Talented Tech hawk Amateurs Sought For Junior Dance

The Junior class wants you, brother. They're in search of the best amateur talent that can be found. The competition is open to all members of the Junior class. The contest will be held on Nov. 14, at 3 p.m. in the gym. The winners will be awarded prizes, including $100 cash, a trip to New York City, and a chance to perform on television.

Publication Problems Discussed At Collegiate Press Convention

Representatives from Illinois Tech joined with 117 newspaper and yearbook staffs from 32 states to discuss their publication problems at the Annual Collegiate Press Convention. The convention aimed to address the challenges faced by student journalists.

Recent Legislation Changes Affect GI Bill And P.L. 16

The GI Bill, established after World War II, provides financial assistance to veterans attending college. The legislation has been updated to reflect changes in the economy and the needs of veterans. The new changes include increased benefits for veterans and their families.

Sorcerer Smoky Will Entertain IIT Nov. 4

Wizard's Shenanigans Will Amaze Students At FPES—Sponsored All-School Assembly

"Sorcerer's Shenanigans" performed by Smoky the Wizard, will be held on Nov. 4, at 11 a.m. in the gym. The assembly is free to all students and will feature a variety of magical tricks and illusions that will amaze and entertain.

NSA-IUS Treaty Is Conditional

The conditional nature of the NSA-IUS Treaty has raised concerns among students and faculty. The treaty, which includes provisions for the withdrawal of U.S. troops from NATO, has been a topic of debate for many months. The uncertainty has caused some to question the future of the alliance.

Unclaimed Articles Will Be Auctioned

In an effort to maintain order in the dormitories, a new system of unclaimed items is being implemented. Items will be auctioned to students who have not claimed them within a specific period.

NSA—105 or page 6

Seniors, Sign For Photos

In an effort to keep track of student portraits, seniors are asked to sign up for the portrait session. Students who do not sign up may be excluded from the portrait session.

The National Student Association offers a unique perspective on student life, with stories contributed by students across the country.
Survey Advocated

The universal dissatisfaction that students have shown with their teachers has been the root of many problems in education through the centuries. In modern times, this dissatisfaction has manifested itself in many ways, including declining exam scores on the blackboard, and perhaps, when raised to the college level, it comes to the surface in the form of petitions of the student body or "ghosts" by the campus newspaper.

This is not going to be a blast.

Complete satisfaction, like full employment, is normally unattainable due to "situational factors." A small percentage of the campus population will always be dissatisfied with the faculty even if there were no real changes going on around them. But on this campus, like at the majority of other colleges and universities throughout the country, there is a dissatisfaction in evidence that arises from other than minor, "to be expected" causes.

After attending school for almost 15 years the objective college student becomes a virtual expert on the teaching profession. His standards are not, however, for he is based upon past experience with instructors that he has come to accept painfully. One very apparent fact brought to the attention of the faculty body is that the possession of a vast amount of knowledge is not the only requirement of the perfect educator. Insight and understanding and also prime requisites for the teacher.

A small percentage of the faculty has been repeatedly criticized because of their complete ignorance of the student viewpoint. They are accused of being all-knowing, potentative individuals who look down on themselves with nothing more than the mechanical process of monopolizing the student body. They lack the ability to grasp when their pupils become too bored with the questions or too tired to pay attention. These are the instructors who apparently have no respect for student dignity; they seem to forget that students are human beings who are usually capable of responding to a sincere effort to withdraw his gun back into his breeches and return to his cow pasture. The students feel that the faculty is not making an effort to understand their viewpoint, and this lack of understanding leads to dissatisfaction.

We would like to point out that the students are mature individuals and the majority of them express discontent with their instructors. However, Technology News in no sense advocates any sweeping changes of the faculty. We do not desire any system of teaching and learning satisfactory to the students.

DISC DIARY

Petrillo Edict Can't Last, Says Pianist Chet Roble

By B. Baker & J. Ferguson

Well now that "little Brown..." or... well... we mean "little Ceasar" Petrillo has laid down the law in regard to the future of the recording business, just as every good column you read has given space to it. So, we're not gunna be any different... after all, it's our bread and butter.

When the news broke last Friday, we were planning a special evening at the Cafe in listening to the Chet Roble trio. Chet's a talent that somebody hasn't given the word about three years before, they're really great. What's going to happen to the piano on the tape? If you're going to be interested in business, you'll be interested in petrillo's tapes. It seems the first tapes were made with the tapes used on the tapes, which led to the tapes used on the tapes. The only thing we're going to do is to start talking about what happens.

Chet's "bops" are Dizzy Rollins on the alto sax, and Snooky Alley, who handles the tenor in the band, and at the vocals. Roble himself plays a lot of piano, and at the piano forms behind the monophonic recording. What they seem to be going for is the hard-edged sound. The band sounds just like you'd imagine, with several hard-swingers, but they don't have the same type of an edge to the band. It's hard to think of a better place to open an evening, and to open with a band like the Chet Roble trio from a great.

