6500 Students Register for Fall Semester

UPPERCLASSMEN—Senior and Junior Seniors sign up in front of map on the first day of registration.

Levi Named Graduate Head

Dr. William A. Levi, Jr., former research professor of electrical engineering at Illinois Institute of Technology and consultant in the 1960s' Army Research Foundation, has been named Dean of the College of Engineering at the University of California, Berkeley.

Senior sponsored integral ball to be first big social event of the season

Student Life: The Illinois Tech campus will be launched in a formal manner with the Integral Ball on Friday, October 18.

Technology News

Others novel class to budding authors

As part of its continuing effort to attract and retain talented students, the College of Engineering has introduced a new course titled "Introduction to Engineering." The course is designed to help students develop the critical thinking and problem-solving skills necessary for success in technical fields.

Elections to be held next week

Elections for the Student Government Association of Illinois Institute of Technology will be held on October 4, 1964.

From administrative responsibilities to creative thinking and problem-solving: Dr. Levi, a former research professor of electrical engineering, has been named the head of the College of Engineering at the University of California, Berkeley. He was previously associated with the Illinois Institute of Technology, where he served as director of the Engineering Foundation of Illinois.

The university's new graduate program in engineering will be introduced to students on October 18, 1964. The program is designed to prepare students for careers in engineering and related fields.

Two added to staff of IIT Dean of Students

The staff of the Dean of Students at Illinois Tech has been expanded with the appointment of Dr. Louis H. Benjamin, director of student affairs, and Dr. Donald F. Halpern, assistant director of student affairs.

Music organizations will meet this week

The annual meeting of the music organizations will be held on Friday, October 18, 1964. The meeting will be held in the old music hall to discuss plans for the upcoming season.

The registrar's office is located in the main building and is open from 8:00 a.m. to 5:00 p.m. daily. The office can be reached at 704-1234.
**BMOCs Guide New Frosh Through Fall Registration**

Incoming freshmen were members of the general confusion which resulted when they were put through the maze of registration under the Academic Affairs program last Thursday.

They, in turn, were members of the general confusion which resulted when they were put through the maze of registration under the Academic Affairs program last Thursday.

However, a new group of freshmen was quickly trained to the system, proving highly successful. The large number of freshmen present made the registration process a bit more complex, but overall, the freshmen were able to navigate the system successfully.

The freshmen were divided into small groups, and assigned to different sections of the registration process. The registration process was designed to be as efficient as possible, with trained staff members to assist freshmen with any questions or concerns they might have.

Freshmen were also introduced to extracurricular activities by various organizations, which included sports, clubs, and volunteer opportunities. The freshmen were encouraged to get involved in these activities to help them adjust to college life.

The Academic Affairs office was open for additional assistance, with staff members available to help freshmen with any issues they might encounter.

In summary, the experience was a positive one for the freshmen, as they were well-prepared for the academic and extracurricular challenges of college life.
Intramural Touchball Tourney Begins Fall Parade of Sports

Entries Accepted Until Sept. 27; Play Begins Sept. 30; All Star Game Also Featured

Intramural touchball will begin the parade of fall sports with the annual touchball tournament to be conducted at Wrigley Field on Chicago's North Side. The tournament will be played on Friday, Sept. 29, and Saturday, Sept. 30.

Team rosters must include the names of all players from the various teams entered in the tournament. The tournament will be played under the rules of the National Collegiate Athletic Association. No team will be allowed to participate in the tournament unless it has submitted its registration form to the office of the University Activities Committee on or before Sept. 27.

Netmen Place in Park Competition

Illinois Tech's varsity team placed second place in the annual Netmen competition. The team was represented by a player from the University of Southern California, who scored 15 points. The team was also represented by a player from the University of Southern California, who scored 15 points.

New Men Urged To See Coaches

All freshmen or entering students interested in any of the varsity sports are asked to consult with the athletic department in order to arrange for tryouts for the fall semester. The tryouts will be held on Friday, Sept. 29, and Saturday, Sept. 30.

According to "Tony," the varsity team's assistant coach, the purpose of these tryouts is to determine the skills and abilities of the athletes. The tryouts will be held in the gymnasium and will be open to anyone interested in trying out for the varsity team.

