Four Students Found Guilty

One Dismissed; Three Others On Probation

One student was dismissed and three others put on probation last week for gambling in the Student Union Lounge, according to Dean John F. White.

"Four students, three of whom are also co-op members of an unidentified student, who reported that they had been gambling in the Student Union Lounge," White said.

The four students are accused of violating the Student Union Lounge's rules, which prohibit gambling.

The students were suspended for one semester and required to attend counseling sessions.

Franklin Pierce Adams, Will Address School At Assembly This Friday

Native Chicagoan, Author, Columnist, Poet, Expert on "Information Please" Graduated From Armour Science School in 1930

Franklin Pierce Adams, author, poet, and columnist, will speak at an all-school assembly on Friday, February 1, at 11:00 a.m. in the Auditorium. Adams, who graduated from Armour Science School in 1930, will discuss his experiences in the field of science and his work as a writer.

Adams was born in Chicago on November 16, 1911. He later moved to New York City, where he began his career as a writer and critic.

4B Seniors to Hold Stag on Feb. 1; Party Planned for Feb. 13

The 4B seniors will hold their stag party this Friday, Feb. 1, at 8:00 p.m. in the auditorium. The party will be attended by the entire school.

Honor Banquet

The Honor Banquet will be held on February 13 in the auditorium. The banquet will be attended by all members of the school's honor society.

Golden Age of Technology News

January 22, 1946

By ALAN GRANT, editor

SCHOOL SPIRIT hit a new high at the Loyal Order's game last Thursday. Packed up for the cheerleaders and student body, the game went wild in the last minutes of the game, with the home team winning 13-12. I can honestly say that this game was the best I have ever seen and that all the students and faculty will agree.

The ATHLETIC BOOSTER, held last Tuesday was a complete success. Approximately 150 athletes and entertainers attended the event.

The JUNIOR sponsored event of the year will be the "Junior Ball," to be held on Saturday, February 9. This will be a very unusual affair. The class has privately rented a field house and those attending will pay the cost of $1.50 for food and drinks. The event will be open to all juniors.

Many people have been incorrect in believing that this is the first time the junior has been held. In fact, it is the second time the junior has been held.

IIIT, CTC Hold Sport Dance

The "College Sport Dance," sponsored by the IIIT and IIT, was held last Saturday in the McCracken Gym. The dance was attended by approximately 700 people.

Rob Harmon's band will play at the dance. The band is comprised of students from IIIT and CTC.

Scholarship Awards Now Available for Qualified Students

Applications for the $1,000 awards for next term may now be made, stated Dean John P. White.

Scholarship awards are awarded to students with the highest academic record in the junior and senior classes.

The Forum Club

The formation of the Forum Club was a welcome occurrence on the IIT campus. The club's plan to bring information on topics of general interest to all students was a well-received development, fulfilling a need that many students may not have realized they had.

The student newspaper of the Forum Club, the "Techno-News," provided regular articles on a wide variety of topics, from current events to academic matters. The articles were written by students and included a range of perspectives.

The Forum Club's policy of inviting guest speakers was a major factor in overcoming the challenge of obtaining a wide range of topics.

Most students and faculty members approved of this new organization. Thanks should be given to Martin Olinoff and his co-workers who worked to organize the club.

IIT's College Life

A large college or university, such as Illinois Tech, usually has a student body composed of many different sections and nations. These being referred to at the moment are not of a racial, religious, or national nature, but rather are of a "human" nature.

There are still cliques that dress well, speak softly and exquisitely the finest of manners. These students are, however, not really considered as "college men." There are others that plunge, full length, into the social activities where they find their friends and the social events that are known as "eager beavers." And no college would be complete without a sporting event, chad in black and business with chapter on one side that data or affair. But the fellows to whom this is addressed are not among these.

No, these other boys are not the happy ones at IIT. Their negative attitudes lead to the destruction of the Honor System. The professors have the honor—we have the system. The arms of classroom chairs are neatly inscribed with their scholars' names. Student's lockers are made to disappear or be destroyed needlessly.

If members of this discontented group want to justify themselves, they have plenty of ammunition. Anyone who has come in contact with a few of their number knows their complaints: facilities, labs and profits to mention a few. If these fellows could only begin to look at Illinois Tech in a positive way, they might see a different picture.

Many activities hold out positions of responsibility. Many leadership is developed painfully in interesting tasks. At the same time these organizations are curing out talent. Many of the talents of the students are being wasted. By avoiding them, the placement office is again warning all that industry wants to know about a job-applicant's personality, activities, and abilities—in that order.

