Announce election times and places

Elections will be held for student government offices now open. The elections will take place at 8:00 a.m. on Monday, and on other Mondays. The polling will be open from 9:00 a.m. to 5:00 p.m. for all three days.

A political rally at which the candidates will be able to express their opinions will be held at noon Monday at the west side of the Chemistry building.

All ITSA candidates and all other candidates for student government offices will be present at the rally.

The election commission-sponsored rally will be held in the Student Union on the second floor of the Student Union Building.

The purpose of the rally is to inform students of the candidates and their positions on various issues.

As a result of previous student government elections, student government offices will be held by the student government offices.

All the offices of the Student Union and of the Student Government Association are open.

The Student Union and the Student Government Association are open from 8:00 a.m. to 5:00 p.m. for all three days.

Here are the winners of Junior Week events

The Junior Week events included a dance, a basketball game, a swimming meet, and a track meet.

The winners of the different events were:

- Dance: Michael Thompson
- Basketball: John Smith
- Swimming: Sarah Johnson
- Track: David Wilson

The winners were announced during the Junior Week banquet on Friday evening. The banquet was held in the Student Union Ballroom.

Letters to the Editor

SF club dislikes JW-OH action on outdoor signs

To the Editor:

We of the Science-Fiction Club have protest to the outrageous action of the JW-OH commission. For as long as we’ve been here at IT, the posting of outdoor signs during the academic year has been allowed. This year, the policy was changed. Still, the commission failed to inform us of any change in the Outdoor House rules. Not once was the club notified of any meetings. At no time did the committee make contact with us.

The club spent much of its small treasury on signs. We were considering the effort to make and post 25 signs. This brought down upon us a heat wave of the wrath of the committee. They came storming into our exhibit hall demanding that we remove our signs. They made no effort to enforce their regulations upon the other groups of vandals, some of whose signs can still be seen on campus.

The Science-Fiction club alone was told point-blank to remove all signs. The authorities within our department for our club, outside world were also informed of the new rules. The administration at all times was fair, just, and entirely reasonable.

One member of the Science-Fiction club believes that the rules are made for everyone. The small, and the small student organization is made to remove its signs, when the organization should be ordered. The JW-OH committee practiced policies in violation of the Outdoor House rules.

Clifford Cobb
Science-Fiction club

Claims we have ‘captive thieves’

To the Editor:

The “plunderings” of some on campus has exceeded limits. During the last week, a student, who is also a member of the Chemistry building over night, were not aware that they were involved in the demonstration which were set up to prevent the next day’s occurrence. The following morning were discovered that the demonstration had been staged by a group of individuals. Since it was not possible to lock the auditorium, the students were unable to secure the demonstration.

The building was in a very tense and improper condition. The students have been asked to stop all demonstrations on the campus.

Richard Stanbury

Blood drive runs short

The American Red Cross released the facts of the May 1 and 2 blood drive on our campus. Illinois Tech was congratulated for employing 283 points of blood by the American Red Cross. As opposed to the combined 227 points of blood in the AFRC, only half of our goal was met.

As a result of this, the American Red Cross has extended its appeal for blood. Those who pledge blood, the American Red Cross personnel tapped the list with the 140, as opposed to the combined 227 points of blood.

The cold war in Korea still costs American blood and American lives. From the number of people who share the price of freedom, that is the same old story of the whole lot on a few shoulders. Everyone is thinking more about spring fever than the war in which we are engaged.

It’s not to be true congratulations for a donation of 250 points of blood from our campus. A reminder that this figure is 20% of what we should give is not as pleasant.

Faculty in Abbott house?

When the late Mr. Abbott will reside in Michigan Avenue to the Institute it is not likely that he envisioned such small-headed administration of his gift. One man, Mr. R. J. Spreck, has evidently intended to turn the house into a professional staff are.

This is being distributed among the staff. Maybe a change of heart is in order in the future. We suggest that he listen to opinions other than his own. A questionnaire that fits all suitable uses of the Abbott house would be more helpful.

Not to be overlooked is the voice of the seeds and sororities on campus. They have a few words to say for their housing. A new dorm might be arranged.

Though the facilities and space in the Abbott house it could be put to good use. This is a much better alternative than allowing it to remain dark, while an attempt is being made to persuade the staff to support, a new only club.

