Tentative budget set by board of control

A tentative budget for the present semester was established by the ITSA board of control at a meeting Wednesday.

Appropriations are not yet final and are subject to reconsideration to permit deletion of some items on the budget and the addition of others, according to Don W. Carlson, treasurer of ITSA.

Total money appropriates now stands at $1,229.20, the largest part going to the publications. Of the amounts originally appropriated, several cuts were made Wednesday, the Technology News budget being cut by $100.

The board of education also adopted the budget.

Prance will spotlight
Miss Halloween of 1951

Fun and refreshments are in store for those who attended the Pamphlet Press, sponsored by the class of 1956. Prance a.k.a. the crowd about what floor in the building is clear of visitors, will be served as a string of costume or providing the material. The audience will attract a large crowd and the attendants will be older and denser.

Student tickets will be trans- ferred from the various hospitals in the area for tickets Miss Halloween of '51, the committee has been chosen from each of the hospitals, in addition to one from each of the women's organizations on campus and the men's college.
ITSA officers state need for appropriation slashes

Many of you probably want an explanation of student finances after reading the article on the ITSA budget on page 1. However, a unique situation arose this year which makes the majority of our surplus non-liquid. The fact that advertising bills were reduced by $1,207 by last year's Intramural and Student Directory caused the liquid surplus to become accounts receivable.

Eventually, the income from these accounts will be realized; however, it is the ITSA board of control's policy not to appropriate these funds.

To make the necessary cuts all organizations submitting budget requests were thoroughly investigated by the finance committee. The extent of the organization and/or its intended program's interest and benefit to the student body was the basis for an appropriation. In cutting certain organizations from financial support by ITSA, several policies were followed:

1. Chapters of nationally organized professional societies shall not receive financial support from ITSA.
2. All intramural program participants in inter-collegiate competition shall receive financial support from ITSA.
3. It is the opinion of the board that all music clubs should be organized and supported by the music department.

In an effort to stabilize the financial structure of the student government and its activities definite steps have been taken to make the more efficient and simplified accounting system has been placed into use and through periodic audits of the bookkeeping will be able to control our revenue. Furthermore, a system of written contracts has been established to insure collection of outside accounts.

Keith Wingate, president
ITSA

Don Carson, treasurer
ITSA

Slipstick

Shelley: Hey! Who do you think you are? Santa Claus?
Hitler: No, why of nationally organized professional societies shall not receive financial support from ITSA.

Best joke in a long time: Only twelve weeks until exams. Start to study now.

A couple gal is one that has to count on her hands, a smart one is one that counts on her legs.

Overheard in a phone booth: "Number, 110!" "I want my air conditioner replaced!"

That brings to mind my girl friend, black jacket: she's wearing it in memory of those who passed beyond.

But before we leave I have a question for women who wear shoes: Does your end just justify your heels?

"Well," said the janitor watching the building burning, "I guess I lost my head!"

"Say, mitre, can you smoke in the office?"

Surely, don't you know that coffee is only five cents.

I say, "Yeah, but I'm growing a woman!"

Bette: "I nearly fainted when the fellow got on the elevator. I noticed for me a kiss.
Jean: "I knew you'd never go to die when you hear what I have to say!"

Father: Why do you have dates with that girl?
Son: Dear: Because I want to.
Father: (suspiciously): Want to what?

"But, Dean, since ITSA cut our budget, we must make money some way!"

June grads can check off

Seventh termers know how to find out if they have sufficient credits and the necessary courses so that they can graduate in June. The registrar's office announced this week that these seniors who have any questions about their graduation can arrange for an interview.

Since a majority of the departmental advisors have filled their classes quickly, it is expected that their office is not fully staffed for the fall semester. Students who plan to complete their course requirements with these advisors should be sure to schedule appointments in advance.

Only second offenders are tried by the disciplinary committee. Students who have been found guilty of course failures and disciplinary probation must be dismissed from school.

The disciplinary committee will be responsible for the final responsibility of a disciplinary case, there is also a compromise to be reached. There are in fact, there are responsibilities; and this should be shared by both the students and faculty. The amount of responsibility as shared by each group is determined, but the fact that it exists should be recognized.

The chairman of the committee, Dean Deskins, has stated that "I will not oppose the placing of students in the disciplinary committee." All appointments to the committee, however, are made by President Deskins. He holds the opinion that the final responsibility rests with the faculty and that students have no place on the disciplinary committee. As long as this opinion remains there will probably be no change in the setup of the disciplinary committee.

Warning: Ponies should be ridden, not written

Beware, pony men, you're riding for a fall! The seldom-publicized faculty disciplinary committee will try to whip up. This little-known group consists all affairs that are labeled "anything detrimental to the school."

