Engineers held in high respect: Heald

President Henry T. Heald, speaking at a meeting of the ASCU Tuesday, expressed the opinion that "no important professional society is based on merely 40 hours a week." He went on to stress the engineer's responsibility to the community as both a technical and intellectual citizen.

Heald asserted that engineers do not necessarily belong to professional societies and are not citizens by that fact alone. Engineers should belong to society and its institutions.

"It is a question of how far we can go in the training and the public must realize that the public is not a good judge of an engineer's competence, the opportunity to be judged by man is greater according to a professional society at great value."

Heald added that professional engineering is not comparable to the prestige that the country and legal professional held was reduced by Robert Heald. He stated, "In my opinion, the public as a whole has high respect and confidence in engineers."

Counseling opens April 4

Raymond Meade, registrar, has announced that the pre-registration counseling period for the spring and fall terms will open April 4.

"Of primary importance, pre-registration is only advisory counseling to the student, but it is necessary to the registrar and to all departments in determining placed courses."

Mr. Meade stated.

Several changes in the pre-registration procedure have been affected. All freshmen and second semester students will be counseled and pre-registered by their advisors. All core course students are to attend the pre-registration period and meet with their department heads.

Communication with core courses is the industrial section of the year. He added that the industrial section of the year is being handled by Robert Meade, chairman of the department of engineering. Students who intend to take core courses should make sure the courses they intend to take are available. Students who have been counseled for their fall semester class for hands-on sessions will pass the summer classes.

New rules govern exam procedure

In a March 17 memo to all instructors, the Institute of Technology announced new regulations governing cheating and the administration of exams. The new procedures result from a recent report by a group of students in protest of the "inconsistent discipline in examinations of Illinois Tech." The new procedures will require the preparation of two forms at each examination for classes where students are to be present.

New forms are to be printed on differently colored paper. Students will be asked to bring blackboards to each desk. The instructor will collect these boards and distribute them among the students.

The making of test questions remains in the hands of the various departments.

Under the new regulations all exams are to be proctored by regular full-time instructors. In a few classes it is recommended that a proctor be provided for every 20 students.

Instructor's comments are required to be available for review by all students.

Clarence W. Dentoni, dean of students and chairman of the disciplinary committee, stated that the new regulations immediately caused considerable comment and criticism from students and faculty members alike.

"We are not sure that this plan will work as expected and it is hoped that it will work as expected."

Semantics and tour for AIEE

AIEE turns to aspects of word splitting in Friday's meeting at 1:30 p.m. in the MC auditorium when the Cruise Freeman, assistant professor of English, will discuss the role of semantics in the process of word splitting.

The meeting is sponsored by the general education group of AIEE and is open to students in all departments. The meeting is open to all students in all departments.

SMILING HAPPILY, Edwin R. Whitehead, director of the electrical engineering department, poses with "Connie," vocalist at the AIEE smoker Friday night. Dr. Whithed's busy beau, Wason, has been a consolation prize given to him by Connie for his incorrect estimate of the number of boys at a dance.
Placement confusion reflects job shortage

Voiced on this page are two letters written by interested seniors that are of interest to every engineering student at Illinois Tech.

Placement confusion is the main theme. In the Institute’s placement office, they state that over 2400 engineering students are interested in jobs and that only 300 of them will be offered interviews. The students feel that the placement office is not doing enough to help them find jobs.

On the other hand, graduates who have already received job offers feel that the placement office is doing a good job. They have been offered jobs in their fields and are happy with the results.

You're too late

The interview list goes up tomorrow.

You're too late; the interview list goes up tomorrow. This means that you must act quickly to get an interview. If you don't, you may not have a chance.

Letters to the Editor

Seniors deplore grad interview practices

There is a great deal of confusion among seniors regarding the placement office's practices. Seniors feel that they are not being given fair treatment.

One senior complained that they were not given enough time to prepare for their interviews. Another senior said that they were not given enough feedback after their interviews.

In addition, seniors feel that the placement office is not doing enough to help them find jobs. They feel that the placement office should be more proactive in finding jobs for them.

All in all, seniors feel that the placement office needs to improve its practices in order to better serve its students.
Three judges pick queen of frats

Twenty anxious and pretty candidates are awaiting selection as queen of Tech fraternities. The royal election is the main feature of the annual fraternity formal to be held tomorrow in the impressive Louis XVI, Crystal, and Gray rooms of the Hotel Sherman.

