Hocdown planned for hep Techhawks

Women and turkey and real "hochown" music, is what you will serve tomorrow night at the junior class presents the good of "hochown Turkey Hop" barn dance of 1950.

"Down on the farm" informality will be a feature of the entire evening, and a big Turkey Hop will be held by the class. Every person attending the turkey will be awarded some lucky person a door prize, as a preparation to let the turkeys farm fields or tennis shoes and the oldest clothes you can muster is to be uniform of the night. Stags will wear their shoes of the door, for you may notice, so no one will be except those students attended the Hocdown for the 40 women who are being shipped in to share honors with the seniors of the "Turkey Hop." Calling and square dancing, as well as popular music, will be part of the celebration. President E. R. B. Hays and his "Riddlers of the Purple Sage" band have been booked for the WLS "National Barn Dance." Just recently he has been engaged by the Parker House and the Sherman as a feature attraction.

Barring any unforeseen accident, he has been engaged to make him at the "Turkey Hop." Class presy, Steve Valtce, and social council, have arranged, have arranged to bring the comedy acts, all deflected in their human heart, down from Montebello college and the local women's residence. It was decided to fill the "Turkey Hop" almost completely tuned Techhawks.

Dancing will be held in the gymnasium at 9:30, so bring your shoes. The program will close at the time of the party at Saturday nights "Turkey Hop." Class officer petitions out after holiday

Petitions for the December election of student officers will be available at 8:30 p.m., November 7, at the ITIA office, located on the second floor of the Tech. The elections are being held to select students to fill the large and class offices for the present 1st, 2nd, 3rd and 4th semester.

To be an eligible candidate for the student, must not be an incoming member of the class, can only be included in the election, but must be admitted. To be a candidate for a class office, the student must be a member of the class and a member of the student council. The student must be present at the election and be eligible to vote for the junior class officer of the class. The student must be a member of the class and be present at the election and be eligible to vote for the junior class officer of the class.

Five student posts open for JWOH

ITIA is now accepting applications for the following positions held by the Junior Women's Open House committee:

1. Secretary - to hold the position of chairman of either the Junior Women's Open House committee last year, and four positions for other officers. Of the four students selected, two will hold the Junior Women's Open House committee activities, and the other two will preside over Open House, which includes setting up and organizing the display and other Technological Center. One of these four students will fill the position of junior chairman.

Applications will be accepted until 5 p.m. on November 29, at which time the ITIA board will hold the candidates and announce their names.

When applying for one of these positions, the only thing required is a letter, not more than 50 words, not more than four sentences, not more than one page. The letter should include all the necessary information about the student for the committee to go on with the election. Qualifications will be evaluated by the board during the pre-election interview on November 29.

Bill Curtis, Lee Richardson, Marty Hoeltz, and George Argyros are the students eligible for the positions. The applications will be accepted until 5 p.m. on November 29, at which time the ITIA board will hold the candidates and announce their names.

Science fictioneer talks about life

Peter Tappan, member of the Science Fiction Society, gave a talk on the experiments of Andrew Carnegie with the boiling of life forms from mixtures of life. The talk, "Science fictioneer," will be held at 8:30 p.m., in ITIA on Tuesday. It will be the first in a series of talks about the future activities and will be brought up.

Hixon new dean of student affairs

This week has received the designation of the dean of student affairs. Room 200 in SU is now occupied by Dean Dean, and his new appointed assistant, Hixon, former instructor of English, will assume the responsibilities of student counseling, activities, running, arranging, and room assignments.

This change was made in the interest of Dean Dean's increased load. Postal notification revealed one of the positions. Dean Dean's proven qualifications by serving as registrar and counselor have now been raised to a higher level. It is also one of the factors which has influenced the decision of the administration of the student affairs office. Hixon will undertake the under counseling of students, Dean Dean will still be available for special cases.

The need of a qualified man to direct admissions and counseling has brought to light the need for a qualified person. The change is that under the new arrangement, Hixon will be available for student affairs.

Who's Who lists ITI senior wheelers

Dean Dean has released the names of the seniors who, through the various activities and responsibilities, have distinguished themselves in the college's wheel world, "Who's Who Among Young Americans in Colleges and Universities." These notable students are: George Argyros, Bill Curtis, Steve Valtce, Frank Curtis, Arthur Edwards, Morris Francis, Dan Gilford and Lee Reed. The list includes all the students who have made significant contributions to the college. The change is that under the new arrangement, Hixon will be available for student affairs.

