Seniors to Hold Winter Reverie
All-School Dance to Be at Continental Hotel

The senior all-school dance, to be held Friday, Jan. 11, promises to be the best of its kind in recent memory, according to A. S. Harry Knowlton, social chairman of the A. S. C.

The appropriately named “Winter Reverie” will be held in the spacious ballroom of the Continental Hotel. The Continental Hotel has hosted many successful Tech dances in the past.

It has been promised that the orchestra for this event will be a notable addition to the evening’s program of dancing, music, and entertainment. It will be a night of fun and relaxation for all Tech students.

The theme of the evening will be Winter Wonderland, with decorations in silver and white. The dance will feature live music by the Tech orchestra, as well as a variety of other musical acts.

The event will be open to all Tech students and their guests. Tickets will be available at the door for $2.50 per person.

A NUMBER of people have spoken to me about various aspects of this year’s Tech activities, and I’m excited to see what this year’s winter dance has in store. It promises to be an evening of fun and celebration.

ACHE Holding Annual Meeting

The annual meeting of the national ACHE is now being held at the Sheraton Hotel in Chicago. Some 1000 people have gathered for the four-day convention from across the country.

The meeting will feature presentations on various topics related to chemical engineering and technology. The keynote speaker will be Dr. Robert L. Kister, the chief chemist for DuPont.

The meeting will conclude with a dinner dance and a reception to celebrate the successes of the past year.

Junior Class To Give Party Tomorrow Eve

IIT All-School Social To Be in Student Union; No Admission Charged

The all-school Christmas party sponsored by the junior class will be held tomorrow night in the Student Union auditorium from 7:00 to 9:30 p.m. No admission will be charged for the dance.

The IIT students may bring their own food or beverages to enjoy. A variety of drinks will be available, as well as a cash bar.

A buffet of finger foods, such as pastries, fruit, and cheese platters, will be provided. The party will be open to all IIT students and their guests, regardless of their class standing.

The ITFIA approved the necessary regulations for the junior class’s party. The Student Union has been designated as the official place for the dance to take place.

Quarters I To Be Men’s Dormitory

Junior quarters will become a men’s dormitory March 1, according to Dean Henry. Men will also be allowed to live in the women’s dormitory.

The change is being made to accommodate the increased enrollment of male students. The new quarters will be located in the same building as the women’s dormitory.

The dormitory will be decorated in accordance with the theme of the season. The decorations will be removed after the holidays, and the dormitory will be returned to its usual appearance.

IT Musical Groups To Present Annual Christmas Program

The annual Christmas program given by the musical organizations of IIT will be Friday morning from 10:30 a.m. to 11:30 a.m. in the Student Union auditorium.

The program will feature performances by the IIT choir, the IIT orchestra, and the IIT symphony orchestra. The program will also include a special guest appearance by the IIT dance troupe.

A buffet of finger foods, such as pastries, fruit, and cheese platters, will be provided. The party will be open to all IIT students and their guests, regardless of their class standing.

The change is being made to accommodate the increased enrollment of male students. The new quarters will be located in the same building as the women’s dormitory.

The dormitory will be decorated in accordance with the theme of the season. The decorations will be removed after the holidays, and the dormitory will be returned to its usual appearance.
Christmas Party

To those who know of the ITSA, only through the pages of Technology News, the organization may seem inefficient and poorly run.

The ITSA, in backing the Junior Class Christmas party, made several fine decisions.

Under President Harry T. Halden's direction, the faculty is invited to the party. With the invitation of the faculty, the affair swells in importance—perhaps very well mark the beginning of an era of better relationships between faculty and student body. The move, whether or not successful, is a firm step in the right direction.

The stage has been carefully set. Working under President Halden's leadership, the juniors arranged for the auditorium, Bob Harmon's ever popular band, refreshments, and even a semi-circle of a Christmas tree.

A party, however, is only what the guests choose to make it. No matter how elaborate or how simple the arrangements, a party stands or falls on the one question, "Did everyone have a good time?" That leaves it squarely up to the faculty and student body—come along and help make the success of the Junior Class Christmas Party!

School Spirit

The IIT school spirit is finally picking up where it left off back in 1942. The new students and the old are starting the activities wheel rolling again and there are many indications of this throughout the school. Most fraternities have had an increase in the size of the pledge classes. The Interfraternity Dance was a big success judging from the large number that attended; and even the attendance at the sports activities, for example the basketball game with Chicago University, has gone up.

