NSA Lays Extensive Plans To Form Student Rights

In addition to forming the National Student Association, the Tri-City Industrial Congress plans to form a student organization to represent the interests of the student body of the west Central region.

The organization of NSA exists as a result of the National Student Congress, held last fall in New York, which was attended by representatives from all parts of the United States.

The organization of NSA consists of three main sections: the national, regional, and campus. On the national level, there are 10 staff officers, including a president, two vice-presidents, a secretary, and a treasurer. The representatives are to devote their full time to NSA during their one year term of office. They and the representatives of the National Student Congress which meets at least once a year and supervises the organization of programs and policies determined by the National Student Congress.

The activities of NSA are coordinated with the activities of the National Student Congress. The student body is encouraged to participate in the activities of the National Student Congress.

Shining Crown to Accent Beauty of Integral Ball's Royal Lady

The ceremony of the 1947 Integral Ball—the coronation of the ball (.), Queen—will be held on November 12, in the Elgin Memorial Auditorium. The coronation will take place at 8:30 p.m., following a dinner at 7:00 p.m. in the auditorium.

Construction of Dormitories Started, Excavation Ceremony Attends Throngs

Construction on the new dormitories began last week in the 1947 Integral Ball, with an approximately 300-person crowd attending the dedication ceremony. The new dormitories, located on the campus, will provide additional housing for the students. 

Tech's Freshmen Treated Tonight at "Frosh Frolic"

I. W. Wangerink, New IIT Dance Band, and 4-Act Stage Show Provide Entertainment

This evening, the "Frosh Frolic," first freshman dance of the season, will be held in the North Union Auditorium. All freshmen will be invited to attend. The dance will be held from 7:00 to 11:00 p.m.

Techen Talk
by Karen E. Stanley

Question: What is your reaction to the larger ad
women are wearing? 
Dorry Anholt, C.A.S.E.: 
I don’t appreciate the larger ad women wear. 
Of course, my reasons are purely personal. I believe women should be able to express themselves in their own way, and if that means wearing large ads, then so be it. 

Bill Mattson, Freshman Cal: 
“Large ads are a God-send for the box-trapped and faceless.” 
Beverly Kip 5, 1972: 
I think women’s ads are very tasteful and they definitely add an interesting visual element to the fashion world.

The men aren’t:

Women dress so comfortably during the winter season. Of course, some men also like to dress in layers, but I don’t think they should be as thick as the women do. It’s too cold outside for that.

Joseph Walker, Soph. Men:
“Personally, I don’t care for too much stuff. If a woman wants to wear layers, fine. However, I think it’s a bit too much for the men to have to go through this kind of thing.

Electronic Microscope Peers Into Crystal Shapes
by Sami B. Nattis

Although they may never know it, future millions of people will view a great deal of magnification to the momentous work of Charles Darwin and his colleagues. The electron microscope is being used to study the shape and structure of small samples by the X-ray diffraction method.

This is only one of the many projects being conducted with the aid of the electron microscope located at Technology Center. Two of these microscopes, a large type II model and a smaller type I model, are being used in the research program on electron microscopy conducted by Dr. J. C.happy, Student, and a few students of the program.

The third is owned by the Armed Forces Foundation. It is a type II microscope, manufactured by a special laboratory in the Physics building in 1950, and at that time, this was the most advanced in the country, and the first of its kind. These instruments in this area have been operated and used by the

Operating on the principles of electron optics, extremely sharp

Synopses of interesting excitement: For a week a Sam Sunbead has been hovering between life and death. Indirectly he was the victim of a well-known managing editor who failed to allot him the anticipated space. But before that, there was a larcenous period during which it was suspected that the managing editor was being blackmailed by an acquaintance of his. Naturally he has signed up for three classes at the same hour and, after considering every dodge possible, reluctantly decided to substitute himself in the “nesterly” meetings of the register, the where space was gored out.

