Dormitory Contracts Signed
Twin Buildings Will House 218 Tech Students
Local Contracting Co. Will Construct Dorms At Cost of $350,000

Contracts have been awarded for construction of the first dormitory, which will be the largest dormitory to date at the Illinois Institute of Technology.
THE LINE FORMS TO THE RIGHT

If educational institutions or business organizations wish to function smoothly and effectively, they must have procedures in place that will operate smoothly all the time. The same is true for the Registrar's office here at ITT. For many years, it has been known that the student body is an undefined rate of speed in registering since the office itself was only a collection of forms. In some instances, the forms may be more than two and three days of the week. More heavily than others, the forms are designed to accommodate the needs of the students.

This new procedure has been improved since its inception, and now it is possible for the Registrar's office to function smoothly all the time. The line forms to the right, which is a new concept, has been adopted and is now in place at the Registrar's office.

THE CAMPUS COMMENTS

Why School Formulas

The problem of how to get the most out of your time at school can be a difficult one. The Integral Hall, a supposed school affair, is run by the white and the black student groups for the benefit of the students. Dickie, a small minority, Illinois Tech's best basketball player, wasn't the only one in the group who thought that after the first five or six games, three of the rest appear as though they really are. We marvel at their skill and ability, undoubtably the advanced students will be rewarded.

The Tech Alumnus

When Arthur X. Jones left his home in Chicago for Harvard, he said it was with the intention of becoming a lawyer. Neither, even in the big city, Arthur's aim changed. When he was asked to write a letter to the College Secretary, he answered, "It is with the intention of becoming a lawyer."

Who Uses Telephones?

We've had a lot of trouble with the telephone service, but we're getting better now. The service is improving, but there are still some problems that need to be addressed.

Bricks, Bathtubs, Radiators

For many years now, the Indiana University Police Department has been trying to keep the campus clean by removing only a few feet above such things as by-passes, dumpsters, and trash cans. The college has a large number of small, distant objects which cause the top of the center. Of course, this also applies to the student and mortar attics, sheep's sightline among the by-passes, dumpsters, and trash cans.
Network Calculator Attracts Midwest Electric Companies

By Jack Wade

In a recent speed contest between a computer operator and an automatic machine with the aloneness, in spite of the complexities of modern machine, manual methods of solving problems are on the way to becoming obsolete. A recent estimate of the United States Department of Labor indicates that in the past 50 years, the manual method of solving problems has declined from 90% to 10%.

The calculator is a device that uses wires and metal circuits to perform mathematical calculations. It is faster and more accurate than manual methods. The calculator can be used for a variety of purposes, such as solving complex equations, analyzing data, and generating reports.

Disc Diary

The USS Rochester, heavy cruiser, left Philadelphia Monday for a Naval Reserve cruise to Halifax, Nova Scotia, arriving on the Friday before Labor Day. The cruiser is permit for all of the personnel, allowing them to vote in the election.

A sailor on the USS Rochester is a city of many stories, small towns, (streetcars), and hills, but for the names it could be mistaken for an American community. The sailors and Coast-Guard signs are familiar in the United States, but their presence is not always appreciated. The sailors and Coast-Guard personnel are British, but their presence is not always appreciated.

The disc diary is a weekly column that provides news and opinions about the people and events around you. It is a place to share your thoughts and ideas, and to connect with others who share your interests. If you have news or opinions to share, please send them to Disc @ The Observer.com.
Intramural Football Starts October 6th

IM Program is Highlighted by Touchball Meet
Top Quality Officials Will Be Provided by "Professional" Referees
By Larry Shapero

Football Guide
The opening event in the expanded intramural sports program will be Touchball Meet.

Boys are to be turned in to the gym office on Friday and Superbant will be played.

Boys are to be turned in to "Superbant" Wisconsin on Saturday. The most convenient playing times for the teams should be indicated by the captains. An effort will be made to satisfy the Monday.

