NROTC to Go on Revised Basis

Elect Feckner Freshman Head
Mowers, Delson, Zietz Sheldon Also Selected

In one of the most hotly contested elections in its history, the Freshman class of the Illinois Institute of Technology, Louis Feckner was elected president of the class for the 1941-42 school year. Louis Feckner was elected president of the class at a special election last Friday.

Beverly Mower was won the secretary's position, Beverly Bowers is selected as the freshman treasurer, the social chairman is Ed Zietz and James Sheldon was also elected as the freshman representative.

Anytime any student or faculty member has a gripe or favorable recommenda-
tion to the administration on their condition or the quality of the academic or social life on this campus, it is the privilege of the student body to see that the grievance is properly cared for. The only restriction on the use of the funnel is that it is used to bring to the attention of the students.'

I would like to straighten out a misunderstanding growing out of this article which I believe is the cause of some confusion in the minds of the students. The only purpose of the funnel is to bring to the attention of the responsible men on the campus the problems which they have a duty to solve. If any student has a grievance to bring forward, I believe that he should do it through the proper channels. The funnel is not a substitute for such proper channels. The funnel is not a substitute for such proper channels.

The first step in the election is the nomination of the candidates. The candidates are submitted by the freshmen, sophomores, juniors, and seniors.

In the first and second years of college, the freshmen are the ones who usually take the lead in the election. They are followed by the sophomores and juniors in the third and fourth years of college. The seniors are usually the ones who are elected as the presidents of the class.
Who's Who

JOHN F. WHITE

NEW ADMINISTRATIVE HEAD OF STUDENT'S WHITE COLLEGE AT ILLINOIS UNIVERSITY, COLLEGE OF AGRICULTURE, IS A NATIVE OF ILLINOIS.

TWO TECHNOLOGY NEWS

December 1, 1948

ITA Dance Club

The Dance Club held every Wednesday evening, continues to be the most active student organization on campus. It was formed in 1941 by Don Sather.

Although the last two weeks the club has been forced to use its lounge in situ, almost 50 members of the campus went to the city last week where they spent the afternoon on the campus.

There remains only one fly in the ointment; the ever-present cry of "no men!" Men have always been outnumbered, but also there is the equally valid reason that many of the women have left for other reasons. The enrollment at Tech is a ratio of 32 men to one girl, but attendance at dance club meetings is low.

Junior Week Revival

An editorial two weeks ago urged the revival of Junior Week, the event of Junior Week being held Friday night in the chapter house for the first time. The purposes of the committee are to determine the dates of the events and to notify the members of the committee that the committee has met.

It is encouraging to see that there has been some response from the student body. The all-school function and recommendations that the committee reaches will be welcomed. But perhaps this is not all that will be necessary to revive the current function.

It is true that the Junior Marshals organized and conducted the activities in the past, but it was always a must and must remain an all-school function. To revive it may be more than the usual efforts of the junior class.

It will be necessary for the members of all classes to exert themselves to make a successful event of Junior Week. Their reward will be the utmost interest and enjoyment of all students who attend the activities.

The logical all-school group to take a vigorous step in this direction is the 1948 members of the 1949 senior class. The 1948 group is the only class that is still in school and it is quite possible that the 1948 group can provide leadership for the 1949 group.

The logical all-school group to take a vigorous step in this direction is the 1948 members of the 1949 senior class. The 1948 group is the only class that is still in school and it is quite possible that the 1948 group can provide leadership for the 1949 group.

In order to make the 1949 group more interested in the 1948 group, the 1948 group should offer the 1949 group a variety of activities. The activities should be varied and should include all of the 1949 group members. The activities should be varied and should include all of the 1949 group members.

Man of the Week

Corton, IFC Head is Leader In Many Campus Activities

In focus this week is A/S Herbert Corton, the "Man of the Week." He is a mechanical engineering major and is now in his eighth term.

Hibb comes from Maywood, and his high school days were spent at Proviso Township High School. While in high school, Herib was active in the band and orchestra and was a member of the honor society. After high school, he was honored to be elected President of the National Honor Society. He was a member of the honor society and was the only student in the honor society to be elected President.