A review of last year's actions will clarify their position. The committee found six students guilty of cheating and one guilty of falsification of admission records. Penalties for these offenses ranged from course failure and disciplinary probation to dismissal from school.

Only second offenders are tried by the disciplinary committee. Students who have been found guilty of course failures and disciplinary probation must be dismissed from school.

The disciplinary committee will be responsible for the final responsibility of a disciplinary case, there is also a compromise to be reached. Players promise bigger program

"Campus Players is doubling its efforts this year in order to expand its membership as well as its activities," said a member of the group at an interview Monday. "We have prepared a series of events for the fall season to make our presence felt on campus."

The group plans to perform three plays this fall, in addition to their regular activities. These include a musical, a comedy, and a dramatic production. The musical will be "The Fantasticks," which will be performed in late October. The comedy will be "Noises Off," which will be performed in early November. The dramatic production will be "A Raisin in the Sun," which will be performed in late November.

In addition to these productions, the group will also hold auditions for new members in September. The auditions will be open to all students, regardless of their experience.

"We are looking for new members to join our group," said the member. "We need people who are interested in acting, directing, or behind-the-scenes work."

The group will also hold workshops and classes to help members develop their skills. These will be held on weekends and in the evenings. Members will also be able to attend performances at other universities and theaters in the area.

The group's main goal is to provide entertainment for the campus community and to provide opportunities for students to gain experience in the performing arts.

Examination given for student aid positions

The US Civil Service Commission has announced an examination for student aid positions at the University of Illinois. The examination is open to all students who are enrolled in full-time study at the University and who meet the minimum qualifications.

The examination will consist of a written test, which will be given on the University campus. The test will cover general knowledge and reasoning, as well as knowledge of the duties of a student aid position.

The examination is free of charge and will be held on the University campus. All students who wish to take the examination should register in advance by contacting the University's Career Center.

The US Civil Service Commission will provide all necessary accommodations for students who require them. The examination is open to all students, regardless of race, gender, or ethnicity.

The examination will be held on November 10, 2021, at the University's main campus. The exam will begin at 9:00 AM and end at 1:00 PM. Students must arrive at the examination site at least 30 minutes before the start time.

Students who pass the examination will be placed on a merit list, in order of their scores. The University will then select the top candidates to fill the available positions.

Students who are selected for the student aid positions will receive a salary of $15,000 per year, plus benefits. The positions are full-time, and students will be required to work 35 hours per week.

Students who are interested in applying for the student aid positions should contact the University's Career Center for more information. The Career Center can be reached by phone at (217) 333-2222, or by email at career@illinois.edu.
Row to greet Halloween in the usual way

One down, eleven to go. That's the score so far on fraternity parades welcoming Halloween 1981.

The Sammies and the jump on everyone with a party Oct. 31 at their house. Lawn decorations on the front of the Delta Tau Delta lodge and music through a loud speaker will be featured tomorrow, which is also the date for all the other parties.

Alumni Sigma Phi and Theta XI are both planning house parties. Triangle will have a how-down, with costumes and games put on a skit at their house. The ARFs will be in another world with house decorations and costumes based on interplanetary designs. Music will be with the Phi Eta Sigma house from a three-piece band playing music to suit the guests.

A hurried and hungry roast will take the Phi Eta Sigma away from fraternity row. The TEPs, DILK, and Rectangle will pool their efforts in throwing parties at their residences.

The Big Epe have announced that their party will be sponsored by a surprise idea to celebrate Fall.

Busy social season begun by sororities

All the sororities on campus are now preparing for the coming Halloween season.

Tonight, a Halloween party complete with apple-tapping and draft costumes will be given by Sigma Kappa at the home of June Scull. The guest of honor will be the recent alumnus.

Tomorrow night Sigma Kappa Delta will have a "Sister Slumber" party. It will be a whole roast at Caldwell Woods, and the prizes are in charge of games and gratitude.

The Delta Zeta will also have a Halloween party November 2 at the home of Ruth Crone. The Gamma Mu chapter of IOT, alumni, and the Northwestern chapter celebrated the sorority's forty-seventh anniversary at a banquet held at the Ballroom club Monday. Beta Chi chapter of Sigma Kappa will celebrate Founders day with a dinner November 5 to be held in the Home Economics house. November 9 will mark the end of the seventy-seventh year of the sorority's existence. The program starting the festivities will be the highlight of the evening.

The alumnae of Sigma Phi Delta will hold their forty-seventh annual reunion November 17 at the North Shore Country club.

