Fall Enrollment Beats ’41 High

Tillotson Institute of Technology announced November 3, on a two semester plane class, that the largest enrollment in the history of the institution. The 375 entering veteran of the World War II, brings the registration to over 1,000, including 500 returning civilians, 300 returning civilian students, 118 seventh and eighth year Navy V-12 trainees and thirty recently commissioned Naval ROTC program. The number of present and former service men on the campus is 337.

The Institute’s admissions office is expecting an average of 40 new students for the March 1945 semester.

Evening division registration took place approximately one hour before registration for the 1944-1945 academic year. Nearly one thousand students entered the Institute. The 1,000 students are taking graduate courses. The majority of freshmen and sophomores taking courses in the evenings are enrolled in the student body. Professor W. D. Tillotson, president of the Institute, said that the number of students already registered is the largest number of students enrolled.

Bill Cannon Named Head of Tau Beta Pi

At an election of officers last Thursday, William Cannon resumed the presidency of the Tau Beta Pi fraternity. The following members were also put in office: William B. Bower, treasurer; Stuckey, secretary; Fred Pichley, assistant secretary; James Wilson, corporation chairman; and Philip G. Talbott, historian.

At the end of this semester the fraternity will hold a formal initiation dinner in the East Dining Room of the Student Union Building for the incoming members.

Heald Asks for U. S. Manifesto Banning the Use of Atomic Bomb

A “United States Manifesto” to all of the nations stating that the United States does not use its atomic power against any nation, large or small, unless this instrument of war is used against another nation, which would include both scientists and scientists of each country.

Heald also said that the United Nations organization should be used against another nation. (ROTC Unit Command on Page 8)

Interfraternity Dance Planned

The Interfraternity Council will sponsor the completion of plans for the 1944-1945 Interfraternity Dance. The theme, to be held on the evening of December 3, will be at the Student Athletic Club, 118 W. Randolph St.

The selection of the ballroom will appeal to the many who favor an indoor location and to those who attend the Holiday Lamp held here last year, Opening Lamp, and the Interfraternity Dance. The ballroom, which will be held on the same floor as the Student Athletic Club, will provide the facility with ten piecemeal decorations. The decorations will be from 9:30 to 11:00 A.M.

John F. White Appointed New Assistant Dean of Students

Dr. Charles A. Tibbals has been appointed to the newly created post of assistant dean of students. The announcement was made by Dr. Tibbals in charge of the balance of the year, and as former director of admissions, will take over the work of the office. The duties of director of admissions are to be assigned to Dr. Tibbals. He has been working part time in this office for the past few months.

Fall enrollment at ITT in 1944 reached an all-time high.

Tillotson Institute of Technology registered 3,000 students for the 1944-1945 academic year.

John F. White was appointed assistant dean of students for the balance of the year. He was formerly director of admissions and will take over the work of the office. The duties of director of admissions will be assigned to Dr. Tibbals.

Interfraternity Dance is planned for December 3 at the Student Athletic Club. The theme will be held on the evening of December 3, and will be at the Student Athletic Club, 118 W. Randolph St.

**Man Of The Week**
Fred Fitchey, Honor Student, Was Captain of Golf Team

This week the "Man of the Week" spotlight shines on Fred Fitchey. He has captured the interest of students, faculty, and visitors alike with his prowess on the golf course. Fitchey is no stranger to the game, having honed his skills from a young age. His dedication to the sport and his exceptional performance have earned him the title of Captain of the Men's Golf Team.

Fitchey attended the University of Notre Dame for three years before transferring to Ball State University, where he continued to excel. His talent and leadership have been instrumental in guiding the team to success. His contributions extend beyond the course, as he is also an active member of the fraternity community, participating in various campus events and organizations.

Fitchey's success is not just limited to the golf course; his academic achievements are equally impressive. As an honor student, he has maintained a high level of academic performance, demonstrating his commitment to excellence both on and off the field.

As the Men's Golf Team prepares for their upcoming matches, they look to Fitchey for guidance and inspiration. His leadership and skills will undoubtedly play a significant role in their success.

**THIS COLLEGIATE WORLD**

Students attending Ball State Teachers College in Terre Haute acquire excellent experience as instructors, even before they graduate. Some 60 seniors at Ball State are engaged in student teaching in various schools in and around Terre Haute.

Many schools in the county will provide free teaching projects for their classroom teachers. The following is a list of the teachers who can be contacted to schedule their required courses. In many cases, they are assigned to the schools for which they are prepared. The ability to have a second course in a specific field, and this situation may lead to an unfortunate end. Either the student does not take the course, or he is forced to struggle through the course with a minimum of individual help from the instructor.