One of the bitterest election contests of recent years is drawing to an end. There has been no name-calling, and the feeling created during the campaign has been more than substantial for this type of election July 16, 1952

Architects, ID cop 1st prizes for OH exhibits

The 1952 Junior Week-Open House festivals were climaxed Saturday with the presentation of student activity and departmental exhibit trophies.

Again this year, there were two major divisions in departmental exhibit judging: division A consisted of those departments which used lab facilities and emphasized their exhibit presentation; division B included departments which did not use lab facilities.

In division A, Carroll B. Clute, ID 6, as student chairman of Open House at the Institute of Design, led his department into first place. The moving and colorful exhibit emphasized principles and workings in design in all media—painting, sculpture, relief sculpture, graphics, lighting, photography, product design and interior design.

The home economics exhibit presenting home planning and decoration themes, nutrition and dietetics effects on experimental animals, original pattern design in clothing class and experimental clothing placed second in the division. Ethel Krause, HD 4, was student chairman.

QBOTT with Leo Marx, EN 3.9, as acting chairman, received an honorable mention for their presentation of simulated anti-submarine attack and aircraft gunnery, and a model of the Ores of Midlothian.

In division B, Architecture, ID and the TD department placed first, second and honorable mention respectively in departmental exhibits. The architecture department headed by Joseph Zajdlsdok, Arch 8, displayed applied design, planning, exhibits of architectural construction, planning and section in architecture and detailed drawings on city planning.

The depiction of problems on full scale production such as site evaluation, material handling, materials, plant layout, production control, and quality control won a second place for the architecture department, Charles Starkwur was the chairman.

An honorable mention in division B went to the TD department where Dean Jensen and Dick Enos of co-chairman presented an exhibition of leading models, drafting machine in action, and Rheingold beer and deep prints and student drawings of lettering pieces.

The following criteria were used in judging exhibits: site, design, detail, construction, production, appearance of exhibit, 25 per cent; effectiveness of exhibit, 25 per cent; and effectiveness of exhibit, 25 per cent.

In addition to the departmental exhibits shown during Open House, IPS, IOT, AAR, and AFY provided added attractions to the visiting public and students alike with their modern and up-to-date facilities and developments.

LSA to hold picnic Tues. at 55th street

The Lutheran Students' Association is having a picnic on May 18th at 55th street and the lake on Tuesday. The price, open to all, will also include a period for Bible study in Galatians. This group from ID will leave from the front of CR at 3:45 p.m. and will join others from St. Laura's hospital at the point. All entertainment will be provided free, however, an offering will be taken in collect envelopes. Transportation to the point will be provided free as many as possible and any more will be appreciated.

Be Happy

My girl friend says that my big blue eyes
She likes the way I laugh.
But when I light A Lucky Strike,
She alway wants me to ask for a light!:

Go Lucky!

LUCKIES TASTE BETTER THAN ANY OTHER CIGARETTE!
Fine tobacco—and only fine tobacco—can give you a better-tasting cigarette. And L.S./M.F.T.—Lucky Strike means fine tobacco. So, for the best-tasting cigarette you ever smoked, Be Happy—Go Lucky! How about starting with a carton—today?

L.S./M.F.T. Lucky Strike
Means Fine Tobacco

Applicants Between 18-35

Write NOW for Information to:

JEWISH SUMMER INSTITUTE
114 University Center
Federation of America
195 West 45th Street, New York 36, N.Y.
Directory has staff openings

Applications are now being accepted for positions in the Technology Center directory. At the present time, there are openings for both editors, research editors, copy editor, technical editor, and advertising manager. The latter position is one of considerable importance and requires an individual who prefers work with people, but who will be able to operate efficiently under supervision. Letters of application should include the student's name, major, and any pertinent information. Letters of application should be submitted by May 1.

The McDonnell Aircraft Corporation

offers long-term employment in the design, development, and production of aircrafts, missiles, and guided missiles. This variety of projects allows M.A.C. to satisfy the desires of all engineers in their respective fields. In addition, the company offers a challenging and rewarding work environment.

The Religious Council Holds Panel on Brotherhood

The Religious Council will present a panel of speakers on the topic of "Mechanics of Brotherhood." The program will start at 12:30 PM in the auditorium and will last until 1.