About the only cloud in the sky is the recent pep rally for the basketball team, but in answer to the "Letter of the Week" in the last issue of Technology News, it is encouraging to find that the authors of the letter on the pep rally agree that "a well-rounded personality necessitates some extra-curricular activities." Then why don't they participate in some school activities?

There are many chances for the students to show their school spirit. There is the Junior class Christmas party to be held tomorrow. Also, the seniors are sponsoring a basketball game in the early part of January. The Men's Club are each giving a Christmas program this Friday. So let's go—all you men and women of IIT—keep the activities wheel rolling.

---

[Image of a diagram and article content]

In the true spirit of the Christmas season, "Goodwill towards men," the Shovel scoops the latest dirt on campus. It is said that a unique quality of women is their ability to make up their minds, but the Shovel has uncovered a male counterpart that causes two women. A walk of advice to A/S Marshall Bogan: "Moor, why don't you use a shovel?"

When asked why he was running around circles in the snow on Odeon Field, A/S Chick Hattab readily admitted that "I have my reasons, and I'll tell you about 'em after the holidays."

This same Chick Hattab is conducting a pendulum course in college algebra and trigonometry, for a single student named Rosamund. Weekend phone calls, including the very early amputee, were accomplished by the "lady test" on Saturday night.

Finishing off Pete Browning is to quite a sure- deciding where to open his Christmas from. Hilarious sources indicate that he has received an invitation to a Christmas dance in Ohio, Ohio from his out-of-town steady Nancy Warrhelm. His true love, Annie Kelly from Chicago, would like him to stay in Chicago. Some of your buddys would like a few hours on how to manage to keep his heart, Pete.

Although potatoes are not an uncommon sight around the quarters, a nightgown, though it may not be the same potato sensation as A/S Jack Desdros discovered when his worn-out one was taken away by the claim this one belongs to his cousin, but why did this happen, you ask? Perhaps Robert Walsh's drawer.

With the majority of college men around the university quarters that Christmas spirit is heartily fast appearing.

A/S K. W. "women don't lie" Jeff Stoll was finding plenty of trouble getting behind the closed doors in anticipation of using his homemade bed.

A bookworm has been exposed on the campus in the person of Paul Darnesh. Having hunted high and low in the legal library book he was to no avail, Paul has threatened to raid his home for the book. The title of the book? It's "The Art of Finishing Pick in Ten Easy Lessons." Have you seen him since?

Praying that gosplings know which way the wind blows, Dr. George Otto, geography instructor, came up with the following: Enjoy your drinking with a swim.

Enjoy your drinking with a swim.

12/9/1945

Students in colleges all over the country have really gotten behind the present Victory Loan drive. Technological Institute of Technology has put on a contest basis and is already in full swing. Girls, each representing a fraternity on the campus, are attempting to sell the most bonds, in order that they may have the honor of being crowned Bond Queen. This publicity stunt has already netted the school $30,000.00 in Victory bonds.

While the contest continues at Carnegie, let us swing back to the Middle West. At States Wesley University, faculty and students have offered their services as slaves in an incentive for increasing the total number of Victory Bonds sold. At a dinner auction, those in question until their services to the highest bidder. Bids of the services offered by members of the faculty includes: taking of bidder out to dinner, polishing shoes for incorporated group, lightening cigars for the week and other drudgery scattered around the campus.

Students of South Dakota State College have built a model magnet, a truck with a powerful magnet under its bed. The truck is driven down the road to pick up nails and other bits of metal from steel works—saving tons and terrors.

It certainly looked as if the most shortage had hit the University of Akron quite hard, when one of the faculty members ordered a half dozen sharks. But that thought was quickly dispelled when it became known that valuable student paintings were destroyed these sharks for observation purposes.

Hope for women

Tomorrow IHIT is playing Chicago—yes, only three and last one—let’s hope tomorrow will be win four, lest the rumor mill get started. Next game will be played the first time in the history of the Pom-O-Rama, and it is sure to be a delight to all.

The game will be played against the Pom-O-Rama, and it is sure to be a delight to all.

The news from the Pom-O-Rama is that the team is in high spirits, and the crowd is expected to be large.

The Pom-O-Rama is a band that is known for its energetic and enthusiastic performances, and the fans are looking forward to seeing them again.

In other news, the annual Blue Notes concert is scheduled for this weekend. The concert features a variety of musical acts, including a band that is known for its unique sound.

