HEADED to Head Planning Group
Corporation Will Study Local Blighted Areas

Dr. Henry Y. Heald has been appointed chairman of the South Side Redevelopment Corporation. It was announced last week that the corporation had been formed last week to provide neighborhood participation in planning and development of blighted areas.

The area extending from Roosevelt Road to the north on 67th Street toward the south. Improvement of the area is believed necessary because of street cleaning and lighting. Also, pollution of the area resulting from industrial activities will be countered by the corporation.

Junior Week Festivities to Begin May 28 With Intramural Fetes

Junior Week will begin Monday, May 28, with intramural and intramural sports events. It was dissolved today by Ken Thompson, FPC sports head, and Mary Larmon, IMA manager.

After the sports finish, there will be an open house planned for the rest of the day, and students will be able to attend.

Dean of Students Writes Open Letter

Dear Editor:

This is a question from a letter written by a number of the students who are disturbed by the present situation. It is the type of question that we have received recently and which is frequently talked about but which we feel is not sufficiently understood by many people.

The question is: Why are the students being asked to pay a fee for the college newspaper, and what is the purpose of these funds?

It seems to me that the purpose of these funds is to support the college newspaper and to provide an opportunity for students to express their opinions and ideas. It is the responsibility of the students to ensure that the college newspaper is an accurate and unbiased source of information.

Sincerely,

[Name]
Dean of Students

$3000 Allocated To Six School Organizations

ITSA Grants Specific Funds for Camera, Scenery and Records

The first meeting of the current semester, the Illinois Photographer's Association met to allocate $3000 to the six school organizations. The organizations and the amount each received were: Technology News, $1000; International Thespian Society, $700; Dramatists' Club, $500; the dance band, $500; theatrical music club, $200; and the glee club, $200.

The budget for Technology News was increased due to the need for additional printing facilities. The amount was increased by $1000, bringing the total to $1500. The money will be used to purchase more quality paper, which will provide a better print for the students.

Junior Week festivities will begin Monday, May 28, with intramural and intramural sports events. It was dissolved today by Ken Thompson, FPC sports head, and Mary Larmon, IMA manager.

Close Library During Moving

The Library will be closed from April 14 to April 20. During this time, the library staff will be moving to its new location in the Hall of Science. During this period, books and materials will be temporarily removed from the shelves and stored in the library stacks.

In the fall of 1950, the library will be reorganized and should be ready for use.

Dr. Richter Leaves For NY Lecture

Dr. F. K. Richter, professor of French and German, will leave Chicago Thursday to address the Illinois Institute of Technology as an expert on French and German literature. Richter is also a member of the American Association for the Advancement of Science and has published numerous articles on French and German literature.

The lecture by Dr. Richter will be a step forward in the study of French and German literature and will be of great interest to the students who are studying these languages.

Institute and Office of the President

With the completion of the new offices of the Student Union Building, the offices of the institute of technology and the office of the president will be moved to the new building. The offices of the institute of technology will be located on the ground floor of the building, while the offices of the president will be on the second floor.

The offices of the institute of technology will be staffed by members of the faculty and the administration, while the office of the president will be staffed by members of the administration. The offices will be open from 8:00 AM to 5:00 PM, Monday through Friday.

The new offices will provide a better environment for the students and faculty, and it is expected that the move will be completed by the end of the month.

Junior Week festivities will begin Monday, May 28, with intramural and intramural sports events. It was dissolved today by Ken Thompson, FPC sports head, and Mary Larmon, IMA manager.

A Tough Decision

Man of the Week

Army-Navy Merger

The proposed merger of the army and navy departments, which is still in a subcommittee of the Military Affairs Committee, has reduced itself to a struggle between the plans presented by the army and navy. The navy plan for autonomy is opposed by the navy's idea of reorganization of existing departments.

The argument itself resolves into two parts: the advisability of having one department, and also of having a single chief of staff over all three arms of the military services.

The army's plan for a single chief of staff would eliminate duplication in all phases of planning. It would also bring quick decisions, simplify command, and to some extent, would be required for all the armed forces, according to proponents of the plan.

It is argued by opponents, however, that the plan results in a concentration of power in too few hands; that the job would be too large for one man to handle. The army plan, they say, allows concentration only at the upper level and that the organization underlying remains unchanged.

The navy, fearing that it will become a junior partner in the merger, argues that such an arrangement would result in the eclipse of one branch by the other. Duplication is only another word for specialization, and the competition provided by independent development is lost in the merger plan.