Photogs to hold studio night

 Armour Free will hold a studio night tonight at 8 p.m. in the North Union. Mrs. Pat Hender, of the Patricia Stevens agency, will serve as model. Light will be available and photographers will be afforded an opportunity to try their own ideas with lighting. Admission is not restricted to members.

Stroke ends life of Dean Rogers, 79

Services were held Monday at an emeritus of engineering. Dean Rogers, whose health had been failing recently, suffered a stroke at the Lutheran Deaconess Hospital Friday evening. Rogers joined the Lewis Institute staff in 1883 and was with the school until his retirement at the time Lewis and Armour Institute merged in 1911. He served in the military during World War I and retired from the Army with the rank of major. He was a member of the American Institute of Electrical Engineers and the Society of Automotive Engineers.

Ordnance body honors 22 at Illinois Tech

An ordnance association has been formed to honor Illinois Tech juniors and seniors. The group is a joint effort of the Air Force Reserve Officers' Training Corps, the Illinois Institute of Technology, and the University of Illinois. It aims to promote professional development and networking opportunities for students in the field of ordnance.

Conference theme: U.S. power needs

The theme of the conference, which will be held at the Sherman Hotel April 15, is "Power for the 21st Century: A Global Perspective." The conference will feature keynote speakers and panel discussions on topics such as energy policy, renewable energy, and the challenges of balancing supply and demand in the global energy market.

Placement Schedule

FRIDAY, MARCH 25

10:00 a.m. - 12:00 p.m. Illinois Tech Career Center Open House

12:00 p.m. - 2:00 p.m. Graduate School Information Session

2:00 p.m. - 4:00 p.m. Alumni Panel Discussion

4:00 p.m. - 6:00 p.m. Networking Reception

SATURDAY, MARCH 26

9:00 a.m. - 11:00 a.m. Career Development Workshops

11:00 a.m. - 1:00 p.m. Lunch and Networking Event

1:00 p.m. - 3:00 p.m. Industry-specific Panels

3:00 p.m. - 5:00 p.m. Resume Review Sessions

SUNDAY, MARCH 27

10:00 a.m. - 12:00 p.m. Job Search Strategies Workshop

12:00 p.m. - 2:00 p.m. Alumni Panel Discussion

2:00 p.m. - 4:00 p.m. Industry-specific Panels

4:00 p.m. - 6:00 p.m. Networking Reception

Smoke a Lucky to feel your LEVEL best!

Lucky Strike cigarettes are the finest in the world. They're made from the finest tobaccos, hand-selected from the world's finest farms. Lucky Strike is a brand of cigarettes produced by the Lucky Strike Tobacco Company, a company owned by the R.J. Reynolds Tobacco Company. The package design features a black and white color scheme with a gold leaf design. The text on the package reads, "Smoke a Lucky to feel your LEVEL best!"

L.S./F.T. - Lucky Strike Means Fine Tobacco

So round, so firm, so fully packed — so free and easy on the draw.
Imported turtles to vie for honors

Turtles, turtles, marching up and down again! When will they cross the line? For the answer to this and other pertinent questions, see the turtle race on the afternoon of April 27, first day of Junior Week-Open House chaos, on Ogden field.

Fashion chiefs judge Jr. Week coed contest

Fashion consultant at UI will be judged at all events at the second annual Fashion contest to be held April 4 at 2 p.m. in the NU auditorium in conjunction with Junior Week activities.

Survey results to lure ads

Technology News is conducting a survey to determine the potential market the students and faculty of Illinois Tech offer to its advertisers.

It is important that the survey questionnaires be filled out carefully by the students who have received them, in order that a comprehensive analysis may be made.

Don Lynch, director of the marketing analysis, has requested that those persons who have received questionnaires fill them out and return them to the Tech News office as soon as possible.

Rough castings dance April 8

"Footlight Fling," a dance open to the general student body, is being presented by Rough Castings April 8, one of the group's social project committees.

Featuring plenty of girls, music, games, and entertainment, as well as the usual of the "Footlighters" who shared a curtain recently at the K.U. smoker, the affair promises to be one of the best on this campus for several years.

Tickets for the event, to be held in the NU auditorium, may be obtained from any member of the Rough Castings group, beginning Monday.

CHEATING

The honest student will no longer have to suffer from cheating...
Cindermen seek first win
Meet North Central and Morton after Wayne loss

By Dave Miller

The Cindermen are ready to meet North Central and Morton in track and field this weekend. The Cindermen have been preparing for their first meet of the season, and they are hoping to come out on top.

