**Doll Dance coming up next Friday**

Boasting ITVA's initial effort off to a successful start, the annual fashion show called Doll Dance on Friday, October 7, will be held in the Student Union auditorium at 8:00 p.m.

**Integral Queen Rules Given**

There will be a series of rounds at the Intermural Ball where the master of ceremonies points to the microphone. Five charming gals will be34 breathlessly saluting the judges' demands, and the woman chosen Integral Queen is the one who wins.

**Integral Queen to reign for the School Year**

The center class of February '64, sponsors of the Integral Ball and Queen contest, will insist on a professional photographer at the event. The judges will then choose the prettiest one to be crowned Integral Queen to reign for the School Year.

**ITSA will not join with NSA**

A motion to consider affiliation of ITT students with the National Student Association this semester was defeated last Wednesday at a regular ITTA meeting. The report in favor of affiliation by ITTA vice-president Don Lynch was voted down.

**Welfare week nears windup**

This week is “Community House Week.” In a joint statement by Harry T. Head, president of Illinois Institute of Technology, and Harold A. Leedy, director of Ar-

**More TN Editors Appointed**

Ed Mitchell, editor-in-chief of Technology News, announced the following promotion to the editorial staff: Elizabeth Green, editorial assistant, and Larry Shapiro, promotion editor. The promotion and editorial assistant were appointed at the same time.

**Money worries begin for Tech**

Tom Murray, treasurer of the ITVA Board of Control, announced today that no money will be allotted to organizations under the financial jurisdiction of ITVA until the proper steps are taken.

**Inteauty doll parades are already underway for the 1959 Integral Ball.**

Tech and students and their “queen” are awaiting the October 14 event in the impressive ballroom of the Midland Hotel in Champaign.

**The Grand Ballroom of the Sherman Hotel forms a spacious setting for the forthcoming Integral Ball.**

**Integral Ball to offer gala night**

Bid sales are already underway for the 1959 Integral Ball. Tech and students and their “queen” are hoping for a spectacular evening to remember.

** IE appraised with girls’ point guards as their choice for the basketball homecoming dance.**
Lynch, Gaffney give NSA pros and cons

PRO—Don Lynch

A thorough presentation of the case for the United States National Student Association should include a large section devoted to its organizational policies and programs. But, in my limited space, I shall try to answer points I expect to be brought out against affiliation with NSA, stressing the facts that 700,000 students have already ratified the NSA constitution, and that all the schools in the Chicago area accept Northwestern and IIT are members.

Much of the two year existence of NSA has been spent in developing functional policies satisfying its members, policies on issues like fraternity discrimination and affiliation with foreign student organizations. This lagging activity, I believe, may be due to the lack of interest in affiliation with a national student organization.

To this, I say we should join NSA now and participate in its present regional program on symphony forums, student-discount or purchase-card systems, WSSF and other activities rapidly becoming an integral part of campus life. It is to be remembered that the more work we put into the program, the more returns we gain.

Another argument against joining, NSA is that we have few of the educational, administrative, and student government problems found on many campuses. It is suggested that since we do not have these problems we have no need of the association's aid in solving them.

I believe it is apparent that we need help to NSA eliminating these defects from the educational systems of other localities, for although we do not have them now, there may come a day when this campus may need NSA's aid.

Here are some of my further points for affiliation with the NSA. NSA is the body which is recognized by all as speaking for the college students (one-third of the nation's students are already members). NSA has successfully come through two years of tedious policy-making and a program initiation that parallels our nation's founding father's first decade. For the first time since its foundation, NSA is in a position to tackle its own financial problems as well as campus functions.

Each year ITSA will report considerably without being/Table 1: The table above displays the data for various categories. It is clear that the majority of the data is related to the financial aspect of the NSA. The table includes columns for each category, including the name of the category, the number of students, and the percentage change from the previous year.

In the past few months, NSA has made great strides. It has added new members, increased its membership base, and expanded its reach to include more colleges and universities across the country. The organization has successfully navigated some challenging times and is poised for further growth and development in the coming years.

CON—Jim Gaffney

Those of you who were at the Convocation Tuesday afternoon heard me say at that time that I would post anything affiliation with NSA. Now in a few...
Charity hits $1600 peak in donations

More than $1,600 was raised in the "Charity Drive," held during registration for the newly erected Campton Charity Club.

Dave Pauluk, who directed the drive, stated that the money would be utilized by the student organizations for the benefit of those on campus.

