Elect 24 Class, ITSA Officers Today

View Of Council On Rating System Remains Unchanged

Representatives of the Academic Senate met with the newly re-elected Faculty Senate on Monday to discuss the matter of student ratings of faculty members Thursday.

At the close of the meeting, the Faculty Senate indicated that its name of April 12 remains unaltered. In this case, they manifested opposition to any faculty survey. The results of which would be available to department heads.

However, the council also indicated that they intend to further discuss this matter with representatives on campus. Today's agreement was based on the understanding that a student survey be conducted. This will be the basis for any further discussion of the matter. The Academic Senate, which is composed of dean and administrative heads, is expected to issue a statement soon. The Faculty Senate, on the other hand, is expected to issue a statement soon. The Faculty Senate, on the other hand, is expected to issue a statement soon.

Top Technology News Jobs Open; Application Deadline Tomorrow

Tomorrow is the deadline for applications for the position of Editor-in-chief and Business Manager of Technology News. Applications are due no later than 5pm on Friday. Applications are being accepted.

New Apartment Construction Begins Shortly

The newest addition to the community is a new apartment complex located on the west side of American Avenue between 14th and 15th streets. This complex will be completed in the next few weeks by W. E. Scharfen. Applications are still being accepted.

Cancer Benefit Dance Slated For Chicago Arena May 28

The "College Answer to Conquer Cancer" will take place May 28 in the Chicago Arena. The event is sponsored by the Illini Goldshel, State of Illinois, and the University of Chicago Cancer Center.

The dance, sponsored by eleven local colleges including Illinois, will feature music by the student bands of both institutions. The dance will also feature performances by the student bands of both institutions. The dance will also feature performances by the student bands of both institutions. The dance will also feature performances by the student bands of both institutions.

Show Atomic Bomb Film In North Union

"God of the Atom," a film showing the atomic bomb explosion, will be shown at 11am on Thursday in the North Union auditorium.

In the 8-minute movie, produced by Dr. Joseph A. Mason in the Los Alamos Laboratory of Mound Laboratories, the audience will be guided through the history of the atomic bomb. The film will be shown in a short time. The film will be shown in a short time. The film will be shown in a short time.

Drawing Contest Enters By 150; Valuable Awards Presented To Winners

Nearly one hundred dollars in prizes were awarded to the four winners of the Chicago technical drawing contest. The winners were chosen from 150 contestants who entered the contest. The winners were chosen from 150 contestants who entered the contest. The winners were chosen from 150 contestants who entered the contest.

New integrals will be available in the main South Union starting tomorrow. The integrals will be available in the main South Union starting tomorrow. The integrals will be available in the main South Union starting tomorrow.

Drawing漏水 into the Chicago News, writes the editor of the newspaper, "is a serious flaw in the quality control of the papers."
Letters To The Editor

Vote Commissioner Replies To 'Constructive' Criticism

Dear Sir:

Last week two letters concerning the pre-election activities and duties of the election committee were published in Technology News. I realize that both of these letters were intended as constructive criticism, which I always welcome. However, the casual reader may have drawn incorrect inferences from the letters, and I feel obliged to clear them up.

The date of the release, May 5, was actually the date for the release of petitions to candidates by the students. It was felt that increased participation, insofar as the number of candidates is concerned, could be obtained through the simultaneous release of information on the elections through Technology News. It was felt that Technology News does not arrive at any exact time of the day, so the release of petitions could not be very well timed to arrive the paper. Therefore the beginning of the day, 9 a.m., was adopted as the time of release.

Naturally the other members of the ITSA Board know the time of release, as did the other members of the election committee, so there was little opportunity to keep the time secret. And because of the fact that some of the members of the Board would be candidates in this election, I told any person who asked me the time of release.

While it is true that the candidates who turned in petitions early were among those who received the time for release, it is also true that I told many people when I did not know, but who had the same right to the information as any other person who cared to come to the ITSA office and ask. To me this is the only difference between the petition blanks before 8 a.m. at which time they were placed in the North Union Lounge for public distribution.