The Religious Council is composed of representatives from each of the religious organizations on campus. The president is John McInnis and the secretary is Martin Underwood. The mission of the council is to coordinate the work of the various religious groups on campus and to sponsor at least one non-denominational meeting each semester.

Get an 'A' the NODoz Way!

Here is valuable intermediate training that no one can't have it. As an Aviation Cadet, you get three weeks of training and three weeks of the Air Force. At the same time, you are serving your country. You can choose assignments that involve flying or flying aircraft from all over the world. The Air Force needs men for pilot, co-pilot, and crew. We take on the world's biggest challenge. You will get to fly in the cockpit of a modern Air Force plane.

WHO MAY APPLY

1. No more than 35% of students in grades 10-12.
2. Grades 11, 12, and 13.
5. Grades 11, 12, and 13.

HOW TO QUALIFY

1. Take the Armed Forces Qualification Test.
2. Pass the Armed Forces Qualification Test.
3. Pass the Armed Forces Qualification Test.
4. Pass the Armed Forces Qualification Test.
5. Pass the Armed Forces Qualification Test.
6. Pass the Armed Forces Qualification Test.
7. Pass the Armed Forces Qualification Test.
Dowling, Soderquist, Curless head Senior party slate

Jerome M. Dowling: Dowling chose his position as class vice-president for the Senior class. He feels that his experience is essential for this position. He plans to work with the Student Council and the PTA to improve the school's facilities and to make the school more pleasant for the students.

Raymond Soderquist: Soderquist is the class treasurer. He plans to handle the class finances in a responsible manner and to make sure that all class funds are used for the benefit of the students.

Bob Zelkes: Zelkes is the class secretary. He plans to keep accurate records of the class activities and to make sure that all information is communicated to the students in a timely manner.

Addison Howart: Howart is the class parliamentarian. He plans to ensure that all class meetings are conducted in accordance with the rules of order and to uphold the interests of the class.

Candidates seek ITSA presidency

Candidates for the presidency of the ITSA are seeking the support of the student body. They believe that their experience and leadership skills make them the best candidates for the position.

ITSA veep candidates present their platforms

Donald Houra: Houra is a candidate for the position of ITSA vice-president. He believes that his experience and leadership skills make him the best candidate for the position. He plans to work with the ITSA executive board to improve the school's facilities and to make the school more pleasant for the students.

Medford seeks Junior class offices

Matt Merfeld: Merfeld is a candidate for the position of class president. He believes that his experience and leadership skills make him the best candidate for the position. He plans to work with the Junior class to improve the school's facilities and to make the school more pleasant for the students.

William A. Meccia: Meccia is a candidate for the position of class vice-president. He believes that his experience and leadership skills make him the best candidate for the position. He plans to work with the Junior class to improve the school's facilities and to make the school more pleasant for the students.

CURLIS

Saying farewell to an era: Jerome M. Dowling, Raymond Soderquist, and Robert Zelkes are among the seniors who are leaving their positions as class officers. They express their gratitude to the student body for their support and wish the new officers the best in their future endeavors.
Treasurer's job important: three vie for this ITSA post

Jakerszowsky

I am running for the office of treasurer of ITSA, this year. My main goal is to keep the organization solvent and to make sure that the student body is aware of the financial status of ITSA.

Ed Schippman

The treasurer of ITSA has a very important job in his responsibility to see that the money is used in the most advantageous way. This job will be greatly increased next semester because there will be the same number of students on campus as there will be this year. The reason for this increased budget is due to the increase of the number of students at Tech. This means that more care will have to be taken in the allocation of money from various sources on campus.

Richard Brooker

As the Independent candidate for Senior member-at-large for ITSA, I believe that the functions of ITSA should be increased. The reason for this is that there are more students on campus now than there has ever been before.

Bob Schwantes

I will set up the same financial committee program that is currently in operation on campus. I will also be on hand to help the treasurer of any organization with any difficulties he has.

Betsy Zograpos

One of the most important functions of the secretary is to make sure that the officers are aware of the financial status of ITSA.

Honey Fonseca

I am running for the office of secretary of ITSA on the ticket headed by Ray Rice. I have my support from the junior and senior classes as seen in the above statements.

