NO MORE PARKING TROUBLES—Adequate parking space on the IIT campus was today assured when the Board of Trustees Research Building was opened as a parking lot. In its first series of new buildings, the campus authority leaders have shown that they are truly adept at the job they have done. In fact, would-be occupiers of the campus will be as well pleased as the students themselves.

No less Board Space In SU

Wiseman Triumphs in Long Battle With ITSA

In a heated discussion at the recent ITSA meeting, it was agreed that additional bulletin boards space should be given to student activities. Sonny Roy Wissman, director of the Student Union, then gave the ITSA permission to put up a new board in the lobby, but added several limitations as to its size and use.

The size of the new board shall be not greater than three square inches. This was considered by Wis- sman as the most reasonable arrangement, but the students wanted what the school was willing to give. In addition, the board shall be used only between the hours of 1 and 2 a.m. and only by those organizations with nothing to announce or publicize.

Considering that other restrictions on the use of the board were suggested by Wissman as representative of the school policy, these regulations were considered the most convenient for the board.

The new board shall be placed in a conspicuous place in the SU lobby directly between the space already provided for this purpose. Any organizations having nothing to announce or publicize shall not use the space in the year office in the SU lobby and a place to the board will be made for their notice.

New Equipment for Chem Dept Received

Dr. Bruce Langholt, associate professor of chemistry, has arranged the purchase of newly developed n-ray extinguishers for the chemistry department.

The extinguishers consist essentially of a system of overhead tracks attached to the ceiling which will permit a water container, which comes in various sizes, of water to slide back and forth freely over the fire. The operation is quite simple. For example, a small fire starts out in a locker and starts to spread over the desk. The student immediately moves to a location which controls the electric current to the tracks and then to the container of water. Press the base of the container, magnetic valves are set up from the container to a magnetic tank in the instructor’s room. These valves are controlled by the container to a position above the instructor, releasing a water which hits the bottom of the container thereby extinguishing the fire.

While he is pouring water, something like this and it is interesting to note that the state hospital has been using it for several years with varying degrees of success.

Jane Ross Scholarship Established Here

At a seminar in spherical and central trilinear trigonometry conducted under auspices of the mathematics department yesterday, Mr. R. H. Stricker, head of the mathematics department, announced that his college had decided to establish a scholarship for students in this field. The scholarship will be sponsored by the Jane Ross, a daughter of an old family in the state.
Dear Editor:

Do those broken-down IIT women think they can put it over this time? 

Even the Aarmur-awards merger, they have made predictions about the effect that Queens-anything at IIT should be IIT women.

Now the left wing Junior Women committee is trying to put a fast one on our queen-awards. They want to push in an IIT queen. Only, they play it smart; they call her "a Woman of the Year" and to make the IIT women feel less self-conscious; they choose her on the basis of "scholarship and activity." 

Hack. At least we can say, "La la, at least our women have scholarship and activity!" No wonder Happy Henry wants more women.

He's on his way to the glorious 40-year-old tradition of Junior Week. Let's give a queen chosen on the basis of personality and other assets.

To hell with "scholarship and activity"! Who wants that in a woman, anyhow? Not me. Not Happy Henry, either.

You'll know my time for all red-blooded Techmen to rise up and revolt! If the seniors want another queen elected on the base of "scholarship and activity," let them elect another one.

(signed) Junior Reactorization Over IIT

Sew those broken-down IIT men should they put it over this time, you? Fuh? Not this time. I am a Woman of the Year, and I will continue to be one. The IIT women are not as easily hoodwinked. They will fight back until they put it over once more.

(signed) Fuchsehun Kaven

New Teaching Methods

Professor A. Q. Flunksdart, Chairman of the Department of Baskettweaving and Bed-stringing

Professor Axelrod, a disciple of Baskettweaving and Bed-stringing, is now celebrating his sixtieth anniversary as a professor of the Department of Baskettweaving and Bed-stringing. He has recently received a degree of Doctor of Baskettweed from the Graduate School of Baskettweaving in 1965, having attended under the Civil War GI Bill. After teaching full-time courses in poor socialization, illegible handwriting, and negative personality, Dr. Flunksdart was prepared to teach. He then received the degree of Bachelor of Baskettweed from Yale, Princeton, Cornell, and Columbia, but could neither hold a job and finally resigned, exulted, and committed suicide to Illinois Tech.