Class officer petitions out after holiday

Petitions for the December election of student officers will be available at 8:30 p.m., November 7, at the ITIA office, located on the second floor of the Tech. The elections are being held to select students to fill the large and class offices for the present 1st, 2nd, 3rd and 4th semester.

To be an eligible candidate for the student, must not be an incoming member of the class, can only be included in the election, but must be admitted. To be a candidate for a class office, the student must be a member of the class and a member of the student council. The student must be present at the election and be eligible to vote for the junior class officer of the class. The student must be a member of the class and be present at the election and be eligible to vote for the junior class officer of the class.

Co-ed queen will rule Homecoming

Students at Illinois Tech will be treated to a great evening December 8, 1950 when Honor I, ITI's honorary athletic fraternity, will sponsor an annual Homecoming basketball game against the University of Chicago. Bob Loeber, president of Honor I, announced today that the dance will be held immediately following the basketball game and will be admitted free upon presentation of their dance tickets, and all those gated into the game will get into the game free of charge. The ITIA identification cards. Anyone else will, of course, have to pay the usual $1.00 for the game. Music for this gala affair will be supplied by Gordon Gren, and his band Loeber also announced that there will be plenty of cash available, since a combination of funds will be channeled to pick up the women from Michael Roos, Mercy, and Lincoln hospital. As an added attraction for the Science fictioneer talks about life

Peter Tappan, member of the Science Fiction Society, gave a talk on the experiments of Andrew Carnegie with the boiling of life forms from mixtures of life. The talk, "Science fictioneer," will be held at 8:30 p.m., in ITIA on Tuesday. It will be the first in a series of talks about the future activities and will be brought up.
Letters to the Editor

Dean, student,

To the Editor:

Last week in a Letter to the Editor, I was quoted as having said, "the campus police are responsible for the protection of school property only, and not personnel." My comments at the recent IFC meeting were quoted out of context and were not at all understood. The question put to me at that meeting concerned the legal authority of our special campus police. My reply was that, while I believe that the laws of our unusual situation, our police have been permitted by the College to exercise police power as well as Institute property. This means that they are authorized to exercise police powers on the public streets which intersect the campus and, of course, on all territory owned by the Institute. They are responsible to the police department and will be assisted by any police department whose men are present.

The Institute is vitally concerned with the protection of its students and staff and is constantly working with the City police force to provide even more service on and near the campus.

A student committee is currently making suggestions on lighting conditions on the campus and will recommend areas where they consider inadequate lighting.

It is very unfortunate if I misrepresented the question put to me in the IFC meeting and additioanally regretted the interpretation placed upon it by the anonymous writer. We are all interested in the protection of property, but we are far more concerned about personal safety, and the record has been good compared with Chicago as a whole. We expect to do that and improve on it. I would urge that we not become panic-stricken about the situation.

C. C. DEANSON

Dean of Students

Pay requests for editors

To the Editor:

I agree with the opinion that the police protection on campus is insufficient, but I must protest the erroneous quotation and misrepresentation of the facts printed in this Letter. No one at the meeting of November 2nd could have misunderstood Dean Deans' position on the police situation. He explained that their legal or licensed qualifications for the protection of school property, not personnel, but that this is certainly considered by the Institute and the students.

The unidentified author was not present at the meeting and had only the summary of the discussion to draw upon, which was not a verbatim quotation of the Dean's statement in the first place. They stated that, "... the staff are busy trying to protect school property, not personnel..."

I am sure that the majority of the Council that have heard this problem discussed during the recent meetings would agree that the shortcomings of the Institute in supplying sufficient protection are the responsibility of the different department and, not the staff. It is rather given to them for their efforts to correct a bad situation and to add all technical facts.

JAMES M. MURRAY

Inter fraternity Council Secretary

Tech sponsors U of C library for libraries

A million dollar Library for Libraries, the Midwest Inter-library Library Center, is being erected on the University of Chicago campus, Illinois Tech is one of the thirteen member schools participating in this project.

The building, which was begun last September and is expected to be ready for occupancy by March 31, is to house a collection of rare and costly research materials. It will be used by researchers and faculty members through the member school libraries. A mail order service will furnish these libraries with any available material upon request. A telephone connection will be available for placing these requests.

Illinois Tech, the oldest school in the organization, will contribute a comparatively small amount of material initially. Our representative in this organization is Dean John D. Larkin. There is now a six member board elected by the thirteen member schools.

William Hyde, Librarian of Illinois Tech, said, "The new library is not a studyroom, but a useful place in which many busy find material too expensive for individual schools. It will gather long series of articles, and correlate portions of previous articles that are now split up between the various libraries."