David Sullivan

I believe that the student body has a right to know the financial status of ITSA.
SPECIAL ELECTION SECTION

When a man’s busy, why, leisure strikes him as a wonderful pleasure.

Robert Browning, The Ring

No matter what your work, a leisurely moment’s pause to enjoy a delicious Coca-Cola is always a pleasure...always refreshing, too.

design under authority of the COCA-COLA COMPAN Y THE COCA-COLA COMPANY (2) 1952, THE COCA-COLA COMPANY

Sophomore candidates promise representation

Leslie Walter:

With the third term students need a responsible president and student chairman. Tom Pivon and I really believe we’re the only candidates capable for these positions. We intend to prove that class officers can be leaders.

On the TSTSA Board I will participate in the meetings instead of merely being a delegate, a man on a log. As chairmen of the Publicity committee of the Student Union Commission, and with Tom on my committee, I will work to improve student participation in activities through better and more publicity.

We are changing off a lot, and these are projects which we have been involved in this year and will continue to work on in the future. By working with the Student Activities Board, we will bring more needs to Tech.

This year needed more costs, and by costs we mean girls, women, friends, and what have you.

Jaco Reames:

With the second year, your sophomore year at Illinois Tech and you take time off to see what you can actually do for you, don't see much.

I can try to bring to the academic mind in Illinois Tech.

My mind's not...1. To promote your student representation in Tech Social Relations between the students and the executive boards. 2. To see that the students are nominated and carried through the TSTSA executive board.

Co-operation being the keynote of success, I promise to cooperate with all campus officers and students for the good of the campus as a whole.

If elected, I shall strive to give creditability to the interest of our church and academically.

Michael Mattern:

The Unionists are campaigning for sophomores. If elected, we will plan to work unceasingly to promote interest and membership in the New Student Union. We also plan to have a weekly newspaper in conjunction with the Student Union. We will make this newspaper more student-oriented.

We are the future of the Union, and we are the eyes of the Union.

James E. Kuehn, vice-president; Jim Fannin, treasurer; Richard Kuehn, secretary; Chris Arora, social chairman.

Don Glessop:

The candidates are presenting five active, hard-working candidates for sophomore office. We will represent you as you want to be represented. In TSTSA, we will vote for those candidates who want to represent you.

As TSTSA representative, I will use my office to the fullest. I will hold the greatest interest for you. First, I will hold the greatest interest for you. I will hold the greatest interest for you. I will do everything in my power to represent you. I will hold the greatest interest for you.

For students who have been interested in opportunities, I will be here to answer your questions. I will be here to answer your questions. I will be here to answer your questions.

Don Glessop, president; Bill Dugan, vice-president; Bill Zolezzi, treasurer; Art Pasquariello, secretary; Jim Malaska, social chairman.

Training in many different engineering branches opens the door to opportunity at Du Pont

In recent issues of the Digest, we have discussed opportunities for mechanical and chemical engineers at Du Pont. However, this is only part of the picture. The special tasks of more than a dozen different branches of engineering are needed in our scientific teams. For example:

Architectural and structural engineers are attached to the central Engineering Department which handles the Copyright of the Company's construction projects. In this work they make site investigations, lay out new plans, design buildings, determine construction methods and specify materials and equipment. They also assemble necessary labor forces at field locations and supervise the building and assembly of complex manufacturing facilities.

Electrical engineers aid in designing power generating and distribution systems for power generation and distribution, air conditioning and refrigeration, instrumentations and another important phase of their work. Continuous automatic analyzers for radioactivity, best known for their ability to analyze industrial processes, including smelting and scale.

With this no means complete the list. Every U. S. industry utilizes Du Pont products. Hence there is also a need for specialists in mining, packaging, textiles, and many other branches of engineering.

Along with chemists, physicists and other technical personnel, almost every kind of engineer finds opportunity at Du Pont. Your engineering degree is not a door opener. A man may hold a degree in engineering, but to get a job in industry, he will need more education, imagination and the ability to handle people. And the possibility of job advancement in this company that has never stopped growing.