However, I think little damage was done, and future election committee chairman can benefit from the verbal flurry of this election.

W. G. Bremerman
Election Committee Chairman

Points to Disseminate

Dear Sir:

I want to point out that many people feel that the jokes in your "Slipstick" column are not always appropriate to the level which can rightfully be expected of a college gentleman. The first three jokes in this column in the May 12 issue are highly objectionable. The second and third are definitely not for a general audience such as appear on our campus.

Engineers don't have to be "rough," at least in the sense of being insensitive. This column, further, is a genuine disable to some of your readers.

J. D. Parent

as I see IT-

By Sherwood Brown

"WHERE IS THE EDITOR?" I've been living from limb to limb! shouted the Avery stranger standing in the doorway.

"Who are you?" I, don't even know you!"

The young lady had been rather ingenuous about the publicity her affair had received to the paper-she came to him "soused" with trouble.

But this sort of thing happens more or less frequently, and you can always tell when the editor has been doing his work. Only recently a deserving chum did not receive the type of story he was so sure should have had. The editor blamed the other editor; they attempted to go to his place and clear things up: all he did was leave the place.

An editor cannot afford to be more "bitter" about this kind of suspicion, especially with naughty publishers. No! This is not the end of the trouble-but there is a cure.

I am going to present a plan to the ITSA Board of Directors for the formation of an "Advertising Council" (whenever we shall have one). It could save the money the only thing it needs is understanding and some cooperation.

My plan is promptly by the firm conviction that a campus newspaper cannot be the publisher of a college only to say that it is. Of course the plan will be worked out with the board, and cooperate with this plan in every way possible to make it work.

But all this means is that the most important thing is that the plan shall not be overlooked. I would like to see a student public relations bureau come. Completely apart from this plan, we will do our best to make a good name for ourselves in the College, and the complete copy to be presented to Technology News. Then the other editor can see the things that happen at the newspaper.

A campus newspaper must retain its rights to judge the importance of copy, but if the material is presented in a candid way I do not think it would reach the editor's desk with the chance of appearing in print is greatly increased.

Although circumstances do not permit me to dispose of the editorial of Technology News (unlike this miniature "newswoman," with or without several assiduous "readers" profusely interested in advertising)

An OPEN LETTER TO DR. J. D. PARENT (The letter referred to is in volume 12, Nos. 1-216)

Dear Sir:

Thank you for your recent letter about Slipstick. Although I do not wholly agree with your opinion, your letter is indeed an expression from a very earnest man.

You have already cost me $0.25, for which I read your letter over for the second time. I threw my hand up in despair and bought Max Eastman's book "Enjoyment of Laughter.

My despair sprung from this distance for arguments with Eastman. I've always been doing," as "We get our jokes from someone at American and educational schools in the country." We can content you that we are not going to go to Eastman to detect the level of perversity standards when we print jokes that have a chance of being in their double meaning.

Eastman's book is well written but I could never understand anything of his three chapters on noisy jokes and "dirty laughter." We are curiously trying to draw the line between the dirty laughter of the college boy and the "dirty" laughter, but it should be realized that we are not going to howl to all of your readers. You are the second "/from a student," we have received in two years.

Sincerely yours,

A. Brown
European Write To Tech

The latest edition of Tech student publication "Tech" has been published, featuring articles on various topics of interest to students. The edition includes articles on the latest research in mathematics and physics, as well as updates on upcoming events and activities on campus. The publication aims to keep students informed and engaged with the latest developments on campus.

Movies, Prizes And Games To Delight Kiddies Saturday

The North Union lounge will host a movie and game event Saturday afternoon. The event will feature a variety of prizes and games for children to enjoy. The lounge will be open from 2 to 4 p.m., and admission is free for all ages.

