. This is made possible by an electronic flight trainer perfected by Bell Telephone Laboratories' scientists for the Navy.

Bell Telephone System

"Belle" to the customers, the new service for the telephone system in New York City, is being introduced to the public. It is a service that allows customers to place calls from anywhere in the city and hear the service for the telephone system.
