Dormitories opened
Enrollment data shows juniors lead classes

Two new dormitories, the latest structures in Illinois Tech's development program, have been completed except for minor decorating work and will be occupied this term by over 200 students.

The residence hall at 23rd and Michigan has been named Farr Hall in honor of Charles C. Farr and Harriet C. Finley, respectively, of whose bequests a large sum of money is to be used.

Farr dorm consists of 51 double rooms, seven single rooms, and six dormitories, providing for 64 beds. The hall was completed at a cost of $185,094.

Each double room contains two bunks, a double desk, a built-in shelf, a small chair, a mirror, a bookcase, a desk lamp, and closet space opposite each wall. Single rooms have removable furniture. Each of the four large halls has a master warden. Conventional intercom systems are installed and each room provides two double outlets.

Leisure facilities in the basement of each dormitory will be complemented as soon as construction can be completed.

The buildings are completely fireproof. Floors are of concrete, ceilings are of five-inch material, and walls are plastered plaster. Heat is supplied from central coal-burning plants and boilers in nearby rooms.

Exterior construction of all buildings is to be completed soon. The center of each building is white plaster, brick, or stucco, as determined.

The dormitories will be opened for occupancy by students on October 18, and students will be welcomed. The dormitories are equipped with all necessary furniture, including beds, desks, and chairs.

The residence hall at 23rd and Michigan is to be opened for the new academic year on October 18. The building is ready for occupancy and will be occupied by students on that date.

Publication day now Friday

A change in publication day of Technology News will be noted effective next week, announced Dave Feist, editor-in-chief.

With the exception of the first issue, traditionally distributed on the opening day of school, Technology News will be available Friday morning at 11 a.m., satisfying the demand for prompt publication.

Publication day now Friday

Are you ever been to the Magnolia Room?

No one will be required to take a trip to the University of Chicago or the South Union to see the new Magnolia Room. It will be right here in Technology News.

Frank C. Harrison, director of the dining hall, is planning to open the Magnolia Room this summer and will be ready to serve the students by the time classes begin.

The Magnolia Room is a small, cozy, intimate place where students can relax and enjoy a quiet meal. The menu features a variety of dishes, including sandwiches, soups, salads, and desserts. The atmosphere is warm and inviting, with soft lighting and comfortable seating.

For the benefit of all students, a special event will be held to introduce the Magnolia Room. The event will feature live music and a special menu, and all students are invited to attend.

As I see it

By Dave Fisk
Letters-Editor

Well, now, I research in the electronic telephone, managing board and staff, as you have my customary column along with everything else.

Some of my friends have been in the press business for a long time, and I've heard from them that the telephones have changed a lot since I was a student.

I've heard it's taken the editor over 45 hours a week to do the daily news. I've heard about new production rules that will considerably reduce not only the number of pages, but also the amount of content, but not the staff numbers, as well.

The new production rules will eliminate the use of the equipment room, the paper will be flat, the paper is to be delivered at 10am on Friday, and the paper will be available for purchase for five cents at the box.

Our sports page is now mandatory, with no exceptions.

I'm hearing about a new trend where student journalists are being asked to write about issues in the community.

What's the future for the editor?

Slipstick

Radiolul certainly is hitting it hard - the pressure of deadlines is going up on everyone.

Here's an early-season football story for the slipstick.

The football game between Illinois Tech and Western Illinois was played at 7pm on Friday night, and I've heard about a big crowd coming to the game. I've heard about a lot of excitement, and it'll be a great night for football fans.

CHIMICAL NOTE: Always measure out the ingredients of your recipe carefully.

I think that I shall never see
A "B", whose record is preserved
United like the blessed.

A "B", whose record is preserved
United like the blessed.

I won't try to forget
My grade, if I give her like me.

I won't try to forget
My grade, if I give her like me.

A man returned home one night at a late hour after a meeting with his stockbrokers, and found that the house was surrounded by a group of crabs, which seemed to be enjoying a huge party.

"What's going on?" asked the man.

"Oh, darling," said the woman.

"It's the_ghosts. They're celebrating the anniversary of the ghost of your grandfather."

Shirley, as usual, was not impressed.

A girl doesn't have to worry very much about being left at the end of the night if she's got the right kind of backbone.

Annie: I said stop.

Perry: Shut up and walk.
Campus shop will feature valet service

A valet shop, offering services of cleaning, pressing, tailoring, and laundering, has been opened on the campus for the use of resident students.

The Tech Valet shop is located in the basement of the Graduate house at the corner of Eforall street and Mckinley avenue, and is open Monday through Saturday from 8:30 a.m. to 6 p.m.

Herbert Brunke and Charles Knott, co-managers of the shop, announced that one-day service will be available in cleaning and pressing. The shop also has a custom tailoring department in which suits, coats and suits may be tailored to individual measurements from a large selection of fabrics. J. Knott and Son, custom tailors, has been retained in this capacity.

