G. Campbell Speaks At Assembly In NU, Classes Excused

The story behind this news is the all-school assembly which will be held today in the North Dining auditorium.

At the assembly Mr. Gerald Campbell, a British diplomat for many years, will address Illinois Tech’s student body in “The Future of the English-speaking People.”

Classes will start all over the world in his country’s diplomatic corps. Mr. Gerald only recently began his first lecture tour. In his official capacity he is speaking throughout the United States this year, acquainting British-American relations and their effect on international affairs. He spoke on this subject with the backing of a history of service in international politics, including a long stay in Washington in a British ministry.

AWOL Fiesta Shows Tobaccocan’s Movie

As part of the preliminaries to the All-School AWOL Out-today Friday, a 9 p.m. full-color motion picture film on all phases of the tobacco industry will be exhibited in the South Union lounge at 11:30 p.m.

The film, called “Tobaccocan,” was produced by Louis de Rischman, Mr. De Rischman is famed for “Pastime,” “Rooftoppers,” and “The Home of Ninety-Second Street.”

“Tobaccocan,” which is well received throughout the United States, is an entertainment for those interested in tobacco and its cultural and economic values.

There is no admission charge, and all students and faculty members are invited.

Panic Showers Installed in CB

It is now possible to get a free shower just inside the door of the cafeteria in the Diamond building.

Installed as a safety feature, these showers are known as “panic showers.” They function for whatever a student needs for or receives a sudden splash of cold. They are cup-shaped, containing a heavy gush of water in a bucket. It is not possible to fill the bucket, and water is dropped into the bucket by a person on the lower floor. After the bucket is filled, the water is drained into a large tank at the back of the building.

The idea is to use them. The student uses it for the purpose of cutting troublesome elements as quickly as possible.

Athletics Jamboree Will Be Largest Ever Held At Illinois Tech

Sports Events Across Campus

The athletic department has announced that the annual All-School Athletic Jamboree will be held on October 11. The event will feature a variety of sports, including basketball, soccer, and track.

We’re Loyal To You Illinois-Tech But... But... But!!

By Jim Watson

“A Chain is only as strong as its Washburn Link.”

Well, when does this bring us around to... That’s right, The All School Jamboree, which everybody is expected to go AWOL. Kinds’ like a junior “Junior World,” this probably to be the “shock” event of the fall season, but let’s face it, in order to depend upon you and yes and yes. Like a “Chain that’s only as strong as its Washburn Link,” this Jamboree will only be as good as the number of students who attend it.

For those who think it is a coincidence and a secret if they are not on the platform watching for the homecoming Wilson Lock at 6 p.m. after the band has ended, just say: “This is where it’s at. That’s right, this Friday night’s the night.”

Friday night’s the night.

The Jamboree is a celebration of the Illinois Tech spirit and a way to show support for the students and their athletic teams. It is a great opportunity for students to come together and enjoy the excitement of the game while supporting their fellow students.

New Registration Procedure Brings Volley of Cheers.

By Tom Griffin

Everyone is enthusiastic about the new system of registering in the career development center. After studying hard and making plans, the registrars' office has finally settled on the system we've been working with for weeks.

Now, when you arrive at the center, you'll be greeted by a friendly registrar who will guide you through the process. You'll be given a registration package that includes all the necessary forms and a brochure explaining the system.

The process begins with selecting your major. There are several options available, including business, engineering, psychology, and many more. Once you've chosen your major, you'll be directed to the appropriate section of the center.

Next, you'll need to complete the necessary forms. These include your academic transcript, course descriptions, and any other relevant documents. The registrars are there to help you with any questions you may have.

After you've completed the forms, you'll be able to select your courses for the semester. The system is designed to allow you to choose the courses that best fit your needs and interests. You'll be able to see the availability of each course and make your selections accordingly.

Finally, you'll be able to pay for your courses. The system accepts cash, check, or credit card. You'll receive a receipt for your payment, and your courses will be officially registered.

Overall, the new registration system is a huge improvement over the old one. It's faster, more efficient, and more user-friendly. We're all looking forward to a smoother and more enjoyable registration experience for everyone.