Revival of football at Tech a brief, but spirited display

"Forty Men Turn Out for Football." This was the headline, appearing in Technorama News on October 22, 1946, that heralded one of the shortest but most intriguing chapters in the annals of Illinois Tech sports history.

It all happened when a group of Illinois Tech students became interested in the propagation and perpetuation of the minor sport of football playing. Of course, it's not unusual for students, even Illinois Tech students, to become interested in this sport, but this group decided to be really radical and do something about it.

Then, as now, there were obstacles to overcome, namely, lack of equipment, scouting time, space, and spirit. This particular group of students put right to work on these problems and scheduled a football game.

They selected a captain and proceeded for equipment — they brought their own. After several scathing Games at Rogers "Stadium," the team became the unofficial football team of Illinois Tech.

A renegade game was scheduled with the unofficial team from the University of Chicago, which featured none of these former men, the University of Chicago ex-varsity footballers.

The big game was set for a Friday afternoon and a crowd of spectacles lined up to watch the contest. The opening kickoff of the 1940 Illinois Tech football season was "The Boys from Armitage," to our team, uneven, full of spirit of victory on that day by a score of 24 to 2 and played a valiant game on a muddy field.

Unhindered by this loss the team scheduled more games to complete their schedule. The last game played by this group never brought them closer to victory so they were beaten by a brilliant team with just 20 seconds to play.

This "Boy's" didn't col fest for any of the big bowls for a next season success, but they achieved their goal and demonstrated on this campus since that time they received official "unofficial recognition" from athletic director "Doc" John Belcher and the avid attention of Technorama News readers for several weeks in spite of a late start. Football at Illinois Tech — it will all be watching the season of the "Boys from Armitage."
CAMPUS WHEEL

Atkins presents ARF's domination of Tech scene

by Jim Spitzer

"One of the things I've found about public school is the Campus Wheel column in the Technology News," said Bill Atkins, who has been active in the column for several years. "It's a waste of Technology News space," he continued, "because the people who read it are not interested in the support of the people in the organizations with which they are connected. People do a lot of work and never recognize it for it." Bill has given quite a few people the chance to make him a "wheel," judging from the activities in which he has participated. He is the associate editor of the student, president of Alpha Phi Omega service fraternity, secretary of Delta Tau Delta fraternity, secretary of the Institute of Radio Engineers, and assistant secretary of Delta Lambda Sigma Xi society.

Although his executive positions in many organizations, Bill is also on several committees of the Neumarch club and the American Institute of Chemical Engineers. One of Bill's highest prizes comes from his record in the student administration. He was chosen as one of the five outstanding freshmen of the election campaign. As Bill puts it, "The administration seems to think that Illinois Tech is a division of Armory Sports because of the Foundation rather than the Administration." There is no woman in Atkins' life, howe..."  

News in Brief

The Lost Greeks will meet Monday night at 8 p.m. to discuss their orders for their "Nov. 9" party. At a recent meeting they elected new officers, chief, secretary, treasurer, and mixer foreman, and Jim Dovetail, historian.

The Lost Greeks are open to all transfer students who belong to national social fraternities, not represented at Tech.

Farr hall council is presenting its first dance of the semester tonight at 8 p.m. in the Farr hall lobby. The dance will be a square dance with blue jeans as the standard dress. Music will be furnished by the complete record collection of Dr. Russ. All who are invited, transportation will be provided if required.

The results of a poll of the subject of a talk given by guest speaker George Heuer at a meeting of the ASCS at 11 a.m. Tuesday in 151 MC.

The Role of the Leiter" will be the subject presented by Father William Quinlan, S.J., principal speaker at the Neumarch club meeting, 3 p.m., Wednesday in 151 MC.

Scores made on the freshman orientation tests can be obtained now at the freshman dean's office. Appointments to receive the test results must be made with the advisor. A list of the faculty advisors is available in the office of the freshman dean to students, 100 SU.

The head of the registrar's office has been occupied recently by a list of all students who are required to register for the spring semester of 1953. The list is in the form of their eighteenth birthday. Registration for the spring semester begins at 8:30 a.m. on Monday and with the registrars office.

10th annual National Conference on Industrial Hygiene will be held November 9 and 10, in the Sherman Hotel in Chicago. Sponsors of the non-profit, non-commercial meetings are the graduate school of Illinois Institute of Technology, and Armour Research Foundation. The two-day meeting is devoted to presentations of topics, technical papers, by authorities in the field, on the latest developments in the industrial hygiene field. Cost of registration is the conference secretary.

SAE conference held at Drake

"Future Energy Supply" will be the subject of a talk by Charles Ritter, director of the Drake hotel, in a conference on transportation, energy, and fuel sponsored by the Society of Automotive Engineers. A limited number of tickets at reduced prices are available.