The shop will have a complete selection of shirts within a week, said Mr. Brunke.

Student help, full or part-time, will be employed in the shop when possible.

AIEEE starts 1949 membership drive

The Illinois Tech chapter of the American Institute of Electrical Engineers will inaugurate its 1949 membership drive at an all-school assembly during the third week of the fall term. The first regular meeting will be held during the fourth school week, with meetings to be held at 7:30 p.m. on Friday afternoon and at 7:30 p.m. on Monday evening.

All students who have taken technical courses are urged to call at the AIEEE room at 31550 South Avenue.

Cuthriee wants ad-man job after graduation

Senior class president Bob Cuthriee is a man of many skills, marine engineer, advertising executive, journalist, and custodian of war bridges.

Bob's war-industry activities and his marine engineering interests were one and the same, and so when he was third named marine engineer on the "Kingsport," the ship which carried war ships from England, Longy Robert became a licensed marine engineer after graduation from Kingport University.

Bob broke into the field of journalism at the age of eleven when his father, a newspaper editor and publisher, gave him a job in the morning edition.

Publicity service now provided

By the IIE News Bureau

A new service has been established by the Industrial Engineering Council for student organizations in handling their publicity relations on campus. This service, functioning as the IIE News Bureau, will provide campus groups with technical assistance in order to secure adequate handling of their publicity plans.

The IIE Council has examined its present facilities and decided that the Bureau should be expanded to a larger scale to better cooperate among technical groups. The Bureau, under the direction of the IIE News Bureau, will provide campus groups with technical assistance in order to secure adequate handling of their publicity plans.

M. Margolis heads new Israel club

The newly organized Israel club of IIT will hold its inaugural meeting Thursday at 7:30 p.m. in 3125.

Dr. S. Margolis, president of the Israel club, will be present. The meeting will be open to the public.

The club was organized during the summer. It will also be admitted to the Israel club in the future of the new state of Israel.

Edward Zuck, co-founder of the IIE News Bureau, has already made the first contact with the National Bureau of Standards, the Department of Commerce, and the Atomic Energy Commission, in connection with the new Israel club organization.

SAM acts as host to IE-IEE students Wed.

Industrial engineering students and members of the IE and IE department will meet Wednesday at 3:30 p.m. in the North Union Lounge for their first annual "Management Open House."

Sponsored by the student chapter of the Society for the Advancement of Management, the open house will give old and new IE and management students an opportunity to meet one another and get acquainted with members of the faculty in an informal manner.

Among the faculty members present will be Dr. Frank Long, chairman of the IE and IE department, President P. H. Daniel, who recently retired as head of the IE department, and Hopper Williams, IE instructor.

The affair will also serve to introduce Prof. C. H. Graus and Hopper Williams, IE instructor.

The affair will also serve to introduce Prof. C. H. Graus and Hopper Williams, IE instructor.

GET NEXT TO...

Johnny Long's "JUST LIKE THAT"---from the Signature diskerie.

Johnny Long (Duke University-Signa Nu) comes up with a danceable, bright bounce. It's a Long original.

If you should ask, Johnny how he came up with it, he'd light up a Camel and say: "Experience! I know from experience what music must my band best---just as I learned from experience that Camels suit my T-Zone to a T."

Try Camels on your T-Zone---T for taste, -T for comfort. See for yourself why, with Johnny Long and millions of other smokers, Camels are the "choice of experience."
Cunningham and Triller chosen for admissions

Two additional choices have been made to the staff of the admissions office, according to the director of admissions. The new members are Dr. Robert T. Hill, named assistant director of admissions, and Mrs. Elizabeth Triller, who becomes associate admissions counselor.

Dr. Robert T. Hill received his B.A. in music from Illinois Wesleyan University, and his M.A. and Ph.D. degrees from the University of Illinois. He was an assistant professor of music at the University of Michigan before joining the University of Illinois staff in 1970. He is a member of the American Musicological Society and the Society for American Music.

Mrs. Elizabeth Triller received her B.A. degree in English from Smith College, and her M.A. degree in English from the University of Illinois. She was a member of the English faculty at Illinois Wesleyan University before joining the University of Illinois staff in 1971. She is a member of the Modern Language Association and the American Association of University Women.

Fencing Squad invites new men

There will be an open meeting of the fencing team Wednesday at 6 p.m. in the basement of the gymnasium. All interested students are invited to participate. Positions are open for every level of experience. Equipment is furnished by the school.

Siegfried M. D. Sarnour, president of the fencing team, will welcome new members to the squad. The team will practice on a regular basis in preparation for the upcoming season.
Dr. F. D. Carvin appointed head of ME department

Frank Dana Carvin, head of the mechanical engineering department and chairman of the graduate division at Newark College of Engineering, has been named head of the Department of Mechanical Engineering at Illinois Institute of Technology.

