Announce "Speed-up” Plans for Registration

Camera Fans Strive For Cash Awards In Photo Contest

Keeen competition for the two $50 first prizes, three seconds of $5 each will be awarded. All four winners will also receive a free membership for one year in Armour Eye. The membership will entitle the winners to complete use of the club's photographic and darkroom equipment.

Judges for the competition will be photographers from the Chicago Sun, Chicago Times, Chicago Tribune, Chicago Evening Post and the Associated Press. First place will be judged upon composition, news value, clarity, and human interest.

Entries may cover any phase of the campus life. Features photos include sports, "back" and human interest photos. Any current campus event is subject matter for a news photo.

Contest entries can be made in care of Armour Eye at the post office, first floor Sun. Entries must carry name and class of the photographer, include a brief description of the event departed. Pictures submitted should be glossy prints, at least 4 x 5 inches in size. Armour Eye and Technology News reserve all rights to publication of pictures submitted. Entries will be returned upon completion of judging.

The contest, which began last Wednesday, will close on Tuesday, December 10. Entries will be announced in the Dec. 18 issue of Technology News.

Going Up!

Students Consult With Dept. Advisors

Venerable Committee Of Administration Tell Of Streamlined Plans

The period of December 1st to December 21st has been set aside for pre-registration. This is the result of the work done by the Registration Committee of the faculty and administration which has been studying the registration procedures for past semesters. Cards for the facilitative registration may be obtained at the Administrative Office, Adams, 2nd floor, Union Building.

Students who are entering this year, with the exception of first semester freshmen, who can enroll this semester, will be asked to bring this notice to their advisor with his advice to plan their program in the next term if it is desired to return. Dean White will notify, by mail, all first semester freshmen who have not registered prior to December 21st. All other students will register with the chairman of the department in which they are to take classes.

The department secretary will carry this notice to the student with a faculty advisor to assist the student in the selection of his courses for the second semester, a portion of which will not be assigned until the registration day.

A student who does not complete his tentative enrollment during this period will not be permitted to register until the last day of the regular registration period, Friday morning, February 14, 1948.

It is necessary for students to take advantage of this opportunity to register and to be sure to have completed necessary registration cards and the cards returned to room 206 Main before January 20, 1947.

Newman Club to Hear Discussion on Marriage By Rev. Fred. J. Mann

Rev. Fred. J. Mann, a Re-

comASIC Mari-

View No Modern Marriages Fail as a Result ofa Subject Under Discussion Tonight.

Members of the Newman Club at the Church of the Covenant have been invited to the meeting, attended, among others, Fr. Mann, of the church, and the group, the talk by Father Mann’s is to be followed by reformation and discussion.

Several topics in the subject mar-

riage fail as a result of what is} as a result of what is called the "Marriage Fail." The talk will be followed by a discussion on the topic. The discussion will be followed by a discussion on the topic. The discussion will be followed by a discussion on the topic.

Snake Dance and Bonfire to Feature All-School Pep Rally

An all-school pep rally and bonfire complete with snake dance and singing to the accompaniment of the school band is being planned by the Student B club.

In a determined effort to pep up the student body, the class has organized a large committee to make all arrangements. The event is scheduled for Monday, December 2, at 6 p.m., the day before the first basketball game. The Technick team will battle Loyola on their court on December 3.

A little head preparations are in Su B, senior EHE. "The quest for food and fun will be held, but if so many students know of pon- nies, they are summoned to meet me before 1 p.m. The ponies will be joined July 8 for the School dance and sing to the accompaniment of the school band.

"The school spirit is in the air, and the singing and cheering will be led by the cheerleaders. To increase the number, more and more of the students are added to the cheerleading corps, and many more are expected to cheer on the Techick team.

NEW BUILDING Construction progresses on the chemistry building, seven addition to the IT Building Program, with period of shipment of structural steel.
Clean-Up Be Praised

It is heartening to discover that someone reader and does something about the condition mentioned in the editorials on this page. In this instance we credit the deed to Mr. W. J. Parduhn, Superintendent of Buildings and Grounds.

In the issue of Oct. 15, the editorial titled “Faulry Plumbing” tried to bring the attention of the Maintenance Dept. the deplorable conditions of the Tech waterworks. Some wise soul from that department must have rushed his gaze upon and words, for so belated improvement has been in evidence.

A word of praise is in order for the responsible, namely Mr. Parduhn. There is an easily accessible, clean shelf for books in the wash room, the counters and the latrine are easily flushed—rubbers do not need to be worn anymore in order to keep the feet dry. The new coat of paint provides the room with the appearance of cleanliness once more.