Faculty Facts

The student whose name is on the tip of everyone's tongue this term is that lovable "wire" character, Will U. Slippervial, who has been selected as the year's most outstanding "Man of the Week." Slippervial is known for his jovial, round-shouldered, handshaken manner. His unusual talents have served to add intellectual atmosphere to the campus. A poet and artist of some repute, he is the author of such witty and witty sayings as: 

1000 tipsy slippervial, and

He was president of the Sioupias for six years while at the same time serving as assistant student for freshmen faculty members.

Typical of Slippervial's industry on the campus is his work in conjunction with Jack Velvet and Robert Goodfellow on the all-sect Junior Week show. It was his idea to imitate models from the "Li-Namit Model" show at 300 W. Madison, Slippervial allegedly indicated that the popularity of those many successful enterprises into technical programs.

In spite of his unusual number of feats, Slippervial has maintained a 0.0 average. He attributes this to his writing ability, 24 minutes a day, seven days a week. His hobbies include painting, pottery, and walking the dog.

When asked if he had any advice for the students, Slippervial managed to keep basically engrossed in com- pulsive activities. During his fifth term, he was president of the Sioupias for six years while at the same time serving as assistant student for freshmen faculty members.

During his years here, Flunksdart has noted with pleasure the growth of the department of Baskettweaving and Bed-stringing. Currently, the department can now look back on a career of notoriety, success, and growth. He received his Ph.D. from Beloit College in 1965, having attended under the Civil War GI Bill. After teaching full-time courses in poor socialization, illegible handwriting, and negative personality, Dr. Flunksdart was prepared to teach. He then received the degree of Bachelor of Baskettweed from Yale, Princeton, Cornell, and Columbia, but could neither hold a job and finally resigned, exulted, and committed suicide to Illinois Tech.

100 to Attend Scribes' Spread

Tomorrow night nearly 100 Illinois Tech Journalists and writers will assemble at the Hammond Memorial Auditorium, 900 North Tower Road, for the annual "Scribes' Spread." Co-sponsored by the Telecommunications News, the International, and Pi Delta Epsilon, national journalism fraternity, the banquet will feature Herb Graflex, noted columnist of the Chicago Daily Times; as guest speaker. Graflex writes a weekly column for the Chicago Tribune.

In addition to the main event, there will be several smaller sessions featuring articles on other magazines and the trend in writing for the Times.

The banquet will also mark the initiation of Walter E. Bredemann, Howard Paul, Paul Thompson, Lawrence S. King, and Herbert Richter into Pi Delta Epsilon, an honorary journalism fraternity. All five of the mentioned undergraduate students have outstanding work on the staff of the Technology News or the International.

Donnell to Address Mechanics Group

The next meeting of the Mechanics Group will be held on Wednesday, April 3, in the Student Union. The group will meet in the Faculty Club at 8:30 P.M. for dinner and a lecture followed by the alumni association.

Dr. Lloyd H. Donnell, professor of mechanics at the university, will be the speaker. Dr. Donnell, whose research interests are in the field of fluid dynamics, will discuss his work in particular on the field of fluid stability.

The Mechanics Group is an informal organization of personnel interested in mechanics and fluid dynamics. The meeting will be held at 5:30 P.M. on campus.

Announce Space Assignments in Temporary Bldgs.

In a statement to Technology News Mr. Gilbert A. Jones, director of the Institute's famed Pacific Ocean commander, Mr. Jones announced the assignment of offices and study space in the four temporary buildings still under construction.

Building B5, located just south of the Michigan Avenue bridge, will contain a total of 300 offices and two study rooms. Mr. Jones announced that a total of 300 offices and two study rooms will be available.

Building B5, directly south of B4, is the only one of the four buildings that is fully occupied.

The buildings will be used for the duration of the academic year, and the next year's assignments will be made in the spring of this year.

Freshman Set Mixer Date; Challenge Sophs to Game

Wednesday May 8 at the end of this term's Freshman Mixer, class president William Bessey announced that the mixer will be held on Wednesday, May 8, at 8:30 P.M. in the Student Union.

The mixer will feature dancing, music, and refreshments. All freshmen are required to attend.

No reservations will be taken, and all members of the mixer staff will be on hand to assist.

Sodstock in Competition

Thomas J. Scanlon, with term unlimited engineering studies, has been chosen by the Champaign Committee of the American Institute of Mining and Metallurgical Engineers to compete for the society's highest award.

Scanlon was awarded this opportunity by the American Institute of Mining and Metallurgical Engineers, and will represent the university.

The competition is open to all students enrolled in the university's engineering programs.

Frank Wheeler resigns as head of News Bureau

Frank Wheeler, manager of the News Bureau, has resigned, effective April 15. Wheeler has been a member of the News Bureau for the past three years, and has been responsible for the bureau's operations and policy.