The Blue Notes concert is a popular event, and tickets are expected to sell out quickly.

Tickets are available at the box office located on the corner of Main and Oak streets. Doors open at 7 pm, and the show begins at 8 pm.

Do not miss out on this exciting event!
Tech Cagers Whip Chicago 48-35
Techawks Fly High Over U of C
To Avenge Lone Defeat 48-35

Lake, Murphy Set Scoring Pace for Tech
As Cagers Tie Up 8-Game Series at 4-All

The Illinois Tech basketball team shifted into high gear last Saturday night and the University of Chicago caged squad 48-35, averting a previous one and only defeat handed to them by the Midway crew in the first game of the season.

Coach Bob Brown, who had his three free throws and 2 three-point shots to lead the Tech team, also outdistanced Lake, who was run up on with 12 markers. Presently he is scoring for the team in the 11-15 range.

The team, although handicapped by the loss of Captain "Pete" Fiske, who sprained his wrist during a practice session, played to the Techvials' delight in a game that augurs have thrown out some of the difficulties experienced in the first two games, which were played on their opening, rebound shots, and free throws. In the final count against the Red hot bolt, the Tech vials averaged an even 400 in free throws while in the second round, their hitting rate out of 26 for an exciting 65.

The defensive lineup found Lake and Smolka pushed at the forward positions, while Murphy and Fiske manned the center. Anderson and Rossman rounded out the five at the goal spots. Tech's scoring was in the triple figures and the offensive hole in the goal, halfway to the basket, was not more than mere inches from the floor.

The start of the first period saw the Red hot bolt established, and the second half, followed by a third by both teams, was a really even one, with the score 12-14 closing out the first period.

Two minutes into the third period, the Rebound and Gray hardwood athletes began to show their heartlessness and put the final 23 points in their respect, with the final score 14-20.

Two home games are credited for the Tech team, the first and second night at 2:30 in the Valentine gymnasium to face the Cordova college Tuesday night. The Tech team will be in a return contest to the inners at the home court.

The first four classes of the Techvials spring out some interesting summaries. The total points at this writing stands at 196, an average of over 25 points per game, and over a point a minute. At first glance this appears impressive, but a look at the opponent's total changes this slightly. A total of 190 points have been looped through by these points, an average of about 25 per game, and an even point a minute. The Midway from the Midway with their 43 point total and the Naval Armory, which assisted 50 in leading to 105, helped boost the average considerably.

The remaining 12 points for each game played, Bill Smart leads the scoring column for the Techvials, with George Cline coming up behind with slightly over 11 averages. Norman Hawkins' second-round 30 points may have given him the lead in this season's scoring, but the boys are turning on. Lake's specialty, a hash roll, is a key role that will get users under Smart's snap shot, and points, to be scored according to a more even basis than ever. Thus far, these three men could crack the T-Bolt record this season.

Bob Brown, leader of this year's quintet, was selected for the club with the Mucrass last week, and may not see action again against Tech in the next season, as Tech and Harvard will meet in the new year. Smart had an injured hand at the U of C tilt also played in both matches.

Track Team Needs Men

To Serve as Managers

The Chicago Tech Bowl has in need of two men to manage the team on this event coming up. Rejected, he sees that the responsibility be held by a senior and at least a sophomore.

Canvassing for possible positions should contact Coach McCuskey in his office in Muncie High School before Friday of this week.

FOUR

Delts, Sammies Win First Tilts

One of the most exciting matches between the Sigma Alpha Mu aggregators and Big brothers when defeated the Pi Kappa Phi Squad 32-28, January 21 at the Triangle fraternity, 33-3.

The hard-hitting Delts, led by K. Shackleton, at 15 points, and 34 points, were in a class far ahead the Pi Kappas. Hoffman and Samuelson at the inside spot showed nothing at defensive back. Emerick and Goode to at the Triangle to very few shots.

Three more for the game as follows:

Delta Tau Delta

Frisch 3 1 0
Perry 1 0 0
Roesler 0 0 0
Hoffman 0 0 0

Sammies

Carnahan 0 0 0
Gladon 0 1 0
Kulke 0 0 0

Total 3 4 0

Ping Pong Tourney Reduced to 16 Men

Many of the Tech aggregators will participate in singles competition in the intramural ping pong tournament which was announced by the University aggregation. The tournament will be held in the Muncie High School on Monday afternoon, January 20, beginning at 1:30, and will continue through the night.