Contrary to popular belief, the freshman football team in its first game is destined to come out on top in one of the greatest in Chicago history.

It was followed by many that Illinois Tech's basketball program would be doomed to face the same fate as its predecessors. The team was composed of a group of gifted players who had shown promise in their college careers.

Veterans Should Enlist Aid of De Sylvester in Time of Need

The veteran column this week will be devoted mostly to getting the incoming vets on their feet, making introductions to the personnel connected with veterans affairs.

One of the first men you will come in contact with, if you haven't already, is Corporal De Sylvester, a veteran of the 445th Infantry, employed by the Veterans Administration and placed at the school to assist you in all the problems you will face in your veteran affairs.

De Sylvester is the man to see if you desire help and guidance in connection with your veteran affairs. If you have any questions or problems, he is the man to see. He is there to help you every step of the way.

All-American — every year

Here's the team that continues to give America the finest telephone service in the world!

A group of Associated Companies provides telephone service in their respective territories.

The Long Lines Departments of AT&T provide Long Distance and Overseas service.

The Bell Telephone Laboratories and Western Electric Company are responsible for scientific research and the manufacture of equipment.

The American Telephone and Telegraph Company, through advice and assistance, maintains the integrity of telephone service and service standards.

This is the Bell Telephone System.

Thousands of college graduates have found their places on this team of communication experts and are molding telephone a new.
Simon Appointed Department Head; Two Men Added

The political and social sciences department of Illinois Tech has been reorganized with the appointment of Dr. Herbert A. Simon as chairman, and the addition of Donald W. Rudshmeer and Donald W. Cossen to the staff. Announced Dr. Henry Y. Hecht, IIT president.

Professor Simon, who has been associate professor of political science at Illinois Tech since 1963, will head the department that has, since 1936, been under the direction of John D. Laskin, dean of liberal arts. Dr. Simon was awarded a degree of arts degree by the University of Chicago in 1938, and studied economics and public administration for a doctorate, awarded in 1942.

From 1946 to 1958 he was associated with the International City Management Association at the University of Chicago as research associate and staff member. He also conducted research on Administration in Government at the University of California from 1949 to 1952. A Phi Beta Kappa, he is also active in several public administration organizations.

Mr. Blumoff, who is an instructor in political science, has recently been a research fellow in social sciences at Harvard University. He was associated with the O.P.S. from 1942 to 1945, conducting his research in the field of Planning and Policy Studies of the Canadian Research Institute. A 1937 graduate of the University of Washington, he was a research assistant at the University of Washington and Minnesota.

Mr. Cossen, who recently completed graduate studies at a midwest for a doctorate degree from the University of Chicago, is a 1937 graduate of Johns Hopkins. He received his master's degree from the University of Chicago in 1939. His professional experience includes teaching at Illinois State University, the University of Northwestern, and at Lawrence College.

Electronics Meeting Convenes in Chicago Hotel Next Week

Preliminary applications of some of the most recent developments in electronics were discussed and demonstrated at the 1950 National Electronics Conference held at Chicago's Convention Palace Hotel on September 29th. The papers will be on the occasion of the conference.

Receiving the new developments of electronics research, nearly 100 selected papers will be prepared by top-ranking engineers, engineers, and research specialists from throughout the United States, as well as by exhibitors of electronic equipment and supplies which will be displayed during the three-day event.

Participants among the audiencela who have been invited to address the conference are Dr. B. R. G. Cadar, director of the National Bureau of Standards, who will deliver the keynote address, "Electronics and the Future," at the opening assembly; Dr. Donald L. Varner, president of the University who will speak on "Science, Politics, and the Nation," and Dr. G. O. Buehler, vice-president of General Electric Company, Nobel Prizes for Engineering and the "Engineer of Tomorrow," who will deliver a demonstration lecture on radar and microwave.

Illinois Institute of Technology, Northwestern University, and the University of Illinois, together with the Chicago section of the American Institute of Electrical Engineers and the Institute of Radio Engineers, will jointly sponsor the 1950 conference, in cooperation with the Chicago Technical Societies Council.