These nerve-wracking hours later, Sam was sitting in whip-cracking groups of the registration room. He arrived shortly before 8:30, m.m., just when the registration registration left for lunch. By way of exclamation they were being shown the register announcement that they would be back soon—about 2:30 p.m., from the time he was supposed to be in the classroom. Meanwhile, by great coincidence, the White Sheet was in.

Jim was an assistant when he put his schedule aside. He was educated but poor. He had discovered that the registrar’s office had no objection to dropping classes, but when he asked to drop for new ones, it began to cost—stoutly.

The Bee Line
by Don Campbell

Without being accused of stirring up an argument as to whether new fashions are certainly a custom or a fad, let us say that women have been doing something quite similar to the fashion craze of today. Fashion is a great economic problem. Why should the women’s fashions suffer from limited expenses?"

Grid Dopesters Offered Prizes

By Jim Wangsness

We don't have to tell you about our putting these events. We are a swimming and a rowing team. Standing out in our lineup are the athletes who are ready to take on the water. Their dedication and hard work have earned them a spot on our team. The athletes are ready to compete and bring home the gold.

Joe Hardman

Sports Personality of the Week

Prospects for the 1968 Techock swimming team are considerable. Under the guidance of Joe Hardman, alumni director of the Varsity Athletic Association, the team will be on the rise.

Joe, a native of Burlington, Cali-

nylvania, has been swimming and coaching since he was 12. He started his career in a local pool and continued to swim throughout high school.

Joe will be returning to the pool full-time as he finishes up his studies. He has been involved in various swimming programs over the years and is excited to bring his skills and experience to the Techock team.

The basketball team was slated to start practice last Monday but it was delayed for several days due to various commitments. The team is scheduled to begin practice on Monday, October 13 at 4 p.m.

The basketball team will be competing in the 1968 College Invitational Tournament, which is set to begin on October 20.

Boxers, Wrestlers Start Practice

Under the direction of "Booby" Webster, 21 wrestlers and 10 boxers turned out in the new gym for their first meeting last Monday. The boxers and the matmen are coached by Bernard "Booby" Webster, who has won the National Collegiate Athletic Association (NCAA) championship.

The boxers and the matmen will be under the guidance of "Bobby" Webster, who has won the National Collegiate Athletic Association (NCAA) championship twice. The boxers and the matmen will be under the guidance of "Bobby" Webster, who has won the National Collegiate Athletic Association (NCAA) championship twice.

Intramural Sports Rules Defined By Coach Glancy

"Each team will field a team of six men and must cover the lengths of the field in four downs or lose the ball," stated Coach Ed Glancy last Friday. As the intramural football rules. Smooth solo shows must be worn on the games.

TriangleVictors In IF Golf Meet

Trinity won the intramural golf tournament held last Sunday at the campus of the Alpha Epsilon Phi and the Pi Kappa Phi.

Kim Miller made the only birdie of the day with a 39 on the ninth hole and a 41 on the 18th hole in winning the tournament. The Alpha Epsilon Phi and the Pi Kappa Phi tied for second place with a score of 39.

Interfraternity Tennis Tourney Starts Sunday

The interfraternity tennis tournament begins Sunday, October 15 with the second and third rounds planned for the following weekend. The tournament will be directed by John S. T. interfraternity sports manager. The tournament is a great way to get into the spirit of the fall season and enjoy some friendly competition among friends.
Newly Opened Library Annex Increases Seating Capacity

A new annex to the library, just south of its present location, is now open to students, Illinois Tech’s librarian. The annex is accessible through the main library room on the ground floor, and has seating capacity for 146 additional students compared with the previous seating capacity of 95. A reference librarian, Miss Catherine A. Simms, has been added to the staff, specifically for helping students with material in the library. Formerly, students had to ask the person on the desk for help, but now they are offered “Miss Simms’ desk” in the main reading room.

The combination of the Lewis and Armour libraries will allow a complete run of maps and all books which will allow the confusion created by the different decimal classifications which were used by the two separate libraries.

