Tell requirements for Tau Beta Pi

Junior and senior engineering students who have been chosen as candidates for Tau Beta Pi are invited to attend a meeting at 8 p.m. today in 101 MC. Anyone who cannot make this meeting should contact Dale Hathaway or your college engineering advisor.

Examinations for engineers' licenses given

Examinations for professional engineers licensed in the state of Illinois are held May 29-30. Any student who expects to graduate with an accelerated engineering co-op option in June may apply

Application is to be made on forms available from Dean's Office or from the Division of Professional Education, Illinois Institute of Technology, stating that the applicant has completed one year of accredited engineering in the past four academic years.

The application form must be accompanied by a check, money order, or bank draft for $39. An examination written by a student who fails to complete all examination requirements will be destroyed without grading, but in such a case the applicant may request to retake the exam without paying for the exam.

Still time to join dancing lessons given by sorority

A series of four dancing lessons is covered by Kappa Delta sorority. The lessons are free and open to all students interested in learning to dance. The first class in the series will be held at 6:30 p.m. on Wednesday in the MC lounge, and is organized to introduce all interested students to the fox trot. Future lessons will include variations on the fox trot, waltz, and rhumba.

Although the program has already started at last for two late, just in time for the term to end. Lessees will be given $2 for the first two classes and $1 for the last two classes. All participants must be familiar with the fox trot dance.

MC basement houses publication offices

The long-awaited event will take place! Technology News and Integral have at last moved to their new location, the basement of MC.

Saturday afternoon six members of the paper's staff started to set up the new offices in the basement. The new offices provide ample space for the growing staff and will enable the staff to work more efficiently. The staff is excited about the new offices and is looking forward to producing high-quality publications.

JWQH has special night, new chairman

Don Nutra, Junior-Week chairman, recently announced the appointment of Don Davis as the new JWQH chairman. Don Davis, a junior in electrical engineering, will assume the leadership position and guide the station through the upcoming academic year.

Davis has been involved with JWQH for several years and has a strong background in broadcasting. He is excited about the opportunities that come with the new position and is committed to providing high-quality programming for the student body.

Rough Casting's satire portrays Tech graduate

"Gardener for an Engineer," this year's Rough Casting satire, will be presented at 10:30 p.m. on April 28 in the Student Auditorium. Rehearsals are now in progress for this two-act play adapted from the book by John Rigby. The play will be directed by Mark Johnson, with costumes designed by Martha Nott and set design by Patrice Piny. All participants will be students of the Illinois Institute of Technology.

The play is set in the year 2023, with the setting being the Illinois Institute of Technology campus. The plot follows a student who, after graduating from Tech, must decide whether to work in the corporate world or pursue a career in academia.

The cast includes students from various majors, including engineering, business, and the arts. The play will feature original music composed by the students and will be presented in a variety of formats, including live performance and video.

The performance is open to the public and will be held in the Student Auditorium. Tickets are available at the box office and are recommended to ensure seating. The play will run for two nights, with performances on April 28 and April 29.

The cast and crew are excited to bring this entertaining production to the stage and hope to have an audience that will enjoy the satire and humor that is sure to be included in this original production.
Tech poised to honor year's outstanding pair

Kudos again in Illinois Tech's most popular and most active students. The end of March will see the annual selection of the Man and Woman of the Year. The honors this year will be awarded on the basis of both activities and popularity. The system of selection has again been changed in an attempt to correct the situation of choice by either popularity or campus activities alone.

Moreover, the organization was created and is run for a profit motive. More power to the person who won it. They are not an honorary.

"Who's Who" actually does not pick the names to be included in the book. This is done by special selection committees on each campus. Campus the Flamboro.

"Who's Who" is nothing, but a tarnish issue causing quoted wrong argument between a few glory seekers, who must add one more honorable to their name. The paper suggests that schools establish campus halls of fame.

Asociado College Press

Technology News

As I see it

SERVICE in the bookstore has been dropping off, according to several students. Frequently three or four customers turned around at one time and there is either no clerk in sight or the clerks are trying to look busy checking book inventories in the back.

SENIORS UNDOUBTEDLY have been discussing the possible loss of students in Technology News from campus and are likely to be disappointed in the situation before a decision is made to eliminate the bulletin board.

The newspaper is the only source of news and information for the students and it is unfair to eliminate it because of financial reasons.

The problem of theex is more serious than the slight loss of students. There have been an alarming number of reports of theft and vandalism in recent weeks, and people have been robbed.

The Institute has already added security personnel on certain hours of the night; but even if they add a dozen policemen, the campus will not be adequately covered. We strongly recommend that the administration set more guards on the corners of Third and Thirty-third and Nineteenth. The first time they were put in, the crime was stopped with a police

Mixing of the luxuriously, chairs of keys, Who's Who, etc., self admiration of the individual is not good. From the cream of the crop the final honor is conferred upon two individuals by both personal merit and popular acclaim.

A world of drum-beats lends an air of solemnity to most of us. It leaves only the epitome to be noteworthy. As far as this campus enters into the picture, the title of the couple of the year is the purest form of honor.

More power to the unsung pair. May their brief burst of glory taper slowly. The odds may be against them, but the world is for them.

