Registration Order Decided; A's Lead Off Next Term

The A's have it! In a drawing Wednesday the A's were chosen as the group to be first to register next semester. The A's, who were assigned a number 1, handed in the papers in a basket and Shariene Leonetti, secretary of the ITSA, placed the papers into the basket. As a result, the A's came out on top. Although the last name was chosen randomly, it was the A group that was chosen.

The group will follow a registration pattern in the future. Following the order of registration for the next two semesters is:

A week earlier, the commissionStudy asked to be held on October 12. Intercollegiate events of this year's Rose Bowl and football games.

British Diplomat To Speak Here

Sir Gerald Campbell, former British minister to Washington and career diplomat, will speak December 8 in the North Union auditorium on "The Future of the English Speaking Peoples." Sir Gerald has an intimate knowledge of the world's various nationalities, having lived in the United States, Canada, and in America for many years. His book, "The Diplomat's America," won the New York Herald Tribune Book Award.

As a member of the British diplomatic foreign service, Sir Gerald has been stationed in the United States, Canada, and in America for many years. His book, "The Diplomat's America," won the New York Herald Tribune Book Award.

Freedom Of Speech Important

After World War II, Sir Gerald stated that he had seen in a time of a battle of ideas. He once remarked, "The Four Freedoms will be substantial only if you are worthy of them. If we have no freedom of speech, we will never understand the important social and economic changes brought about in England and the United States by the four freedoms outlined by the British-Labor government.

ITSA Recommends That Illinois Tech Adopt Hospitalization, Medical Plan

Board of Control of the Illinois Tech Student Association has recommended that Illinois Institute of Technology adopt a hospitalization and medical care plan. This action was taken following the report recently received by the board that students have been injured while participating in intramural and intercollegiate activities.

Dr. Donald E. Bishop, president, Bob Ricker, appointed Bob Cunningham, former ITSA president, to the position of chairman of the National Student Association regional meeting Tuesday. The meeting was held at the University of Illinois at Urbana-Champaign, Ill., for the purpose of discussing student union and social functions.

Dr. Bishop stated that the ITSA Board of Control will take a final vote on December 17th to determine if ITSA shall adopt a hospitalization and medical plan.
Letters To The Editor

Thanksgiving - A Holiday

Editor:

In my opinion, the function of the administration-regarding college activities outsidethe classroom-is that of advising students, not censuring them. We believe that students are adults entitled to reach their own decisions, however stupid these decisions may be. The only broad exception to this principle is that the administration should, of course, restrain students from immoral, illegal and subversive activities.

This principle seems self-evident. It is only a matter of stating the inherent right of all Americans to free assembly.

We have, indeed, heard and considered one rejoinder to our principle; namely, that students have the right to free speech only but not to censure.

The college is a privately operated, authoritative institution, dispensing its own rules and regulations. Our students are college students, not high school students, and they are free to express their opinions, as free as a high school student is free to express his ideas.

I am sure that the Thomas Committee would give me a hearing if I had a case.

Yours truly,

Renee Selig

Too Much Loose Talk

Editor:

In the last issue of the Wisconsin News, a letter was printed implying that subversive activities are being conducted on the University of Wisconsin campus. The author of the letter stated that such activities are not only illegal but also subversive.

In my opinion, however, subversive activities are not necessarily illegal. Subversive activities are those which are intended to overthrow the government of a country. The government of the United States is a democratic government, and as such, it is open to criticism.

I feel that the author of the letter is not being fair in his criticism of the University of Wisconsin.

Yours truly,

Lee Brown

Drumsticks and Slipsticks

It's time for the annual Thanksgiving editorial, replete with soothing phrases and solemn reasons why we are all thankful. We are not going to indulge in this traditional pastime any longer. It has been all said before, and who wants to listen to that every possible way.

However, adjusting our focus to a much lower level of abstraction, we find ourselves overwhelmed with a Prospectus unique to Technews—an unlimited opportunity to sleep and/or work on extended homework.

Thank Heavens the Pilgrims have landed.

A number of creditable results have come to our attention lately. Perhaps among these is the one concerning the most artistic and sensible, namely, a girl student who just became a paid and visible.

IIT

The intriguing report of the "Night Patrol" of DePaul University added the question: "What is your favorite way of relaxing? All the answers, long and short, are the most consistent and in the point that was given by one Viva Lopez: 'I'm a newly married woman.'

It was reported that when a young man was introduced to a Mrs. Mannoch, a man tried to fix her name in his mind by a method that is "unrealistic." "How can he not remember her name?" he asked.

"But..." he said, and looked around the room to find his audience. "It's easy," said Poppy, "with a little code.

'The weatherman's call was turned into court on various occasions.

'If I tell you off with a thin slice, the judge,' said the judge, "then another day I'll send you to jail.'

'That's exactly what I expected,' said Poppy.

'What do you mean?' asked the judge.

