Tech to Elect Queen Candidates Thursday

Contributing to IIT's Community Fund Collection

A PO Will Accept Contributions Thursday and Friday in SU Lobby

Each Illinois Tech student will have a chance to wear a feather in his hat Thursday and Friday. Collection for Chicago's Own Community Fund will be made on these two days by the Illinois Tech chapter of Alpha Phi Omega, national service fraternity.

In announcing the campus drive, Al Swanson, president of APO, said that the activity is a duty in the duty of the Union building from 10 a.m. until 2 p.m. for cash and checks, and from 6 to 9 p.m. for credit cards, and that all proceeds will go to the community fund.

The goal of the Chicago area drive is to raise $25,000. In addition to the money one million dollars will go to the EOF for cash, checks, and credit cards.

ITSA to Discuss School Budget

The school budget will be the main topic for discussion when the ITSA meets this Thursday. The meeting will start at 4:30 p.m. in the conference room of Alumnus Hall.

Bilge for the ITSA members will be presented at 8:00 a.m. to 11:00 p.m. at the ITSA banquet. The theme of the ITSA banquet is "The Future of Education: What Can We Do for the World?"

48 Senators Will Meet Friday at 11 a.m.

The first meeting of the 48th senator class will be held Friday at 11 a.m. in the conference room of Alumnus Hall. The session will be presided over by the President of the ITSA.

Heald Elected Head of IIT Executive Committee by Board

John S. Heald, chairman of the nominating committee of the Board of Trustees, was elected by the board of trustees to be chairman of the executive committee, the position of senior executive officer.

"The Board of Trustees has unanimously elected John S. Heald to be chairman of the executive committee," said President Henry T. Heald. "Heald is a distinguished figure in the field of education and has been a member of the IIT executive committee for many years.

"I am confident that his leadership will be beneficial to the Institute and I look forward to working with him."
Faulty Plumbing

Now that a new group of students have been elected to the Board of Control of the Student Union, we can again hope to see improvements in the "enjoyable old keeping." Yes, the student body can only "hope" for action. It seems in the past that even if the board had overcome its own inertia it was check-mated by the long wait and agitation necessary to produce any improvements through the school's machinery or other agencies.

With the new life and spirit in the I.T.S.A. there undoubtedly will come a demand from the representatives to bring pressure on the S.B.U.C. If the group does not function, pressure can and should be brought to bear on the board to make them take their responsibility seriously. The old complaint of "what can we do?" has an answer that requires daily in the halls. All these old men have to do is to look and listen for just five minutes to the conversations in the lounge or the cafeteria. The agenda for a semester's work could be had.

Let's see something done about the clock in the lounge, so that when we look up at it we won't get the idea that we've just missed class. More ashrays might remind the students to please not dump their ashes and crumpled wrapping paper on the floor. A campaign might be started to keep the building cleaner.

The men eating lunch in the auditorium can't be criticized when the cafeteria is full, but that is no excuse for lunch remains to be left around. Those pictures in the lobby seem to have been there since some of the juniors were freshmen. It should be up to the S.B.U.C. to step on the toes of the Armour Rys and other organizations to keep the space attractive. It's the students' business.

We wonder if the problem of checking has bothered the conscience of those responsible for the Student Union. With the money facilities of the cafeteria and the enrollment doubled just where will a student be able to hang his jacket on clothes rod and sit down?

The spot most sorely in need of attention is the men's room in the Student Union. It doesn't even have a sign! Perhaps it's better without one-a way it shows that we are ashamed of it, as well as we should be. Improvement of facilities, such as a spot to place books while one washes his hands, and some reading should be begun without delay.

Come on, Student Union representatives, roll up your sleeves, there's work to be done for the good of all.

IF ALL FOREIGNERS WENT BACK TO THE OLD COUNTRY

The Digger was on the brink of unmasking the sinister activities of Paul (Mr. & Mrs. AA) Ammonorien. However, an occurrence which was unprecedented in the annals of the Shovel came to pass: "Listen ye, ye sinner," barked Paul, "If you print that they'll be pelting your body off the front."