It is gratifying that this improvement is not an isolated event. A proclamation, Genoa, in the form of a notice upon the door would add a finishing touch to the renovation work.

Opinions of student majors in addition to criticism of poor conditions at IIT and suggestions for improvement are an important part of the editorial scope. Letters to the editor are looked upon as concurrent student views and are published only if they are published. Any student having something to say should write a comment to the editor about it, which may be deposited at the Technology News box on the first floor of Chester Hall.

The words are directed to those faint-hearted souls who have something pertinent to student interest on their mind and yet find no opportunities to voice these opinions. The writers are urged to sign their letters, for anonymous letters in addition to not being as effective are rarely printed.

NROTC Training Opportunities

To Be Offered to 270 Students

The navy entered IIT campus life July 1, 1943, when a V-12 unit was established here. During the fall of 45 the NROTC unit was activated which, as the Department of Naval Science, is now a permanent department of the school.

Zoology research takes the Digger out to moorid places to study the habits and culture of local types of ground-hawk. Neither human nor bird is this creature that dotes on stickpins and quills. Social activities are limited in its dull existence.

For instance, at a recent tea the little dog set around amusing himself with his thoughts. One of the women was playing with the dog, to which other participants answered that he was playing with the dog. The required answer with “Yes, the strong white character is typical of medieval students.”

The cute little dog was seen on the wing, leaving the PM News office, where he was dropped to be dropped. The dog was not only of the PM News, it was on his way to the “Digger” where he was dropped onto the other being at the University of Illinois.

Eventually, there will be a total of about 270 naval science students.

Curtain Call

Bill Knowles

"Remember Massee" in such an unusual play in so many respects that I hardly know just how to begin to tell you about it. I will try to mention something about the protagonist or antagonist kind that is often seen. There is not much of the conventional type of action present. Nor is the staging done in what might be called the ordinary manner.

Let’s look at this in one of the phases of the production in present order so that the most interesting, the story itself, will be told in its entirety first. The stage is laid out in three main areas. At center stage is a raised platform made of the main action takes place. On the left side, the audience enters and finds itself in the center of the curve of the auditorium. Below level with the flat floor at the back of the house, there is a small see-through window that is designed to help the audience to see the action. The window is placed so that it can be seen from all angles.

Next, you perhaps know only too well, is a common tendency in casting, brought about by the lack of really good actors, to have a stellar player in the lead and various inferior grade of actors in the supporting roles. In "Remember Massee," on the other hand, is excellent right down to the walk-on bugle player.

Tom Ross, a star in the show, is a talented director and the supporting cast is equally strong. The story has a certain mystery about it, and the audience is left in suspense throughout the performance. The play is a study in human nature, and it is well worth seeing. I recommend it to all who are interested in the theater. The performance is in two acts and runs about two hours.

How to get your copy of "Remember Massee"

To order a copy of "Remember Massee," or any other theater production, you should contact the box office or the theater directly. The price is $2.50 per ticket. The show runs from Wednesday night to Saturday night. Performances are at 8:30 p.m. each night. The theater is located at 123 Main Street. For more information, call 555-1234.
LETTER TO THE EDITOR: Free Periods

I would like to renew the suggestion that there be two free periods during Friday this week and the second Friday. The hour should be from 12:00 to 1:00. This would permit a full schedule of studies and athletics. At the present time, in a three-hour class, shortness of time is a constant thing. Three hours is an absolute minimum to teaching a subject. After three hours, the class should start with a fifteen-minute break. I am sure that most of the students feel that the present system is a constant battle with the clock.

Medical Facilities

We think that it is high time that we brought to the attention of the school's administration the need for medical facilities on the campus. We think that it is certainly obvious that a school of our caliber with laboratory apparatus, machine shop equipment, high powered electrical equipment, plus a year round student population, needs an intramural athletic program should make provisions for full time medical personnel.

It has been noted time and time again that the students have suffered minor injuries while participating in the normal activities of the school. It is also obvious, if a student incurs a serious injury, for it would probably prove fatal under existing inadequate conditions.

We want to see the extramural football game recently, two students were injured, one of them permanently. Before 9 p.m. on any given night, men were taken immediately to Dr. McManus' office, only to find the office locked and an incompetent medical personnel around to administer prompt treatment. We are also told that the Institute takes steps to remedy this immediately.