INCIDENT IN THE STUDENT LOUNGE

That committee of gentlemen to whom I talked last week left the shores once again, one house down and outwards, into the night.

But the shock, A/B Jack Stagg has fallen from the wagon, wandered from the straight and narrow path of temperance. He exposed himself to the public eye when he drove into a box of chocolates and spilled the contents. "Give me another piece of that row of candy."

Jerry Karte's coat disappeared somewhat mysteriously last week. Karte was turned into an apron in his front door efforts to recover. He left school that evening repeating the other with all talks of huge unknowns. What did he do next? That is the story.

The next day Jerry, respondent in a new case, was was gulping to shave, with an old razor blade and a handful of its pieces in his hair. When asked why he was carrying the two cents he observed that it was a cold day and might get colder.

Some information has been dug up for these who are wondering what has happened to some recent shipment to disappear from the eyes of A/B Al Mann. All was wrapped up pretty well, that is what he was. He was a very satisfactory acquaintance with a singlet from the GIM College Incident. His one and almost only made the long trek from Rockford for the "Winter Revels" but the expected reaction did not take place. Now he is looking very well for himself about plating friendships and "those folks comin' over.

Charles "Red Cap" Angermuir and Paul "Chuck" Neumann have an almost violent argument about the case at hand. Both of the boys did his best to get the same woman out of the same case. Since they could reach no final decision, a thirty day extra-tryst on the campus ensued. The man having the favor of the female admirer on the campus at the end of that month would get to keep the "Red Cap." Although the end of the contest is near at hand, the winner is still to be chosen. For a while it looked as though "Red Cap" has been put out of the picture and was being thrown off in an unrelenting female face until his chance was given a new lease of life on the campus and was invited to join the others on the campus.

Real heroes to the arts are A/B Bill Cummins and A/B Bill Miller. When they don't dish in a local tavern, they do together. What prompting?

When Doc. Jim Bell and A/B Wally Brodsky and A/B Don Helbling came in from Liney last week, they claimed in a good mood and jumped into a squad car and started to avoid a student.

The quartet of quaintly were asked the secret to a happy married life. He replayed this line, "Look for a girl—look for a girl—ask the girl to go with you to the store from room to room."

"Ah, you and I want you to make you stop dreaming about the girl!

"No—No, all I want you to do is to make them stop planning the wedding!"

Doc. Jim: "What wonderfully developed arms you have."

He: "Yes, I'm a football player.

By the way, who was even on a track team?

A munros was walking along a railroad track and tramp on top of an arm, he looked at him, said, "Jim, that looks like Jim's."

As he walked on he saw he found a girl and said, "Jim, that looks like Jim's."

Panther on be found a body and then he was sure it was Jim's. Finally, two days later, he was found a hair in Jim's nose. He bent over it and groaned said: "Jim, are you hurt?"

"I don't know who I am. I was left off on this adventure.

"Maybe you are a girl."

A generation ago a girl never thought of such things as they do now.

That's why they are going to get away with them.

And in closing, a hint of advice to your best woman. Be considerate, the guy who works like a horse doesn't always draw the girl with the beautiful carriage.

SLIP STICK

Close to the Slipstick—Let the Slipstick Fall Where It May
A Vet Looks At School Life

So many good, estimable people have another’s fate at the prospect of any increase in the other’s store of happiness or prosperity. As though we were to be unabridged from their chance and they, we not in any part of it. This in turn leads to retaliation and beggars another’s fate, and both of frustration and bitterness.

What brought the whole thing to mind were some personal observations of that type of people in some cases. There are people who have a certain return to justify the game of the squares, but not always a small and very inarticulate hint. Isn’t it true that everyone is so busy that people have a little time to spend? And that’s why we have to get at least one turn at the squares.

I will remember a veteran character in one of my novels. This viper had a taste for gadgetry. What made it so nice was that it often owed a good profit at the same time.

Eventually, as boys will be, the file of love with a lovely last named Most of us, and secured a weekend past to meet and make the most of it. Whom should be run into at the station in the MP’s. It was with the least regret that our “how” remembered that we might make up a new job and perhaps get on his buddies over a certain sign of resuscitation of the pleasant coenosis of the javel. MP’s. It was with the least regret that we might make up a new job and perhaps get on his buddies over a certain sign of resuscitation of the pleasant coenosis of the javel.