Slipstick No. 1

There's the story going around about a butcher who backed into a meat grinder and got a little behind in his work.

Honorary give aid to students

On or about November 28 the student tutoring service sponsored by the honors fraternal will begin. This service is available to all students that are failing or having great difficulty with their classes.

Regular schedules will be set up for tutoring in physics, chemistry, mathematics and ME and EE subjects. If a student requires tutoring in some other subject, he can call Ted Schulte, EEE, and arrange for special help.

The tutors, honorary fraternity members, receive a $1 honorarium for the NCU committee on the nights that they teach.

Class schedule will be posted on the more prominent bulletin boards around campus, but if there is any doubt call Ted Schulte or go to room room 105 or 105 MC between 8 and 9 p.m.

EDUCATION

LETTERS

(Continued from page 21)

would solve, to a certain extent, the present staff problem. Reasons for this project could be obtained by adequate display of advertising concern, through PICA, or by means of tuition grants by the school itself.

The consequences of this type of arrangement can be called from the examples of other schools, freshmen try out for positions on the staff, and in the coming competition, the best men are selected to be retained the following year. In this way, competition for the top positions is keen.

With the above in mind, the authors of this letter submit the recommendations to the Publications Board of PICA, the Illinois Tech Student Association, and to the entire student body.

Student lament: “I didn’t know what time it was...”

By John Jinnin

A very perplexing problem to many students at Illinois Tech is the variation in time of the clocks in the school buildings. Whoever installed the clocks in the school buildings was not very careful to set them correctly or else over a period of several months they have gotten out of synch. I made a survey to determine the time variation among the buildings. The results are as follows:

**AVIATION CADETS**

**GET ON TOP... STAY ON TOP!**

**IN THE U.S. AIR FORCE**

Can you qualify for this status toward the top?

Find out by taking the U.S. Air Force Aviation Cadet Selection Test here...

226 W. JACKSON
Now Until Dec. 1st

**U.S. AIR FORCE**

**COMPARISON WITH CORRECT TIME**

<table>
<thead>
<tr>
<th>Building</th>
<th>Deviation from Correct Time</th>
</tr>
</thead>
<tbody>
<tr>
<td>SAC and PB buildings</td>
<td>Three minutes fast.</td>
</tr>
<tr>
<td>Main Memorial hall</td>
<td>Two minutes fast.</td>
</tr>
<tr>
<td>Student Union and Gym</td>
<td>Correct time.</td>
</tr>
<tr>
<td>Cahn hall</td>
<td>One minute slow.</td>
</tr>
<tr>
<td>Main building</td>
<td>Two minutes slow.</td>
</tr>
</tbody>
</table>

**ECONOMICS BUILDING**

Three minutes slow.

The general effect of this is to make things pretty tough for the students. I imagine that the Science student, to whom I am referring, must be very twisted. The U.S. Navy also has a system which is very similar.

**Be Happy - Lucky**

Enjoy your cigarettes! Enjoy top grade tobacco that combines both perfect mildness and rich taste in one great cigarette—Lucky Strike!

**Perfect mildness?** Yes. Scientific tests, confirmed by three independent consulting laboratories, prove that Lucky Strike is milder than any other brand. Rich flavor? Yes, the full rich flavor of truly fine tobacco.

Only fine tobacco gives you both real mildness and rich taste. And Lucky Strike means fine tobacco. So enjoy the happy blending that combines perfect mildness with a rich, true tobacco taste. Be Happy—Go Lucky!

L.S./M.F.T.-Lucky Strike
Means Fine Tobacco

By John C. Davis
University of Virginia

Drill, you receive three demerits. For each minute past these three minutes that you are late, you receive one additional demerit. If a student receives 15 demerits in one year, he may be dropped from the ROTC. There are many such internal rules for which demerits may be given.

I have English in the IE building at 11 a.m. and social science in AF at 11. As the home clocks are five minutes behind the Memorial hall clocks, I have only five minutes to get to naval science. By rushing fast I have just enough time to get there. However, if I am late half an hour is being English. I must run to get to naval science on time, or if I am late over three minutes late, I can do nothing about it. Even if the clock system has a few advantages also, I have been immediately preceding English, which gives me about fifteen minutes to get to class. Thus I can bid all I want to believe these two periods.