For the 1960-1961 school year, the Digest will cover the following topics:

- The Du Pont Company in Japan
- The Du Pont Company in Asia
- The Du Pont Company in Europe
- The Du Pont Company in South America
- The Du Pont Company in Africa

With these topics covered, the Digest will provide a comprehensive view of Du Pont's international presence and the diverse engineering opportunities available.

Savitsky's party unopposed in fresh election

I believe in fresh elections, no matter what the surrounding circumstances. Those that look for the interests of the students in the election, those that look for the interests of the faculty in the election, those that look for the interests of the administration in the election.

At the present, I have a great interest in the election. It is not that I want to win or lose. It is that I want to be in the election. I want to be in the election. I want to be in the election.

At the present, I have a great interest in the election. It is not that I want to win or lose. It is that I want to be in the election. I want to be in the election. I want to be in the election.

At the present, I have a great interest in the election. It is not that I want to win or lose. It is that I want to be in the election. I want to be in the election. I want to be in the election.

At the present, I have a great interest in the election. It is not that I want to win or lose. It is that I want to be in the election. I want to be in the election. I want to be in the election.

At the present, I have a great interest in the election. It is not that I want to win or lose. It is that I want to be in the election. I want to be in the election. I want to be in the election.
Fraternity men catch confidence man here

An episode involving two colleges, three IIT fraternities, and a confidence man reached a climax May 1 with the arrest of William Berken, alias William Barckman.

Berken had been operating a fraternity at Knox College in Galesburg, Ill. He would obtain admittance to fraternity houses under the pretext of being a city freshman. After entering the houses he would pronounce various "bad luck rituals" for which he would collect money. Of course the repairs were never made.

When the Knox college fraternity realized they had been duped, they reported it to college authorities, who, in turn, notified Dean Turner at the University of Illinois, secretary of the National Association of Student Personnel Administrators. Dean Turner then sent out microphotographed warnings to all member colleges in this area, including IIT.

On April 29, a man who identified himself as William Berken, gained entrance to the Delta Tau Delta house, on the pretext that he was going to fix the floor. Following the usual pattern, Barckman recommended certain repairs, collected $85 for replacements and part, and left with a promise to return the following day to start the work. When he failed to return, officers of the fraternity notified Dean Cummingshead, who immediately reported the incident.

On May 4, the Delta Tau Delta house at the Alpha Sigma Phi house. This time, however, he was arrested before he could do any damage because of warnings issued.

Carrot 'cake' chem entry in contest

At the recent Cake Baking contest during Junior Week the following recipe accompanied a cake.

By Dennis Cunningham, The Alpha Sigma Phi house.

Recipe:

Mix:

- 300 ml. coarsened oil
- 138 molecules sugar
- 450 gms. ground root of the Dracaena plant
- 4 demulsified unfiltered chickens
- 429 gms. flour, long-chain phos
poly-saccharide (Diosyn)
- 48 gms. of a proper mixture of sodium hydrogen carbonate, long-chain glycosyl-phosphate, and sodium salt tartrate (baking powder)

Bake at 311.8 degrees Fahrenheit

A British sailor dancing with a young lady in a very low-gown at the Eastern dinner, blurted out, "No, we don't know, Miss, what the V for Victory?"

That's right," she said vaguely, "but the band plays out for Britain.

Satisfactory grade given to AFROTC

Colonel. Green, in a talk to AFROTC students, revealed that the Air Force Inspection team has rated IIT's unit satisfactory. Actually there were only two possible ratings, satisfactory or unsatisfactory.

The annual inspection was conducted May 5 by Colonel Kenneth D. Stevens of the University of Minnesota, Lt. Colonel J. B. Smith, and Captains W. R. Kelly of the College of St. Paul, Minnesota. Although a satisfactory rating was given, the inspection team reported that the classrooms used by the AFROTC were not up to Air Force standards. Colonel Green expressed his hope that within a few years new accommodations will be available. It is also stated that funds have been made available by the Air Force to improve our unit.

The inspection team reviewed all aspects of training, classroom, diet caterer, military bearing, and courtesy. They also inspected the facilities and office procedures.

Home Run by Train!

IT'S A HIT! The fan of a train trip home with friends...enjoying creamy comfort and swell dinner on the road.

IT'S A STEAL! Catch a group of 25 or more heading home in the same direction at the same time. Then go Group Coach Plan...returning separate next fall if you wish. You each save up to $25, by purchasing tickets together.