Robert A. Harmon has been chosen “Man of the Week” because of his many extra-curricular activities, his high scholastic record, and his popularity. He is a native of Avon, Ill., where graduated from high school. While he was in high school, Bob was a member of the basketball team, a member of the national honor society, the band, the orchestra, and the academic. The saxophone played a major role in his band, and was first division in the band in his senior year, and was first division in the band in his senior year, and was first division in the band in his senior year.

Almost immediately after graduating from high school in June, 1943, Bob entered the U.S. Army. He spent the first three terms at George Washington College, where he helped the band and was first division in the band. Bob was transferred to the University of Illinois in 1944, and immediately became active in the band, orchestra, and dance band.

Dear Editor:

Much as I hate to encourage the habitual registrant’s effort, there is one thing which I have run against time and again. Four times out of five, when one is desperately trying to locate a statistic or an instructor, it is useless to consult the registrar’s program, the class schedule in hand. In most cases, it is next to impossible to find the person.

Two Overtimes Necessary for 75-73 Decision
2nd Half Rally Led by Smart, Lake, Murphy
Fades in Last Minutes

The Loyola basketball team was thrown into a double overtime, the Illinois Tech basketball team outlasted last Thursday on the Techwah's home floor. After leading the Bearcats 14 points at the first point of the frame, the Techwah scored the first week of the season, the Bears were eliminated at the University of Chicago by one point. Connors could not deliver the Techahs their second victory. A three-point margin when Brown also and Smart were downed by Bill Smott, Frank Lake, and Ray Murphy, counted the coast the last 10 minutes of play. Smart was high with 20 points while Lake and Murphy each added 17 and 15 respectively in the Techwah's third win out of 11 starts.

Upon agreement of the coaches, the teams played a five-minute over-time period to break the 60-60 deadlock. Lake's last shot in the over-time, bringing the score to the 65-60, led the Techwah to add an additional five-minute period. In the second overtime period, the problem that was followed by Murphy's basket but the Techwahs turned the momentum around and Murphy's foul shot gave the Techwahs a two-point lead with 3.4 seconds left in the game. The Techwahs then played a quiet game with Montegna's score in 4.5 seconds remaining in the contest. Loyola scored the game by forcing a turnover, but Lake was unable to get it out of the hands. This strategy almost backfired on the Techwahs because of a 22-turnover game, but Lake and Murphy's efforts in the last seconds of the game showed the courage and skill of the Techwahs.

Loyola jumped off to a quick lead when the trio of Crimi, Cusumano, and Tavani met a 25-2 lead in the first half. The Techwahs could not find their rhythm, shooting a mere 20% from the field, and were down 38-24 at the half. The Techwahs continued to struggle in the second half, shooting 35% from the field and were down 56-46. The teams traded baskets throughout until the final minute of the period when the Techwahs cut the lead to 59-58 on an overtimeLon with the Loyola five.

ILLONOIS TECH 61

In spite of the loss, the Techwah-Loyola game will be remembered as one of the all-time highs in ITT cage history. Doubtless it will be remembered as such in the minds of the players who came primed for the Techwah tonight and barely managed to escape with their skins intact.

Loyola 75 Chicago 73

The Loyola basketball team, led by the powerful trio of Jim Brown, Ray Murphy, and Bill Smott, overcame the Chicago Bears in a thrilling double overtime game on Sunday afternoon at the Techwah's home court. The Bears were down by 14 points at the start of the first overtime and were unable to close the gap until the last minute of the second overtime. The game ended with a final score of 75-73 in favor of Loyola.

Goehring Wins Ping Pong Title

Dick Goehring was crowned champion in the intramural league after his brilliant rally over his opponent Pete Patterson. Goehring won the first match and was leading 17-16 when Goehring rallied to knot the count. The game was tied four more times before the Techwahs defeated the Bears in the final set with two dominating victories.

Norm Schuler and Goehring met to defend their titles (or the combination of both) in the Ping Pong finals. The Techwahs won the first set with a hard-fought 11-8 victory. The second set was won by the Bears 13-11 and the final set was split with the Techwahs winning 13-11 and the Bears 13-12.