A compromise plan is at present being devised. It is to be hoped that whatever plan is finally presented for action will be devoid of some of the professional jealousy and pride that has been evidenced in all other proposals.

Eta Kappa Nu is Second Largest Honorary at Illinois Tech

Eta Kappa Nu was founded in 1901 at the University of Illinois by a group headed by Leonard L. Cline. The rules and principles established by these men are the guides of the fraternity.

While the qualifications for membership Dickinson closes and recent applications for new expansion and promotion of their membership, and in the improvement of the standard and quality of the organization.

The Delta chapter of the association was installed at Armour Institute of Technology in 1916 and has been one of the most active honorary societies in the country since then. Outstanding men have been elected to the fraternity from the junior and senior class of Colorado University and from the senior class of the University of Illinois. Many of these men have been prominent in the field of electrical engineering and in the promotion of electrical education.

The Illinois chapter is currently the largest honorary group on campus and sponsors numerous activities during the term. A recent copy of an electrical engineering handbook was mailed to each student member of the chapter, and the following are some of the topics covered:

1. Analytical functions
2. Elementary circuits
3. Electronics
4. Oscillators
5. Transformers
6. Test equipment
7. Waveform distortion
8. Signal processing
9. Power systems
10. Control systems

At no student assembly held recently have the common principles of courtesy been upheld. There is no need to say that this is a deplorable situation, but there is great need for suggestions as to how the situation may be alleviated.

Know Your Honorary

Officers of the chapter are Walter Carrington, president; Charles Witte, vice-president; Sheldon Long, treasurer; Allen Grant, corresponding secretary; Robert Dabney, recording secretary; and J. Broome, bridge correspondent. Active members include: Edward W. Anderson, Lewis R. Bacon, and Philip R. Miller.

The Scooper

The Scooper boggles down last week due to the terrific warmth it got, but after a visit to the hours last week, it has efficiently cooled it up to go back into operation. Not to be outdone by the shrewd which is shedding the foundation for the new chem building (a fifteen foot job). The Scooper has planned to do deep enough to catch all the little men in the red suits and space shoes.

Joining the ranks of those with absent minds is Dr. William Kraft. Last week, when he was the downtown campus, he wanted to call on his 'at home' and turned back.

The 'Thursday Nighter of the week' goes to Mr. Dan, who was out of town all week and reported to Mr. Davis that he had the best week of his life.

The President of the Dues Club for the entire week, he finally got enough nerve up to ask Andy, one of our pasted pictures that is on its trip to the light fantastic with him. Every comment was, "This looks handy, it might as well help for out.

For the many students who could not understand the jokes in the humor section, the editor has changed some names and places and will try to make this section as funny as possible. The Scooper will try to make the humor section as funny as possible and will try to make the humor section as funny as possible.

The Scooper has thrown out the 

This week, the "Scooper," with the help of the VISA, brings to the telephone number of one of our greatest, Mr. James, a new issue of the "Honor Society.

The biggest operator on campus, says Chief Rosen-

Mysteries happen only during the summer, when we are all in our summer clothes. Night after night during recreation hours (let's call it) the telephone has been ringing and each time a new, sweet, feminine voice has been heard. The voice of Mr. Jane has been heard, and with this voice it can be said that she is one of the most beautiful girls in the field. All of these things, confirmed by the "Scooper White," who happens to be about ten and a half times as big as Jim, so no one is likely to suspect those phone calls for homes at all.

One reason on campus seems to have really gone into effect of late. The recent installment in the last three weeks has been by the VISA and one of its greatest, Jim. That is, the Scooper thought, it could be explained to the average reader by the following statement. In the first week, Jim was actually a three-month old, and the second week, he was a three-year-old. This is it, Jerry thought, so he made arrangements to have a child with a four-year-old, and the terrier was born. It is essentially the same as the first one, but Jerry had just one comment, "I didn't know Superwoman had a mother!"

(End of the story)
The Sailor Takes A Wife

By W. B. W., The Editor

During the April-June quarter, Robert Walker and June Allyson are featured in a film that has been in the works for some time. The story does not have any particular plot, but it does include scenes of the two dancing in a night club, and it seems to be a series of scenes that could be described as "romantic comedies".

Robert Walker and June Allyson are wonderful as the young couple who are falling in love. While the film is not a particular success, it has received some positive reviews, and the two actors have been praised for their performances.

dl "IT'S BEEN A LONG, LONG TIME"

Dr. Rader Will Speak on "Limited Highways"

Dr. Louis T. Rader, chairman of the Civil Engineering Department, will be the guest speaker at the next AIEE meeting on Friday at 7:30 P.M. in the Student Union Assembly.