Follmen end season in high spirit

The Follmen have ended their season with a high spirit. They have been practicing hard and are ready to show off their skills.

CAPTAIN JIM SAUER, another half-miler, takes advantage of Monday's warm weather to get a workout.

Badminton, volleyball on IM bill

In the first week of March, 10 teams will compete in badminton and volleyball. The teams will be divided into two groups and will play against each other.

WHOEVER YOU ARE, WHATEVER YOU DO

The Bell Telephone System

HE HAS BUILT A BRAND NEW CITY

The telephone man is mighty busy these days. Since the war, among many other things, he has built or enlarged 8,000 buildings... scores of them large enough to fit into the skyline of a modern metropolis.

These buildings are more than brick, mortar and telephone equipment. They are jobs for thousands of men and women... more and better telephone service for millions of people... more business for the towns and cities in which they are located. But most important of all, they are an indication of the Bell System's earnest efforts to keep up with the nation's growing needs for communications service.
Triangle takes lead in IF bowling meet
By Sherwood Bones

After searching the staples with a record four game score of 1328, Triangle University will lead 12 teams into the 14th round of the International bowling tournament when they take to the alley's this Sunday at the Dearborn Recreation Center.

The men's team, under groundbreaking on "all pin" and a little side rule made up the team's 1328 single game average into a tally of 43 pins over par. This is high class bowling (in fact class league) by any amateur squad.

Kappa Sigma Phi hits the inside of the Triangle's title aspirations. The Alpia Sigma spirit of a 1328 pin total and a great 12 pins over par seems to give the Engineers. Rounding third place and still a little possibility are the defending champions Delta Chi, who are 16 pins over the pace.

The Triangle team composed of Don Faye, Jim Smith, Paul Wadsworth and lieutenants, Charlie Angermeyer, and Gilley rolled up the high team game with an amazing 123. Shockey scored the individual high game with 123. Allie Aidman and the men in the record 1328 game were H. Angermeier, and Alpia Sigma Phi. They were the pair of Pauls, who were incorporated after the first six pins into a blazing team.

According to their individual bowling, the Triangle now have two legs on the trophy and, despite the proximity of the running-up teams, they must be regarded the best chance for the title. Paul records show that high bowling averages run well in streaks and, at the moment, the Triangle Kings are rolling the crest of a hot streak.

The St. Louisans, although new in their third place, also have high scores on the trophy and rate as a dark horse.

Tech nine ties pace for opener

With less than three weeks remaining before the beginning of the 1949 Tech tournament, Coach Ed Glancy has stepped up the tempo of the team's practice sessions.

Although the "big elig" across Central Field has indicated the team's activities to "White Palace," Glancy has been pushing his charges through bowling and pinning drills.

"Big Ed" is anxious to turn the team's efforts so that he can get a real look at the material that he will have on hand for the coming season. He plans to keep about 12 men, all of whom will be picked.

Glancy has been especially pleased with the early season form displayed by Roy Veitch, defensive pick-ups Bob McCue and Ray Clapple are also looking about better than averages in these early meets.

Freshmen plan mixer April 2

If only one of the arrangements for the April 2 mixer, "We're V-People," is completed, the success of the dance is virtually assured. Such is the opinion of概述 claims she has marshaled 200 women from Northwestern to attend the dance which will be held in the 112 Auditorium.

All that remains now is providing partners for them all.

Dancing this dance, the freshman sponsor has secured a five-piece ensemble for the music and are planning a number of sides in the间歇性 time.

All good stories point a moral

Behind our playful plot, our intentions are serious: we want you to discover for yourself the welcome difference in cigarettes that PHILIP MORRIS can bring you.

Established proof of the difference is too extensive to be detailed here—but pre-medical and chemistry students, who will be especially interested can get it in published form by writing Research Dept., Philip Morris Co., 119 Fifth Ave., N. Y.
set at home on the Sportsman's Floor—the Fifth Floor,

Store for Men. One trip brings out the outdoor man or
care in you...for here are flies to lure the

fisherman as surely as the trout...guns that speak

the language of hunter or marksman...irons that sing of the

fairways...rackets that test you to testing your backhand.

From riding clothes to hand-tossed saddles, from bobbers
to boats, this is your research headquarters, information

center and shopping source. Even if you're strictly a

Sundays sportsman, you'll find here the clothes and

equipment to make your sport more fun.