The campaign started in the first floor lobby for a "basket charity drive" which was held during a registration period.

Because of the limited amount of the drive, Pauluk stated that it would continue as a community event.

In accordance with provisions of the Campus Union, there will be no further student activity drives for the balance of the term with the exception of the Campton Drive sponsored by the Home Economics club.

Win free ball eve in fancy guessing game

Want to win an exquisite free evening at the Integral Hall? Just fill in the "Guess Whom" contest and see if you can pick the right one. Details are on page 2.

For the first time, the Integrals have cooperated with the Senior Class of February, 50, by giving as an entry blank on which you may submit your guess. There are no prizes for the blanks, as none will be printed in the Student News.

Note the chances are to be made on a preferential basis; you have to predict the exact order of the blanks according to the official raining tally.

Just make your choice and turn in the entry blank below, or facsimile thereof, together with your vote for the Integral Queen finalists. Student activity cards will be printed at the time votes are submitted to students from voting more than once.

Dassie calls for more cooperation

Out of the recent salad figure steps, and there, greeting you with a warm, winning smile and manner, is Bill Dassie. These are the activities students were at the election of the Sagitarians of the Dassie, an organization of the Sagitarians of Dassie.

Dassie, a member of the ITS, AMBE, 21 Tan Sigma, and the Sophomore Staff, is also interested in the student activities and is a member of the Sagitarians of Dassie. He has also been "looked up" by the Alpha and Omega of the ITS.

Railmen to roll tonight

The railroad's only railroad, the Camp Armes and Border Railroad, is setting a new pace in construction, operation, and service. Twenty-five prospective rail employees will attend an informal meeting tonight in the club room at 7:00 p.m.

The meeting will follow the meeting with the first train arriving at 7:00 p.m. Visitors are welcome to observe the demonstration, but all others may be restricted to later-arriving non-employees at seven.

Still in the hump-back stage are the rail employees for a new mountain, division, altered routes, and the presence of the Trans Pacific control center.

Leiber receives Navy chemistry research grant

Dr. Eugene Leiber, Associate Professor of Chemistry, has been granted a two-year research contract by the Navy Bureau of Ordnance.

Under the terms of the contract, Dr. Leiber will be a consultant to the Chemistry Section, Research Department, U.S. Naval Ordnance Test Station, Inceker, California, to study the properties of new chemicals.

Well, we're stumped. Let's give it a go.

IIT prof does book on Melville

What began as a 50 page article on Herman Melville's Moby Dick has emerged, after five years of hard and exciting work, as a 400 page book. This new book in The Trysting Out of Moby Dick by Dr. Howard P. Vincent, chairman of the department of language, literature, and philosophy.

Critically studying the sources and meanings of the Melville novel, this new book represents the first exhaustive attempt to probe Moby Dick's origins and metaphysical implications. An intriguing portrayal of the creative mind at work is fashioned from the vast amount of fascinating detective work in Dr. Vincent's search for success.

Advance sales of over 1,400 copies encouraged the publisher, Bon Clen, to increase the sales of 1,400 copies at the first print run, an unusually large number for such a scholarly work.

Dr. Vincent is now completing work on the definitive critical edition of the Complete Works of Herman Melville, of which he is an associate editor. His work came to IIT in 1942. Dr. Vincent has edited several other books and written numerous articles for Illinois and such journals as the New England Quarterly. He has often been invited to lecture and has given numerous radio addresses on the life and work of Melville.

Students asked to form campus drama group

The Campus Players, a new theater group, has been formed at Illinois Tech. The group, under the direction of Dr. Howard P. Vincent, chairman of the department of language, literature, and philosophy, is being formed to produce several plays during the year, starting with a theme of plays of the period 1850-1920. The first major production, currently in rehearsal, is likely to be a successful production of a Broadway comedy of the period. The group has been well received by the students and is expected to continue to grow in the future.

Tech faculty grows with additions

In addition to the IIT Tech faculty, the following new appointments have been made for the coming semester:

- Paul W. Hensley, assistant professor in the department of mathematics.
- Dr. E. F. Hering, assistant professor in the department of physics.
- Dr. R. E. Holcomb, assistant professor in the department of chemistry.
- Dr. M. I. McPherson, assistant professor in the department of biology.
- Miss L. A. Graham, assistant professor in the department of mathematics.

These new additions have been made in response to the growing demand for a more diverse faculty. The university is committed to providing its students with the best possible education and is dedicated to attracting the brightest minds to its faculty.