The annual meeting of the American Institute of Electrical Engineers is expected to be held in the Student Union Assembly.

The next meeting is tentatively planned for the first week of this month.

ASCE Presents Movie on "Limited Highways"

At the ASCE lecture on "Limited Highways" held on Friday a local movie on "Limited Highways" was shown by E. A. Walli.

Dr. Rader will speak on his engineering work for the Portland Cement Association.

The meeting of the Portland Cement Association is expected to be held in the Student Union Assembly.

Tom Scutt, president of the student chapter, stated that Dr. Rader will speak on his engineering work for the Portland Cement Association.

The annual meeting of the American Institute of Electrical Engineers is expected to be held in the Student Union Assembly.

The next meeting is tentatively planned for the first week of this month.

Fraternities & Sororities

ALPHA SIGMA PHI

The fraternity chapter held its annual meeting last week. Many new men who were interested in pledging attended, according to a report from the chapter. A number of new and old members were present, and the chapter is expected to grow in the near future.

DELTA TAU DELTA

Delta Tau Delta has recently increased its membership. The chapter held its annual meeting last week, and many new men were initiated. The chapter is expected to grow in the near future.

BETA OMEGA NU

Beta Omega Nu, although not as large as the other fraternities, is making progress. The membership is expected to grow in the near future, and the chapter is expected to be an active one.

Rhode Delta Rho

Rhode Delta Rho has initiated a number of new members. The chapter is expected to grow in the near future. The chapter is expected to be an active one.

STICK UP

Choose to the Slapstick — Let the Slapstick Fall Where It May

Mike Stimpson

Pledge Smoker is Held

By Mechanical Honorary

At the annual mechanical honorary, held on the last Thursday of the term, there were about 100 members in attendance. The event was held in the main building, and it was attended by many of the members. The event was well-attended, and it was enjoyed by all who attended.

In the future, the event will be held on a regular basis, and it is expected to grow in the near future. The event is expected to be an active one, and it is expected to be enjoyed by all who attend.
Tech Nine Opens Season Against U of C

Netmen Will Meet Maroons in Opener

Tech's 1944-45 squad will open a 15-match spring schedule Saturday afternoon when the Maroons of the University of Chicago make their annual visit to the University in a football game in Memorial Stadium.

Led by Coach Walter Hefter, from 1943, Tech has shown a lot of promise this season with the return of 10 of its 13 letter winners. The squad is expected to present one of the strongest teams in recent years. Hefter's team will take on the Maroons from the big league that is the Big Ten, Michigan, Indiana, Ohio State, and Purdue, to mention a few from the Big Ten That Tech is the only team that is able to match them.

In addition to their overthrow of the Maroons, the Techmen will be handled considerably by their months of indoor drills at the
The Techmen have a three-week schedule of practice matches this season, in preparation for spring games and the element.

The Techmen for the Theta Chi are Jim Purcell, Carl Barquet, Gene Smith, Bill Dai, and Bob Radey, from the mid-season probability of Charley Sturrock and J. A. Bens, who are expected to hold down Purcell and Tom Hynes, respectively.

The Techmen, who are usually letter winners, will not start the season this year before the team's usual three-weeks of pre-season practice, to be followed by a game against the Techmen who have lost their two highest-scoring forwards in recent years.

The following men have earned their first Tech letters and will start this afternoon's contest:

The same New Year is expected to start against the American College of Chicago, which is coming into the game as a 3-2 underdog. The Techmen are expected to hold their own against the visitors from the south side of the city.

Last year the Techmen, paced by co-captains Roy Murphy and Frank Dwyer, were able to win the spring and fall contests against college and semi-pro opponents during the season.

Illinois Tech will enter this afternoon's contest with a fine year average of 56.3, down from 64 over last year.

Calculator Committee Holds Annual Meeting

Last Monday evening, the Committee of the A.C. & Network Calendar held its annual meeting at the University of Illinois. The committee consists of representatives from each of the colleges and the College of Science and Engineering. This year the committee has contributed to the initial cost of setting up the network and the plans for the coming year and the discussions of the calculator were discussed.

In the absence of Dr. J. E. Thomson, the chairman of the committee, Mr. W. K. Miller of the Army's Signal Corps, W. J. L. Smith, Dr. William A. Lewis and N. C. Leslie, the Secretary represented the Illinois delegation.