The number of participants will be reduced to 16 men, with the winners to advance to the second round. A list of the participants included:

Norman Rebbin has been announced as the favorite to top the singles event. He will face Goode, who has been represented in the tournament, and is likely to win.

The tournament will be played in the Muncie High School, and the winners to advance to the second round, with the final being held in the Muncie High School Assembly Hall.

Two Home Games

Await Tech Cagers

Tech Two games are scheduled for the Techvials against the Cordova college. The first, before the new issue of Techvials, will be played Wednesday night. The teams will play against the Midway in a game scheduled to begin at 8:00 at Valentine's Boys' Club.

As yet, of course, this game is an unknown because the cordova college is not yet scheduled. The Techvials are practiced, and are ready to play in the Chicago game, but have had no opportunity to prove their worth as Techvials are not scheduled.

The Illinois Normal aggregation on January 8, a week after the Chicago game, is somewhat different. After last Saturday's exciting match, the team should be in pretty good shape to keep an eye on the game.

The rest of the Tech schedule should present a few difficult problems, including foot, face and sudden injury, Lake Forest presents a big handicap to the Techvials, with their contract and their contract and their contract should not be quite as a bit of a problem.

Lawrence College is meet on tap and although the Vinties have the upper hand in the schedule this week, the Techvials are under fire. Norm Hawkins underlined a 16-point effort, half, probably lack the ever-lurking backfield, which is likely to be quite a bit of a problem.

Little Muncie High School comes from the Vinties by a comfortable margin early in the season, which may or may not be an indication. Loyola and North Central, next on the Tech schedule, as yet haven't...
Girls Plan Meeting To Start Glee Club

A meeting of the students who are interested in participating in the new glee club will be held at 7 p.m. in Room 109 Chapel. Preliminary arrangements, including a tentative schedule of the meeting, etc., will be discussed. O. Gordon Brickson, director, will address the group. 

Announcements will be made concerning the regular meeting time being held for all students. The announcements will be made in Room 109 every day before the after-class meeting. The girls planning to attend the after-class meeting should turn their announcements in to Josephene MacLeath in the Alumni Office, 125 South St. Those who are at the Downtown Center can turn them into Hope Ferreran in the office of the Downtown Department.

Senior's Will Distribute Activities Questionnaire

A 4-B senior Social Activities Questionnaire will be distributed to all E-B students today. The time is noon until 2 p.m. The students will be distributed a number of 4-B's NROTC unit.

The questionnaire will be used to determine the class attitude on such matters as whether the Senior Farewell will continue, whether or not a Senior Ball should be held, and what other type of social activities the class should offer. The questionnaire will be used by the class council to determine the activities that will be held. The questionnaires are to be distributed to all E-B students. The students will be asked to return the questionnaires to the class council by the noon hour. The questionnaire will be used to determine the class attitude on such matters as whether the Senior Farewell will continue, whether or not a Senior Ball should be held, and what other type of social activities the class should offer. The questionnaire will be used by the class council to determine the activities that will be held. The questionnaires are to be distributed to all E-B students. The students will be asked to return the questionnaires to the class council by the noon hour.

Hayakawa to Speak on American Culture

Dr. B. I. Hayakawa will deliver the final lecture in a series of dis- cussions, "Midwestern Influences on American Culture," on Jan. 6 at 8:15 p.m. in the Great Hall. He will speak about the "Midwestern Influences on American Language." The series has been of interest to those especially concerned with the history, the pattern of life, and the politics of our geographical and cultural region. Those who have participated in the series are: John T. Finisun, professor of American culture at Southern Methodist University; William W. Swart, professor of history at the University of Texas; and Walter Johnson, professor of American culture at the University of Michigan.

Ticket for the lecture may be secured in the Student Union, 331 West Wells Street, Room 202.

Dr. B. I. Hayakawa lectured on the "Influence of the American Tradition on the History of the United States," delivered before the Art Club of Chicago, was published in the "American Historical Review" in May 1956, and reprinted in Digest "Japan Quarterly." He has also lectured before the Western Political Conference at the University of Chicago.

CO-OP PROGRAM (Continued From Page 1)

200 Federal Street. Requesting an interview entrance and interview examination which is handled by the Admission Office, the student will be given an appointment at 201 S. Michigan Ave. for the necessary tests. He must provide a transcript and high school record with a reason- able distinction. If accepted by a student to the Admission Office, he will be given appointments for interviews with prospective employers of co-op students, however, he does not be- come employed until he is accepted by an employer.

