Propose solution for all Union ills

A proposed Student Union commission will be voted on by the ITSA Board of Control at a special meeting Jan. 5. A new by-law to the ITSA constitution providing for a standing committee of nine students and three staff members was presented at the Board at the meeting Wednesday.

Purpose of the proposed commission is to: (1) Devise all rules and regulations of the Student Union; (2) Make sure that the Student Union is in all respects governed by the best interests of the students; (3) Provide for the best interests of the Union.

The commission will have three standing committees: the Program committee, the Administration committee, and the Student Union President.

Full cooperation necessary for obtaining Union

Vince Jackson

As an undergraduate student at Illinois Tech, I am writing to express my concerns regarding the recent developments on campus. The announcement of the proposed labor union will have a significant impact on the academic environment and the overall experience for students. It is important to understand the implications of this decision and to foster open communication between the administration and the student body.

In recent weeks, there has been much speculation about the potential for a labor union to be established on campus. The administration has stated that they are seeking member support to pursue this initiative. As students, we have a right to be informed about the potential changes and to express our opinions on this matter.

I believe that it is crucial for the administration to be transparent in their decision-making process. Clear communication is essential to ensure that students are adequately prepared for any changes that may result from the union's establishment. Furthermore, I urge the administration to consider the unique circumstances of our campus and to seek input from students before finalizing any decisions.

I am committed to ensuring that the needs and interests of students are represented in this process. I encourage all students to participate in discussions and to express their views to the administration. Let us work together to create a positive and inclusive academic environment for all.

Sincerely,

[Signature]

**Need money now? Enter suggestions**

Today is the last day to earn $5 in the first of the monthly safety suggestion programs. Each month two students submitting the best ideas on campus safety will receive cash awards of $5 each.

Suggestions received so far have included ideas for reducing the fire hazard in chemistry labs and for maintaining first-aid equipment in the Student Union at night. Other suggestions have been receiving many different hazards around campus. Any ideas on eliminating hazards or correcting unsafe practices are being sought to make the school safer for students and staff.

Suggestions should be written on a plain piece of paper and deposited in any one of the 18 safety boxes placed at convenient locations.

The following information is included: a description of the unsafe condition or practice; exact location of the hazard or because where unsafe practices exist; the department under whose jurisdiction the condition or practice prevails; name, address, and department of the student submitting the suggestion.

This program is under the direction of Raymond J. Spence.

**Threatens to burn Union**

To the Editor:

I am writing to bring to your attention the serious threat that the latest issue of the student newspaper has given to the safety of the campus. In the past, I have been impressed with the quality of the newspaper, but this issue contains content that could cause harm.

The article in question is written by [Student Name], who has written a piece critical of the administration. The student's writing is rife with inaccuracies and distortions, and it is clear that the student is out to incite violence.

I urge you to take immediate action to prevent any further incidents. The safety of our campus is of paramount importance, and I believe that the administration must ensure that such behavior is not tolerated.

Sincerely,

[Your Name]

**Cookie sales aid Home Ec**

Tech week was held recently on campus, and the students of the Home Ec club participated in the event. The club members prepared and sold cookies, which were well received by the students.

The proceeds from the cookie sales will be used to support the Home Ec club's activities and to purchase new equipment for the classroom.

**ATTENTION CHICAGO AREA STUDENTS**

The Inland Steel Company of East Chicago, Indiana, is interested in interviewing for employment students graduating in February or June, 1952, whose major field of training is accounting, chemistry, engineering, or metallurgy. Stop in at our personnel office, 3113 Block Avenue, during your Christmas vacation. We will be glad to explain our employment opportunities to you. Our office hours are from 8 a.m. to 5 p.m. Monday through Friday. Should you wish to make a definite appointment, our telephone number is Inland Harbor 2360, Extension 255.

Mid-year college graduates may apply for Navy commissions now

Commander T. L. Powell, officer-in-charge, Navy Recruiting Station and Office of Naval Officer Procurement, Chicago, Illinois, whose graduates of this school will graduate during the mid-year school year may apply for commissions in the Navy on or after December 1, 1950.

The application is open to all mid-year graduates of approved nautical schools and colleges who have undergraduate degrees from accredited colleges and universities. The application will be open until December 31, 1950.

The following is the procedure by which a mid-year college graduate may apply for a commission in the Navy:

1. The applicant must have completed at least half of the course requirements for the degree of bachelor of arts or bachelor of science.

2. The applicant must be a United States citizen.

3. The applicant must be at least 21 years of age.

4. The applicant must have a total score of 300 on the Armed Forces Qualification Test (AFQT).

5. The applicant must have a score of 60 or better on the General Science Test (GS).
All round guy—that's Joe Lokay

by Adam Gordon

"My pet peeve... oh yes, when working in the bookstore, I get annoyed with the students who do not know what book they want. Some of them even know which classes they are registered for." Joe Lokay, an eighth semester ChE, is a man of many interests. Being a junior, he is a member of Alpha Sigma Phi, Lambda Upsilon Lambda, and also a member of Theta Pi and Phi Lambda Upsilon. In his spare time he enjoys basketball and football. His favorite basketball team is the Ohio State Buckeyes, and his favorite football team is the Notre Dame Fighting Irish. Joe is also a member of the Honor Society.