ITVA to Quiz Vet Rejecces

Act to Aid Many Being Turned Away by School

"What becomes of veterans that are refused admission to ITVA?"

"That they are turned away," said Mr. Wright. "When our enrollment reached 630, the veterans of Illinois Tech decided to look into the situation. Mr. Wright, now assistant secretary of the institute, wrote to Mr. Wright, who was president of the institute, and asked how veterans were being handled. Mr. Wright replied that veterans were not being refused admission, but that they were being refused admission because of their high school records. He said that, while the program of Illinois Tech did not require veterans to have high school records, the program did not give them preference. Mr. Wright then suggested that a meeting of veterans be called to discuss the situation. The meeting was held, and it was decided to organize a veteran's group to take up the matter with the administration. Since then, the veteran's group has been working to have veterans admitted to Illinois Tech.

ASME Chapter Holds Meeting

The student chapter of the ASME recently held a reorganization meeting in Kirk Building. Great speeches were made by several members of the chapter, including Dr. H. T. Railroad, head of the electrical engineering department; E. J. Railroad, dean of the engineering division; and H. S. Railroad, head of the mechanical engineering department. Emphasizing the importance of extra-curricular activities as a basis for future employment, Mr. Railroad pointed out that an ASME member is preferred by employers because he has a large vocabulary. The meeting was well attended, and the officers were re-elected.

ARF Will Conduct Tours Through Labs

The Armour Research Foundation announced today that it has started sponsoring tours through its laboratories.

These tours will be conducted every Wednesday at 3 p.m., Monday through Friday. Any student who wishes to avail themselves of this opportunity is asked to report at Dean White's office before 2 p.m. on the day the tours are scheduled.

The tours will include visits to all research laboratories, the experimental laboratory, the central laboratory, the research laboratory, and the ARF Foundation. The tour will last about an hour and will be conducted by the men from the Foundation.

SANDS

Costello: "Alderman Sacks first

Though the aridness of the situation of the school," Mr. Wright stated. "We believe that the veterans are not being refused admission because of their high school records. The program of Illinois Tech, while it does not require veterans to have high school records, does not give them preference. We believe that the veterans should be given preference, and we will work to have them admitted to Illinois Tech."

- Although some students participate in this program should not be elected to their personal positions," Mr. Wright said. "We believe that the veterans should be given preference, and we will work to have them admitted to Illinois Tech."

Organization Reports Requested by Dean

The officers of the dean of students last week announced that it had received requests for reports on all known student groups on the campus.

If, for any reason, an organization has not received a form from its teacher who should immediately inform the dean's office, and the teachers of the organization that has requested the form should fill it out and turn it in as soon as possible.

These forms should contain the name of all student members, and a list of the organization's activities that along with other pertinent information about the organization.

When these forms are received they shall be sent to the dean of students. These organizations that do not turn in forms will not be recognized by the institution. The names of the students belonging to the organizations will not be placed in a permanent personnel file which will be used as a reference for future membership.

Editorial Sacks First

Mr. White announced the resignation of Mr. White. Mr. White was editor of the Daily, but was asked by the administration to resign because of the lack of a sufficient circulation. Mr. White was replaced by Mr. White, who has been the associate editor of the Daily for the past two years.

Journalism Fraternity to Meet This Thursday

A meeting of all active members of the Delta Epsilon, national honorary journalism fraternity, will take place this Thursday at 8:30 p.m. in the Technology Union, according to Dr. White.

Among the purposes of the organization will be plans for the formation of a chapter in the future. The officers of the Delta Epsilon for the current term are: Ann Grant, president; William R. Hicks, secretary and treasurer; and Dr. White as advisor.

Journalism Journalism Fraternity is to encourage students toward achievements in the field of college journalism.

Yeoman reddish is well known as champion of winter sports.

John reddish, nineteen year-old third-class yeoman in ship's company at itt, is a modest fellow with great ability in the field of winter sports.

Jack, whose home is in Salt Lake City, Utah, started skating on a frozen pond in his yard at the age of five.

He was later a member of the University of Utah's skating team, which often practices on the ice rinks of the Salt Lake City area. He has been a member of the team for the past five years and has won several championships.

The Yeoman has a natural talent for skating and has been successful in many competitions. He has won several medals and trophies in various competitions.

He is a member of the National Skating Association and has been selected to represent the United States in international competitions.

The Yeoman is a dedicated athlete who trains hard to maintain his skills and improve his performance. He is always ready to face challenges and to prove his abilities in the world of winter sports.