LETTERBOK

Worried Reader Cleans Up The "Dirty Dish" Problem

Dear Sirs:

I would like to express my concern regarding the "dirty dish" problem in the student dormitories. As you know, the "dirty dish" problem has been a continual problem in the student dormitories. It seems to me that the situation is becoming worse. I would like to suggest that the university invest in a dishwasher machine. This would not only save time and labor, but it would also improve the cleanliness of the dishwashing area.

Sincerely yours,

[Signature]

College World

The North Dakota University - Ohio State University football game was featured on the campus radio station. The game was broadcast live to all students and faculty. The announcer, who had the best seat on the field, commented on the game's significance. He mentioned that it was the first time that the two teams had met in the playoffs.

Speaking of football, the quarterback on the Buckeye team, John Doe, said that he was looking forward to the game. He said that he was confident that his team would win. The Buckeye defense, led by Captain Bill Smith, was expected to be strong.

The University of Illinois "Daily Student" reports the comeback of one of their favorite athletes, Bob Smith, this past Saturday. Bob Smith, who had been out for a month with a broken leg, was expected to return to the starting lineup.

Rush Week Yields New Crop Of Greeks

DELTA TAU DELTA

Bankers, builders, and real estate men were the guests of honor at a banquet held by the Delta Tau Delta fraternity. The banquet was held at the Delta Tau Delta house and was attended by all members of the fraternity. The theme of the banquet was "The Future of Banking and Real Estate." The banquet was a great success and the fraternity was pleased with the turnout.

PHI KAPPA SIGMA

With the close of rush week, all men were either members of a fraternity or did not have a home. Many of the men were disappointed that they did not get a home. However, the men who did get a home were very pleased with their selection.

The men who joined the fraternity were very excited about their new home. They were eager to get involved in all the activities of the fraternity and to make new friends.

The fraternity is looking forward to a great year and is already planning many events.

LEONARD

SIGMA OMEGA LAMBDA

Sigma Omicron Lambda pledged eight new members to its collegiate chapter at the University of Illinois. The new members were welcomed into the chapter with a formal installation ceremony. The ceremony was attended by all members of the chapter and the new members were presented with their pins and the official insignia of the chapter.

The chapter's first event of the year will be a formal dance to be held in September.
EXCLUSIVE TO THE GIRLS OF IIT

By Tom Marzecnik

Further progress in the field of Chemical Engineering is being made by those very young chemical engineers, surrounded now by your entrees, composed and masculinity, here, a county of their beds and every second may bring disaster into your lover's house.

The cause of this impending doom is the usual one, the use of chemicals in the laboratory. As Dr. Gally's statistical table reached a milestone in the history of the laboratory, the students realized that their work was in no way glorified by the chemicals they used.

Your, yes, if you please. Right? The secret of the dead chemical engineers, not engineers, thrilled you, but particularly chemical engineers.

If a showed body of women captivated on this information and organized, you can imagine the life of the Chem Majors on the campus in the near future. Hospitals of women worked up to hysteria in order to climb the ladder of knowledge. The newest young student interested in getting into science will enter a world of hazel, lookship.

How To Be President At 28—Join Ancient Scholar League

By Ed N. Konsilin

Been down-throwed lately? Feeling mighty low? Don't despair—you too can be a president.

That is, you might be a president if you are over twenty-eight and pledge successfully to the Ancient Scholar League. According to the rule set forth by this organization, every member in good standing must be over the age of twenty-eight. In fact, the rule was set up purely for the purpose of making sure that the members are over the age of twenty-eight.

The requirements are simple and straightforward. Requirements to join are as follows:

- Be over twenty-eight years of age.
- Submit a sponsorship letter from a current member of the Ancient Scholar League.
- Pay the initiation fee of $50.

Requirements to join are as follows:

- Be over twenty-eight years of age.
- Submit a sponsorship letter from a current member of the Ancient Scholar League.
- Pay the initiation fee of $50.

The Ancient Scholar League is open to all members over the age of twenty-eight. Membership is limited to ten members per chapter. The current chapter is located in the city of Chicago, Illinois.

We'll bet you 2 to 1

That your stock will go up.

By R. W. Brown

You're probably thinking, "What? It's a stock, and we're betting 2 to 1? That's ridiculous!"

Well, let me explain. We're not betting on your stock going up, but rather that you'll be able to sell your stock for a profit. Our bet is based on the assumption that the market will perform well in the near future.

In order to place the bet, you'll need to have a stock in mind. We recommend choosing a stock that has a strong track record of growth and profitability. You'll also need to have a clear understanding of the company's financials and industry trends.

So, are you ready to take the bet? If so, feel free to contact us and we can provide you with more information.

A RECORD HIT in the making!

By E. H. Johnson

This week's Camel's hit the national stage. The cigarette has been gaining in popularity, and the company is confident that this new product will be a big success.

The Camel cigarette was introduced to the public several years ago, and has since become a popular choice among both men and women. The company has been working hard to improve the quality of the product, and the result has been a significant increase in sales.

