IIT Journalists Were Represented at Forum Club Meeting

Robert F. Hurleigh, WGN news analyst, will be guest speaker at the annual Technological News and Pi Delta Sigma banquet, Jan. 20, in the LeRoy C. VInson Auditorium.

Hurleigh and his wife, the former Elvira Peterson, will join the 56 members of the various student organizations who will attend the banquet.

The 1965 banquet, which is a function of Pi Delta Sigma, national honorary professional fraternity, will be one of the largest in the history of Technological News. It is held annually to reward the members of Technological News, the IIT and the News Bureau for their service during the year.

Hurleigh, who has been associated with WGN for about six years, was a newsmen for a number of years in Chicago's broadcast industry. He launched his new career after being employed in several positions by the government, among them, director of the United States House of Representatives and assistant director of Indian emergency conservation service at Fort Peck, Montana.

Hurleigh's first journalistic experience came in 1953 when he was dramatic editor of the Washington post (D.C.) Times Herald. The next year, he was managing editor of a small newspaper at station WIBW in Topeka, Kansas.

The IIT News Bureau is now in its seventh year and has been operated by student editors of station wibw.

Dance Band

ITSA's Honor Banquet To Be Held Tonight

The annual student honor banquet sponsored by ITSA will be held tonight in the LeRoy C. Vincent Auditorium. The guest speaker for the evening will be Mr. W. Parke Smith, president, A/S John Mackowski and Freden.

The evening will begin at 7:30 p.m. with the speeches and the presentation of awards. The evening will conclude at 10 p.m.

Senior Photographs May Be Taken Now

Individual portraits of both men and women students will be taken at the De Haven Studio, 39 W. Madison St., starting today, by Wladimir Zabinski, managing editor of the Technological News. The photographs will be delivered to students within a week.

Honored Electricals

Rod of Dimes' Drive Starts Here Tomorrow

A/S James Woodall will be in charge of the 1966 Dimes' Drive campaign. The drive will be carried on by Alpha Phi Omega and the National Fraternal Council. The goal of the drive is to collect a total of 600,000 dimes. The collection will be held on Tuesday, Jan. 10, from 10 a.m. to 2 p.m.

Banquet for Initiates

Held By Pi Tau Sigma

Pi Tau Sigma, national honorary engineering fraternity, held a banquet for its new members on Monday, Feb. 10. The banquet was held in the LeRoy C. Vincent Auditorium. The following members of the fraternity were present, including Professors Robert Fields, Daniel G. Netter, and Robert Brunel. The banquet was a great success, and the members of the fraternity were very happy with the results.
Man Of The Week

Art Strong Looks Forward to Career in Air Conditioning

Varied interests dot the life of Art Strong—ranging from classical music to his duties as president of Delta Tau Delta. As ninth term president, he is at the crossroads where he can look both backward and forward.

With graduation near, he eyes the future speculatively: Naturally Art has interests in the musical—industry in the music business and air conditioning—with an equal emphasis on executive em-

But as an equal basis in his other hobbies. "I plan to get married in a few years and raise a family of BOYS!" he em-

Big as the glance at the past reveals a wealth of information about the everyday starlet. Since entering Illinois from a High School in July, 1943, he has man-

There are many controversies as to how long a report should be, and, unfortunately, there is no clear-cut guide, although the instructor’s "good" judgment. There are no clear-cut guidelines for instructors who have made half-hearted attempts to shorten the reports.

A majority of students, of which but few have access to so-called "files," these labs are just one long lab of huge equa-

There are even some students who assume that all the students have access to "files," and therefore prepare the reports proportionately hurriedly. This is an example of very poor pedagogy. Then there are instructors who collect the graded reports after letting the student touch them or letting him cast his eyes over them for a split-second (approximately). They fear that all the reports will go to form "files," and thus by destroying them, they encourage a sense of a man's worth. In summary, the amount of writing including theory and subjects such as object, equipment, and so forth, will be greatly reduced. Information as above should be changed-the teachers are encouraged to make and graphed in condition to go straight into the report. Here's hoping that the future labs at IIT have shorter reports and more efficient.

Registration

Most students register at the beginning of the term with this term. Lack of organization, lack of sufficient help, and lack of time combined to create a situation which no one enjoyed.

However, the cause of the trouble has been pinpointed and a cure should be expected. A new system of admissins has been used by the registrar's office which will allow for a more accurate estimate of the number of students in each class. The six-day week will provide more class room space, allowing more sections of classes to be held.

One of the complaints of the registrar's office was that not enough students were willing to work as registered clerks, although they should be paid. The short-handed staff could not efficiently handle a group of the size of the students body. The registrars also stated that the clerical job was made more difficult by the students' failure to fill out the required forms properly.

One of the consequences of the clerks' inability to fill out the required forms was the need of the students' trip to the campus. This caused a great deal of inconvenience to the students.

One of the consequences of the clerks' inability to fill out the required forms was the need of the students' trip to the campus.

...It is with a sad heart that I bring you today's "slippings." You see, three fellow students came to the tragic and the night. On the way to the hospital fighting, they were both killed...
Tech Tankmen Lose to Illini