Wheeler's resignation is effective immediately, and his duties will be assumed by the News Bureau's current staff.

COME THE ARMS ARE BARE

Sponsorship and Sports Make
Old Shoe Outstanding at Tech

by Al Wisbey

Mary Techanow will never know
how Jim Oldhaime can manage
to participate in baseball, basketball,
and a number of other extracurricular
activities, as well as keep a 2.8 average.
These are not just extracurricular
activities to Jim but comprise an
definite part of the undergraduate
experience. He plans to get out of
school in 1966.

Jim graduated from Penn Upper
High School in 1952 with an TT. Freshmen
scholarship. Jim is a member of Tau Beta
Pi and Phil Alpha Chi fraternity, has been
president of Honor I and Phi Lambda
drama club. He also is a member of the
Interfraternity Council and Phi Pi
mulation. His many duties did not stop
from being an active member of the
Six-Five Fraternity, which includes the
bicanders and basketball team.

Jim has now a collection of
junior varsity letters.

Jim says that a student can
get a good deal more from college
than just taking part in activities, he
is really getting a fact which is
beneficial to him everywhere.
Outside of school, he enjoys the
car pooling, football games,
and photography. He is a member of the
Interfraternity Council and the
Six-Five Fraternity.

Jim says that he would like to
learn more about the chemical process
and eventually become an engineer.
In June he will return to ITT for his
graduation and in June will work for a
M.S. degree.

Fraternities and Sororities

Alphachi Sigma Phi

With the Alpha Delta Phi Trophy now in its possession,
the Alpha Xi chapter is working toward adding a third
row to the trophy. Last Wednesday night's watch
with Phi Kappa Phi was decided in favor of the
Alpha Xi chapter.

Three new men recently pledged to Alpha Rho
Phi are Bob Reine, A. B. Bruner, and B. E. Lerner.

Sigma Omicron Lambda

The Sigma Omicron Lambda recently held
its initiation ceremony. The new members were
selected by the alumni committee of the
Sigma Omicron Lambda.

Rho Delta Phi

Ralph Schenker, Rho Delta Phi national chairman,
recently announced the initiation of a chapter
party for April 11. He said that tickets had been
sold as of this date and the chapter is now
planning a social evening to be held.

Kappa Phi Delta

Orchestra Hall was the venue of the Kappa
Phi Delta's final formal dance. The Kappa
Alma Mater was among the students present.

Management Club to Host Patten on Wage Incentives

The student chapter of the Society for the Advancement of Management will host John A. Patten, Jr. The society is to discuss the "Impact of Wage Incentives" on the next meeting to be held April 9th at 10 p.m. in the gym according to Bob Scaske, president.

Mr. Patten, who has been the center of the nation's outstanding young men by the Junior Chamber of Commerce, has held his own management consulting firm and is considered an expert on Wage Incentives.

These meetings are part of an active program which includes an employment secret, a counseling service, and a career planning service for the industrial management student and an exhibit for Junior Week.

AIEE Hears Speech On Magnetic Recorder

At a general meeting of the AIEE on Thursday, the members heard a talk by Mr. Eugene C. Page, an associate of the American Institute of Electrical Engineers. Mr. Page, an expert in magnetic recording, discussed the history and development of the AIEE, supplemented his talk by demonstrations of the original AIEE recorder and a commercial device.

An announcement was made of the opening of the AIEE office in the new AIEE building according to Bob Masone, president.

Mr. Patten, who has been the center of the nation's outstanding young men by the Junior Chamber of Commerce, has held his own management consulting firm and is considered an expert on Wage Incentives.

These meetings are part of an active program which includes an employment service, a counseling service, and a career planning service for the industrial management student and an exhibit for Junior Week.

Pre-Registration Period April 27 to May 17

The registration committee wishes for the summer and fall terms, 1947-48, to be held April 27 through May 17.

There will be three tentative registration days, one for the fall term and for the fall. Pre-registration for the fall period will take place at the same time.

Cards will be available at the Registrar's Office on and after April 27. Students are advised to obtain their cards before the end of the actual registration period. A list of courses to be offered during the summer term and the fall term is now available at this time.

These pre-registration cards are for the use of all undergraduate students who expect to return in the fall term. All undergraduate students must fill out pre-registration forms, which are to be left with the student counselor. The cards are part of the Registrar's file at the beginning of the term for which they are intended, and the counselor will be notified by the Registrar if any student is not on the list of students who have registered.

The Flavor's All Yours