The Camel cigarette is manufactured using high-quality tobacco and an innovative combination of flavors. The product is designed to provide a smooth and satisfying smoking experience.

The company is expecting a big boost in sales in the coming weeks, and is setting its sights on becoming a major player in the tobacco industry. With its focus on quality and customer satisfaction, Camel is well-positioned to achieve this goal.

More people are smoking CAMELS.

SCHOMMER STARTS 'ATHLETIC
CONFERENCE' BALL ROLLING

Tech's conference hopes got a big boost on the 17th of this month when John Schommer, Tech's national
rep, held for the purpose of forming
an athletic association.

The schools represented were
Chicago Teachers, Western, Aurora,
Wheaton and Illinois Tech.

The schools met at the
University of Chicago.

Preceding discussions were
held with the
freshmen rules, by rules, club,
scholastic entrance requirements, minimum number would be required to
the players of Chi, who had completed
at all other schools during the war, and
the eligibility rules.

It was the general opinion of
the group that freshmen should be
allowed to compete. Academic com
was considered valuable trau
for the development of desirable
personalities and the building
of a health reserve.

With this at
it was considered undesirable
to freshmen if they met the
requirements on academic
credits, this being the mandatory
being somewhat equivalent
with the academic rules but also to
have a "conference championship" goal for the
AHA.

The {p. 2} Haskins also felt that
it would serve to create more interest

Pi Nu Epsilon First Campus Honorary
To Inaugurate National Fraternity

Pi Nu Epsilon, honorary musical fraternity, held the dedication of a new honorary fraternity to start a national organization on the campus of Illinois Institute of Technology. Before last January, it was a fraternity confined to this campus.

A moving dedication service was held at that time, at Delevan Institute of Technology, for the organization was made at the same time, for incorporation under the Illinois state law.

Pi Nu Epsilon received its charter in February. It is a national musical fraternity that is interested in music and recognizes members as music majors or music instructors in schools which do not afford music as a course of study. The organization is divided into chapters corresponding to the Alpha chapter of the national fraternity and the chapter here was organized under the leadership of

Photo Exhibits, Movies Inform Techs Of
Visual Education

Movies are being shown every day this week by the North American Auditorium by the Visual Education Department at Illinois Institute of Technology with National Visual Education Work.

Today at 9:00 p.m. "Two on a Horse at the Piano," "Tawney's National Park," and "Men in the Sky," will be shown in the Auditorium. Tomorrow, "A Thrill a Second," a melodrama; "Music for American Air Forces," and "Glitter Thrill" will be presented. Friday's feature will be "Wounded Through Africa," a picture made by the Army-Air Force African Expedition, and the latest space show.

In the afternoon the newest travelogue of "Popular Photography Magazine" will be shown from 3 to 4:00 p.m. and "Sights of Washington," the capital show, from 4 to 5:00 p.m.

Tech Grads Offered
Navy Commissions

Graduates of the Navy Civil Engineering Corps are now being offered to qualified graduates and graduate students. Next Monday, Commander C. A. Hickman, U.S.N., will be present in the room to interview interested persons on the campus.

Appointments with Commander Hickman may be secured through the placement office. Group interviews will be given at 12:30 and 1:00 p.m., and at 2 and 3 p.m. in room 319C. Those not attending these interviews may contact the Commander by calling at the NIECO office.

For the rank of lieutenant in the Navy Corps, an engineer must be a graduate engineer, less than 25 years of age and in good health, while a lieutenant (jg) may be received with more experience and a year of service and the candidate must be 21 years of age or over.

ASME Membership Still
Open To Applicants

The deadline for applications for student membership in the ASME has been extended to Friday. It will be accepted by James M. Anderson, assistant professor of mechanical engineering at Illinois Institute of Technology. Those interested in joining are invited to go to room 720H, NIECO, first floor.

Dean Peebles
Excludes EE's

Dean Peebles, when the fraternity students elected national repre
sentatives, this development was made in 1932. The position was filled by Paul R. Herriott, who had previously served as president of the national fraternity.

The Alpha chapter and the Alpha chapter of the national fraternity, both located in the same building, will be open to members of the national fraternity.

New Advisory Board
Established; To Aid Admissions Office

Eleven students have been chosen to serve on the student advisory board, a new group established by the admissions office. The elected officials will be in keeping with the objectives of the new fraternity.

Members of the group are as follows: Paul R. Herriott, president; Robert Bement, vice-president; Richard W. Smith, treasurer; Richard S. Niblo, secretary; and Lee P. Niblo, chairman.

Techmen Participate
In 'Opinion, Please!

Four Techmen will take part in "Opinion, Please!" program to be aired from 9 to 9:30 p.m., next Friday over station WDKB. Warren B. Braddock, Robert Cutler, Bob Bunterg, and Bob Cameron will discuss the problems of "Making a Plan to Live." This discussion will immediately follow a short dramatic sketch on the same subject.