The ticket will enable students not only to hear several of the men in the profession and to see a display, but also to participate in SAE's "social-weekend," where engineers from all over the country and our own Techmen will meet and mingle with each other.

Hold hydraulics meet

The seventh annual National Conference on Industrial Hygiene will be held November 9 and 10, in the Sherman Hotel in Chicago. Sponsors of the non-profit, non-commercial meetings are the graduate school of Illinois Institute of Technology, and Armour Research Foundation. The two-day meeting is devoted to presentations of topics, technical papers, by authorities in the field, on the latest developments in the industrial hygiene field. Cost of registration is the conference secretary.

Basketball team reads for opening game, December 1

by Tom Wallin

The varsity basketball squad has now completed two weeks of intensive practice. The nucleus of the team will consist of nine returning letter winners, with the remainder of the team predominantly freshmen and sophomores. After the final cut, twenty-two players will remain on the squad.

Two likely prospects from the new class are Don Thrane and Bob Plati. Thrane, a freshman from Monticello, displays a good left hand shot, Don comes to Tech from Joliet where he played on high school and junior college teams.

At the other end of the scale is 5'8" Bob Pfeil, the smallest player on the squad. Despite his size he is a good ball handler and a deadly shot. Bob played high school ball at Weber High in Chicago.

Bob Snyder, of football fame, is one for the first time and he's very good in the temprometer. He's driving hard and his consistency will be an outstanding one plus feature.

The team opens their schedule December 15 against the Purdue University of Chicago. Coach Ed Glenn hopes to have John DeBolt, first string forward last year, and Bill Christianson, who was Columnist high, for the second semester.

CAPTAIN DON McCUE and Coach Ed Glenn plan for Tech to approach basketball practice because high gear.

This part of the season Tech faces its toughest opponent, including Knox, Loyola, Western, Kelham, and DePaul. Opponents which come may be the best balanced he has had in his five years at Tech. The major difficulty in previous years has been the lack of bench depth. This season that is expected to be remedied with plenty of experience throughout the whole squad.

Practice sessions have been characterized with good size and the whole team are looking forward to a better record this year.

Rain halts IM football; tennis play continues

Old man weather is beginning to weigh havoc on the intramural schedule after a week by face a climatic condition.

Honors I to show sports movies again

On Thursday, November 1, in 196BC at 3 p.m., Honors I, the latter's history, will resume its series of sports movies, titled "An American Sportsman." The subject of the film will be the most famous of all sports, the autobiography of the famous Ghostbusters with all of their famous ball-hitting tricks.

The game, shown will be the 1941 Lions' All-America Team, against the Chicago and District College. The Ghostbusters will play against the Illinois Tech. For the film, the Lions will be featured again.

Student activities always come last in the minds of the powers that be. I wonder if this could be one of the reasons that many of the students of Illinois Tech prefer to spend so much of their time away from campus and away from all the different student activities.

I've been here three years now, and in that time I cannot remember one thing that has been done in the way of improving the facilities for student recreation. Isn't it about time for something to be done to give the students a place to enjoy themselves after spending many long hours, in class?

If the weather or the field doesn't improve soon, the intramural and interfraternity football tournaments will not be finished this season. Last year the annual Chicago News Slide Rule Bowl game could not be played because of adverse weather conditions. If any more games are postponed this year, the schedule will not be able to be completed and no true champions will be crowned.

Honors I Sports Movies
Courtois, Johnstone head upset ridden Prophets card

by Ed Kime

Upsets and more upsets kept last week's winning card down to a total of seven correct predictions. Pete Courtois, CE 7, and Bill Johnstone, EE7, were the top prognosticators of the day, both submitting the aforementioned entries. Courtois, however, managed to keep his point spread down to four, whereas his opponent was straying twenty-nine points from actuality. This means a bid to the Integral Ball for Pete Courtois, and two carrots for Chesterfields for Bill Johnstone.

Gerald Korstovey envisioned a whole host of entrants in the battle for the third prize, with six right and a total of five points off on the breakers. His handicap edge that of Al Brookman who went 1 point away. Both of these boys will receive a carton of Chesterfields.

Taking a look at the games for the week of Nov. 9th, it becomes more and more difficult to make early predictions. On the West Coast, California's Golden Bears will battle a ranked UCLA outfit. The Bears were knocked off of their unbeaten plateau last week, but should bounce back to overcome the Bruins. Down South, Duke will be in for a surprise as to the Engineers of Georgia Tech from the unbeaten ranks. Tech seems to get stronger each week, and should be able to contain the Blue Devils.