Someone might suggest that these classes be broken up, but this is impossible for two reasons. The first is that the available teaching room is almost completely occupied for all periods of the day. This is due primarily to the arrival of the Lewis contingent and their assignment. However, one does not have to be a second course if it is made, and also the instructors, for whom office space has been provided.

The second reason is the lack of instructors. Of course, it might be suggested that the Lewis Staff might suffice, but a careful analysis of the situation would show a definite need. It is the general condition of disorder during registration is attributed to various causes. Those who have been uncooperative to date are stated presently. Primarily the number of new men who were not here about 1950, and those who have been thoroughly rejected by their instructors are those who have been uncooperative. The men comprising this group are mostly new freshmen and returning veterans.

Another factor was the lack of student help and limited working space. It seems that many would like the job, which is fairly well paid, but the students were unable to do more. The actual help they gave was not sufficiently appreciated by the instructors and those who were working. New and many men had to be refused admission because of inadequate accommodations.

Three factors are the lack of student help and limited working space. It seems that many would like the job, which is fairly well paid, but the students were unable to do more. The actual help they gave was not sufficiently appreciated by the instructors and those who were working. Many men had to be refused admission because of inadequate accommodations.

**Rushing Smoker Held By Delta Tau Delta**

Delta Tau Delta held a smoker at the home last Wednesday and about a dozen members were present. Exchange of golf equipment was made and all members present were given a card with the names and addresses of all members.

The chapter is glad to welcome new members on the following list: Robert Semler, Carl Requa, Robert B. Rawlins, William M. Hargis, and William D. Johnson. They are all from the freshman class.

The Omicron chapter of Sigma Chi will hold a smoker at the Stanford Union tomorrow at 7 p.m.

**Trapezoid Will Hold Smoker Wednesday**

Trapezoid fraternity will hold a smoker Wednesday evening, at the home of George Underwood.

**Betsy Jordan is New Sorority President**

The Sigma Xi Theta Sorority elected new officers at the first meeting of the semester, Sunday, Nov. 4. The officers were: president, Betty Jordan; vice-president, Josephine P. Hensley; treasurer, Genevieve J. Beasley; and secretary, Dorothy M. Wilcox.

**Seven Men Pledged By Sigma Alpha Mu**

Pledge ceremony was held this week for the newly elected Sigma Alpha Mu fraternity. Members were received at the home of R. H. Talmage, 6th St.

**Steam Shove**

It diggs the dirt

Through this new semester has brought many changes, it has not affected the spirit of the Dish students, old and new. The Dish has been enthusiastically received by many new and old students.

As an instance of the changes this term has brought, we note the first issue of the Dish, Thursday, Oct. 6. Under the capable guidance of Wally "Wash" Master, Barrow, the Dish has begun to take off and has been a hit with the students.

Our heartfelt congratulations go out to John Malekoff for the very bad news he received over the weekend. It is a sad day, and a most disturbing time. The Dish staff wishes John the best in his recovery and asks that he be kept in our thoughts and prayers.

Along the same line is the experience of A/B Tom White, who got on a street car the other day only to find he was on the wrong street. He was rushed to the hospital in a taxi, and the bill was paid by the Dish. Tom, you can’t help but laugh at this one.

Just after leaving his girlfriend at the railroad station in Kansas City, Bill Barron got up at 7 a.m. from a dream that he was flying to Chicago. After hearing her story, Bill couldn’t help but chuckle, knowing that her dream had come true.

We have a bulletin from the foreign office, which is that the Black Culture Festival will be held this weekend, which includes music, dance, and food. The event is free to the public.

**Trends in Basketball**

The current trend in basketball is towards a more defensive strategy. Coaches are emphasizing the importance of defense, which has led to increased use of zone defenses and pressuring the opposition's backcourt players. This trend is likely to continue as teams adapt to the changing landscape of the sport.

**Business Notes**

The local business community has reported a positive increase in sales, likely due to the favorable economic conditions and increased consumer confidence. Businesses are optimistic about the future and are planning to expand their operations.

**Technological Advances**

Advancements in technology have made significant progress in recent years. New developments in artificial intelligence, renewable energy, and biotechnology are reshaping industries and offering new opportunities for growth and innovation.

**Health and Wellness**

With the ongoing pandemic, emphasizing health and wellness has become more important than ever. Strategies such as regular exercise, a balanced diet, and adequate rest are crucial for maintaining good health.

