Free refreshments for all Sunday Wingate edges out Luftglass

Spirited election turn-out gives Valovic senior prey

Keith "Gus" Wingate, FPE 6, won the presidency of the Illinois Tech Student Association by a narrow margin of only 21 votes at the election Wednesday and Thursday. A total of 482 votes were cast for Wingate, while his opponent, Murray Luftglass, CM 6, received 461 votes. For the vice presidency, Dean Johnson, FPE 4, aced fellow Richard Ward, MEE 8, 491-423. Donald D. Wilson, FPE 6, was unopposed for treasurer of ITSA, and Alice Orshansky, EE 5, swept by Leroy Kohn, MEE 6, to take the secretary's post.

Kern Kern, BEE 6, won over James Rodgers, CE 6, by a narrow margin of 182 votes, 682-590, to become the new academic president.

In the senior class election, Steve Valovic won over Jim Sleis and Carl Moss by a combined margin of 15 votes in the runoff, 203-188. Valovic's opponents were the most highly contested in the election. The runoff, which featured the appearance of a third party, increased an already hot campaign. Over 38% of the class turned out to vote.

Wes Soderquist, a dark horse in the junior class election, surprised everyone by winning.

Name Colvert as successor to Makielski

William W. Colvert, assistant professor of chemistry, was appointed registrar of the school, and will assume the duties of the office at the start of June. Colvert received his master's degree from the University of Illinois and his Ph.D. from Northwestern University. He is now in his fourth year of teaching.

Eddie James is featured at Farewell

This year's Farewell will be held at the Old Towne Country Club on June 7.

The entire first floor has been reserved for the Farewell dance, which will begin at 8:30 p.m. The entire second floor will be reserved for the Farewell banquet, which will begin at 9:30 p.m.

The Farewell dance will be sponsored by the Illinois Tech dance league. Music will be provided by Eddie James and the Farewell committee.

Inflation hits $10; tuition now $80

Tuition will be raised to $800 in the engineering school and to $1,000 for liberal arts next semester, it was announced this week by Henry T. Heald, president of Illinois Tech.

The increase was authorized by the board of trustees. Following is the text of the official announcement by President Heald:

"The general inflationary trend in our economic and the current rate-cutting of costs of every necessary service in the operation of the Institute have been of increasing concern to the Trustees. Income from student tuition pays only a portion of the cost of operation. Each year it is necessary to obtain additional funds from individuals who have faith in the soundness of the Institute's program and from corporations whose officers believe in our kind of educational and research program.

"Despite the splendid support given us by these persons and industries, current and expected revenue is not sufficient to maintain the strength of the facilities and the quality of its program. Therefore, the Trustees have reluctantly decided to increase the fee.

"Effective September, 1954, tuition for all full-time students will be increased $25 per semester. The total tuition will continue to include all charges to students in all institutions of the Illinois Tech system.

"As a privately-endowed, non-profit institution, Illinois Tech must continue to look to the public-including individuals, alumni, industry, and friends-for financial support to enable us to provide outstanding educational opportunities for worthy, deserving, and outstanding young men and women at high intellectual capacity.

New deadline to apply for draft tests

The deadline for submitting applications for the forthcoming college validity tests has been extended 10 days. Applications must be postmarked no later than midnight, May 25. The previous deadline had been May 15.

Applications may be obtained by college men at their nearest draft board. The board closest to Illinois Tech is located at 6th and Halsted streets.

The Selective Service Agency in Washington announced that "the tests have been closed" for the first test, May 24, but remaining applicants will be accepted until June 30. Those whose records become available from the draft boards on or before June 10 may take the test on May 12.

Summer term due to begin on June 25

The 1954 Summer Session will be held from June 25 to August 17. Any student interested in attending Illinois Tech during this period is required to register on the dates provided. Day school registration is scheduled for June 25 8 a.m.-5 p.m. Those who desire to attend a night division will register on June 26, 5-10 p.m. Students will be allowed to take a maximum of ten credit hours. All new students must clear themselves through the admissions of the college registrar.

The day school registration bulletin, giving exact time and registration procedure, will be available next week. The evening school bulletin is now ready at the registrar's office.

Yearbook out Monday, features new make-up

The P54I will be published in 800 pages starting Monday, Associate Editor Fred Wright revealed today.