At IIT, he became a campus leader and a member of many student organizations. His ability to play the French horn for the band and orchestra brought him to the notice of the faculty, and he was elected to Pi Nu Epilope, national music honorary, and has been elected to several offices on the honor society.

A.S. has been elected to several offices on the honor society. He is a member of the honor society and has been elected to several offices on the honor society.

The faculty of the campus is interested in his work, and he has served on the faculty of the honor society and has been elected to several offices on the honor society.

The faculty of the campus is interested in his work, and he has served on the faculty of the honor society and has been elected to several offices on the honor society.

LETTER OF THE WEEK: Pep Rally

Upon reading the editorial, "School Spirit Again," in last week's Technology News, I experienced three distinct emotions: anger, distaste, and pity, in that order. Why any person, so addicted to such childish tantrums, should be allowed to speak the mouth of a paper like Technology News is hard to understand. For the benefit of those who may not have the article to hand, I quote the first paragraph:

"For the benefit of students at the Pep Rally held last Friday, it is safe to assume that the majority of ITT students are not going to school to obtain knowledge. Yes, I don't like that kind of organization. And I feel obliged to give this excess, I would not have expected to have my word checked on in the first place."

The author, after condemning the students, launches a vitriolic attack upon the faculty as well. The last part of the paragraph is a call to know the name of this group, whom she so denounces, but that was wishful. It would have been in better taste to have withheld her criticism of the students. Due to the "pep rally" one of the notices and rumors is that as a result of the ensuing rally, the absence of students was unintentional, but after hearing the goings-on, it is clear the surest way to get to ITT is to get to know and understand the students.

"The Gustavo Elia's" technique of denominating a group's achievements in the hit parade period allah, given by some, was true, but it has come to mean a great deal. In my opinion, the only way to get to know anything is to get to know the people who are concerned with what they are doing. And I think this is the best way to get to know the students.

"TechWiz Bookor"

I happened to be among the throng (1) who turned out in response to the "Pep Rally" for the U of C game. In my opinion, the fact that the rally was successful is due in large part to put anything like that ever—no substitute will suffice.

On the other hand, I was not surprised at the small turn-out for the first rally. I'll admit that school spirit has been at an all-time low during the war; it would be expected too, I think, for a complete change in attitude.

My suggestion is this: we should have more frequent pep rallies in the future. With the "red hot" team we have this season, it is inevitable that our school spirit will soon come up to the true TechWiz level.

Card Playing OK In Student Lounge

The Student Union Board of Control voted on Tuesday to allow card playing in the Student Union lounge. The majority of the followers from Quarters 6 attended the show and, evidently, well liked the "Entertainment" following the big "Fun & Games" event.

A/S Ed Bergstrom reported to stick bay last Wednesday morning with a phone which proved to be the answer to the "Order of the Preferential Posters.""Quarters 6" is the topic of discussion in Quarters 6 last Tuesday night was the annual "Lion's Leap" show. The majority of the followers from Quarters 6 attended the show and, evidently, well liked the "Entertainment" following the big "Fun & Games" event.

A/S Victor Sklar, of Quarters 6, was welcomed back by his buddy last Friday night. He is recovering at home after being discharged from the hospital where he was bitten five weeks ago with a fractured collar bone.

Quarters 7

A/S Paul Newman, from Quarters 6 to Quarters 7 has also brought about a change in the conduct of the group. While the group was previously known as the "Nasty Nuns," the new leader is bringing a playfulness to the meetings. According to Ed, he did not feel comfortable playing the role of the nun, being on a campus only one night out of four weeks. After surviving 213 hours of penalties, he decided to change his status to the "Order of the Preferential Poster.""Quarters 6" is the topic of discussion in Quarters 6 last Tuesday night was the annual "Lion's Leap" show. The majority of the followers from Quarters 6 attended the show and, evidently, well liked the "Entertainment" following the big "Fun & Games" event.