Safe at Home? You'll get the train trip too, and travel on the train...with safety and all-month ticket on all trains.
Baseball squad victors in 3 straight.

Tech sports

Close races highlight IM softball leagues

Intramural softball opened on a sour pitch on April 29. Confusion as to opponents, playing times and scores and the failure of Ed Giancinto to postpone the majority of that day's contests.

On May 3 the Magpie reversed its fall in full line. Large scores, the result of some heavy hitting, were the rule of the day. In the 1st, the Chem Grads and the Peck's Red Devils fought to a 22-2 deadlock. As a result of the game's one-run margin at the plate, the Pecks' Red Devils, which the Trojans crushed the Chem Grads 24-4.

In the 2nd, the Trojans, led by Darryl Alix and the Chem Grads, scored 12 runs in the 2nd inning, dropping them out of the league. The Trojans then scored 4 runs in the 3rd inning, three times the number of times the Chem Grads hit the ball, giving them a 16-0 lead.

On May 4, a Thursday, the Chem Grads came back from behind in the last inning to win, scoring 4 runs to edge the Jesters 4-3. Tommy Ton Pasich claimed the game at 3:21 p.m. It is reported that he may never graduate from the Chem.

In the 2nd, the Trojans hit a home run against the Jesters, claiming the game at 3:21 p.m. It is reported that he may never graduate from the Chem.

Pillchasses whip Navy Pier; defend CCC title Saturday

Tech's pillchasses continued on their winning way with victories over North Central and Navy Pier after being waisted by the Pillchasses earlier this season. Their season record to three victories in four starts.

Tuesday's pillchasses beat Navy Pier for the second time this year, 14-12. The match was played in the Wadsworth field, now the Bob Peterson and Jim Keating field. The old field is being used by the Tech. Captain Dick Johnson led the Tech team with 3 points, while Bob Peterson scored 2 points, and Jim Keating scored 1 point.

On May 13 the squad reached Northern Michigan, 2-3, 2-1, 2-3, 2-4, at the Arrowhead golf course. The match was played on the Tech's home course, and the team scored 3 points, while the Northern Michigan scored 2 points. The Tech's victory was led by Bob Peterson, who scored 2 points, and Jim Keating scored 1 point.

In the 2nd, the Tech's pillchasses led by Bob Peterson, stormed the field with 3 points, while the Northern Michigan scored 2 points. The Tech's victory was led by Bob Peterson, who scored 2 points, and Jim Keating scored 1 point.

From Where I Sit by Bob Schear

It appears that one of Tech's best sport representatives this year is not even considered an official sport, namely the sailing team, which is third in the league. They did a fine job last season and are expected to do well this year, according to the school's expectations.

I hope that they can give a good account of themselves, as they are among the only sports which are capable of competing against the larger schools. This is simply due to the fact that schools have enough money to support their teams.

Another trophy may be added to the collection in the gym as the gill squad attempts to defend their Chicago Collegiate Championship title. For the first time in quite a while, they will compete in the NCAA tournament. While they aren't going to win it, they still could make a respectable showing.

An incident occurred a few days ago which seems to show pretty clearly some of the school's attendance. During a baseball practice on October 1, a half-battled parked car, in doing so it caused a considerable amount of damage.

As was to be expected the occupant had the car fixed and billed the school for the amount which was around $100. In the past such payments had been made right away.

The idea of paying out $30 was quite amusing. Anyway they decided not to pay the money. Their point of view apparently was that the owner was taking a risk by parking his car near the field. The matter is still being considered by Mr. Speth.

It must be understood that Mr. Speth is not the major person who realizes that there is a danger since there are no signs telling drivers of any kind to pay for their cars near the field. The athletic department left them to their own devices.

In fact they always buy a small portion of their budgeted funds for this purpose. However, it appears that these are spent for the benefit of Mr. Speth, who sees another way to make a few dollars from the students and professors. The more drivers may also find it to their advantage to have something similar to the students.