Miami of Florida pays a visit to Kentucky in an intrastate duel, and they should provide an interesting day for the Wildcats. The Hurricanes will need every bit of their outstanding pass defense to stop the aerial assault of Kentucky's 'Gator' Pennell, and the Wildcats look too strong if Pennell can pass through the Hurricane's outstanding defense. Kentucky will probably win in a close one.

Venus and SMU are a pair of upset victims last week, will fight it out this time to see who can make a stronger comeback. The Longhorns should overpower SMU, provided they can control Fred Resor's sensational Mustang passer.

Moving on to the Midwest, our Big Ten rivals are on deck. Michigan taunts with the Tightwad Hill in what appears to be a two-way game. The Wolverines have always surprised people in conference play this far, but Illinois has the offensive edge and should handle this one. Wisconsin hosts host to Illinois' frontrunners who probably could still play football by stuffing a snowman, 24-16. However, the Badgers should get back to normal this week and give the Wolverines a run for their money, they are fighting Indians.

Wisconsin, finally won a game last week, and they'd like to make it two in a row over Iowa. In their last five, Hawkeyes have a little too much power for the Gophers, and should roll to a first conference victory.

Vince Stake meets Purdue in another interscholastic battle, and judging from their performances against Michigan State, the Nittany Lions could surprise the Boilermakers.

In the West, Notre Dame takes on a disappointing Navy team. The Fighting Irish are always a threat for this game, but the Irish have too much power, and will stifle the Navy.

Southern California makes a cross country trip to meet Arizona in New York. The Trojans upset highly ranked California last week, and will probably reach a new side against the cats, but they should still have enough to emerge victorious.

In the Southwest, Northwestern's high flying Wildcats take on a somewhat surprising Kansas State in a game with Northwestern's proving stronger than expected, and should provide Ohio State with a very unpleasant afternoon.

Unbeaten Tennessee battles with North Carolina in a big game down South. The Tar Heels have been methodically built up, and will fall before the mighty attack of the Volunteers.

Well, there you have it. Pick the winners of the first ten games, and give the probable scores of the last two. That's all there is to it.
ITSA constitution guides student activities

Second and final installment

The constitution of the Illinois Institute of Technology Student Association was published once each year in Technology News, as provided by Article XVI of the constitution.

Article VII

ADDITIONAL FUNDS BY STUDENT ORGANIZATIONS

Any student organization may, by a vote of its membership, seek to receive additional funds for the support of its activities. The request must be in writing and be submitted to the Student Activities Committee of the Illinois Institute of Technology Student Association. The request shall be considered by the Student Activities Committee at its next meeting. The decision of the Student Activities Committee shall be final.

Article VIII

ELECTION COMMISSION

There shall be a standing committee of five members elected by the Student Activities Committee of the Illinois Institute of Technology Student Association. The committee shall consist of five members, all of whom shall be enrolled in Good Standing at the Illinois Institute of Technology Student Association. The committee shall meet at least once each semester to hear and consider applications for funds. The decision of the committee shall be final.

Article IX

AVISOR COMMITTEE ON STUDENT ACTIVITIES

The Avisor Committee on Student Activities shall consist of the President of the Illinois Institute of Technology Student Association, the President of the Illinois Institute of Technology Alumni Association, and three voting members of the Student Activities Committee, one of whom shall be elected by the Student Activities Committee.

Article X

ITSA PUBLICATION BOARD

The Illinois Institute of Technology Student Association shall be responsible for the publication of Technology News, the official newspaper of the Illinois Institute of Technology Student Association. The publication board shall consist of three members, all of whom shall be enrolled in Good Standing at the Illinois Institute of Technology Student Association. The board shall meet at least once each semester to hear and consider applications for funds. The decision of the board shall be final.

Article XI

SOCIAL CHAIRMAN'S COMMITTEE

The Social Chairman's Committee shall consist of the President of the Illinois Institute of Technology Student Association, the President of the Illinois Institute of Technology Alumni Association, and two voting members of the Student Activities Committee, one of whom shall be elected by the Student Activities Committee.

Article XII

STUDENT BARGAIN COMMITTEE

The Student Bargain Committee shall consist of the President of the Illinois Institute of Technology Student Association, the President of the Illinois Institute of Technology Alumni Association, and two voting members of the Student Activities Committee, one of whom shall be elected by the Student Activities Committee.

Article XIII

PUBLIC RELATIONS COMMITTEE

The Public Relations Committee shall consist of the President of the Illinois Institute of Technology Student Association, the President of the Illinois Institute of Technology Alumni Association, and two voting members of the Student Activities Committee, one of whom shall be elected by the Student Activities Committee.