Reserved copies may be picked up from 12:30 to 1:30 p.m., and from 3:30 to 5:00 p.m., Tuesday and Wednesday. All other students are asked to bring their full ITSA cards to pick up the book until further notice. Students are asked to bring their full ITSA cards to pick up the book until further notice.

A limited number of reserved copies are available for the students who did not buy their books at full registration for $5. The cost to all non-student buyers is $4.50.

The yearbook this year is high in quality, with several changes from previous years in both general form and content. The contents include plans and the cover of the campus feature not only the new but also the old campus.
Senior Farewell climax
of memorable years

Carefree,ubi-report-free June graduates and their not so formative brothers the August gradr, will congregate at the Tan O'Shantier Country Club June 7 for an evening of dining, dancing and singing. They will have reached the climax of their college careers—their “Senior Farewell.”

Never before have more elaborate plans been made for any one affair. To get the evening underway, Tech’s future juniors will be introduced to the “good life” at a seven course dinner served by candlelight. Every one’s capacity will be taxed to the limit. Extra portions of everything—including the Southern fried chicken—will be served family style.

Following this seemingly repast, the more active who wish to indulge in dancing will be stepping to the rhythms of one of Chicagooland’s favorites, Eddie James. Even those who have thoroughly gorged themselves will be tempted by the stairs that have proved so popular at O’Hanley’s and the Marion Dining Room of the Edgewater.

Awe of the drinkability of the James brand of music, the committee in charge arranged ample space for the expected 300 couples. The Grand Ballroom, the second floor ballroom, and the orchestra pit will be at the disposal of Tech steppers.

Planned to be a truly memorable send-off, the Farewell will be a formal. This decision was reached after the committee carefully weighed all opinions and attitudes. For the convenience of non-majors, owners arrangements have been made for a rest stop for guests on campus complete with summer formal, fitted to the individual, can be rented for $6.50, a price that compares more favorably with other rental services. To add further convenience, the tax will be delivered to the campus and may be transmitted here following the Farewell. Further information will soon be available in the SI ticket booth.

The friendships that you have formed here at Tech are important to you whether you appreciate it or not. The more you and we, the students, want you have “sweat out” them with your dry studies, study quizes, and, with students, help each other for suggestions. You have known them in a business where, who meet them socially?

It seems to us that any graduating senior would welcome this opportunity to close his college career with a bang. Even if you do convince a little deep, the effort will be worth every penny you spend. We guarantee you will remember it long as you remember Illinois Tech.

Slipstick

“Did you get home all right after the party last night?”

“Sure, where do you think?”

Jane: “Why is it that you have so many boy friends?”

Alice: “I give up.”

Once upon a time a beautiful girl was walking through the woods when she came upon a poor little frog who was following her. So she said to her it was a shame hip I was in a fish and turned me into a frog.”

“I don’t know why,” the said the beautiful girl, “is there anything I can do help you?”

“Indeed,” replied the frog, “if you will take me home with you and let me sit under your arm, right down to your knees.”

So the beautiful girl took him home in the poor little frog with her, and the next day, but the highest statue in the world was a handsome young prince! The frog had the heart to tell his mother how he made her believe her story.

Then there’s the bachelor who got thrown out of his apartment when the landlord found him sitting on the floor.

COOL OFF, BROTHER

EVEN HOLD HANDS LIKE THESE?

They're not soft and warm. These hands. They're hard and cold—and mechanical. They work at the Oak Ridge atomic energy plant, preparing radioactive isotopes for shipment to Bell Telephone Laboratories and to other research centers.

These isotopes—which serve as tracers—are used by Bell scientists to study the materials that go into the telephone system. Our research men, working with Geiger counters, are able to detect vast in rely contacts, impurities in metals, the penetration of preservatives in wood.

This new research tool helps us to learn more in less time, helps us to make telephone equipment even more rugged and dependable. That's especially important right now when the Nation relies on the telephone to help get things done.
Baseball team drops game; IN victorious at Sox park

by Bonnie Sage

Cooling off from their batting spree of the past two weeks and exhibiting the effects of tension due to the last two hard-earned, the Illinois Tech baseball team lost its first game in a big time ball park Sunday, as they came on the end of a 3-2 deficit against Illinois Normal at Comiskey park.

A crowd of between 150 and 200 fans watched a marvelous pitching exhibition by the Normal hurler, a fellow with the unpronounceable name Bokelke, holding the Tech batters to but five hits, received 10 base on balls. Compliments were showered by the Illinois Normal team members who collected the sum total of seven times all Tech captains Bob Leiser.