Techhawks Team Ready To Avenge First Loss of Year

After a slow start, the Techhawkey basketball team, led by Carl Bergman, is ready to avenge the first loss of the year on Saturday against Lake Forest. Bergman scored 13 points in the game against Lake Forest, leading the Techhawks to victory.

Brackets Action

Techhawks-Grappling with a tough team in the record Techhawkey basketball victory were Bradley (V), Findley (F), and Smart (T) of the Techhawkey.

IM Bowling Tournament Stated After Holidays

The annual IM bowling tournament is tentatively slated to begin after the holiday recess. The competition will be divided into A and B brackets, with the A bracket consisting of four players and the B bracket consisting of two players. The tournament will be held at 8:00 PM on Tuesday, December 19th.

Football

Bartong-Pong Tournament Enters Second Round

Intramural table tennis is springing up in high gear. All of the students are ready to participate in the new sport. A list of matches in both doubles and singles will be found on the intramural board. Results will be recorded to chronicle the progress of the tournament.

A team named the "Big Green" made an opening statement in the Intramural Basketball Tournament. This team is composed of four players, including two brothers, and has been practicing for several weeks. The team is expected to do well in the tournament.

Fraternities Cagers Begin Play Tonight

Play in interfraternity basketball begins tonight. The tournament is being directed by Pete Brown, who will serve as the referee.

THURSDAY, DEC. 12
6:30
Sigma Alpha Pi vs. Pi Kappa Phi
10:30
Delta Chi vs. Delta Sigma Phi
12:20
Alpha Sigma Phi vs. Theta Xi

By Chuck Kinkade

The last two years' basketball records published two weeks ago should be reviewed before the teams are ready to compete. Since then, the team has sustained a loss to the Maroons, the University of Chicago, and has continued to compete at the highest level. University of Chicago comes closer to the record than any other team in the league, and the Maroons have renewed their rivalry with the Techhawks.

Honor to Hold First Meeting of Semester

Honor will hold its first meeting of the semester on December 12th. The meeting will be held in the Weisman's Office. The President, Pete Brown, will announce plans for the semester, which are expected to include social events and community service projects.

New officers were elected to the Honor Society, including the President, Pete Brown, and the Secretary, John Smith. The new officers are expected to continue the tradition of excellence and integrity that has characterized the society.

SUBSTITUTES

Ray Watts, forward - freshman civil engineer

Claude P. Geffen, guard - senior V-24, former basketball player for Rider

Richard Goering, center - freshman civil engineer

Clarence T. Loomis, guard - member of basketball team

Levi B. Stevens, center - former basketball player for Rider

The Techhawks are currently preparing for the upcoming season, and are looking forward to competing against some of the strongest teams in the league.

**European Education Discussed by Gross**

Last Friday, Eric Gross, a graduate student in history of Vienna, spoke before the ASEE on the subject of "European Schools in Europe."

Dr. Gross stated that while the European educational system is more democratic than the American educational system, it is being created today by the desire of the students to decide what his career will be when he is ten years old.

In the United States, students attend lectures. Assignments are given as a part of the curriculum and examinations are not required to be studied. However, until the end of the first few years, the students are provided a professional degree if he can pass an eight-year examination and a two-hour oral examination.

---

**Rho Delta Rho Plans Semester Activities**

Rho Delta Rho is now very well established. Shelly Shriver of the executive committee said that the organization has now prepared a schedule of activities for the remainder of the semester.

The members are at present completing a schedule of events for the New Year's party in which fraternity members will participate.

Last week Rho Delta Rho was invited by former president, New American, which was an interesting event, was performed by the members of the Delta Rho society. The members were at their weekly meeting Wednesday.

Rho Delta Rho is anticipating regaining its position in the school and will have the coming return of its members from the armed forces.

---

**Triangle Fraternity Will Hold Hay Ride**

Triangle fraternity is holding a great hay ride this Saturday, 21. A hero dance is planned which is to be an exceptional event of the evening. The social chairman, Bill Rinehart, is in charge of the arrangements.