Three Sigma Iota Epsilon

Sigma Iota Epsilon, a national honor society, will hold its annual induction ceremony Saturday afternoon. The ceremony will feature speeches by faculty members and guest speakers, as well as the presentation of awards to outstanding students.

Lecturer To Present Research Geology Data

Professor John Brown of the geography department will present a lecture on the geology of Illinois Tuesday evening. The lecture will cover topics such as the geology of the state, the formation of the Illinois River, and the geology of the region.

Classified Ads

The classified ads section of the publication features a variety of items for sale, ranging from clothing and furniture to vehicles and electronics. The section aims to provide a platform for students to buy and sell items in a safe and convenient manner.

Psychology Professor Explains Trend Away From Engineering

David P. Becker, professor of psychology, stated last week that the "trend away from engineering" reported in the last Technology Journal survey may be part of a larger trend in the educational system.

According to the survey, 42 percent of the survey's senior engineering students do not intend to stay in engineering for more than three years after graduation. Furthermore, 34 percent of the seniors stated that the financial status of an engineer did not justify "the long and hard work required to become an engineer.

"The educational system," Becker stated that the apparent change of attitude may be attributed to "two principal factors. The information of a career by the high school student is often delivered in a way that lack the evidence of maturity; judgment; possession of the abilities to study engineering does not appeal to professional activity in the economic and social setting of the student's environment. The training of engineers being projected in the study which does not appear to be "pre-professional" education, as the profession of engineers, it is not an economic and social reality."

Becker stated that it is during this "undergraduate period" that the students do not have the time to give the profession of engineers.

The significant trend away from the profession does not represent a serious loss of talent of the students who make the change," stated Dr. Becker. "The training of the first two years of an undergraduate education is the "pre-professional" education, it is not an economic and social reality."

Schorrer Briefs

Graduating Seniors

Professor John S. Schorrer, dean of the engineering school, characterized the number of students enrolled in the engineering school as "an extraordinary increase." A significant development of the majority of the students had not accepted the engineering profession, although Schorrer said that the students are considering other fields.

Applications For Membership Still Being Accepted by WSE

Applications for membership in the Western Society of Engineers are still being accepted by the society. Illinois Tech's student chapter of the Western Society of Engineers, only the student chapter in existence at the present time, is the only chapter of membership applications for membership are still being accepted.

The chapter, which is located with the Chicago section of the society, was notified last week to the Illinois Tech student chapter at the Chicago section of the society.

In order to become a member of the Western Society of Engineers, students must apply to the student chapter at the Illinois Tech section.

The chapter of the Illinois Tech student chapter of the Western Society of Engineers is now accepting applications for membership.

Mechanical Honorary Pledges Elected

The Delta chapter of Pi Kappa Phi, National honorary mechanical engineering fraternity, is now pledging 11 students.

Three men, mostly identified by their engineers, are brothers, and three are brothers-in-law. All three of the brothers are brothers-in-law, and three of the brothers are brothers-in-law.

J. L. Cummings, president of the National Society for Mechanical Engineers, said that he was "very pleased to have our first members.

Revised Constitution Up For Vote Today

Below is printed the revised constitution of ITSA, the amendments to which will be voted upon by Illinois Tech students today.

ARTICLE I

NAME

The organization shall be known as the Illinois Tech Student Association.

ARTICLE II

OBJECT

The objects of the ITSA shall be to promote and to advance the social, cultural, and educational interests of the members of the Illinois Institute of Technology; to aid in the administration of the Institute; and to promote the welfare of the student body.

ARTICLE III

MEMBERSHIP

Any member of the student body of ITT, who is a member of the ITSA, shall be a member of the student body. The ITSA Board of Officers shall consist of the President, Vice-President, Secretary, Treasurer, and any additional members as determined by the ITSA Constitution.