'Fine, today, maybe tomorrow,' she said.

'Do you know that girl over there?' he said. 'She's Helen Curtis.'

'Helen? She's a party bunch.'
High School Students Take
Examinations for Scholarships

Scholarship examination for accredited high school graduates will be held on the premises of the admissions office.

Students who are only in the fall series will be given priority for the December examination. Announcements regarding the examinations will be made at the high school in the fall. The examinations will be held on the premises of the admissions office.

First examinations will be held on the premises of the admissions office. The examinations will be held on the premises of the admissions office.

AIEE Meets Tuesday

Senior Mechs IM Champs!

Down Junior Gremlins 20 - 0 in Title Game
By Larry Shapiro

The IM hockey championship was captured by the Senior Mechs on Tuesday night, before a crowd of onlookers. The Mechs handed the previously unbeaten Junior Gremlins a convincing 20-0 defeat. Offensively, the Mechs were led by Bill Marberth and Goopey Goober, who had a combined 10 points. Defensively, the Mechs fielded a tight defense led by Ray Junior, and he led his team to victory.

Intramural Swim Talent Shown

The intercollegiate swimming meet of Thursday had a total attendance of 2000, and several promising talents were shown.

IM Bowling League Plans Under Way

The IM bowling league is tentatively scheduled to start early in December. The league will consist of teams from various colleges, but the exact schedule is yet to be announced.

Force OK's Bleachers

The purchase of bleachers was given the green signal by Louis Fish, force building manager, Tuesday night.

IM Swimming Meet Predicted

The IM swimming meet predicted to be a great success, with several winning events.

Techwok Harriers Place Fifth in Normal Meet

The Techwok Harriers finished in fifth place in the Normal Meet, which was held on Wednesday. The Harriers showed good promise in the meet, and their future events are expected to be exciting.
"Pigskin Prophets’ Ends Season; Venture Drew Great Response"

All good things must come to an end...and the most successful ventures, you gotta sit around and have one more...all too familiar thoughts. And that’s exactly what happened on Sunday, November 23rd, when the university community gathered to watch the final game of the 1961 season. Pigskin Prophets, a group known for their accurate predictions, ended their season with a final tally that was not to be ignored.

Radio Fraternity Has Fourteen Men In Pledge Group

Rho Lambda, honorary radio fraternity, has pledged fourteen men, the highest number of pledges in its history. The fraternity’s growth is attributed to the brothers’ ability to interest radio, music, and composition activities. Many new members were active participants in this year’s recruitment efforts.

Reorganized Dramotech To Present Play Dec. 16; "Dust Of The Road" First Production On Roster

"Dust Of The Road" is one of the few theater productions that have been able to attract a significant audience. The play has been well-received by audiences for its compelling narrative and dramatic performances.

Development of dyes requires both physical and chemical knowledge

The synthesis of a new dye in the laboratory requires not only the knowledge of a manufacturing process but also the skills of a chemist. The process is complex and requires patience and attention to detail. The dye industry is known for its innovation and dedication to finding new ways to create and produce dyes.

Developing your business and family"
Disc Diary
Kenton In The Opera House!
"Modern Jazz" Attracts 7000

Jazz has outgrown the dance hall, the bar, and the show business. A long with classical music, belongs in the concert hall.

It was with these words that Stan Kenton opened the recent "Concert In Progressive Jazz" at Chicago's Civic Opera House. Appearing in the middle west, for the first time since Kenton's current European tour, the band, differing only in a few changes of personnel, brought the Civic Opera House house audience for a concert of this type.

Despite the replacement of dance hall with Yvonne Arnaud by Bob Cooper, and William Burdett stepping into Kenton's shoes, the 19-piece orchestra continues with its "jazzy" style made in California by such members as "Anthony Norman," "Newman," and "Yvonne." Marked by strong sections and smooth chords, this old Kentonian's orchestra still reflects some of the personnel changes.

While it is quite evident that Cooper's style is different from Arnaud's it is from this point the replacement of the old Kentonian Wind ensemble fits perfectly into the progressive format. Bill Gerdes, on the other hand, appears to have been cast aside from this format as he endpoints at the start. As this evening's program progressed the banjo section became more evident and with the performance of "One in a Million." Christian seemed disapproving; in the finest of his solo performance, when he surprised us with a "different" version of "High Hat The Moon," the bass drums were added, and "Willie Womp For Me!" our disappointment soared.

Outstanding showcase of the evening was drummer Steve Keene.

YMCA Defeats Chess Club

The first hour of the season was devoted to Illinois Tech's chess teams playing for the undefeated Hyde Park YMCA team.

A game victory that resulted in the score of the four to three defeat was scored by Tech's Roger Newzum in his solo piece. When he was questioned by Albert Anderson, Illinois state cham pion, Tech's Roger Newzum flatly denied Kenton's state playoffs.
