Rettaliata Made Dean Of Engineering

Director Of ME Department Assumes New Post In Sept.

John T. Rettaliata, director of the department of mechanical engineering at Illinois Institute of Technology, will become dean of engineering next September 1. This was announced yesterday.

Dr. Rettaliata will fill the position to be vacated by James C. Poehlmann, who now holds the position of superintendent of the machine department. The move is anticipated to occur at the end of the academic year.

The department of mechanical engineering at Illinois Institute of Technology has a long history of excellence in education and research. Dr. Rettaliata brings a wealth of experience and expertise to the role, having served in various capacities within the department.

Students Rate Tech Lunchrooms Good As Commercial Cafes

The interpreted results of a Technology News survey revealed that 89% of the students polled believed that the quality of food in the lunchrooms was superior to that of regular commercial cafes. These facts were brought out in the second of a series of surveys being conducted by Technology News. The purpose of this series is to publish some section of the original questionnaire and present it in the manner.

Students Pondered When asked the question, "Do you keep your lunch in the school cafe?" 75% of the students replied "Yes." Considering that the majority of students spend at least half of their time on campus, it is not surprising that the majority chose to keep their lunches.

In trying to avoid a faithful representation group, Technology News surveyed 500 students. Most of the students kept their lunches in the school cafe, but a few kept their lunches in the school home room or in the on-campus restaurants. About 9% of the students who were surveyed did not keep their lunches in the school cafe at all.

Man And Woman Of The Year Election Void; To Be Run Again

Due to irregularities in the Man and Woman of the Year election last year, a new election will be held tomorrow and Friday.

Voting was not to take place in the South Union lounge between 8 a.m. and 5 p.m. Students could vote without presenting the identification number listed on registration.

The slate of candidates for the election included John T. Rettaliata, director of the department of mechanical engineering, and Barbara F. Keen, a freshman in the School of Engineering.

The election was open to all students enrolled in the School of Engineering, and the winner was to be announced at the conclusion of the vote.

Although some students are disappointed, all agree that the election process will be improved in the future.
Letters To The Editor

Techman Cheers Drama Group, Points Out Unnatural Handicaps

Dear Sir:

If a Hollywood directing director were casting hermits, I'd suggest Illinois Tech's dramatic society as a likely spot. Here he would find refugees from conditions high school leading men, top-notch, high class with others with fortitude.

I don't suggest that the best up a fun for casting directing directors, but I would like to spotlight the mission of Dramatics, Illinois Tech's dramatic society. A week ago, "The Nape Animal" hit the boards at the old campus, Military Center of ICT's cultural activity. A small but confident group of students, instead of reinterpreting and producing a play in a short time, staged a theatrical production on a show.

A source other than Walter telephoto photo said "you want a show" in this particular case. Most of the students, making music, directing music, acting music, and preparing a bit. The critics complimented the act, labeling parts of the production as "unreal" and "cynical." The play was well received, and the production was well attended.

I recommend the use of these few hours by any storyteller in furthering the mission of Dramatics. The student organization, a conscientious, hard-working group, deserve your support.

A friend,

J. B. Young.

Two Cashiers Suggested

The cafeteria certainly has improved! Rapidly cleared tables, room is not dim, little's are generally handled in a businesslike manner, and the attendance is increased.

I suggest the appointment of two cashiers. This would be a great help to the students and would also help to keep the cafeteria clean.

Sincerely,

[Signature]

LOW GRADES TAKE ON ZESTFUL MEANING

By Don Goldsmith

Science has at last proved that ignorance is a disease.

"It has been shown that students who make low grades are generally both psychologically and physically inferior to those who make high grades." This is the conclusion reached by Robert H. Schonberg, assistant professor of psychology at the University of California, in a recent article in the university's journal.

The article states that the mentally bright students are generally more successful and have a better chance of achieving success in their careers than those who are less able.

This tenancy is more apparent in English than in any other subject. Students entering Illinois with a deficiency in English are usually not as successful in their careers as those who have a better understanding of the subject.

The discovery may revolutionize the college grading system. The day may not be far away when an instructor will be able to grade a student with a "D," and the paper will change to a "B." Thank you, you've been working incredibly hard. Or, perhaps, every straight "A" grade will be accompanied with custom-tailored stress-relief.

Imagine the happiness that last semester's grades brought!

Caroling this Christmas,

SLIPSTICK

The door to the Illini office is barricaded against callers. We're exploring Federal Investigators - they're checking on phone calls... (I've been blown out of ear.)

Overheard on the Student Union: "Lima: I've been out of 60 Tech now for a few years. Holy: Which one is that?"