ARTICLE IV

GOVERNMENT

The ITSA Board of Officers shall have the power to make rules and regulations for the conduct of the student body. The ITSA Board of Officers shall have the power to make rules and regulations for the conduct of the student body. The ITSA Board of Officers shall have the power to make rules and regulations for the conduct of the student body.

My future's in the telephone business

"I've been in the telephone business a little more than two years.

"And what busy years they've been!"

The Bell System has added more than 8,000,000 new telephones, erected some 3,000 buildings, buried thousands of miles of cable and made great strides in extending and improving telephone service in rural areas.

"Telephone service has been extended to automobiles, trucks and trains, and a new system for transmitting telephone conversations and television programs by superimposing them in operation."

"At Bell Telephone Laboratories they're working on new electronic devices which will bring still wider horizons of electrical communications within view."

"I've had a part in this development."
Maatman Aids Leiser To Snag Second Win
Victory Follows 11-9 Loss To Concordia In Conference Game
By Friedlander and Shafer
The Scarlet and Grey won a well-earned 9-8 victory over the Concordia Teachers college Friday at Armour Gymnasium after losing their previous meeting, 11-9, to Concordia. Bob Leiser proved himself to be the Techmen's outstanding pitcher when he chalked up twelve strikeouts and allowed only three hits against the Teachers.
Up to the seventh inning Leiser had a no-hitter in his hands but the Teachers made for the Teachers meet the apple rule by putting a hard, small, deep, deep out center. Matsumoto's Rutgers held Rutgers at first, but Leiser's high (but perfect) game was finished.

Hawks Star Alford
The Techmen scored a walk, a hit and were aided by an error to score two runs in this inning. They came back with two runs in the second inning after Alford hit a grand slam two out of the red lights in the second inning. He was on base by virtue of an error and up by a hit by Alford. Leiser was aided in winning by the brilliant performance of Jerry Sui, who threw all seven innings of the game. The Techmen made a beautiful catch of a long fly hit by Dinger in the first half of the sixth. The Tech center fielder seemed to sense the direction of the ball as he was way off the crack of the bat and didn't really expect it to hit him. He scored a hit in his hands. At this time he was somewhere in the general direction of the Three Bears and the end of the park.

Big inning Win
The Teachers scored four runs in the third inning and had a total of 11 hits. Four hits were made in the third, one, two and one in the fourth.

Our pictures will show all the full action of all Techmen on the victory. The second, third, and fourth in the lineup of the Techs, a Tech who has picked up the pace of the game, was Tech's second straight conference win.

The Teachers hit a ball all over the lot, collecting 17 hits, none of which didn't get them at the right time, and left runners stranded on the base paths.

Silkene Found Ball
Paul Peterson was the starting Tech moundman and was charged with the loss. The win was given to Bob Leiser, hitting a hit in the top half of the third when he was tagged for a double, triple, and home run. In this inning, he walked one batter and was victimized by "smart" hitting.

Nottingham relieved Peterson and held the damage to five runs. Nottingham pitched well, striking out six and yielding five hits and a score of walks during his four inning stretch. However, Cornell's power boys, Ballbrooke and Yorke were in Nottingham for a triple and home run, respectively in the sixth to boost the Kittens tally to ten.

McPhersonChucks Buggers
Bill McPherson played Concordia's center fielder in the losing line-up, scoring five, while his team mates scored just two. He got back into the game.

The Chucks scored a single run in the third, sixth, and seventh. They got back into the third and fought hard to get to four runs in the ninth, totaling ten runs, too little and too

---

**Golfers Win Third Straight; Defeat Bradley University In 14-13 Thriller**

The IHSA golf team rang up its third consecutive victory Saturday at Westgate country club, by defeating Bradley in a closely contested match 14-13. The outcome of this game gave the Scarlet and Grey all pullers a total average of three wins to two.

Here was the contest was number five man Paul Kirby. Although Kirby shot an 82 for the highest score of the day, he was a crucial part of the 300 hole to secure a needed one half point for victory.

