Anna G. D. Conners, chairman of the board of trustees, presented the medal of honor to President Heald. He addressed the students and presented them with certificates of honor. The guests were then invited to the reception. The reception was held in the Great Hall of the University. The guests were entertained by music and dancing. The evening concluded with a banquet at the University Club. The event was a great success and the attendees were all pleased with the arrangements. The students were all honored for their achievements and were encouraged to continue their efforts. The University is proud of its students and their accomplishments.
Proposed by-law for student union commission tabled.

The proposed by-law for a Student Union Commission has been tabled until Wednesday. The proposal, which was brought up at the last ISTA Board of Control meeting, two hours of discussion ensued. As originally brought up, the commission would incorporate the present ISTA Student Union committee; the ISTA Social committee, and the Student Union Procurement committee under one standing commission. (See Dec. 21 issue of Technology News.)

The by-law, which was tabled because the Board members could not agree on all of its points. The major objections were:

1. As originally suggested, the general chairman of the commission and the four committee chairs would be chosen by the commission itself. Most of the Board members prefer to have at least the general chairman appointed by the Board instead of by the commission. A few believe that the chairman should not be appointed at all, but shall be elected by the students as a whole.

2. The commission was set up with nine students and three staff members. Several Board members feel that the number of staff members should be reduced.

By-law, if passed, will be a drastic change from present methods. The commission will have complete control of everything it does, which is a clear-cut power which you sponsored for the neighborhood children, December 22.

You have helped to make this Christmas an extremely happy one for many, many children who are very little and need so much. Your efforts are truly indicative of the spirit of Christmas but also an expression of the neighborhood which is so much a part of the Illinois Tech family.

You have won the hearts of all of our children and on behalf of all of us we extend to you our sincerest appreciation.

C. Francis Bradford, president
Wm. W. H. Eby, executive director

Letters to the Editor
Thank students for sponsoring Yule parties

To the Editor:

The board of directors and the staff of the Ad S. McKinley community house wish to take this means of expressing our appreciation for the efforts of our current members, and to extend our thanks for the wonderful work which you sponsored for the neighborhood children, December 22.

You have helped to make this Christmas an extremely happy one for many, many children who are very little and need so much. Your efforts are truly indicative of the spirit of Christmas but also an expression of the neighborhood which is so much a part of the Illinois Tech family.

You have won the hearts of all of our children and on behalf of all of us we extend to you our sincerest appreciation.

C. Francis Bradford, president
Wm. W. H. Eby, executive director

New products mean new opportunities for chemical engineers

Ch. E's at Du Pont

As I see it

ACCOMPLISHED BY A BEAD OF SWEAT working hand, playing, and lacking of joy, the Student Union has transformed into a grand celebration. Now our friends from the student union have returned from their efforts. The "What's in it for us" approach of the Student Union for the present, the "what's in it for them" demonstration did indicate a growing dissatisfaction among students with present facilities.

In the lounge at the school's Tech at the Union, the shower showed some almost home-like pursuit; techs on the roof of the building adjacent to comfortable couches, pleasant drinking drapes and the like. This is what it means to all the furniture that was in the South Student Union lounge.

In answering to any query, we don't know who the next president will be. All we know is what we read in other papers. This of course is the role of our student government which is to be both John Retaliatis, chief of engineering or H. D. Allender, stop controller of the Armour Research Foundation. The Board of Trustees may name any one of them even if they have made their choice. The chemical engineers are now coming in for a greater dollar depreciation fee in glassware of some of the classes.

Club sponsors dance to raise scholarship money

The Polish club sponsors the annual dance to raise funds for scholarships. The dance will be held in the school's gymnasium, 210 S. 11th St. Ed Crone, president of the Polish club, announced that the dance will be to raise money for scholarships. All students are welcome to attend and bring friends. Free admission for all students, identification required. Tickets will be available at the door. The proceeds will be donated to the Polish community. More information will be available in the coming weeks.

Grad students have decided to present an open house to prospective students. The open house will be held on the third floor of the School of Business, 3:00-5:00 p.m., October 12. More information will be available in the coming weeks.
Scholarship funds established here

A new scholarship fund has been established by the Delta Epsilon chapter of the Delta Epsilon fraternity, Eta Chi, and the Delta Epsilon chapter of the Delta Epsilon fraternity, Eta Chi, at Illinois Institute of Technology. Two scholarships will be given each year to worthy and needy students enrolled in the department of civil engineering and instruction. Each scholarship will be for one year, the junior and senior years, and will be in the amount of $100 per year for each scholarship.

Each student selected is to be offered the privilege of employment at Cane's Pizza place, for a minimum of eight weeks during the summer after the sophomore and junior years, and during the junior and senior years, but such employment is not a condition of the scholarship and may be rejected by the student or withheld by the company without affecting the scholarship.