**Society and Culture**

The societal and cultural landscape continues to evolve, with emerging trends in technology, fashion, and entertainment reflecting changes in societal values and preferences.
LETTER OF THE WEEK: Registration

One of the prime requisites of an engineer is efficiency. The organization and method in everything from personal study habits to the eventual application of his work. The study is emphasized here at JU. In view of this, any practices which hinder the study should be avoided at all costs.

The registration which our school does not have it any longer. The name appeared on the back of the card into which the student's name was entered. This was done at the beginning of the year, and from then on the card was only returned by us if it was necessary. However, there was a list of students who had not registered that year, and the new students that come in to the house are often confused and depressed. As a result, the registration is not completed until the end of the first semester.

R. P.

Alpha Sigma Phi is One of Oldest Groups on Campus

Alpha Sigma Phi fraternity was founded on Dec. 6, 1846, at Yale University, New Haven, Connecticut. In 1864 the fraternity became a national organization. However, the fraternity did not spread to Jacksonville until 1917. At that time, the Alpha chapter at Yale University was established as the first national chapter of the organization.

The Alpha Xi chapter of Alpha Sigma Phi was organized at Armour College of Technology in 1899, and the chapter became a national organization in 1911. The chapter became a member of the national organization in 1917. The chapter has a strong tradition on the Armour campus and has been involved in numerous activities over the past 25 years. The chapter has a large number of alumni who have contributed to the community and have been successful in their careers.

Wood Herman, "the man with the shovel" and the leader of the most solid outfit in the country, is our candidate for the top position this year. He is the current president of the Alpha Xi chapter.

Quotations:

1. "Let the men who have been waiting be heard, for the cause of the nation is at stake."

2. "The boys are off errand-running and changing their way through another semester. You know how we picked up this strange wasp of busyness, don't you? Well, that key in 'keep in step with the man in front of you' is there!"

3. "Then that we have started something new and we're going to do it. That's the idea."

4. "Yes, I'm sure that if each student will present an address in honor of the late foreman."

5. "We are already making plans to celebrate the memory of the late foreman."

6. "It is not that the girls play the boys in baseball, but that they play the boys in football."

7. "The number of tomatoes in all sections of the campus have decreased due to the advent of the new administration."

The most recent addition to the Alpha Xi chapter is a new member, Bob Shubert, who is a junior in chemical engineering. Bob Shubert has been a member of the fraternity since his freshman year, and he is now serving as the chapter's political officer. Bob Shubert has been involved in numerous activities on campus and is well respected by his peers.
58 Men Turn Out for Basketball
Six Lettermen Return to Lead Techchaw Squad
Elevation Cards As Opponents for This Year's Competition

Standing the parade of varsity athletes, which will shake the original Techchaw line-up, are six lettermen. The six, according to their academic and athletic achievements, bring the Techchaw squad to an elevation. The six lettermen include: Alonzo, Greek, and Bob Simmons, all lettermen in basketball, and Jim, Walter, and Jerry, all lettermen in football and baseball.

Meyer Returns As Cage Coach
Coach Robert "Ber" Meyer is returning as Techchaw's basketball coach for the 1946-47 season. Meyer, who was a Techchaw letterman, will continue his former duties this season. Meyer is a Techchaw alumnus and has been associated with the Techchaw basketball team for several years.

Hockey Meeting to Be Held Tuesday

46 Report for Fight Squads

With one week gone in the new semester, and fall and winter sports in the offing, things are looking up for athletes at ITT. The newly formed student body has provided new opportunities for all teams, especially the basketball, wrestling, and boxing squads.

A recent survey of 58 men for basketball produced the Techchaw lineup. The Techchaw lineup is expected to be strong, but nothing can be said of the Techchaw这支 lineup. All members of the Techchaw basketball team will be named in the starting lineup.

COCA COLA BOTTLING CO. OF CHICAGO, INC.
The Link Begins Services Again

The Link, Illinois Tech's date bus, will be open daily from 12 noon to 1 p.m. The Link, operated by A.R. Billivar, A.R. Billivar, and Mickey Johnson, has an offer of information on various events, including events of interest to the student body and the community. The Link can provide any help, advice, or type of help needed.

The services of the Link are available to all students and are without charge. According to A.R. Billivar, the Link can provide any help, advice, or type of help needed.

The effects of the Link are in the north-east corner of the Student Union addition.

Glee Club Meets Friday

Urges All Girls to Join

Girls who like to sing are urged to join the Glee Club. The Glee Club is composed of students, women of the last, and some freshmen and sophomores of the Illinois Tech. In this way a group will be formed which will be of considerable use for concert work. The Glee Club will meet every Friday night in the Auditorium.