But the spirit of the Shovel remains undaunted, and the Digger will continue to dig and dig and dig.

Upon considering hobby schemers, we come to Sam Molyneux. Anyone who would take a fourteen-year-old girl to the Plumbing Club and wear rummages while utilizing in the first week will have trouble becoming an engineer.

Chuck Angstrom has been putting off his date with the "Texas Bridesmaid." From Radiator, this past week and to the next. The Digger has just managed to discover that they were at the Ten-Torpe last Saturday and Monday and it was definitely his chance since Chuck lives up in the "Eel" North and the Bridesmaid lives in the "Low-Beer."

But what of this, it has just been discovered that from was at the Angstrom's Saturday night before last. Where were you Chuck?

Frank "Pappy" Pappin's native costume was featured by the members of the "Pappy" under his eye. Lillias, who has some strange fascination for "Pappy" has been known to speak of "Pappy's" costume in a way that suggests affection. Perhaps it is the only window dressing specially in the area where "Pappy" is known.

Mather Margulis and Larry Margulis have more than similar names. The Digger has it on reliable authority that the above two have also shared a number of girls' names. It seems that "pappy" Larry is quite a wide and "unkind" Mather does her eating.

Tom Bannister, who felt the stream of studies at ITI too great, is not still occasionally meet around the campus. More specifically around the parking lot and usually in small conversation with Bannister. ITI students have no more sense than that she is not helping him with his studies.

A bomb rang over the campus. "Schatte Balla" is no more. Her best friend will echo no longer over the campus. The cheerleader's final note will no longer be heard by the campus. The campus will no longer be disturbed by the clank clank of her pumps. Twilight students will be deprived of accepting ribbons from her. Her younger sister "Helen" Bannister's days are numbered.

"No, I don't feel bad of the color.

George Hausel certainly went all out in the campaign for sophomore president. He even went himself to get a laugh with the masses for a whole week before the election. The Digger received a lot of personal attention from Hausel, but George says, "It was just another vote."

An ITI professor has been known to close his throat 10 times during any one freshman week. If questions are asked of him, the rate increases to 124 per minute. On the other hand, the close is decreased to 170 when some general is reached. Near the end of the hour, his groups become directly proportional to the mass of the room and inversely proportional to the square root of windchill power problems assigned.

The "Klotem Street" "shovel" is placing a stop to the noise problems. The students say they will never again use the "Klotem Street" "shovel".

The Digger officially designates the forthcoming "The ITI M.U. Dumb Engineers" week. On this week the Shovel will give a prize to the engineer that is dumb enough to submit the most hated design. The Digger.

October 13, 1934
Robert Boyar is President of ASME, Member Tau Beta Pi

"College life develops the ability of an individual to tackle problems and to think independently." These are the words of Robert Boyar, Man of the Week selection of Technology News.

Robert Boyar is active in the National Honors Society, Band, and Dramatics in which he played the leading role in the play "The Miracle Worker" for the role he played in the Army. On Thursday, September 25th, after a two semester period, he left for the Army (Faculty). He was commissioned a 2nd lieutenant and is a new senior member in MS...President of ASME...says that he believes any man who wants to succeed in his engineering field should support and encourage a national society. Boyar was a member of Tau Beta Pi, national engineering fraternity last term. In addition he holds the office of treasurer in the university society of engineering, mechanical, engineering house. He is also an active member of Triangle Fraternity, Socially at

Fraternities & Sororities

ALPHA SIGMA PHI

Monday evening, October 7, the Alpha Sigma Phi house was packed to capacity with students.

A social committee composed of Joseph I. Johnson and Bob Robertson was appointed to arrange for the party in plan parties, music, etc. Bob Arnold was appointed to draw up plans for the party and the social committee planned some time in the future. It was reported that the date set for Friday, October 8 is unlikely.

Joel Johnson was elected to the position of Vice-president, an office which has been aimed after the absence of the former at the end of the term. John Blakely was appointed as assistant manager and the house rival manager which has been practiced for several years in.

In a football game 20th, October 5, the house was defeated by the opposing team.