In the later innings Leiser was hit hard and the blame for the loss must be distributed equally. The present total of blame is in the hands of the Normal squad, who are simply a superior team.

The visitors scored the winning run in the fourth inning after their shortstop, with two on base, launched a fine drive over the left field fence for a home run. The next two batters were out on a ground ball to the pitcher and a fly left, respectively. Then the Normal right fielder, Plevnik, elected to force in a run, but he was not trying to stretch his single into a two-base hit.

In the fifth Normal added two more runs, enough to win the contest, on a combination of a single, a double, and another single. Two more runs were added in each of the ninth and tenth innings, but they proved superfluous.

The Tech boys were successful in stringing four base hits, due to the fact that catcher Charles Cline was recovering from an operation on his shoulder. The game became unmanageable in the fifth when a lead-off single by Virdon sent over two runners and in the sixth and Bob Leman was able to make up only three hits. The Tech were unable to scratch pay off until the seventh inning when they scored.

The results of Tuesday's game:

N.I. 18
Tech 1

by Ken Winters

Speedsters sweep dashes and Condordia 102-33

One week from tomorrow the track team will have its last meet of the season, a triangular affair with the N.U. and Concordia. This meet will mark the finale for some brilliant performers from Tech. Top among them is the reliable team captain and ace distance man, Al Ashbury.

His running partner, Hal Danek, has only one more semester remaining, so he won’t be here next year. But he also has his track career. Heath has excellent form and a good sub for the team. He can work his way into the starting line-up in the 600, 880, and 1500.

Leiser also finishes his track athletic career as does the versatile Frank Gruber, another hard-hitter, a high jumper. Leiser has started six meets better than 1-2 at 600, four times at 1500 and twice at 2+ track.

From the field events go John Cottle, Dan Stryker, and Donny Hermanson who throw the shot put, discus and javelin.

These men have scored 104 points of Tech’s total of 529 in four dual meets this year. Their loss will be sorely felt. The weight and distance running units are especially strong and should have good replacements coming up to the dash and hurdles.

Last Saturday the Illini squad ran over Concordia in a dual meet, 102-33. Tech had little trouble with the River Forest boys while taking every first place lost two. Coach Barbor was especially pleased with the performance of the team, the men who will return for next year.

Friedmann Horsey Stimson, Matt Johnson and his cousin, substitute for甘肃省 and Dave Gough in the sprints. James Gravola and Ray Johnson distinguished themselves with the javelin. But no one is better than Thurmond, a member of the varsity team who set a new school record in the 440.

Another important objective of mine was the athletic scholarship. Like other campaigns, the funds have been gone in the past week. The team was using an out of season basis to catch up.

Nest comes the faculty council, the lords and masters of all they survey. Their welfare depends on the welfare of the school, that’s a synonym for a group of students. The council has had the problem put before them—only to be tabled for more than a semester.

Quesiton: Do the students exist for the faculty or does the faculty exist for the students?

What about the ITSA Board of Control? This board controls more than $20,000 per year, but has not yet actively supported athletic activities.

The one man who should be interested in the program is the man, who ad to him the idea, seriously interested to let the matter ride on the backs of others. This man has the most facts, the most good arguments and the best reasons for the success of the program. Why, Sonny?

Well, that’s one of the big gripe department. Next on the list is Bob Leiser. Thanks to all the Tech members who went out of their way to work for your paper, your school, and the game. Good luck, Sonny. Also, to those who forget about such minor details as deadlines.

I hereby will and hereby, to the next sports editor, pray, my problems, my headaches, and one half of a satisfying feeling.

IM softball league slowed by weather

by Bob Shevsky

IM baseball, as usual, was hampered by the weather during the past week. Unfortunately, the fact that eight softball games had to be cancelled last Thursday can not be entirely blamed on the weather. Not all the games are scheduled for the local hot, with action to be divided between both players.

To date last week’s wet spell, only four games were officially played. One of these was ahandleSubmit with the boats unable to hold a boat. This gave the Maysiders a chance to catch up. By holding their opening game, the Open Boaters got an upper hand by edging the White Kids 5-4. It was the closest game.

In other games the Little Champs, drank their heart’s content to take a second crown by out playing the D.I. 15-2. The fourth place team gained last week found the Thunderclaring the grid in the R.P. 18-13.