Club sponsors dance for scholarships

The Student club will hold an off-campus dance featuring Little Rock and the band, Feb. 18 at 8:30 p.m. in the Purple Parrot lounge, 1129 S. Damen.

Ed Gough, president, and Vince Baskwitz, social chairman announced that proceeds of the dance will go to a scholarship fund sponsored by the Student club.

Students will be admitted free upon presentation of new identification cards. Old cards will be accepted, in the case of third-year students. Those without identification cards will be required to pay $1 for admission.

Grad students have date set to preregister

Pre-registration for all graduate students for the second semester will be held through Jan. 18. All graduate students taking any courses should follow the pre-registration procedures outlined in the schedule of classes, the graduate school, 224 MC.

Students may not preregister who do not preregister in the period specified cannot register until the beginning of the late registration period on Feb. 18, and will be subject to the late registration fees.

All evening graduate students will be mailed a registration permit enabling them to register in advance on February 1, 6-8 p.m. Address changes since September should be mailed to the office of the graduate students. Students may also preregister at the office of the graduate students, but they must register in person.

Students must obtain permission to register until the scheduled registration on February 2, 6-8 p.m. However, if necessary, students may preregister at the office of the graduate students.

All evening graduate students will be mailed a pre-registration permit allowing them to register in advance on February 1, 6-8 p.m. Address changes since September should be mailed to the office of the graduate students. Students may also preregister at the office of the graduate students, but they must register in person.

The campus bulletin board notes that LS/M.F.T. was a major sponsor of the pre-registration permit. The bulletin board promotes the United States Army.
Neighborhood Bert active on campus

Active in fraternity life, active in campus politics—Lambert Neighbors, this week’s “campus wheel,” has been a busy man past three years.

He was named an active member of the student union committee. As the numerous activities mentioned above were not enough, Bert is also a member of two professional societies: the Western Society of Engineers and the AIIE.

While in the army, Bert served as a corporal as well. He has been an active member of the commuter union. He has been a member of the fraternity for the past two years and has just completed a term as secretary of the FPC.

Service to the student body has been one of Bert’s contributions to the FPC. Last semester he was secretary of the publications board, and this semester he is serving as chairman of that board.

The girls go for the guys who go for Arrow white shirts!

$3.95 up

Notice how many well-dressed, well-groomed men turn out in Arrow? Well, there’s a good reason for it. All Arrow shirts are superbly tailored of “Selections” fabric. All Arrow shirts are yours for smooth, tapered fit. And in Arrow shirts you’ll find the most famous collar styles ever created—famous on men and women in every campus in the country.

Arrow Par $1.93
Arrow Garden Par $2.93

CONFERENC IN THE CLOUDS

Among the undergraduates on any college campus, you’ll find the tall, reaching up to the clouds. And once in a while—in a classroom, around a study table, or even in a biology class—a really big idea is born.

Big ideas come, too, from the men and women in laboratories, business offices, shops. And often these professionals are exploring a path first glimpsed in college.

How do we know? Because of the many college people who have come into the Bell System, where big ideas and a lot of energy have taken their place in progress. The human voice, carried along a wire, first across a town, then a state, a nation, and now the world. Music and pictures and things happening delivered into cities and hamlets all across the land by the men of your Bell System. We’re looking for the men and women who get big ideas—whether they be about people, or machines, or ways of doing things. It’s the only way the Bell System can keep on giving this country the best telephone service in the world.

Campus Interviews on Cigarette Tests
No. 31...THE MOUNTAIN GOAT

"They can't kid me!"

He thought they were trying to make him the butt-end of a joke when he was asked to judge cigarette mildness with a mere puff of one brand and a quick snarl of another. The fancy foot-work didn't dazzle him. He knew that the pinnacle of pleasure comes from steady smoking...and that there is only one test that gives you enough time to permit conclusive proof. Smokers throughout America have made the same decision!

It's the sensible test...the 30-Day Camel Mildness Test, which simply asks you to try Camels on a day-after-day, pack-after-pack basis. No snap judgments!

Once you've tried Camels for 30 days in your "T-Zone" (T for Throat, T for Taste), you'll see why...

After all the Mildness Tests...

MEs, Archs maintain unblemished records

by Dick Bosley

The intramural basketball race is rapidly reaching its climax as another contest was held on Tuesday afternoon to determine the fate of the first four positions. The record for the season has been set by the MEs, who have had a perfect season. The Archs have a very close second finish, while the other two teams are tied for third place. The MEs and Archs have the best records in the league, and it is likely that they will both make it to the final four.