The appointment was effective September 1. Dr. Carvin is a member of the American Society of Mechanical Engineers, the American Institute of Aeronautics and Astronautics, and the American Society of Engineering Education.

Dr. Carvin, 50, was born in Charleston, S. C. He received a bachelor of science degree in 1925 and a master of science degree in 1929 from the University of Texas. He earned his doctorate in physics from Columbia University in 1932, and his doctor's degree in physics from New York University in 1938.

He has been a faculty member at Texas A&M University since 1932, and he is currently chairman of the department of mechanical engineering. He was in the U.S. Army during World War II, where he served in the Air Corps and was stationed in the Aleutian Islands.

Dr. Carvin holds an active private pilot certificate and is a member of the U.S. Army Reserve. From 1944 to 1945, he was stationed in the Aleutian Islands as a member of the U.S. Army Reserve. From 1944 to 1945, he was stationed in the Aleutian Islands as a member of the U.S. Army Reserve. He was a member of the U.S. Army Reserve from 1944 to 1945.

His career as a rocket scientist began in 1945, when he joined the Atomic Energy Commission, where he worked on the Manhattan Project. He later joined the Jet Propulsion Laboratory, where he worked on the development of the Atlas and Titan missiles.

Polka-Time scheduled as first-all-school dance

"Polka-Time," the IT's Polka club's first all-school dance, will be held at 8 p.m. September 29 in the North Union auditorium.

"Polka-Time" will feature the recorded music of the best bands of the nation, including local favorites and international groups. The orchestra will be under the direction of the Polka club leadership team.

Chairs will be available for the enjoyment of the dance. Refreshments will be served at half-time intervals.

Chem department plans streamlining of day and evening curriculums

The chemistry department has announced a move to integrate the day and evening chemistry programs to make all phases and advantages of the day curriculum available to evening students. The program of study for the chemistry major, expansion of the curriculum, and completion of the chemistry buildings will be scheduled in three-year cycles and will be offered to day students, one year, evening students in another, and so forth. The evening classes will be scheduled in three-year cycles, and the day classes will be scheduled in one-year cycles.

Similar integration of day and evening undergraduate sessions is planned. The day and evening students will be divided into two departments, each with its own student body. The evening students will be divided into two departments, each with its own student body.

Win your wines

"Win Your Wines" is the theme of the Fall 1964 issue of the Illinois Institute of Technology Alumni News. The contest is open to all alumni of the university.

Here are the requirements:

To win a prize, alumni must write a letter to the alumni office, giving the name of the winner. The winner will be selected by a panel of judges. The winners will receive a prize package of wine, including two bottles of wine, a decanter, and a wine glass.

How high can you go in the U.S. Air Force?

The U.S. Air Force is recruiting new pilots and crew members. The Air Force has announced that it is recruiting new pilots and crew members. The recruitment drive is aimed at attracting new pilots and crew members to the Air Force.
'Pigskin Prophets' opens; awards greatly increased

Contest in second year; ten prizes

By Jim Wasserman

It's football time again, and with the first kickoff of the 1968 college football season, the annual Technology News Pigskin Prophets contest will once again go underway.

Punishment points, tickets had way

Heading the list of new awards is a golden Parker 51 ink pen, to be given to the first prize winner each week, for the most correct contest and their second and third place winners will be presented with two books and a plaque, one of which will be a book of the forthcoming Chicago Bears Cardinal football season. The winner will be determined upon whatever team is in town on that contest.

The fourth contest entry will go on sale at a box in the Integral Hall, the biggest auction house of the season to be held October 13 at the Harriet Hotel. The fifth and sixth contests will be held at the same time.

A show of the sixth contest will be conducted with a case of Coca-Cola. The contest will be the same as the first, containing 16 points on Chicago football games.

Banquet every week

The contest, beginning with the first issue of the Technology News, will continue throughout the college football season, with a ten point contest held each week. Each point will be sold for 10 cents, and the contest will run from the first week of October to the last week of the season. The winner of the contest will receive an automatic service cart and a trip to the Oak Park.

Improved Techshawn cagers shoot for better season

By Larry Shugrue

Greater things are coming! Prospect for the 48-68 Techshawn basketball team are exceedingly bright. Coach Glacey will be called upon to call upon lettermen from men coming up from the frosh ball squad under Glacey's tutelage and should be able to show the ability of his team. Big Bill Glacey himself thinks that this year's team is one of the best in Techshawn history and will not only aid the players, but will make this year's coach a year, developed Rapidly and topped 'Forget' for the seeming title.

The first call for variety candidates will be October 13th. Coach Glacey's choice will be the main topic of the Techshawn games.