The addition of shelf space in the annex will enable the completion of the collection of the “southern end” of the shoe,” said Mr. Hyde. “This was impossible, due to limited space, until now.” Besides this, over 200 volumes were added last year, and the library subscribed to over seven hundred current periodicals.

All the services of the library are available during the hours it is open, from 8:00 a.m. to 9:00 p.m., Monday through Friday, 8:00 a.m. to 1:00 p.m. on Saturdays.

Paper Award Won by Frank Crosley

Frank Crosley, 60 East 60th street, has been awarded first prize in a student paper contest sponsored by the Chicago section of the American Institute of Mining and Metallurgical Engineers. Crosley showed off the prize of $100 at the annual meeting of the organization in Chicago last week.

Winning Crosley’s paper was “Removal of Manganese from Sewage Sludge.” Another student at Armour Institute of Technology was presented his $75 prize in a competition of the organization in Chicago last week. The prize was awarded to the “most interesting paper” of the year.

Eight Appointments Are Announced

New appointments to the Illinois Tech faculty were recently announced by Vice President Henry B. Reed, president of the University of Chicago.

Among the new appointments is Dr. Frank G. Yost, who has been appointed assistant professor of physics. Dr. Yost received his B.S. and M.S. at the university of Wisconsin. He has served as mathematician at the Naval Research Laboratory at Washington, D.C., and he has also held the position of research assistant with the University of Chicago.

Other appointments include:

- Miss M. J. Rosen as assistant professor of mathematics
- Mr. J. A. H. Rice as assistant professor of chemistry
- Mr. L. E. Smith as assistant professor of electrical engineering
- Mr. J. T. Keating as assistant professor of mechanical engineering
- Mr. A. W. G. Young as assistant professor of civil engineering
- Mr. J. D. G. H. Miller as assistant professor of physics
- Mr. J. T. Keating as assistant professor of chemistry

Integral Copies Still Available

A limited number of copies of last semester’s Integral is available, according to Mr. S. B. Bednarski, business manager of the publication. Any student enrolled at IIT for two or more semesters that did not receive his copy may do so by stopping at the office in the South Union.

“Intensive Pressure will have the opportunity to purchase the yearbooks, which they had, for many reasons,” said S. B. Bednarski. Orders will also be taken by mail from former students and graduates. The mail price is $2.

Music Department Starts Practice for Semester

With a complete complement of instrumentalists and students, the music department will begin practice for their programs this semester. Many music will be presented in the recital, which will be held in the Flom Hall recital room. Practice hours are from 8:00 to 9:00 p.m., Monday through Friday.

Newman Club Gets New Moderator

The first meeting of the Newman Club was held last Wednesday, October 14 at 9:00 p.m. in the Auditorium in the North Union Building. President Bob Ricker explained the functions of the Newman Club and introduced the new moderator, Pater Windon of the University of Chicago. An election was held for the position of secretary and Mary Ann Calow was elected. Father McShan then went on to tell about his rejected letter of witnesses for this semestet, which will include letters from various officials, both officials and prominent Catholic leaders. Mary Ann Callow was the first speaker of the meeting and she will be one of the main speakers, which will be held on Thursday, Oct. 20, in the Auditorium.

ITWA Holds Election Of Representatives

Several candidates on the committee of ITWA will be elected at an election to be held on Monday, October 14, in the South Union. Balloting will take place from 9 to 5 p.m. at special booths in the building. Any student interested in running for class representatives on the school should ask Ed Wright or sign his name to the list of candidates that would be nominated. The ITWA council consists of a student body representative, a president, and a treasurer, all to be elected by the students.

The ITWA council consists of you if you are interested in becoming a member of the council. The council is made up of the executive board and the class representatives.

Employment for Wives of Students at Illinois Tech... Good jobs for you as stenographers, typists, cashiers, accounting students, accounting clerks, office machine operators, and messenger boys.

Advantages of employment at Illinois Tech are half-time tuition, participation in campus activities, good transportation, good cafeterias, and campus atmosphere.

Interested wives should contact Mr. Anker, 2nd floor, Student Union.