Medalist was John Gauer of Bradley, who blazed through the course with a four over par 76. Gauer's opponent gave him a close run with a 75.

Other leading scorers for IHSA were Bruce Crompt, 77, and number six man, Dave Pahlman, 78. Potential surprised in winning his title by three points.

The team was handled by the loss of number one man, Rike, who was a chemistry major.

This last minute method of winning seems to be very popular with the Techmen. In the Loyola golf team, number six man for the Techmen, sunk a putt for a birdie on the 17th hole to secure the final point in a 14-13 victory.

The Overwhelm Opponents By Identical 7-0 Scores; Sweep Every Set In Matches

The Tech men's squad proved that their last two games in their last two games by tallying the unprecedented score of 7-0 against both Valparaiso and Concordia. The Scarlet and Grey regained their match sweeper with Valparaiso and Concordia were able to move enough points to win a set.

In their meeting with Valparaiso, at Armour Square, Saturday the Tech men were pitted by Bob Holm who started the ball rolling in the right direction. He defeated his opponent, Nelson, 6-3, 6-4. Bottomly, followed up with a two set win over Teplan 6-2, 6-4. Davis easily stopped with 6-4, 6-0.

Continued Sweep In Doubles
Keesler beat Brackman, 6-4, 6-4 and Bolonyi won over Seegers in the closest hard games 6-4, 6-6.

In the events which Bottomly and Reali defeated Sattler and Teplan in two sets, 6-4, 6-1, Keesler and Davis teamed up to defeat Witt and Brackman 6-5, 6-2.

Against Valparaiso Bottomly and Bottomly won by stipulation, 6-4, 6-1. Hall followed by upsetting his opponent, Ricket, 6-1, 6-3, while Keesler defeated Holm, 6-4, 6-2. The last set events were won easily by Davis and Bottomly. Davis won from Jergen, 6-1, 6-2; and Zellers beat Polakowski, 6-3, 6-1.

Return Match Declined
Bottomly and Hall took the Tech men doubles from Tomoka and Ricket and Davis and Holm doubles defeated them in first from Tech first set and win 6-4, 6-2.

The Tech golf team travels to River Forest Saturday where they will return the match. The next home stand for the Tech squad will be May 20 when the Valparaiso team will seek revenge.

Soccer Candidates Hear
Schonneman, Plan Practice

John J. Schonneman, Director of
Athletics, addressed 30 soccer am-
thletes Thursday. He delivered
many words of advice and encour-
gegment to the spirited group that
is trying to organize a Teawakee
erica team.

Sports Personality
Of the Week
By Ed Kacung

If you're wondering who that tall,
headstrong, gentlemanly type that
usually appears behind the pows
or in the press for the Teawakee
rugby team, it might be the choosers are pretty
good as to the person in question. It's "Bottler" (Carlton Stoneham). Now a seventh-year MIl, he has
managed to amass six athletic let-
ters, evenly divided between the
hard and the diamond.

Bottler's six feet two inch frame
and side arms are now serving their
fourth season as fixture maker for the
Teawakee team.

Bottler started his athletic career
at Fenger high school. After his
graduation he entered IU in the
fall of 1941. In the fall of 1943 he
played on short and shrewd team football
Phiwell, although successful,
went official

Next in his
order of
affairs was a year
in the Army Engineers where
he found time to play football
with his division team.

Back at IU after his discharge,
"the Bottler" again played basketball,
football and added the fa-
bulous "Senior Night" in their
Indiana football triumphs.

Besides being a member of Honor
Society for four years, Stoneham
has served as vice-president of the
tennis and treasurer of the Ten-
ner club. All for sports in gen-
eral at Illnois Tech, he knows that
students here a decided lack of
support for their school's varsity
athletics. His feelings are shared by many
others, that this school possesses the
material for winning sports, and has
an increasing in student support
would give our teams the "winning
spirit" they need.