Being vice-president of his senior class, he is always one of the first to arrive at the building, and to graduate in May. Being a member of the engineering department, Joe has had to take on many responsibilities. He is a member of the chemical engineering department.

Joe attributes his scholastic success to the ease with which he does his homework assignments. He can "stretch" them off in a couple of minutes. Come on, Joe, tell us what your secret is so that we can raise our grade-point average.

Bridge club holds tourney

The bridge club will sponsor a tournament on January 15 in Room 120. All members associated with IIT will also be invited. The tournament was devised to provide recreation and to stimulate enthusiasm in the bridge. There is no charge for attending the tournament.

The executive director of the tournament is George O'Brien. Prizes will be awarded to the winning pairs. Bob Johnson and Bob Makler will direct the playing.

CE's are offered big opportunities in West

Opportunities for professional positions with the California state government are offered civil engineering seniors at Illinois Institute of Technology. The California State Personnel Board announced.

A civil service examination will be held March 1 to fill a state-wide basis for Junior Civil Engineer, and anyone interested may give the examination on or near campus. Applications must be filed by February 28.

Because of the heavy demand for young civil engineers in this state and for civil engineers in other public works in California, persons interested in this examination may be expected by those who qualify, to get offers from the state of California.

Civil engineering students graduating in the Winter can apply for immediate employment without waiting for the examination. Such students should submit a letter in this effect to their applications.

The Junior Civil Engineer Class in California is expected to increase to 25 a month and there is an annual increment of 200 or more, the number of civil engineers in the state, however, is expected to decrease by the same rate of increase.

Freeing and cracking window-pane sue

Freeing and cracking window-pane sue to be heard for American fighter pilots in the coming months. The pilots' list has been lengthy, and will be used to make an argument to the highest court in the land. The pilots have been accused of engaging in a public disturbance, and the court is expected to rule on the matter.

The tendency of present-day window-pane sue to crack and be broken is being studied at IIT, it was announced by William E. Lauterbach, research engineer at the Foundation.

The principle of the design is the Wright Development office of the Wright Air Research and Development Center.

"The goal of the program is an electrically-heated, fireproof, granite window." Lauterbach said. Foundation scientists are working on the problem. The new window-pane sue to meet the heavy demands of war.

Grandma Rose admired his in- bire's switch to a cottage for many years. He was the only one of her children who was still living at home. However, she admired his switch to a cottage for many years, and had occasionally been known to visit him.

"But how do you stand the average summer?" he asked one of his nephews one day.

"I don't mind," he said. "I don't mind if it gets a bit hotter than usual. I don't mind if it gets a bit hotter than usual. I don't mind if it gets a bit hotter than usual. But I don't mind if it gets a bit hotter than usual.

Grandma Rose was not only proud of her son, but also of her grandchildren. She was very proud of them.

"The older was too stunned to object and observed numbly as the young man opened the door. The scuffing sound had been so soft, so very soft, that he had not noticed it until now. He turned and looked back at the boy. He was standing in front of him, his hand on his shoulder, and his voice, calm and firm, but somehow not quite present.

"Why don't you come in?" he asked softly. "You're not going anywhere, are you?"

"I don't know," the boy replied. "I was just passing through, and I thought I'd drop in."

"Good," the old man said, and he opened the door wider. "Come in. Make yourself at home."

"Thank you," the boy said, and he stepped inside. The old man closed the door behind him and locked it.

The boy sat down on the couch and looked around the room. It was a small room, with a table in the middle of it, and a large window on one side.

"What do you want to drink?" the old man asked.

"I don't know," the boy replied. "I was just passing through, and I thought I'd drop in."

"Good," the old man said, and he opened the door wider. "Come in. Make yourself at home."

"Thank you," the boy said, and he stepped inside. The old man closed the door behind him and locked it.
Cagers top Concordia 54-52 for fifth consecutive win

by Bob Schwoer

Carl Morko’s one-handed push shot and free throw proved to be the winning margin, as Tech’s 54-52 (the gym on Tuesday. The overtime victory ran the cagers’ unblemished record to five straight (excluding the alumni tilt).

Bob McCue’s two quick baskets got the Scarlet and Gray off on the right foot. However, the half finished with Tech possessing the widest margin they had all evening, namely, a six-point, 27-21 lead. By the half both of Tech’s tall men were in trouble because of fouls.

The teachers come out for the second half and immediately increased the margin to a single point. From this point on the contest was as close as possible with neither team able to pull away in a commanding lead. A three-pointer gave the visitors a point lead back-to-back to the final minutes, then a 20-foot jumper by Pete Peterson stole the ball and fed McCue who scored the tying field goal.

Both squads were hampered in the five-minute overtime period by the fact that their big men were not available. Joe Bayne and Howell Garrels of Tech and Mike Hanover of Concordia spent the extra stanza on the sidelines.