Policing to Chapin Hall Tunnel

Here is a matter that has been puzzling me for some time. Perhaps it has come to your prominence's attention, but I have never heard of it. Have you ever been in 305 or 312 Phys, before your lunch and (with that looking feeling) I've always been late for my next class—ironically in 2—2. I could get to my seat on the stairs leading to ground floor, across to Chapin, and up to your room in just time to be called late. Think of the last time, the INEFFICIENCY (a word used by the Electrical Engineering) of the route? Now, I ask you, is it not impossible to cut a passage between Chapin and Phys? It would save time for students and faculty, and its advantage in bad weather is obvious. No doubt there are many difficulties that I have not thought of or I use it in a wrong anyway.

Techno Talk

by Mike W artists

Question of the week: Do you think ITT should have a football team?

Edward J. Radtke, junior NE: I am in favor of having a football team, because students do not have any time for training. It wouldn't hurt to be tops. I don't think the Institute's reputation as an engineering

school would be dependent on the team and certainly would raise school morale. I think football as a recreation would give some students good. Facilities for practices are lacking, but I think it would be feasible. Perhaps the Institute would not exist without an intercollegiate band. It would cost quite a bit to get the necessary equipment but the band is not an intercollegiate band.

DeWitt Pickens, senior EE: "Well, schools that do have football teams usually have other teams that are more fun. As for this school, in my opinion, there is no team that is stressed in this school. You know, it is not for the engineer and football player at the same time. The curriculum in Engineering Colleges is just too crowded, so that a football team would have to be expanded. A football team would be for more school spirit than for any other single activity. Evidence shows that a football team makes a bigger building and expansion program and that a football team helps earn sports end should be as much a part of a program as those new buildings. Combination of facilities in my opinion is a part of college life.

Fraternities & Sororities

Thank you for your helpful form letter. I am interested in learning more about the various organizations on campus. Please provide information on the following:

ALPHA XI
The Alpha Gamma chapter of Theta Xi is one of the newest fraternity organizations. It was founded by the present chapter. The house is located on the east side of campus and is connected to the fraternity house by a covered walkway.

THETA XI
The Alpha Gamma chapter of Theta Xi is one of the newest fraternity organizations. It was founded by the present chapter. The house is located on the east side of campus and is connected to the fraternity house by a covered walkway.

FACULTY FACTS

Captain Donald McGarrick, Professor of Naval Science, entered upon his naval career in 1922 when he took a place in a four-year class. He obtained his initial training at Georgia Tech in 1929. Upon his return to active duty in the East Coast in 1931, he was selected to receive a special certificate in the United States Naval Academy. He was one of the few officers to graduate from the East Coast in 1931.

Ron: "Simpleton, you're being chatty again, your nose might grow attached to the end of your head. Let's get busy on our homework.

Four Named As Cage Captains

Game Captains
Chosen: Hankins
To Lead Openers
Three Others Named
To Serve as Captains; Coaches Praise Players
With the opening game of the 1946-47 basketball schedule but two weeks away, Coach Bernard "Barnie" Weissman has announced that the Illinois Tech captains will be led by a game captain for each contest during this season. Four men have been selected to lead the teams during the eleven games," said Weissman. "These four men continued the coach's, "are basketball leaders who have earned the trust of the players, and since they will graduate in January, the coach thought it would be a fitting time to divide the captaincy amongst them.

Selected by their teammates to serve in this capacity are Norm Hankins, Roy Murphy, Ned Grable, and Glenn Nienow.

Hankins has been appointed captain for the Loyola, George William, Lawrence games, was a member of the 1944-45 squad, and has returned to the IT to complete his education after a year in the service.

Murphy, a member of last year's team, has been named to lead the Scarlet and Gray against Chicago, Concordia and Lawrence. A topflight figure Murphy has already established himself as a guard on last season's championship.

Returning again as a teammate of Hankins, Ned "Cannonball" Grat-

le will serve as captain for the contests with Chicago Teachers' College, De Paul, and Great Lakes. Noted for his aggressive play, this is the first time he will be on the IT team.

The remaining two games of the season will be against Northwestern leading the Techcats. "No," leading score of the 1943-44 squad, re-

turned to the team on Thursday, Nov. 21. At 9:30 p.m. on Thursday, the coach will meet the Northwesterners at the Valentine's Gems Club. Carl Bergon, an outstanding athlete, will serve as officials for the game which will kick off an annual affair now that the war is over.

Led by former members of Illinois Tech cage crew, the Alumni have booked the place to strengthen the bond between undergraduate athletes and their predecessors. Up to the present time, eight grades have indicated their intention of participating in the contest, with more of the alumni expected to volunteer in the near future.