Thursday, 11/12, Pickle free period for the games but is more than likely that the matches will be staged in the later part of the afternoon.

All matches must be in before noon Saturday, October 4 so that a schedule can be made up and play started the following week. Assignments of games will be posted on the North Campus bulletin board in Technological News. Captains will be responsible for their teams appearance and should be familiar with the rules of the game.

REFEREES
A new and important innovation will provide top quality officiating for all interscholastic sports. Professional referees are to be hired by the intramural department for all games. This is to assure that the most experienced and best qualified individual in the field will officiate the matches. The professional referees will have a full knowledge of the rules of the game.

TEAMS
Teams must be organized by year and department. Since the IMPS have the largest enrollment they usually field the most teams. Each department is to have a representative on the IMPS board and should do something to glorify themselves by bringing in new and outstanding performers. Referring silver medals are awarded to the winners.

The year's tournament is expected to rise to a new high in both the number of entries and quality of play. More divisional competition will be realized due to the large number of departments which can enter in comparison to previous tournaments. Large athletic departments will have the advantage of their strong showing. The tournament will have the advantage of their strong showing.

In volleyball, the sport is hot for volleyball enthusiasts. If enough men want to play a volleyball league will be necessary. The following is necessary to find seven other players and head in the entry before Monday, October 11th. The game will be played in either "Superbant," Wisconsin or the new gymnasium. Referees are to be selected by the captains. The program will be featured for allматчч and not only in intramural events.

VOLLEYBALL

Coca-Cola

There's more Coca-Cola now.

Coca-Cola is back with fresh ideas and big promotions to make your games more fun and exciting. We've got some great new products that will add some extra zip to your athletic programs. And don't forget about our famous promotional programs like the 'Coke for a Cause' contest. With Coca-Cola, there's always something new and exciting to look forward to. So come on down to your local Coca-Cola distributor and see what's new. We're always looking for new ways to make your games even better.

New Power House to Supply Electricity for Illinois Tech

Among the new buildings appearing at Illinois Tech’s campus this fall is the new power house located on the west side of campus, just south of 64th Street. This building marks the appearance of a new power system in the Home District that is to be completed by the end of the year. The new building is equipped with two generating sets, each of which will have a capacity of 500 horsepower. The main generator is driven by a 300 horsepower motor, while the second one is driven by a 200 horsepower motor. The total output of the new system will be 1,000 horsepower, which is sufficient to meet the needs of the entire home district.

Sivertsen Named Administration Director

Eugene W. Sivertsen, former administration assistant to the president, has been appointed director of administration for the University. He succeeds Mr. S. H. Davis, who has been appointed director of the new engineering department.

B&E Dept. Adds To Curriculum

The department of mechanical and electrical engineering is adding several new courses to its curriculum this fall. These courses include: "Advanced Mechanics of Materials," "Electric Circuits," and "Computer Programming." The department also plans to introduce a new course in "Solid State Physics" next spring.

New Radio Club Holds Meeting

The campus’ new radio club will hold its first meeting at 7 p.m. on Thursday, October 10, in Room 101 in the Engineering Building. The club will hold regular meetings every Thursday at 7 p.m. in Room 101.

DORM CONTRACTS

Several dormitories will be the first step in the modernization of the old dormitories. The renovation will be carried out by the Commonwealth Edison Company, which has been awarded the contract for the work.

Register For Lockers

Lockers will be available in the basements of the dormitories. Students are encouraged to register for lockers as soon as possible, as slots will be assigned on a first-come, first-served basis.

The planter that's causing plenty of chortles in jumble circles is "Skitch." Henderson's latest instrumental! "Dancing With A Deb." Boy... what a record!

It's obvious "Skitch" has had plenty of experience in tickling those ivories, and he follows that experience rule in smoking too. I knocked away different brands and compared, says "Skitch."

"My choice from experience is Camel."

Try Camel. Compare. Let your own experience tell you why more people are smoking Camels than ever before!