Petersen opened the scoring with a two-pointer. Neither side was able to hit the scoring column again until a three-pointer by Peterson put the bench 15 points ahead. The game was cited to the bench at the end of the game, with the score 54-52 for Tech with several seconds remaining, before Art Rothleder led the Cagers in a twenty-foot winner.

HOUSIE GАMMИСS 461 and Jim Buehner (45) of Tech and Dave Gesner (12) of Concordia show the crowd of 36 teams that their teams have played in the game.

MERRY CHRISTMAS from the sports staff

CRAIG STEINWART (21) and Mike Faro (33) of Concordia 41 start to score with the color in Tuesday’s victory. 17 points and yet before the first quarter ended.

Fraternity Row

by Ed Brand

In an unusually poor contest, the women’s basketball game between the Illinois Tech and Concordia was a lackluster affair.

Theta Xi, the defending conference champions, were21-31 down when the final horn sounded.

Kappa Xi, the new conference champions, were 35-34 in a 10-21 win over Delta Lambda Xi.

Philosophy, Delta Lambda Xi, Sigma Chi, Delta Kappa Epsilon and Phi Kappa Phi are listed here without further comment.

Tech Sports

Fifth Tech Tourney opening tontine on Amphi-theater court

By Bob Minnig

Preliminary and first round pairings in the Illinois Tech Prep Basketball Tournament were announced last Saturday by Athletic Director "Snozy" Weissman. Four preliminary games will be played with 16 teams from 36 euros down to the last four. This is the largest high school tournament in the country during the Christmas holidays.

The Tech Tourney begins at 3 p.m. Monday, Dec. 23, with the final at 7:30 p.m. on the same day. The games will be played in the gym, with the finals to be played on the gym floor.

Last year, Harvey Huseby from Evanston played the first game at the tourney. He played for Hyde Park at the time; now he is on the Northwestern coaching staff.

The tourney is sponsored by the Evanston Board of Education, the Evanston Park District and the Evanston Jaycees. The proceeds from the tourney will be used for the benefit of the Evanston Jaycees and the Evanston Park District.

The tourney is open to the public and is free admission. There is a $1000 prize for the winner, and the grand prize is $1000 for second place.

Grapplers take second in Navy Pier tourney

Navy Pier, last Saturday, was the scene of the third annual Invitational Tournament put on by the Grapplers, a group of athletes from Tech's wrestling team. The event was attended by a large number of spectators who were entertained by some of the best wrestlers from the Midwest. The tournament was divided into two main divisions, with the top eight wrestlers in each division advancing to the championship round.

The championship match was between Cesare Proietti of Illinois Normal and Bill Stabile of Tech. Proietti won the match by a point, earning the second place finish for Tech.

The winning team was Tech, with Cesare Proietti and John Jelenich finishing as the top two wrestlers. The team finished with a total of 660 points, well ahead of the second place team, Illinois Normal, who scored 600 points. The tournament was a great success, and the Grapplers are already looking forward to next year's event.

Intramural basketball sees six teams tied for first place

Basketball is the most popular sport on campus, with teams from Tech, Chicago State, and Glenbrook South all competing for the top spot. The season has been exciting, with several close games and a lot of drama on the court.

The championship game was played between Tech and Chicago State, with the score 60-58 in favor of Tech. The game was intense, with both teams playing hard and making key shots to keep the game close.

The final seconds of the game were particularly tense, with both teams attempting to score and secure their victory. In the end, Tech was able to secure the win, with the final score 60-58.

The season is still young, and there are many more games to be played. The teams are all working hard to improve and win, and the excitement of the season is only just beginning.

Splashes down Lawrence to capture opening meet

By Joe Verden

More team balance, greater depth and some juggling by coach Jim Moeven gave the IIT swimmers' team a victorious start on the new season as they beat Lawrence College 43-32 last Saturday.

Tech won both relays, but Lawrence's five

The meet got off to a good start when the 200 yard medley relay scored Tech's first five points. Bob Campbell got a nice lead in the backstroke leg which Garry Horderman held in the breaststroke, and Jim Watson added a little padding in the freestyle for safety.

A closer meet than the score indicates, the victory was decided by the final event where the "surprised every" 400 yard freestyle relay of Watson, Ted Spahn, Jim Rea, and Ted Eth was the only Lawrence quartet to bring home all four points and the meet win.

IIT's two individual wins were furnished by Dick Bartley, who had no trouble winning the diving event, and Ericksen, who capped the 100 yard freestyle.

Revised scores and times scored half of IIT's total and were picked up by Sacksen in the 200, Spahn in the 50 and the diving, Reis in the 100, Scott Bartley and Campbell in the backstroke, Ziehrman and Joe Rodgers in the breaststroke, and Bob Sullivan in the 400.

Outstanding performer of the meet was Lawrence's very fine swimmer, Tommy Warren, probably the best distance swimmer in the tough Midwest conference, which includes DeKalb, Carthage, and Grinnell. Warren personally accounted for 15 of his team's 25 points by winning three events.

Coach Moeven exhibited very good form in making it back to dry land after being doused by his team for his victorious debut as an IIT coach.

PROPHETS WINNERS!

Pick Up Your Chesterfields in the Tech News Office 403 P