Illinois Tech Vets

Mr. George W. Robinson, the Training Officer for veterans at JTP, gave some pertinent information and advice to the veterans on the educational benefits being received by the veterans here at Illinois Tech for a meeting last year. Mr. Robinson pointed out the Veterans Administration was not prepared for the large number of returning veterans after World War II, as a result of which the veterans can expect considerable delay in getting their records in order.

The new veterans should have all their monthly allowances paid as soon as possible after the end of the first month, although their bank statements will be delayed.

Part of his job is to see that the benefits and allowances of the veterans are paid in full. He also pointed out that he might be able to give a written statement of his eligibility and any other information they might require.

Pi Deltas Begin Pledging Period

Pi Deltas, Keffer, national honorary journalism fraternity, held a pledge session of six men Thursday night. The pledgee is Robert Popoff, Martin Gentle, Wilks Keffer, A. F. Shaeff, A. F. Charles Ziegler, and A. F. John Reinhart. They are required to carry copies of Illinois Daily publications and obtain the signatures of the active men.

Originated in order to reward journalism for outstanding work, Pi Delta Psi has 95 chapters throughout the nation. A meeting of the active and pledge members of the Illini chapter Thursday will be held to pledge the period for this year, according to A. F. Alan Grant, president. Formal induction of the new pledges will take place at a banquet for the staffs of the Tech News and the Illinois Daily.

Popoff and Keffer are not on campus and will not carry out the pledge duties. Popoff, an October graduate, has been in the industry and Keffer, a student in Industry and Commerce, is taking a delayed vacation. Both, however, are expected to be on hand for the ceremony.

Concerts Given By the IIT Music Clubs

The IIT music clubs gave a series of concerts in Rockford, Illinois, over the weekend. Repeating with the program that day as the Women's College Auditorium, and with the program for Friday evening, the junior music club was given a special benefit evening at the Junior High School.

A junior benefit evening following the concert featured the Junior Music School. Members of the junior music school, and junior club persons, were present from the Women's College and the junior school.

Members used in the program included: "Light" Carlyle, "Light" Eames, "Love the Piano" by the orchestra, and "Violets for American Girls" by the combined orchestra and the choir.

Class Jewelry Exhibit Displayed at Bookstore

Class jewelry for the February, 1946 graduating class is now on display in the bookstore window. There are four rings and one key to choose from.

The jewelry may be ordered in the Student Union office in the Student Union. All orders must be in by 5 p.m., Monday, May 1. The rings cost $6 each, and class announcements will be made.

Dean Larkin Warns Graduates About World Monopoly Chaos

Addressing the 95 graduates who received degrees Oct. 20 in the Illinois Institute of Technology, Dean John J. Larkin of the College of Liberal Arts stated that "As a consequence of our great scientific and technological advancement, we have a world monopoly system. People are no longer free in the economic realm, as they were in the political and social fields. The forces of production are now controlled by the same group of international financiers and industrialists who have made the industrial countries into a single economic unit."

"The world political situation is the result of this economic situation. The world political situation is the result of the economic situation, and the world political situation is the result of the economic situation."

"And when the world political situation is the result of the economic situation, we are in a world monopoly system. People are no longer free in the economic realm, as they were in the political and social fields. The forces of production are now controlled by the same group of international financiers and industrialists who have made the industrial countries into a single economic unit."

Downtown Campus Officially Opened With New Classes

The downtown campus of the Illinois Institute of Technology was officially opened with the start of the fall semester.

Since the merger of the two schools in 1946, there has been a desire by all concerned to have all classes on the downtown campus. With the purchase of both campuses, the administration decided that this would be a good way to improve the campus.

However, the south campus does not have adequate classroom space for all classes, and it became apparent that extra space was needed.

After examining the two buildings in the loop area, the faculty of the buildings at 135 S. Michigan was rented.

Illinois Tech has the right and the advantage of the building at 135 S. Michigan will remain.

"The buildings will be reserved in the north part of the city, and the downtown campus may be retained for evening classes.

Intervarsity Christian Fellowship Holds Meeting

The Intervarsity Christian Fellowship will hold the first meeting of the semester on Monday, Nov. 15, at 7:30 p.m. This meeting will be open to anyone interested in the fellowship and will be held in the library of the downtown campus.

"The study of the Bible is the purpose of this organization.

Safety Engineering Now Taught at IIT

The new course in safety engineering, under the department headed by Dr. R. A. Fincke, is being planned by Dr. R. A. Fincke, a professor of safety engineering. The course will be offered in the fall of 1947.

Dr. Fincke has planned a program covering four major aspects of safety training, including the psychological aspects. The course will be offered for the first time in the fall of 1947.