Two friends were sitting together on a crowded bus and noticed another man, a "mike," seated in the back. The man said, "Hey, Mike, how's it goin'?

Another friend, a "Kike," said, "Hey, Mike, how's it goin'?

Here's The Start Toward That $20,000 Job You Want
by Dan Goldsmith

Would you like a job where you can start as vice-president at $20,000 a year and work your way up? Well, don't come to the Placement Office—they have only good, steady jobs for good, steady men.

The first step is getting the job in the office. To go to the Placement office at 10 West Thirty-third street and fill out a placement record. This record serves as a source of personal information for the prospective student and the Placement Office. It records such pertinent facts as your name, address, physical characteristics, references, personal references, high school record, and your record at IT, which includes the following: extracurricular activities, rank in department, academic and athletic honors, etc., etc.

The next step is your permit of employment arranging interviews with prospective employers. A large number of forms of all sizes, are submitted to the Placement Office for this purpose of interviewing prospective employers. Let me assure you, approximately 100 firms of national reputation, including the leading firms in the automotive, electrical, industrial, electrical appliance and chemical industries, held interviews here.

The climax of each interview is the placing of the applicant in a new, well-paying position. John Schueller, placement director, stated that these interviews result in "make or break" the applicant, because most employers will not let the factors of personality and personal appearance bother them. In addition to the place of the student and extracurricular activities, the size of the firm in which the man or woman makes up the majority of personnel and the importance of leadership is the most in demand by employers.

The record of the Placement department in helping graduates to obtain positions has improved yearly. Of 500 graduates last June, 113 reported that they had received employment through the Placement Office. Of the remainder, it is estimated that approximately 100 who are employed through the office's efforts, but do not report this fact. A few others are hired through their own efforts.

Not only does Placement find jobs for the graduate, but it also makes the available to alumni, at least seven years, and placed in the placement office immediately. Positions have been found for hundreds of students who are interested in obtaining a job in the field of their choice. Many school administrators and school pupils have found jobs during the summer and the school year.

This is the first of a series of two articles on the Placement Office.

RIFLE CLUB SCHEDULES FIRST MATCHES OF YEAR

New officers were recently elected at the last meeting of the Rifle Club. They are Henry Hennings, manager; and Leonard Unwin, secretary-treasurer.

Two rifle tournaments were attended, one on March 14th at Chelsea, and the other on March 30th on the field. There will be the first match held by the club in over a year due to the lack of membership in the National Rifle Association. The club has recently re-organized the NRA, however, and will soon be offered for the better marksman in the club.

AIEE ANNOUNCES PAPER COMPETITION; ILLINOIS TECH WINNER TO RECEIVE TRIP

A paper presented in the AIEE student chapter was announced by John B. Stover, at their meeting Thursday, March 14th, at which time the winner will present his work before a group of senior judges. The subject need not be one of original research, and Stover, "but it may be an problem which the contestant has read about or studied." Prize for the best paper, presented at the school, will be fifty dollars, and a second prize of ten dollars will be given.

The Illinois Tech win this year will be given a trip to the Chicago stock fair at April 2nd, during which time the winning paper will be presented at the Illinois Institute of Technology.

All those who intend to enter a paper in the contest should sign on the sheet at the electrical engineering office, 206 Physics, by Wednesday. The presentation is to be held on March 17th at 4:00 p.m.

FRIEDRICH TELLS COMMUNISTS

A majority court ruled Carl J. Friedrich, professor of government at Harvard University, innocent of charges of Communist sympathies.

Professor Friedrich, who has recently served in the U.S. Army, has been under scrutiny for his activities on behalf of the National Committee to Abolish Atom Bombs.

"I do not believe in the use of force," he said.

The ruling comes in the wake of efforts by Congress to investigate the activities of American citizens involved in activities against the war.

NEW VAN DYKE HI-DENSITY LEADS FOR GREATER OPACITY

The new Van Dyke Hi-Density leads for Greater Openness are now available. The new Hi-Density leads are made of a special lead, which is highly opaque and provides greater contrast and visibility than any other lead available.

QUESTION: What do you believe to be undesirable traits in students?

M. Allen Counihan, Associate Professor of Physics:
"I believe that the most undesirable trait in students is laziness. Students often have the mentality that they can do work at the last minute and expect to get good grades. This attitude is not only unproductive, but it also sets a dangerous precedent for the future." - Edward J. Hunst, Assistant Professor of Chemistry

First Meeting Of Reorganized IRE To Feature Movies

The IIT student branch of the Institute of Radio Engineers will hold the first meeting of the semester tomorrow at 11 a.m. in CB auditorium. Those attending the meeting will be informed of the IRE's new constitution and objectives. The meeting will also feature a short film, "Adventures in Television," produced by Westinghouse.