Power plant grows higher and nearer to completion

With mixed emotions, students have greeted the first-fledged advertisement of IIT on the new boiler plant 100 feet chimney. With expressions of surprise, pride, and happiness, comments were heard about the rapid progress being made to complete the building. Concerning the chimney:

"The boiler plant is the most important part of our school," said one student. "It's really coming along and it will be a great addition to our facilities."
Shall I call you or nudge you?

The Daily Texan reports that a student who signed up for an 8:30 a.m. class could never make it because he didn’t have an alarm clock. He teacher, one of the younger women in the department, got worried about him and worried him that his grades were beginning to look bad.

When he explained about not having a clock, she promised to call him for class every day, and she kept her word for several weeks.

One day, however, she forgot to phone, and the student didn’t make it to class. When he came to his name while taking the roll, she gasped, “My goodness, I forgot to wake him up!”

She never did get a chance to explain.

New courses to be added to the engineering curricula at Case Tech (Cleveland) for the first time have been announced as effective in 1950. The new courses will provide the engineering students with a broader general education while at the same time giving them a sound technological course.

More two-technical subjects are being offered for the first two years in most departments. It is hoped to prevent the engineering student from being “snowed under” by over-specialized study. Better engineers and better citizens will thereby be expected from the revised instructional requirements.

“Say and Free Love” was the title of a Rutgers university newspaper article that picturing student council candidates. A picture of the article is herewith reproduced. “Please forgive us for the headlines on this editorial, but the message was too urgent that we wished to get it out to as many students.

SAM lines up semester plans on Wednesday

The deadline for submitting applications for jobs on the ITS is early Wednesday afternoon at the annual management meeting. Sponsored by the Society for the Advancement of Management, 50% of the Management and 10% of the Social Sciences departments will be represented at the “get-acquainted session,” according to M. St. P. neer, chairman of the meeting.

SAM Mat. Engr. Program committee chairman says that two hours of entertainment for all members, which will be first of the week. Wednesday afternoon, and repeated in an evening program at 8 p.m. Thursday. Both of these activities will be presented in the Alumni Building in cooperation with the Visual Education Committee.

FRESH to stage first dance

First-termers will meet at the “Greetin’ Meetin’” dance tonight, sponsored by the freshman department, Saturday, October 5, at 8 p.m. in the NU auditorium. The dance committee is composed of Bob Jahn, president, and Mike McKinley, secretary. Admission is $1.50 for members and $2.00 for guests. The dance committee, which is planning to raise money to defray the cost of the dance, is also planning to have a raffle to raise additional funds.

The dance committee is planning to raise money to defray the cost of the dance, and to have a raffle to raise additional funds.

It can’t last forever

According to Paul Fox, bookstore manager, the merchandise system being used during registration is too cumbersome. The system is being used to handle more efficiently the great number of students entering ITT and will be discontinued as soon as the rush subside.

SAM Mat. Engr. Program committee chairman says that two hours of entertainment for all members, which will be first of the week. Wednesday afternoon, and repeated in an evening program at 8 p.m. Thursday. Both of these activities will be presented in the Alumni Building in cooperation with the Visual Education Committee.

Queen photos requested for local papers

The Queen photos of the student body and their entrants for the Queen contest are requested to be photographed at any time during the year. Photos of the Queen and her entourage will be taken at the Queen contest. The photos will be used for the Queen contest.

Fervent Daniels, TH msnoc, will be on hand for early news copy

Technology News deadline given

For your Technology News copy must be turned in to the News office in the North Union before 5 p.m. Tuesday. It may either be dropped into the slot in the door or placed in person to the News office. Copy should be written on one side of the paper and typed in a neat, legible manner. Any changes or corrections should be made on a separate sheet of paper. If your copy is not timely, it will not be printed.

A staff of reporters will be on duty from 8 a.m. to 4:30 p.m. on Monday evenings for handling incoming copy at that time.

An improved system for handling organizational news will be presented to the student body. It calls for the designation of a publicity representative within each student activity as responsible to the member of the news office and to the editors of Technology News for transmitting all articles of interest. More details about this plan are to appear in forthcoming issues of this newspaper.

'Pigskin Prophets' opens third year

Limit entries to ten; new awards offered

By Larry Sheprio

College football is taking the sports' spotlight across the 48 states, and each famous name in its history -- from DuBois, Michigan, to North Carolina, SMU, and the 'Pigskin Prophets' of Illinois Tech are ready for a terrific season.