Wrestling Team to Meet U. of Chicago

The Techwah's team has been selected to compete in the meet with the University of Chicago. The match will take place in the gymnasium on Saturday, January 30th. The meet is scheduled for 2:00 p.m. and will be followed by a reception in the Derby Room.
Phi Lambda Upsilon
To Pick Candidates
Phi Lambda Upsilon, national chemistry honor society, will hold oral and written examinations for membership on Tuesday, Jan. 15, at 8 p.m. in Room 406. Prospective candidates are notified by the department that time to take the examinations. Candidates are selected from among juniors, seniors, and graduate students and must be ranked among the upper 5% of their class. The primary goal of the society is to give recognition to those who have distinguished themselves in the study of chemistry and chemical engineering.

Fraternities & Sororities
DELTA TAU DELTA
Delta Tau Delta Fraternity will hold a house party sometime in February in addition to the senior formal dance which will be held May 1. The chapter was honored by a visit from Eddie Adams, who is in the Navy in the Philippines. At present the Delta's have plenty of candidates for pledges to which they can offer the full house. Should any will be interested in pledging to Delta Tau Delta please contact the President or any member.

SIGMA ALPHA MU
The Sigma Alpha Mu house has recently purchased a house in the larger sorority house which is being used as a guest house for the fraternity. The house is located on the corner of South and Main Streets.

ROD OF D'IMPS' Campaign Over Top in Three Days
Illinois Tech's "Rod of D'Imps" campaign is over the top, according to report received at the office of Alpha Phi Omega, who have set a new record in the number of pledges in the Alpha Phi Omega "Rod of D'Imps" campaign.

Final Integral Photography Schedule
Dean White has given permission for all students to make last minute changes during this time when the pictures are scheduled to be taken for the INTEGRAL.

Seven Initiated to Electrical Honorary
Kappa Nu held its formal initiation ceremony in the Alumni House on May 31. The first three initiates of this year were: Leonard Wehr, Albert K. Cook, and Frank A. M. M. The initiation speeches were given by Mr. F. A. R. M. and Mr. R. A. M. The ceremony was followed by a dinner at the Alumni House.

Pi Nu Epsilon Initiated
Six Men Last Wednesday
Pi Nu Epsilon held its initiation ceremony last week for the six members who were initiated last Thursday, June 12. The ceremony was held in the Alumni House and was attended by the chapter members and guests. The initiates were John A. Smith, John B. Johnson, John C. Brown, John D. Davis, John E. White, and John F. Black. The ceremony was followed by a dinner at the Alumni House.
Midwest Power Conference To Be Sponsored by Illinois Tech

A group of twenty-eight outstanding leaders in the field of power in the United States have been named to participate in the Midwest Power Conference in Chicago on April 3, 4, and 5 by Conference Director, Stanlay E. Minnich. An outstanding panel of engineering experts has been selected to present the keynote address at the conference.

The conference will focus on the latest developments in power generation, transmission, and distribution, with a special emphasis on renewable energy sources. Attendees will have the opportunity to network with industry leaders and explore the latest technologies and innovations in the power sector.

Radio Engineers

Radio engineers and technicians play a crucial role in the development and maintenance of the communication systems that we rely on daily. They design, build, and maintain radio and television stations, as well as satellite communication systems.

EI390 EPILSON—Shown are the men recently pledged to professional radio fraternity standing around the fraternity's transmitter. Standing, left to right: Joel Brown, Harry Newcomb, Richard Collins, Alan F. Grossman, John J. Loucks, and Robert E. B. Young.

HONORARIES (Continued from Page 1)

As a part of his duties, each pledge will construct a piece of radio equipment such as a receiver, transmitter, amplifier, or test equipment. Also, they will be required to attend the meetings of the student branch of the American Institute of Electrical Engineers. Thus, in addition to their studies, members will become members of the fraternity and be able to work with equipment every day.

Pledging Period for Rho Epsilon Begins

Rho Epsilon, radio engineering fraternity, began its pledging period last week. The pledges are being trained on the operation of radio equipment, and they will be given the opportunity to work with equipment every day.

Questions College Men Ask

"Where Would I Job Be?"

Openings for college graduates may be in any one of the 82 Co-op Books Donated to IIT.

A collection of books on co-operatives, one of the most complete of its kind, was recently presented by the Illinois Tech Co-operative Society to the Engineers' Co-operative, Inc. William R. Calhoun, head librarian, has prepared a micrographic list of these books for distribution.

The presentation of these books, which will be part of the distribution of the funds of the Engineers' Co-Operatives, Inc., upon disbanding.

Pledging Period for Rho Epsilon Begins

Rho Epsilon, radio engineering fraternity, began its pledging period last week. The pledges are being trained on the operation of radio equipment, and they will be given the opportunity to work with equipment every day.