This situation can be rectified in about one hour by one man and would solve the problems of several hundred students. The clocks in the Home Economics building must be set by hand. All the clocks in the Chemistry, Metallurgical-Chemistry and Memorial Memorial hall buildings are controlled by an electro-magnetic relay from one master clock, and could be preset from that clock. The bells in Cahn hall and the Main building could be adjusted. The above course of action should be suggested to the Illinois Tech Student Association.

**ELECTIONS**

(Continued from page 4)

Sign up to vote. Make sure to vote. If you are a registered voter with an ID card, you will not need a "polling place." If you are a student, you will need to bring your ID card. If you are not registered, you will need to bring your ID card and your registration form.

The election will be held on November 12th and the candidates will be elected to the board of trustees. The election will take place at the Illinois Tech office of the Illinois Tech Student Association.

**Class officers: All class**
ELECTIONS
(Continued from page 11)
eligible to sign this petition. A list of candidates for each office will be posted in the ITSA lobby as soon as the petitions are processed.

Counseling will be regulated under the following rules. Persons
or groups of members are allowed in the new buildings to those who have complied
with the admission rules. No social or hazing activities are allowed in the buildings. All members of the student body must be present in the building.

Requests for office must be made to the office of the ITSA president or to the student government vice president, and then to the dean of the college or to the student government vice president, and then to the dean of the college.

Petitions for office will be available by 5 p.m. December 4. The elections will be held on December 20 at 5 p.m.

The election will be held here on December 19. Those candidates who are elected at this time will take office at the last ITSA meeting of the semester.

As stated by the student government constitution and by the ITSA, the following are the duties of the officers of the office to be competed for: ITSA, student government vice president, and student government president. For more information about the elections, contact the ITSA office.

Class officers: All class officers are elected for a term of one year, starting with the enth new year of school.

Class president: The president is the official head of the class and is responsible for the school. He is responsible for the school's activities and is responsible for the school's activities.

Class vice president: The vice president is the official head of the class and is responsible for the school. He is responsible for the school's activities and is responsible for the school's activities.

Class treasurer: The treasurer is the person responsible for all class funds and makes it necessary to keep the minutes of meetings and hold the necessary funds.

Class secretary: The secretary is responsible for the minutes of meetings and handles all correspondence relating to class activities and functions.

Class social chair: The social chair is responsible for all social functions. He is responsible for all social events and functions.

Class officer: All class officers are elected for a term of one year, starting with the enth new year of school.

Registrar to begin 7th term check-off

By Ray Rees

John Makieinski, registrar, announced this week that his office is now working on letters to send to all seventh term seniors, listing the courses which they will be taking next year. The letters are being sent out alphabetically and will be mailed out by the end of the semester. This will be an improvement over the past, and it is expected that the second largest in Tech history.

Since the present seventh term students have spent most of their time here under the old curricula, the check-off will be made against their. Any complications brought on by the change of curriculum or any question, whatever which is brought to light by this check-off letter is to be brought out by your faculty advisor or major department. The registration form is to be presented to your major department.

Mr. Makieinski stated that any students whose credits are marked as "questioned" and who are obviously very short of credits for this status will not receive letters. He also said that the process is entirely autonomous and does not require any action on the student's part. If you do not receive your letter as soon as you think you should, do not bother the registrar's office about it—just watch your credits and make sure that you are on track.

This new operation of the registrar's office has been added as a courtesy to help during the curricular change. It is hoped that in the future academic advising can be improved to the point where this will be unnecessary.

Cards herald approach of Christmas

For those students who find that social life and the grind of homework prevent them from making that yearly trip downtown to purchase Christmas cards, Alpha Phi Omega offers the solution. On your way to the cafeteria for that last cup of coffee, place your order with the APO representative selling cards in the SU lobby. There are eight selections for which orders are taken, with the price only a dollar a half. Cards are on sale Monday through Friday from 9 to 5, and will be delivered the first week in December.

THE DU PONT DOC

At Du Pont they figure importantly in many fields

BECAUSE Du Pont is a chemical manufacturer, it is necessary to know something about its technical men to be chemists. Actually, there are more engineers than chemists in the Du Pont, England, and most of the ten manufacturing departments there is important work for men and women in both the chemical and electrical, metallurgical and other branches of engineering.

There are more than the men and women in the ten manufacturing departments working in the company's technical fields. They do fundamental and applied research on both the chemical and engineering fields, but they also do fundamental and applied research on both the chemical and engineering fields. They are responsible for the company's products. They are responsible for the company's products.

To add to the manufacturing groups, the Du Pont Engineering Department—a central staff organization—supervises various types of training. This Department carries on its own program of fundamental make site investigations, lays out and designs new plants and laboratories for the manufacturing departments. It serves them in research on process development, on materials of construction and on methods of measurement and control.