Ogden Field has the new look

By Joe Witte

It stands like a mirage separating the new buildings from the old. Yes, once the old, but now "New" Monticello Park in the City of Ogden, Utah. This new sign is the beginning of a new athletic plant, a new good news to all sports minded Techshawns.

The first grader organization of Ogden Field started July 16th, when the field has been built and filled by a railway labor force. The old shanty was replaced with a smooth stone and the baseball diamond was replaced and shortened.

The improved condition and corrected layout of the field, the Techshawn's, will now be able to hold meets at home and be better able to host plays.

Texas Tech new star

More of a pleasure than a headache

Lehman Tourno Team Caste

Carl Madison, Captain Carl Herington, Bob Ripper and John Matlock, last year's boys squad, have been retained. "Frisco" Hall, under the direction of Larry Daily, has been named to the powder house for Larry Daily with Martin, having his first season of college ball last year.

Football tourney initiates autumn intramural program

The first phase of the extensive sports program will get underway next week with the start of the touch-football tourney. The program, which extends throughout the academic year, will include touch-football, basketball, softball, pool, bowling, and intramural activities. The program will be administered by the intramural director, who will be responsible for the activities.

Coaches greet embryo techmen

By Charles E. Weiler

Our intramural sports program and our various varsity teams are in the midst of a regular schedule of practice and games. The coaches will be on hand to direct the athletes in their training, and the athletes will be on hand to train themselves.

Ogden Field is the new look

Our new field has been built and filled by a railway labor force. The old field was replaced with a smooth stone and the baseball diamond was replaced and shortened.

The improved condition and corrected layout of the field, the Techshawn's, will now be able to hold meets at home and be better able to host plays.

Thanks for the advice, Johnny.

Over 20 additions made to faculty during Summer

Expanded facilities at IIT have brought numerous additional to the faculty during the past summer, most appointments effective as of September 1964.

The chemistry department added associate professor Dr. Scott R. Wood, and assistant professor Dr. Edward B. Cottrell. The mathematics department added professor Dr. Charles W. Barlow, and associate professor Dr. Robert W. Taylor.

Electrical engineering students will have Lawrence C. Malchuk as professor, Benjamin A. Fenster and Richard W. Jones as associate professors.

A professorship in English was awarded Dr. Samuel K. Wombles. A graduate fellowship went to Dr. Robert W. Taylor.

Dr. Eileen-Siu Suo, a noted Chinese mathematician and professor of mathematics and research assistant at the University of Chicago, is now the mathematics department.

The technical drawing department added Assistant A. J. Oppenheimer as assistant professor.

The business and economics department name Ruth V. Greendale as associate professor. Dr. Jones as lecturer and listed appointment Mr. H. S. H. Crocker as instructor and Samuel Brown in the same position.

Cigarette hangover is nothing to laugh about. Why don't you, Mr. Morris? From all over America smokers report: No cigarette hangover when you smoke Philip Morris. That's because Philip Morris is definitely less irritating than any other leading brand! You'll be glad tomorrow—you smoked Philip Morris today!
EE department adds three professors to staff

Three members have been added to the staff of the electrical engineering department, according to Edwin R. Whitehead, chairman of the department. The new instructors are: Leonard W. Matsch, appointed professor, and Benjamin A. Fisher and Allen W. Jones, both assistant professors.

Matsch was a supervisor in electrical engineering research at Illinois Tech's Armour Research Foundation. For 10 years prior to 1949 he was an engineer with Commonwealth Edison company.

Benjamin Fisher was a professor of electrical engineering at the University of Denver, where he taught electrical engineering. He was on military leave from Oklahoma State College prior to his appointment. Prior to joining the Denver staff in 1949, Prof. Fisher served five years in the Navy as commanding officer at the U.S. Naval Academy, where he taught electrical engineering. He was on military leave from Oklahoma State College prior to his appointment.

Selheimer named professor in ChE department

Charles W. Selheimer, head of the chemical engineering department, has been named professor of chemical engineering at Illinois Institute of Technology.

Born in Rockford, Ill., in 1911, Dr. Selheimer was graduated from Muhlenberg College in 1935, with his master's degree from the University of Illinois in 1938, and his Ph.D. degree from Michigan in 1943. He has been a chemical engineer for the Procter and Gamble Company since 1943, with the emphasis on his work in the design of chemical processes for the manufacture of soap and related products. He has also been a consultant to the Bureau of Reclamation for the design of a chemical plant for the manufacture of soap and related products.

Veterans: note procedure on subsistence check loss!

Veterans who lose subsistence or pension checks should immediately notify the Veterans Administration regional office. Veterans losing such checks should write a letter giving full name and address, claim number and the date and amount of the check. One should also state when the check was for and the circumstances surrounding its loss.