Fraternity Row

by Ed Brand

AFTER A DISCOURAGING STRUGGLE, the Dordosians, one of the top-seeded squads of the league, dropped the first contest of 12 to Delta Lambda Xi, 23-20.

Dave Sullivan played his usual sharpness on the ground, but the whole unit looked weak, probably due to the holiday and weekend break. The Dordosians were unable to turn around, as the resulting game was played from 12 to 14.

Phi Kappa Sigma, paced by Dick "Schulke" Schulke's top play, triumphed over Delta Lambda Xi, 30-27, with a victory from Sigma Alpha Aka, Phi Kappa Sigma. The Sigma Alpha Aka, Phi Kappa Sigma players scored 12 points in the final game.

Pick Up Your Chesterfields in the Tech News Office 403 P
Roosevelt takes Tech Tourney; tops Parker

by Bob Abrams

After seven hectic days of top-notch basketball the Rough Riders of Roosevelt high school snatched the crown in the fifth annual Illinois Tech Tourney. Parker and its high scoring center, Tom Jorgenson, were strong enough to stop the North Side Champs on the doorstep. The varsity boys from Wilson and Kinbelle took the first esset by the margin of 18-15.

It was indeed a tight battle that took the tournament out of their hands. But as the first man averaged better than 30 points per game, there was very little room for error in the tourney. Meanwhile, 21 points better than 30 points and a grand total of 15 points between them. Bill Bertman and Mike Lippert were each held to 20 points, while Milt Gollman was held to 18 points, and a grand total of 25 points by Jorgenson, which was high for the season.

The top four scorers were the following: Bert Bertman, 21; Mike Lippert, 20; Milt Gollman, 18; and Tom Jorgenson, 18.

Without the help of the boys from Wilson and Kinbelle, the Tourney may have been inconclusive. But the boys from Roosevelt would have made it almost impossible to win. It was the only game that was won by the boys from Roosevelt.

Jorgenson was selected as the most valuable player in the tourney by a staff of prep sports writers. All averaged a total of 18 points on the tourney, and were: Bert Bertman, 21; Mike Lippert, 20; Milt Gollman, 18; and Tom Jorgenson, 18.

In the final game of the tourney the top four scorers were: Bert Bertman, 21; Mike Lippert, 20; Milt Gollman, 18; and Tom Jorgenson, 18.

The final game was won by the boys from Wilson and Kinbelle, 15-14.

SUMMARY

600 Yard Mosel Relay-Won by Jorgenson, Bertman, Wilson, Ewell, time, 2:12.4.

200 Yard Free Style-Won by Bertman (2:12.4), Bertman, Head, Smith, time, 1:46.2.

200 Yard Medley Relay-Won by Jorgenson (2:12.4), Bertman, Head, Smith, time, 1:46.2.

400 Yard Free Style Relay-Won by Bertman (2:12.4), Bertman, Head, Smith, time, 1:46.2.

Hughes Cooperative Plan for Master of Science Degrees

In cooperation with the University of California, the Hughes Research and Development Laboratories is offering the following master degree courses to non-paid employees.

Participating Universities

The University of California at Los Angeles and the University of Southern California will participate in this program, and candidates for Master of Science Degrees must meet certain requirements.

Program

Under this Cooperative Plan, starting June 5, 1952, the following schedule of employment at Hughes is arranged:

Full time—June 5, 1952 to Sept. 30, 1952

Half time—June 5, 1952 to March 15, 1952

Half time—March 15, 1952 to June 5, 1952

Half time—June 5, 1952 to Sept. 30, 1952

Under this arrangement it is possible for a part-time student to earn a full year's salary and to attend a university half time during regular sessions working on his Master's Degree.

Salaries

Salaries will be commensurate with the individual's ability and experience and will reflect the average in the electronics industry. Starting salary will be on the same basis as full-time members of the engineering staff. In addition, the individuals will be eligible for health, accident, and life insurance benefits, as well as other benefits accruing to full-time members.

Travel and Moving Expenses

Fees and expenses for the period of enrollment at the Southern California area, tuition and moving expenses will be allowed up to 10% of the full annual salary.

Tuition

Tuition at either UCLA or USC, covering the required number of academic credits necessary to obtain a Master's Degree, will be paid by Hughes Research and Development Laboratories.

Number of Awards

Approximately one hundred Cooperative Awards shall be made each year, if sufficient qualified candidates present themselves.

Selection of Candidates

Candidates will be selected by a committee of representatives composed of two each from the Universities of California at Los Angeles, the University of Southern California, and the Hughes Research and Development Laboratories.

Dates for Applying

Informal applications should be mailed prior to January 30, 1952. The laboratories will then forward formal applications, which should be returned, with acceptance or rejection, by February 15, 1952. Selections will be made during the month of March.