Yes, engineers figure importantly at Du Pont. Through their teamwork with chemists, physicists and other trained personnel, the Du Pont Company produces its "Better Things for Better Living...through Chemistry."
Pigskin final week

This will be the last week of season that has seen many national and local players.

The Chicago Tribune
Pigskin Prophets enters final week of contest

By Lou Khasek

This will be the last week of Pigskin Prophets. Thus another season comes to an end; a season that has seen many great teams stumble from their pinnacles while others have come into national prominence.

Three contests turned in nearly perfect cards last week by picking nine winners out of ten.

Leading the parade was Larry Sharpness, now a subscriber to El-Quire Magazine, who guessed the scores of the Pittsburgh-Notre Dame game and the Texas A&M-SMU game to within a total of six points as well as picking nine of the other contests. Vernon E. Bake, EE 37, took second place by picking nine games right and missing the other two by eight points. Third spot went to Jack Hartley, CH 7, who also missed nine games correctly. Laddie Wilde, CE 7, placed fourth and Bernard Premus, EE 5, took fifth.

In the Southwest, Texas is just about a shoe-in, although SMU still has a chance to tie the Lonestars for the title. SMU will face a surprising Baylor team that has been improving every week. But even with this, the Mustangs, led by Kyle Rose and Fred Benneck, should come out on top by two touchdowns.

Powerful Pennsylvania meets Cornell in the East in which should be a tough and tumble game, but the Quakers have just too much and will win by an easy three TDs. Another Ivy League clash finds Princeton battling Dartmouth, with the Tigers being able to win this one by about as much as they please.

With a Rose Bowl bid as the prize, the Big Ten enters the last week of conference competition. Illinois will face Northwestern at Evanston, with its tremendous running attack, should emerge victorious in a hard fought contest.

The only thing at stake in the contest in Lafayette, Indiana, will be the Old Oaken Bucket and the state championship of Indiana, as Indiana and Purdue tangle.

GAME OF THE DAY

PICK THE WINNERS

KEY RULES

1. Must check the winner of each game before any pick is made.
2. Must check the winner of each game before any pick is made.
3. Must check the winner of each game before any pick is made.
4. Must check the winner of each game before any pick is made.
5. Must check the winner of each game before any pick is made.

HUNDREDS OF THOUSANDS OF SMOKERS, who tried this test, report in signed statements that PHILIP MORRIS is DEFINITELY LESS IRRITATING, DEFINITELY Milder!

1. Light up a PHILIP MORRIS
2. Light up your present brand

Do exactly the same thing—DON'T inhale. Notice that bite, that sting? Quite a difference from PHILIP MORRIS!

PHILIP MORRIS is, indeed, America's FINEST Cigarette!
Plans revealed for Settlement House

By Jerry Kahl
With the increased participation of IIT in the interests of the surrounding community, the A.S. McKinley settlement house, on the southwest corner of 39th and Wabash, has witnessed a migration of students and faculty members to its doors. The recognition of the need of the area seems to be felt by the administration of the settlement house as well. Several members of IIT’s students and faculty have contributed time and effort to the settlement house.

The building was originally used as a recreational center for the students. It has since been converted to a community center.

Last year several organizations were added to IIT, including the settlement house. These groups worked together to make the settlement house a more desirable place for the students.

In addition to IIT, the settlement house is now open to the general public. This is a step in the right direction, as it provides an opportunity for the students to interact with the community and vice versa.

Room Service: a big success;
One-act next

Over 300 playgoers saw "Room Service" during its three day run in the Student Union last week. Campus Players reported today that the play was well received by the audience. The play is an adaptation of a one-act play by Oscar Wilde.

News in Brief

"In order to promote greater interest and spirit in school athletics, a pep committee has been formed," said chairman Robert Rietman. The committee is composed of members including the coach, the assistant coach, and the cheerleaders. The committee will meet weekly to discuss plans for upcoming games.

Last week the committee performed its first duty by choosing the cheerleaders. The newly appointed members are: Donal O’Brien, John Mazzotta, Mark Levy, and Fred Wright.

A.S.C.C. passes an important resolution

At the last meeting of the A.S.C.C. the resolution was passed by a vote of 20 to 1, that the university administration should be held responsible for the disciplinary actions taken against the students.

In order to take care of the large number of people who have been interested in the activities offered by the settlement house, the administration is planning to expand the building and add more facilities.