A pledge was elected captain of a football team which has been successful in the past.

The party was attended by a large number of students and pledges, and was thoroughly enjoyed.

The members of the house are

BETA DELTA RHO

Al Abras, Beta Delta rho pledges, said that he believes that the fraternity football team has been in a state of depression for over two weeks. He also said that the team has been working continually and that it is expected that it will be victorious in the near future.

The Beta Delta rho pledges are

Al Abras, Ed Parrish, and John Blakely.

Sigma Alpha Mu

Lorie Sturlese was elected pledge captain of Sigma Alpha Mu. The pledges are to be initiated on Friday, October 11.

The pledges are

Lorie Sturlese, Ed Parrish, and John Blakely.

1893 Marks First Co-ed at Armour

At the Armour Institute, the 1893 marks the first year that an undergraduate class included women. This year marks the 50th anniversary of the establishment of the school.

LETTER OF THE WEEK

I have received a good deal of criticism on the campus during the past few weeks. I believe that the situation is quite serious and I would like to complain about: long lines at registration, long lines in the cafeteria, shortages of study materials, etc.

I believe that the situation is quite serious and I would like to complain about: long lines at registration, long lines in the cafeteria, shortages of study materials, etc.

Senior Chefs Defeat Dove's Frosh; Sr Mechs Beat Sophs

First Weeks Features Four Games of IM Touchball Tourney Play as Favorites Win

In the first game of the intramural touchball tournament, the senior men's team defeated the freshman men's team 14-0. The men's touchdowns in the last half smashed the freshman squad's bid for victory.

In the second game, the seniors battled on even terms during the first half, scoring touchdowns before being stymied by the defense. In the third minute, the seniors scored on a 10-yard pass from passer Jim Oldstone, who had been intercepted by a freshening Sophomore pass near the midfield ridge. The team played well, winning by a score of 14-0.

In the third game, the seniors defeated the junior men's team 21-0. After a 10-yard pass from passer Jim Oldstone, the seniors scored on a 10-yard pass from passer Jim Oldstone, who had been intercepted by a freshening Sophomore pass near the midfield ridge. The team played well, winning by a score of 14-0.

In the final game, the seniors defeated the junior men's team 21-0. After a 10-yard pass from passer Jim Oldstone, the seniors scored on a 10-yard pass from passer Jim Oldstone, who had been intercepted by a freshening Sophomore pass near the midfield ridge. The team played well, winning by a score of 14-0.

Hooper's Look to Good Season

With full optimism, Hooper looks forward to a successful touchball season. For three years near the gun in the hospital was permitted an opportunity of playing heavy touchball. In 1967, Hooper had the winners' gift of seven former touchball defenders. Planning an extensive training schedule, Hooper hopes to have his team ready for the season.

Coach Bob Herman and captain Bob Kline will attend the meeting. If efficient interest is shown, a round robin bracket for new candidates will be drawn up as a challenge match for the season opener against a team composed of new students and former touchballers.

Any interested students unable to attend the meeting are invited to contact Coach Bob Herman in the Newsroom during the week.

Basketball Coach

Jim Oldstone Named Honor I President

Jim Oldstone has been chosen as the new Honor I President. Jim Oldstone is a senior and a member of the basketball team. He has served as vice-president of the Honor Council and as a member of the Honor Committee.

Largest Student Branch in the Country Is Goal of ASME; Want 400 Members

The ASME membership drive for 400 members started at the first meeting of the semester last Friday morning. Bob Boyer, president, opened the meeting with the statement that with 400 members the ASME will be the largest in the country. Professor E. R. R. Ulmer, sponsor of the ASME chapter, stated that if we get 400 members we will be able to buy a sub from the International Harvester plant at 300 and West 42nd street.

Dr. McNamara, Presents First Of Freshman Hygiene Lectures

The first of a series of health and hygiene lectures was presented last Thursday by Dr. John F. McNamara, MD, former chief surgeon of the medical department at Illinois Tech. Dr. McNamara, in his lecture, outlined the lectures for the rest of the semester.

You trust its quality.