Rainout action during the week also somewhat limited participation, partially due to the fact that a small amount of snow was received in this phase of school. Meanwhile the championship is scheduled for Tuesday in the gym.

Golfers host Chicago area championship

from news services and submitted

The Chicago area championship will get under way 18 at 18 at the Iron Age Country Club, 6000 W. 70th Ave., just west of State Rd.

The course will close Tuesday at the conclusion of the tourney. The record for the course, and consequently, also for the first 18 holes of the 9-hole course, is 80 by W. 70th Ave.

Wayne, along with the Pier, made a recent swing to Silver Lake Saturday. The Illini, who had previously gone to the Lakefront last Saturday, didn’t quite repeat their best effort. Wayne shipped them 9-8, while Thomas, the Illini’s more able player this season, shot the 60-13. Along with the Pier, the Shells have had low medal scores with a 54 and 55.

In addition, on the day before, the Pier and the Shells both shot the River Lake course. Fighting for only the victory in the A division and high scores, the Shells came through with a 17-2 victory.
Fraternity Flow

Two dark horses in the IF and Sigma Alpha Mu, opposed nearly square yesterday. Although the final score by the Sammies 5-4 as DLX won final second place photo game from the Deltalians. 3rd.

Obviously affected by the absence of junior Bruce Tremain plus Sherif Roberts, the Deltas could not overcome the spirited Sammies squad. The remaining favorite, undisturbed Theta Xi, was then upset K-6 by the red but DLX which has won last five games after dropping their first two Bob Donis, one of the team's utmost catchers, and James Long's real back the victim's attack. IF defeated itself by committing crucial errors on the bases and on the field while Bob Kays and John Leonard influenced the court. The Alpha Sig and Theta Xi will meet in the "Little World Series" Thursday afternoon.

The results of the season are as follows:

<table>
<thead>
<tr>
<th>Team</th>
<th>Record</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>Alpha Sigma</td>
<td>W 9 L 13 T 16 P 0</td>
<td>29</td>
</tr>

</table>

Don't forget! Wednesday is the day of the first Annual IF Smoker. At this gathering, which should receive 100% support from everyone, all the team's awards including the most valuable athlete will be presented. Your rulers would like to express their appreciation to Larry Drab, Sports Editor, the IF managers and all who have cooperated in making this column a regular feature.

Flash!

Sigma Alpha Mu won the inter-fraternity softball crown last night at the annual smoker. Victory over Delta Lambda Xi. Proud possessions of home runs were Norm Katz and Paul Deppe.

In Salt Lake City, Utah, there is always a friendly gathering of University of Idaho students in the Annexe Canteen. And, as in universes everywhere, one-colonial Coca-Cola helps make these get-togethers something to remember. As a paean from the study griddle, or for a Saturday night date—Coke belongs.

No Cigarette Hangover

MORE SMOKING PLEASURE!

CALL FOR PHILIP MORRIS

Remember...

Unlike others, we never ask you to test our brand alone. We say compare PHILIP MORRIS...match PHILIP MORRIS...judge PHILIP MORRIS against any other cigarette!

Then make your own choice!

Try this test!

1. Light up two cigarettes. Take a puff, cough, inhale and exhale. Let the smoke come through your nose.

2. Now do exactly the same thing with the other cigarette.

NOTICE THAT PHILIP MORRIS IS DEFINITELY LESS IRITATING, DEFINITELY SMOOTHER!

daily utah chronicle 1951}
MARKSMEN LOSE IN BIG SHOOT

The Illinois Tech rifle team finished its season last month with a trip to Madison, Wis., to participate in the National Rifle Association Intercollegiate Rifle Championships. The results, which were compiled on a national basis, have just been released.

The match was divided into two parts, the team match and the individual. Out of a field of 14 schools, 13 placed 1200 points in the team match, a total of 1,222 points. Winner of this division was MIT, scoring 1,437 points out of a possible 1,500 to set a new record.

Tech fared somewhat better in the individual match with team captain Lindsley Herman shooting 277 and 278 to place fifth. This put him in the upper third of the 347 marksmen participating.

S.S. VOLENDAM TO EUROPE

"Thrifty" Co-Ed Student Sailing

Join the student group this summer at Reimsanne on the S.S. VOLEN- DAM, one of Europe's most delightful cruises, and see the French coast for the student price of $250. "Thrifty" student rates alone save you $150 over the regular cruise rate of $400. Liberal accommodations, plenty of deck space, large public rooms, good and plentiful meals.