The Tech's pillchasses are represented by Ann Arbor, Ann Arbor, and the Chicago Collegiate Golf Championship. The school is hopeful of adding another trophy to the collection in the gym.
Fraternity Row by Dave Sullivan

The IPF track meet saw some excellent performances although some of the events were not as exciting. The team that won the meet by the closest margin was Alpha Sigma Alpha, with a total of 95 points, followed by Sigma Phi Epsilon with 91 points, and Delta Delta Delta with 90 points.

The Alpha Sigma Alpha team dominated in the field events, with Matt Smith winning the 100-yard dash in 10.4 seconds. The Sigma Phi Epsilon team took the 4x100 relay with a time of 44.2 seconds, beating Delta Delta Delta by 0.6 seconds.

The Delta Delta Delta team excelled in the track events, with Kyle Anderson winning the 200-yard dash in 21.8 seconds and the 400-yard dash in 47.1 seconds.

The Alpha Sigma Alpha team also had a strong performance in the jumping events, with Scott Brown winning the high jump at 6 feet, 4 inches and the long jump at 23 feet, 1 inch.

The Sigma Phi Epsilon team finished second in both the high jump and the long jump, with Ken Johnson placing second in the high jump at 6 feet, 3 inches and the long jump at 22 feet, 9 inches.

The Delta Delta Delta team took third place in both jumping events, with Pat Thompson placing third in the high jump at 6 feet, 2 inches and the long jump at 22 feet, 6 inches.

The Alpha Sigma Alpha team won the relay race, covering the 4x400-meter relay in 3:18.5, beating Sigma Phi Epsilon by 0.1 seconds and Delta Delta Delta by 0.6 seconds.

The Sigma Phi Epsilon team took second place in the relay race, covering the 4x400-meter relay in 3:19.2, beating Delta Delta Delta by 0.7 seconds.

The Delta Delta Delta team finished third in the relay race, covering the 4x400-meter relay in 3:20.2, beating Alpha Sigma Alpha by 1.7 seconds and Sigma Phi Epsilon by 0.8 seconds.

The Alpha Sigma Alpha team took the title of the meet with a total of 95 points, followed by Sigma Phi Epsilon with 91 points, and Delta Delta Delta with 90 points.

Cindermen routed by Valparaiso; shut out in Elmhurst Invitational  

Something must have happened to the IIT track team as they were soundly beaten by Valparaiso University, 5 to 3. It must have been that they were thinking of the strenuous Junior Week activities that were going on at the University. The Cindermen did not show much fight in the match. 

One of the brightest spots on the squad was Ed Schipper, who was continuously improving himself. He ran away with the Bill again as he had done in most of the meets this season. Schipper was also the star performer of the small six-man delegation sent to the Elmhurst Invitational last Saturday. He came up with a second in his half-mile heat with a snappy 2:13.

Norley Simon registered a Victory in the Valpo meet as he scored Gary Grosz in the hundred yard dash. Grosz took a second in the 220 with Simon following closely with a third. The other important track points were provided by Bill Zehrs, Matt Berfield and Avis Gottmer. Zehrs cleared the good mid-season height of 5'9" in the high jump to take the honors in this event. Berfield took second place in the 220 in 21.9 yards, while Gottmer gathered the counters for the place slot in the pole vault.

This defeat was the third in a row for the trackmen. They lost the season opener to Elmhurst 37-3 at the victory track. The first meet on Opis Field's order put us back to North Central, only to be beaten by the Redmen, 68-62. Now the team-to-Valparaiso and a 6-2 record to slide. Tomorrow's athletic schedule will try to bring up a rewarding win as they meet Judson Junior College on Opis Field.

Campus Interviews on Cigarette Tests

No. 41...THE MAGPIE

"I DON'T GET SOME OF THE CHATTERS!!!"

Our students were asked a number of questions about their smoking habits and opinions on cigarette tests. Here are some of their answers:

He's a chatterbox himself - cottedamned by no one!

But the fancy double-tongue-cigarette tests were too fast for him! He knew - before the gobbledy-gook started - a true test of cigarette mildness in steady smoking. Millions of smokers agree - there's a thorough test of cigarette mildness.

It's the sensible test...the 30-day Camel Mildness Test, which simply asks you to try Camel as your steady smoke - on a day-after-day, pack-after-pack basis. No no-smoke judgments. Once you've tried Camel in your "T-Zone" (T for Throat, T for Taste), you'll see why...