As for his future, after produc-
ing three平面 wedding bells and
a move to the west, where he
hopes to become an air-condition-
ing engineer.

All over America...Smokers Report
NO CIGARETTE HANGOVER
when you smoke PHILIP MORRIS!

because PHILIP MORRIS is
DEFINITELY LESS
IRRITATING
than any other leading brand!

All over America, smokers who have changed to PHILIP MORRIS
tell us... they now enjoy a milder smoke, a
fresher, cleaner smoke than they've ever known before.

Yes, there's a difference in PHILIP MORRIS that distinguishes it
from all other leading brands!

If you're tired of "cigarette hangover"... that stale, musty
smoke in your mouth... that dry smoked-out feeling in your
throat... join the millions who call for PHILIP MORRIS, and
remember:

Of all leading cigarettes, PHILIP MORRIS
--recognized by eminent noses
and throat specialists as definitely
less irritating!

NO OTHER CIGARETTE CAN
MAKE THAT STATEMENT!

EAT WHAT ONE OF AMERICA’S TOP-RANKING
DOCTORS SAYS ABOUT PHILIP MORRIS

"I have often suggested to patients who
smoke that they try PHILIP MORRIS. I
describe it as a cigarette which
helps them keep the quality of life
which I know you are trying to
maintain. It is an excellent version
of the other brands, and one
which I can recommend to
my patients with confidence."

Edward L. Elson, M.D., Professor of
Medicine, Harvard Medical School

PHILIP MORRIS HANGOVER
FREE PACKETS OF CHEWING GUM
EACH WEEK

"Come on, Johnny, mother promised me Dorothy
Chewing Gum if we only sat through it once!"

me quit smoking. He really needs a... I want to read
the new Fugitive books and go to the week-end
while I have him in my pocket, and wait.

Dorothy Swannsides — Made Only By Adams
Miracle' Ends Run Of Two Nights On Tech Campus

By Otto Krueh
Opening night of "Miracle on 31st Street," an original musical written on campus, left its audience with a good taste in its mouth.

Dramatists proved that its determination has in no way decreased since "The Male Animal" and that the 14-day postponement of the presentation produced an interregnum as its 1947-1948 theater closing has yet to see.

As the curtain opened, two of Alumna's graduating seniors row to send their songs to their own alma mater. Twenty years later, however, complications enter in the form of Audrey Road. In the part of the stage生存, the muse's companion, she shows him to take his engineering education and follow her family on a journey to Texas. America. Many scenes and songs later, the second final proves la preview of the two alumni success registration runs wild.

Friday night brought it home to learn the golden years of the campus, among which were the successful failure of the curtain and an almost complete revamping of the set during the second act.

Taken all in all, this last and final run of the 1948 Dramatists season showed that great things may be expected from this group in the future.

Vincent Heads English Dept.
Howard P. Vincent, professor of English Humanities, has been named chairman of the department of language, literature, and philosophy, according to John D. Shaub, dean of liberal studies. Professor Vincent has been acting chairman of the department for the past academic year.

He came to IIT in 1948 as assistant professor, accepting the position because he was "impressed with the spirit of progressiveness" displayed at the Institute.

He is a graduate of Oberlin College where he majored in English and studied the arts and history. He has MA and PhD degrees from Harvard University, where he was awarded a writing fellowship in 1939. With the aid of this award Professor Vincent toured Europe. He returned to England in 1953 and again in 1958 to continue his studies.

Professor Vincent is a general editor of the Collected Writings. He has published many of the pieces listed in the book. The Trying-Outs of Mary Lokke, during the summer he will conduct a special seminar on Herman Melville at the University of Indiana.

Veterans Must See VA About Summer School
All Public Laws No. 16 veterans must declare their intention for summer school by June 2, the veterans office announced last week. Those men should contact the school veterans office or Iola Murray, VA contact officer. Mr. Murray will see the campus Tuesday from 9 a.m. to 12 noon in the office in the rear of the North Union auditorium.
