Photographers and Cartoonists Needed By Technology News

Positions are open on the Technology News staff for photographers and cartoonists, according to A. S. Alen, editor. Full-time photographers, who will own their own equipment, will be paid on a per-story basis. Photographs and cartoons will be displayed on the Technology News page in The Illinois Student and advertising agencies, according to A. S. Alen, editor.

Full-time photographers, who own their own equipment, will be paid on a per-story basis. Photographs and cartoons will be displayed on the Technology News page in The Illinois Student and advertising agencies, according to A. S. Alen, editor.

No information may yet be given on the nature or importance of the contributions or names of the staff working on the project released on Aug. 13, 1945, by Dr. Henry T. Hendel, said in making the announcement.

Dentist Is Attached To Navy Unit at IIT

A navy dentist’s office was set up at the IIT hospital last week for the direction of L. M. R. Kahn, who was recently attached to the unit.

Inception of the office, located in what was formerly the storekeeper’s office, makes it unnecessary for the trainee to travel to the University of Chicago naval station, as he can work at his desk in the office.

Grant Is President Of Pi Delta Epsilon

A. E. Grant was elected president of Pi Delta Epsilon, national honorary journalism fraternity, at a meeting of the fraternity on Friday in the Technology News offices. Other officers elected were: Vincent B. Lemon, secretary, Edward Sheehan, and treasurer.

The fraternity is a national honorary journalism fraternity composed of the best illustrated of the upper four years in the field.

Dental consultation at IIT

Dentist is attached to the IIT hospital, Dr. L. M. R. Kahn, recently attached to the unit. Inception of the office, located in what was formerly the storekeeper’s office, makes it unnecessary for the trainee to travel to the University of Chicago naval station, as he can work at his desk in the office.

Epsilons, Alpha Eta, and Alpha Epsilon, will be awarded to the outstanding student of the year.

Daily raising of Colors Begins for Navy Men

The entire IIT student body will stand at attention on Monday for the raising of the colors each morning, according to George L. Fawcett, battalion commander.

The ceremony will assemble at 7:30 a.m. and will continue until the sun is high enough to illuminate the colors. The colors will be raised at 7:30 a.m. and will continue until the sun is high enough to illuminate the colors.
Coed Campus

V-12 VETS

William O. Moneger, 10th class, has informed the information office that he is to leave Illinois Tech for work.

Consolidation

With all the new buildings going up, and offices and clubs being vacated to make room for storage, the consolidation will be going on. The Tech news is in the process of a new campus is about to become a reality.

Technology News

The presentation of Lewis Washington Tech will be held in the meeting halls of the new campus. The campus will be dedicated in the name of "Technology".

Techno Talking

The shrewd, scrawny little man, who has had an excellent job at least this past year, has called on me for further guidance. True to life, my explanation was not accepted and I can easily be defined as operating rather sluggishly.

Complaints on last week's happenings are being answered by the Techno Society. One of the chief complaints is that the Tech has not been paying its bills. This has caused a number of problems, but the society is trying to solve this issue as quickly as possible.

Steamshovel

The steamshovel was brought in to break down the pavement. It has been a help to the workers, and has made the job much easier. The steamshovel can also be used for other jobs, such as grading and leveling.
Sonny Revamps Signal System

There has been some talk along socially well-informed channels that our national pastime is a game which has a nasty habit of getting lost somewhere between the dugout and the bleachers.

The trouble doesn’t seem to be that there aren’t enough fans, as the game is rather sharp and narrow, or that they wear red and blue caps, but rather that they are offered at a cost of five cents. The problem really seems to be a case of over-fixation on the part of the tickets, which can be bought at the box office and then forever.

For instance, the old ball game at home is a case in point. The tickets are $1.50 each, which may be the price of admission to the game, but there is a way of getting them for nothing. All one has to do is go to the box office and buy tickets for the game.

It is an all-out effort to clear up this difficulty, therefore, that makes this week a special one for our readers. We have bought several of the tickets, and we are prepared to make an announcement of the difficulty.

To those of you who scoff at this effort at Arlington, your friend may reply with a sneer. But, after all, who cares? It is not our problem.

The Weekly Write-Up of the West End

Eagles Defeat Sr. Juicers, 1-0

In the biggest upset of the week, the American football team defeated the Jr. High School in the third game of the season. The Eagles took the lead early in the game, and held firm throughout, to win 1-0.

Tech Baseball Team Triumphs Over Basinski Boosters, 3 to 2

The Tech baseball team overcame the Basinski Boosters to win 3-2. The game was held at the stadium, and the crowd was enthusiastic throughout.

ITT Navy Golfers Win on Forfeit

The ITT Navy Golfers won their match by default. The opposing team did not show up, and the ITT team was declared the winner by default.
New Industrial Training Program Begins at IIT; Giles Named Head

The establishment of a "Training Within Industry" program was recently announced by the program's director, Professor John T. Hildreth. The program is designed to train engineers and technicians in the industry, thus reducing the need for new hires.

A/V Paul Flood Elected To Presidency of ACS

A/V Paul Flood was elected president of the American Chemical Society at the ACS meeting held last Thursday.

Other officers elected at the same meeting were: Vice-president, Ray T. Hunsaker, a professor of chemistry at California Institute of Technology; Secretary, Robert W. Bracken; and Treasurer, Grant Knox.

"As a symbol of the new chemical society, the ACS Distinction Medal, which is awarded annually by the American Chemical Society, was presented to Professor Robert A. Westing, of the University of Illinois, for his outstanding contribution to chemistry.

Professor Giles said that the institute is prepared to provide all the equipment and facilities needed to carry out the program, which is estimated to cost $1,000,000 at the institution where it will be conducted. The results are expected to be completed within five years.

Informal Talks among employees of the Illinois Institute of Technology have revealed that the program is expected to be completed within five years. The institute, which is supported by the federal government, has received a grant of $5,000,000 from the National Science Foundation to support the program.

Fraternities & Sororities

Dinner Meeting Held By Alpha Sigma Phi

Alpha Sigma Phi fraternity held its monthly dinner meeting last Wednesday.

The following were appointed: Manager and President of the 14th Annual Ball, Robert F. Hamilton, and Treasurer and President of the national fraternity, William F. Johnson.

According to the president, the students have been very active in the fraternity, with many members taking part in various activities.

November More Pledge Delta Delta Phi

Delta Tau Delta has pledged eleven additional members. This brings the total to 60 pledges for this term.

The new pledges are: Raymond Haney, Joseph Ferrone, and Robert Roberts.

NAVAL NOTATIONS

Quartet #2

As in all other quarters, the notation of battleships was the main feature of the meeting. The notation was conducted in the usual manner and reflected.

Everything was all right again and the meeting was a success. The notation of battleships was the main feature of the meeting. The notation was conducted in the usual manner and reflected.

The notation of battleships was the main feature of the meeting. The notation was conducted in the usual manner and reflected.

Quartet #3

Though the divisions are available, the notation of battleships is no longer necessary. It is no longer necessary. It is no longer necessary.

The notation of battleships is no longer necessary. It is no longer necessary.