IT Vets Show Movie Program Tomorrow

A program of short films will be presented by the IT Vets tomorrow at 11 a.m. in the CB auditorium. The program will feature "Adventures in Television" and an additional film, "The Space Age," which will be shown to a small audience.

FPE's To Appear In Junior Wall Splash Battle

Said N. Smith, "The Junior Wall will feature the senior class's Annual Splash Battle on Wednesday, February 22." The battle will highlight the seniors' talent and artwork, showcasing their creativity and artistic abilities.

APO Arranging Social, Smoker

Alpha Phi Omega, national service fraternity, has invited students to a social and smoker for their members. The event will be held on February 23rd in the CB auditorium.

Chase Turnaree Starting

Chase Turnaree, a second-year student, will be preparing for the Chase Turnaree Music Competition starting on March 1st. Turnaree will be accompanied by the headquarters and will perform at all the main events.

Class Cheesy Campers

Indoor and outdoor gatherings and U-Contest meetings will be held for all interested "cheesy" patrons. Please join us at CB auditorium on February 25th.

Yale News

"I also arranged to have the new students invited to a special dinner at the Hotel Sherman on February 24th. The students were very excited and appreciative of the gesture. It was a great way to start the semester." - President John Smith

Locke Registration Deadline Monday

It is imperative that students sign up for their lockers by Monday, as it was announced last week by Donn Locke, dean of student affairs and athletic director.

Warren Brockmeier Partial To Surveys And Indian Canoes
By Henry Heine

Warren Brockmeier's job is not one of forming chains of studying, as is his in the office. He is a hard worker, but he has a mind for surveying and engineering.

The Brockmeier survey was sent to the office of the editor of the Illinois State. It was a survey of the surveying equipment in the office. The survey was a success, and the editor was pleased with the work done.

Sheraton Hotel Site Of Power Conference

Sears H. Winson, dean of the evening at Illinois Institute of Technology and director of the annual Midwest Power Conference, has announced the tentative program for the third annual meeting April 7, 9 and 11 in Chicago.

The three-day conference, sponsored annually by Illinois Tech, will be held this year in the Sheraton hotel. The conference will open at 9 a.m. on April 7 with registration at the hotel. The last section of the day will be at 9:30 p.m. On the two following days the conference will be held at 9 a.m.

During the evening of April 7 an informal "All Engineers" dinner will be held in the grand ballroom of the hotel.

The meeting will be open to any interested in power engineering. Among those expected to be present are representatives from Illinois Tech, the University of Illinois, and the Illinois State University.

New Cams Wanted

A recent shortage of new camera equipment has been reported. A new camera will be purchased for the Illinois Tech campus. The camera will be used for a variety of purposes, including photography, film production, and teaching.

Dr. Cleveland Speaks On Spectra And Structure

Dr. Forrest F. Cleveland, professor of chemistry, will deliver a lecture before the Illinois Tech chapter of the Society of Sigma Xi Wednesday evening.

The lecture will be given at 8 p.m. in the auditorium of the Chemistry Building. Dr. Cleveland will talk on "Spectra and Structure".

5$2 PER WEEK AVERAGE SALARY OF 1948 ENGINEERING GRADS

The average starting salary for the Illinois Tech engineering graduates ranged between $400 and $750 a month. John J. Schommer, director of placement, announced.

Top pay for a bachelor’s degree in 1948 was $300 a month. The average starting salary for an engineering student was $500 a month.

Most of the Illinois Tech engineering graduates are filling positions in industry. A few are employed in government agencies. A few are employed in government agencies. The average starting salary for an engineering student is $300 a month.

Did you know that the CEE department has a man in its midst who is a college professor? He is a college professor who is a college professor.

Famed Indoor Meet

Many Stars To Return

Whiz Kids, Fire Protecs Lose;

Shrink Unbeaten List To Four

By Larry Shapiro

Intramural play started last week after the vacation (some are the Doyle) layoff with umpires and loose play predominating.

The Whiz Kids were knocked out of the ranks of the unbeaten. They dropped a "divine" to the South Arbats, 28-21. Tim Robins of the Arbats' unit five field goals for high point honors.

Another undefeated club, the Young Guys, spent a驱夜 half-hour kicking the ball around the gym, but won out over the Grad House, 14 to 12.

Also suffering from lack of practice were the Wolves and Boys Fire Protecs. Previously undefeated and tied for the division "C" lead, they did not impress the managers as the Wolves fumbled their way to a 18-16 victory. It was number four for the Wolves and dropped the Fire Protecs into second place, Chuck Olenberg made nine tallies for the Wolves.