The contest will continue throughout the entire football season. Each issue of Technology News will have the games of the following week on the card, giving the entrants one week, from Friday to Friday, to get their cards in the box.

The deadline for each week's contest, including this week, will be 7 p.m. Friday night. All entries must be postmarked on the day of the Technology News issue to the Tech Football Office, or mailed to the Tech Football Office.

The contest will be limited to the number of entries per person to ten, in order to promote skill in choosing winners as the prime objective instead of chance. The winners will be selected by a random drawing.

New awards offered for the season will be presented to the winner of the Tech Florida game, the winner of the Tech-Oreak game, and the winner of the Tech-Penn game.

VARSITY SQUADS START WORKOUTS SOON

By Ted Spahn

Under the able guidance of Bernard "Sonny" Watson, Tech's new Athletic Director, fall and winter sports at IIIT are turning into full swing. Basketball, cross country, track, swimming and "fall practice" baseball will start soon, with wrestling and boxing expected to follow within the next few weeks.

Tech's new Athletic Director, Bernard "Sonny" Watson, has announced the appointment of two new coaches to lead Tech's swimming and wrestling teams. John Makie, Jr., coach of the Oswego College, has been given the reins of the swimming team, and Tony Barberino, Jr., who has been the 1948-1949 wrestling coach against the North Chicago Jazzmen.

The Tech Football squad is now under the direction of Coach Roy Marchant, who is now in charge of the team. The Tech Football squad is now under the direction of Coach Roy Marchant, who is now in charge of the team.

Tennis, touch football open new intramural program

by Dave MILLER

The week beginning October 3rd will open the biggest intramural program ever at Illinois Tech. Starting with a slam-bang touch football program and a tennis tourney, it will wind its way through the changing seasons covering swimming, basketball, volleyball and badminton, to finish the school year with softball.

The tennis tournament, slated to start the week of October 3rd, was planned in conjunction with winter tennis practice. Bob Zaffiri, captain, held a meeting Tuesday evening to acquaint the players with the rules and procedure of the tournament.

The main event, however, will be the tennis tournament. The men in the varsity squad will be able to work out with the team during the winter.

Pairs matches will be played on Friday, September 29th, at 8 P.M. The doubles will be played on Saturday, October 1st, and will be the last two matches of the schedule.

The tournament will be held in the gym and North Student Union.

The touch football tournament will begin under a new program coordinated with the athletic director, John Molino. Each department will send a team of 12 to 15 players.

Each team will play one game against another team in its section. The team winning the game will advance to the next round. The winner of the final round will be declared champion of the annual intramural touch football tournament.

The winners of each game will be declared champions of the annual intramural touch football tournament. The winner of the final round will be declared champion of the annual intramural touch football tournament.

PROPHETS

(Continued from page 6)

The Techswimmers will have a greatly improved squad this year with the return of all of last season's varsity swimmers. The team is on course to set new records in the pool.

The team is on course to set new records in the pool.

The coaching staff consists of Coach Ralph Kehoe, head coach, and assistant coaches Mike Reilly and Ken Garlitz. The Techswimmers have won seven straight conference championships and are expected to win another.

The Techswimmers will have a greatly improved squad this year with the return of all of last season's varsity swimmers.

The team is on course to set new records in the pool.
Reserve Integrals next week

It will be necessary for anyone wishing a copy of the 1949 Integrals, the IIT yearbook, to reserve a copy before September 20th. The Integrals office, in the South Union, will be open for this purpose September 18th, 20th, and 21st between the hours of 10:00 a.m. and 8:00 p.m.

The dollar and one-half which will be charged when reserving a copy of the Integrals is merely the balance of the entire cost of the book. The greatest portion of the cost of the book has already been paid for by the full-time student through his activity fee which comes out of his tuition.

News in Brief

The IIT Chess club is starting this semester with hopes of surpassing last season's record. Although it lost three strong players in June, the team won the collegiate championship of the Chicago City Chess League this summer.

Any freshman who is interested in the game and would like to get on the team is asked to contact Ed Wenzell. Needed are six players by October 15th. Full-time students are preferred.

Commander John B. Ayer succeeded Captain Donald McGregor as commanding officer of the NROTC. Commander Ayer, who now becomes a full professor, has served as executive officer and associate professor of naval science since May.

Nearly all officers in the naval unit are Commander Eugene A. Brachman, unit executive officer; Lt. Comm. Arlin Golds, assistant professor of naval science; and Lt. Robert M. Davenport, instructor in naval science.