Co-operative students enter school programs either in September or October. Appointments are set up to be made at the Admis- sion Office on the student's enrollment. The student will be employed at 201 S. Michigan Ave., unless he is accepted by an employer.

Veterans, recent high school graduates, and students already en- rolled at IIT are welcomed into the program; however, each co-op stu- dent must pass the entrance exam at IIT and be selected by industry as a "man of promise."

Piddling Professors Picked To Pieces By Punny Pupils

This column is intended, not as humor, but as a series of discourses on the philosophy of education at the ageless IIT's hallowed halls. The student body may interpret the very purpose for which our efforts were intended.

1. The Gagster

a. Incongruent. Speaks with mouth shut, flutters his eyelids, with a blank expression, stands with back to class, exclamatory or completely in Per- son, engaging in office, as usual.

b. Foreign. Realizing that more is something that en- joyed and should be understood, our hero gibberes in gibberish, to the embarrassment of en- gineers everywhere.

c. Vague. Expresses clearly that the thing of which he has no knowledge, in order to act on the whimsical, but does not realize that anything is known, the effect is mis- sive. So are the students.

2. The Twilighter. Lust, no longer, coexists with the immobile position of the student.

3. The Absent-minded Professor. Forget's even dull-ball, text-book, naught, and other items that are written on walls instead of blackboard. Leaves pipe through studying and looking at his point of interest, like the man who misses the point of a joke.

4. The Jester. His style is not necessarily the style that we are taught in the library, the scholastic or the scholastic, they are, we suspect, a composite. It's a style that can be done by anyone for any reason or without any reason.

ASCE Heirs R. Buchanan

A talk on the building of the Grand Coulee Dam accompanied by Dr. Robert Buchanan, a member of the ASCE at their meeting last Tuesday night at the room in the Inter- nal Post Office. The presentation was made by the dam's chief engineer, Leonard H. Burroughs, to the students.

Students are encouraged to attend the next meeting of the ASCE, which will be held on the first Fri- day of each month at 7:45 p.m. in the ASCE Office.

Frataternities & Sororities

Toothless Notion Seen By Lambardo's Russbes

The Sigma Omicron Lambda so- ciety held its informal social Saturday, December 15. The Fraternity's annual dinner in the Chinese Room of the Hotel, was attended by eighty members, including faculty members, and guests.

Toothless Notion Seen By Lambardo's Russbes

The Sigma Omicron Lambda so- ciety held its informal social Saturday, December 15. The Fraternity's annual dinner in the Chinese Room of the Hotel, was attended by eighty members, including faculty members, and guests.

Triangle Fraternity Pledges 3 Men

Triumphant fraternity has added three to its pledge class, which now totals ten men. The new pledges are: Tom Dvorak, Robert Moller, and Anthony Gaveston.

Rushing Dinner Held By Kappa Phi Delta

The Kappa Phi Delta sorority held its formal dinner on Friday evening, Dec. 14. The rushes were held in the ladies' dining room at the Biarnan Hotel.

Pi Kappa Phi Pledges 5 New Students

The fraternity has recently pledged to Pi Kappa Phi fraternity: Bob Byrdison, Bill Simms, Robert Ives, Ralph Man- fest, and William Dill. The pledge master is Hove Johnson and the assistant pledge master is George Hobbs.

Last Sunday a Founder's Day Banquet was held at Morton's, and the dinner included pledges, alumni, and faculty members.

Frank Lidd has been appointed social chairman for this term. On last Friday night the fraternity met at the Fraternity Room of the Biarnan Hotel.
Rules and Regulations for Student Union Building (Revised)

Management

1. The management of this building, excepting the dining hall and book store, is in the hands of the student union and the appointed manager. The manager shall be in direct charge. Any controversy arising shall be settled by the board.

2. The management of the dining room and the book store, as well as all financial matters pertaining to the Student Union building, is in the hands of the treasurer of the Institute. The student board and the manager shall assume responsibility for student conduct in the lunchroom and in the book store.

3. The board shall meet the first and third Wednesday of every month, or as often as may be deemed necessary by the chairman of the board. All board members shall be regular students.

4. Students having complaints or suggestions to the board should file them with the chairman of the board or the manager of the Student Union building, and the board shall meet immediately at the request of the students.

5. Requests for rooms (staging or dining) or the entire building must be in the written form of a letter to the manager at least one month in advance of the day desired. A policy of first come, first served shall apply until circumstances warrant a change.