Towel Service Will be Available Beginning This Week, Deposit Required

Beginning this week, a towel serv-

ice will be made available to all students. "Failure to obtain towels had been the major difficulty in providing this service and this has been overcome," stated Bernard Weissman, assistant athletic director.

In a recent announcement, Weiss-

man outlined the following procedure to follow, to take advantage of this service. Upon payment of a dollar deposit to the Business office, a student will receive a receipt. By presenting this receipt to the attendant stationed on the fifth floor of the Main Building, a student may rent a towel. Payment is due on Monday of the following week, or the towel will be retained by the Business Office.

Four Teams Remain in IF Race; Referee's School to be Held

The IF football finalists will play Friday at 11:30. The four teams left in the contest are: Alpha Sigma Phi 3-0, Pi Kappa Phi 1-2, Delta Tau Delta 2-1, Pi Kappa Phi 2-0. Pi Kappa Phi will play to decide one of the teams to be the champion.

The Pi Kappa Phi team is in the lead with a 3-0 record, followed by Pi Kappa Phi 1-2, Delta Tau Delta 2-1, Pi Kappa Phi 2-0. Pi Kappa Phi will play to decide one of the teams to be the champion.

Dinner Too Close

Moving into the final week of the season, the Roman Coliseum will be a clean slate by defeating the Freshman team in the "prove it" game Saturday. Added by a plentiful selection of all-rounders, the Freshman team has been cut to a five-man lineup. Speedy George Elshoff was the feature attraction, while output was provided by all the other players. George Elshoff was cut to a five-man lineup. Speedy George Elshoff was the feature attraction, while output was provided by all the other players.

Interfraternity Basketball League will be started the first week in December. Each fraternity will choose a number from 1 to 4 at the first meeting to determine first round opponents.
Dr. Richard Wins
Art Prize Given by U. of Nebraska

Dr. R. K. Rigdon, associate professor of art at the University of Nebraska, was awarded a special honor at the recent annual meeting of the American Art Association held recently in Chicago.

Dr. Rigdon was chosen by the university to receive the prize for his painting "Clouds over the Desert," which was exhibited at the National Academy of Design in New York. The prize is awarded annually to an artist who has made outstanding contributions to the field of art.

Pan-Hellenic to Sponsor Tea For Students and Faculty

The Pan-Hellenic Council will sponsor a tea for the students and faculty of the University of Nebraska on Wednesday, April 20. The tea will be held from 4:30 to 6:00 p.m. in the Great Hall on the campus of the university.

Dean Larkin Is
SAM Lecturer

SAM, the Society for the Advancement of Mathematics, has announced that Dean Larkin, head of the department of mathematics, will be their guest lecturer. Larkin has been a prominent figure in the field of mathematics for many years and is known for his exceptional ability to make complex mathematical concepts understandable to a wide audience.

The lecture will take place on Thursday, April 21, at 7:00 p.m. in the Great Hall on the campus of the university. Admission is free and open to the public.

IIT Vet Club
Reorganization Plans Completed

A meeting was held on April 18 to discuss the reorganization plans for the IIT Vet Club. The club has recently undergone changes in its leadership and is looking to expand its activities and membership. The meeting was well attended and productive, with many ideas and suggestions put forward for the future direction of the club.

110 Members of AICHE Tour Standard Oil Plant

A group of 110 members of the American Institute of Chemical Engineers visited the Standard Oil Company refinery at Whiting, Indiana recently. The visit was an opportunity for the students to gain insight into the operations of a large-scale industrial plant and to learn about the challenges and innovations involved in the production of petroleum products.

Tickets to be Given for Parking on Federal St.
If you have parked your car on Federal St. under the same No. Parking sign or in the vicinity of one, you had better take a quick look for some of a ticket for it is a rare thing that it will yet get one if it stays there much longer.

The police were requested to hold off their ticketing campaign until Nov. 15 to give the car owners a chance to find new parking ways north of 33rd St. or Federal and Dearborn Sts., but it appearing yesterday noon, some men were issued to those parking in the street.

Photography Club to Meet
To Discuss Term Plans
Armour Eye will hold a meeting tomorrow at 5 p.m. in their quarters in room 442 Chase Cultural plans for the semester will be discussed together with the forthcoming visit to the studio of Mr. Kehl, the following week.

President A. J. R. Round stated that "The trip promises to be very interesting, as Mr. Kehl is one of the famous photo-technicians of the West," Mr. Kehl is going to demonstrate his lighting technique, portrait work, and will hold a criticism of the pictures submitted by members of the class.