Oregonians Los Angeles

"Jimbo" Olden was the whole show as the Chem Grads smashed the Fresh Arbs, 97 to 13. Using his steady form to pull away, "Jimbo" dashed eight goals and two clarify shots for 18 points.

The Chems, a new entry in division "C" got started on the right foot and defeated the Fresh Arbs, 25 to 17. Featuring a strong defense and an efficient pivot man, the Chem Grads put the Chem Arbs in a state of disarray.

Masculan Win Thriller

With Oscar Grnans scoring 14 points in last week's game the Masculan blew the Freshmen, 45-26.

From Fathers came up with a second half rally to tie the Nation.

Mound Staff Works in Gym

With more than a week of work- days behind them, the Mound Staff is still somewhat down about their baseball prospects this season. However, the group is to be congratulated on their efforts to keep two fingers and two thumbs, offer premiums of $150.00 to the writer for buying the sports story. The group is doing an excellent job of advertising the school, and is to be congratulated for their efforts in this direction.

Sports Personality Of The Week

By Ed Jones

In a year in which sportsmen are the great news of the year so far, there is one that most “likely to emerge” is Bob Loeber, a freshman at this Institute. Bob has participated in both basketball and baseball, and has shown great potential in both fields. He is a natural athlete, and his skills are expected to bring him to the forefront of sportsmen at this Institute.

What is Bob Loeber like? He is a hard worker, a good student, and a team player. He always puts in the extra effort, and his dedication has paid off in his athletic career. Bob is a leader, and his presence on the field is a source of inspiration to his teammates. He is a true sportsman, and his attitude is an example to others.

This week, Bob Loeber is the Sports Personality of the Week. We at the Mound Staff are proud to highlight him and his contributions to our school.

Cagers Display Good Form In Home Finish

With forward Carl Macon exaggerating his jumps to the points, Kerney, Sherman Roberts displaying brilliant defensive play, the Illini basketball squad easily outclassed their home school with a victory over the Illinois State University. The match consisted of two close contests with the Illini leading throughout. The final score was 20-12 for the Illini.

De Paul Eliminates Tech Bowlers In Host Meet

A big De Paul bowling victory over the Tech bowling team was scored tonight in the Big Ten, with a score of 20-12. The match, held at the Tech bowling alley, was a close contest, with both teams putting up a good fight. The Illini emerged victorious, with a score of 20-12. The match was a great display of skill and sportsmanship.

How many operators will we need NEXT YEAR?

This is but one of the many questions telephone men are called upon to answer.

Part of their work has always been to anticipate demands for personnel - to determine what additional equipment must be provided, what new construction will be necessary to handle the constantly increasing demands for service.

Careful planning in every phase of telephone work requires the services of many highly qualified men. For them, this growing business offers the opportunity for active, interesting careers.

There’s a future in telephony.
'Male Animal' Leaves Campus

By Dave Trenk

It was 8:15. The house lights were dim and a solemn hush settled over the room. Small gusts of wind shook the windows, and the golden curtains fluttered, revealing the living room of Professor Theodore Turner, the male animal of "The Male Animal." The last laugh came early in the play, when Professor Turner, Ray Kloppe, presented his wife, Ellen, with a bouquet of wildflowers for her birthday present. It was certainly a加倍 impressive performance, due to lack of energy on the part of the cast, but mostly because of the time for rehearsal, for the second performance far exceeded the first.

The cast, on this night, lived its part and seemed to forget that it was on a stage and there were hundreds of people looking on.

Graduating Seniors Meet Tuesday

A meeting of the graduating seniors will be held Tuesday at 11 a.m. in the auditorium of the Chemistry building.

John Somers, placement director, will address the group regarding job-seeking and placement services.

Bob Heister and Fred Seattle, co-producers of the senior class musical production to be staged during Junior Week, will have a call for auditions today. All students, of any age, interested in taking part in this show are urged by Heister to contact one of the producers as soon as possible.

The seniors are reminded that orders for rings and caps are being taken daily in the North Union lib-

Math Club Meets To Hear R. Edwards

A meeting of the Math club will be held at 4:30 p.m. Monday in the Chemistry auditorium. Mr. Richard Edwards, an instructor at the Institute, will speak on the "Life Theory of Differential Equations."

"A dynamic approach to the study of pure and applied mathematics has been sponsored by Marshall Kaplan, president of the club. Various lectures on all levels will be presented at least once a week and are open to everyone.

A larger number of members have been initiated to the club in the belief that due to the expansion of the school there is an increasing number of students with an interest in mathematics.