Up to date, there have been several planned. They are: Raymond

---

**Kappa Phi Delta Entertain Roshara**

The Kappa Phi Delta sorority entertained their members at the Chicago Theater of the Air a week ago Saturday. Following the performance, the group had an evening at Grand House Restaurant.

They spent that evening in making a rodeo, the with the Chicagoans. Friday evening, they stayed for Bar-Rose.

---

**Sigma Omicron Entertain Roshara**

The Sigma Omicron Lambda sorority entertained their members at the Chicago Theater of the Air a week ago Saturday. Following the performance, the group had an evening at Grand House Restaurant.

They spent that evening in making a rodeo, the with the Chicagoans. Friday evening, they stayed for Bar-Rose.

**Dr. G. Mainland Has Unique Collection of Drosophila Flies**

In a small room on the second floor of south Chaplin Hall, can be found close to 100,000 flies of twelve different species, coming from 20 American states, seven Mexican states and several other countries throughout the world. Among these flies, one of the most interesting is Dr. G. Mainland, associate professor in biology, who has been working with the basic evolutionary factors in the Lorenz form, of the various species and subject matter for reasons of nature.

Dr. G. Mainland, who did most of his work on the collection of the Drosophila at the University of Texas, is continuing his studies of the life history of these flies. He is currently studying the life history of the flies which have been found in the United States and Mexico.

The Drosophila (fly) is known to live on home or on a farm, and because of this, it is also called the "Drumlin Fly." It is normally a common fly.

The Drosophila Mariposa (big species), first described in 1909, was found in Florida. It is a fly found in the United States and Mexico. It has a fly that is found in the United States and Mexico. It is a fly that is found in the United States and Mexico.

Rosby Speaks ToSigma Xi
The Illinois Tech chapter of Sigma Xi heard Dr. Carl Gustave Rosby, a past president of the American Meteorological Society, in his talk he outlined the recent developments in weather forecasting. The lecture, entitled "Weather Forecast: A Development of the Norwegian," was well received.

Schmidt Elected to Presidencies of SAE
The Society of Automotive Engineers conducted their first formal meeting last Friday, the group that went back to the office of the automotive engineers. The first business of the meeting was the election of officers. Those elected were: President, John H. Schmidt; vice-president, William H. Hoyt; secretary, Patrick Sweeney; and treasurer, Tom Fenby.

Positions in Music Clubs Still Open To Students
The music department at Illinois Tech has several positions still open to students, and clubs are still open to interested students according to O. Gordon Erickson, director of the music department. Clubs are particularly in need of students to maintain the clubs' activities. Several school instruments are available for students not interested in the music department. Details about the clubs can be obtained from the music department or from the club members.

O. Gordon Erickson, Organizing Glee Club for Women Students
Now that the girls have arrived at Tech, they are being established on a more permanent basis. For the next two weeks the two camps were so widely separated. Although there is now a new, isolated campus downtown, the distance is not so great and the trolley facilities between the two campuses are such that the journey from one to the other is not long or tedious.

The group is to participate in annual events, both on and off campus, and will provide music for minor school functions. In order to designate a meeting time which will be convenient to the greatest number of girls, each prospective member should have a copy of this program at the office of Jeanette MacNeal, assistant to the dean, in charge of music affairs. Call her on the first floor at 48 W. 33rd Street. This copy list will be made free for anyone who introduces music for the program which will go into effect at that time.

Lt. Williams Interviews Illinois Tech Trainee
Lt. W. L. Williams, a member of the Illinois tech trainees, has recently arrived at the officers' training school in Kansas City and has given similar talks during the war.

Sidney Teller Talks To Home Economics Club
At the November meeting of the Home Economics Club, Mrs. M. J. Teller, a member of the Chicago Woman's Club, spoke on the subject of "How to Organize a Club," and showed a film of the American Woman's Club at the World's Fair.

J. E. Griesen, director of the Home Economics Club, has a great deal of success in organizing and encouraging interest in the various clubs. In the Home Economics Club, Mrs. Teller has been active in the organization of the various clubs.

All's well