TECHNOLOGY NEWS

Published every Friday during the school year by the students of Illinois Institute of Technology. Published in Chicago, Illinois. Paper money one or two copies of Technology News, 50 cents per year. Copyright 1933 by Ilinois Institute of Technology. Address all communications to Technology News, 190 N. Michigan Avenue, Chicago 1, Illinois. Entered as second-class matter at the post office at Chicago, Illinois, under the act of March 3, 1879.
Announce Pair of Year requirements

The following is the point system to be used in the determination of candidates for Man and Woman of the Year. Each wishing to be considered must submit an application to the Election Committee before noon, March 23, containing the following information:

Name and semester of applicant.
All activities while at IST and length of time ensured therein.
Personality, ability, and terms of office.

The point system is set up on a yearly basis. Participation for one semester or holding of office for one semester will reduce the number of points by one-half. Election commission will pro-rate points if terms of office is not completed.

Exemption to shoes in participation in athletics. One team representing Illinois Tech is considered to be a separate activity.

Example:
John Doe, 8th semester, joined the ASME in his freshman year and became president in his third year. He held office for one semester. In his second semester, he joined Alpha Beta social fraternity; became secretary for one semester in his junior year, and treasurer for one semester in his senior year. John played varsity baseball in his sophomore year and received a letter. His application would look like this:

<table>
<thead>
<tr>
<th>Name: John Doe</th>
<th>Semester: 8th</th>
<th>Points: 10</th>
</tr>
</thead>
<tbody>
<tr>
<td>1st yr: 0</td>
<td>2nd yr: 0</td>
<td>3rd yr: 10</td>
</tr>
<tr>
<td>President ASME</td>
<td></td>
<td>10</td>
</tr>
<tr>
<td>Total Points: 10</td>
<td></td>
<td>10</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Name: Jane Smith</th>
<th>Semester: 9th</th>
<th>Points: 15</th>
</tr>
</thead>
<tbody>
<tr>
<td>1st yr: 5</td>
<td>2nd yr: 5</td>
<td>3rd yr: 5</td>
</tr>
<tr>
<td>President:</td>
<td></td>
<td>15</td>
</tr>
<tr>
<td>Total Points: 15</td>
<td></td>
<td>15</td>
</tr>
</tbody>
</table>

John Doe senior, ASME President of ASME

Fellow Students

The above are examples of applications. The committee reserves the right to accept or reject any application.

Nominations for IF queen due tonight

There will be a selection of IF queen by the faculty and student body, followed by dancing.

This desk is reserved for you!
Debate club organizes second annual competition

The first regular meeting of the newly formed debate club was held at noon last Tuesday. Officers were elected and groundwork for a good debating club was started. There was some discussion on whether to have a team that would debate against other schools or in regular intercollegiate competition or to have informal debates between the members of the club.

After weighing both possibilities, it was decided to initially hold debates between the members to regain experience for the new men until the club is fully organized and then branch out into intercollegiate competition. It is hoped work will be planned, the club will meet to hold debates this semester with some Chicago area schools.

High Schools compete for service organization

The school was attended by John Smith, vice-president; Leonard Kotler, corresponding secretary; Otto Haring, treasurer.

The name of the club will be the Illinois Tech Debate Society. Meetings will be held at noon every Tuesday in 103 MC. A committee was appointed to find a faculty member who would be interested in acting as sponsor for the club.

All students interested in debating are urged to attend the next meeting.

ITSA approves coed service organization

Chi Sigma Omicron, recently formed women's service organization, decided last Thursday to ratify the constitution which was brought forth by the group. Upon approval by ITSA this group will be an official organization at IT.

By fostering the development of leadership qualities in both men and women, Chi Sigma Omicron hopes to aid both school and students. Through working together, the girls hope to form lasting friendships and learn habits of cooperation, courtesy, and scholarship. At present 30 girls have joined the group, and will be initiated at 5:30 p.m. March 11. The ceremonies will be conducted by Joe Kondiak, and Potokas, the two members of Alpha Phi Omicron who have been instrumental in the formation of the sorority.

Chi Sigma Omicron is open to all campus women, whether students or not, and interested persons may contact Janci Husain of the constitutional committee.

Dean's office makes policy on rifle range

The Deans' office has released the following statement concerning the use of the rifle range in Abraham Memorial Hall:

As of now, the range shall be under the joint control of the president of the gun club, members of the gun club, and the rifle team. The rifle team is authorized to use the range, and only during the following hours:

MONDAY, 8 A.M.-6 P.M., HOURS; TUESDAY, 8 A.M.-NOON, HOURS; WEDNESDAY, 8 A.M.-NOON, HOURS; THURSDAY, 8 A.M.-NOON, HOURS; FRIDAY, 8 A.M.-6 P.M., HOURS; SATURDAY, 8 A.M.-6 P.M., HOURS; SUNDAY, 8 A.M.-6 P.M., HOURS.

The president of the gun club shall also be in charge of the range, and the range is open to members of the gun club who are authorized to use it.

Bridge club elects slate

The bridge club elected the following officers at their last meeting.

President: John Smith
Vice-President: John Jones
Secretary: John Doe
Treasurer: John Brown

The bridge club meets at 8:30 p.m. in the basement of room of the Student Union. Meetings are open to interested students.

Engineering and Physics Graduates

BELL SYSTEM INTERVIEWERS WILL BE ON CAMPUS MARCH 16TH AND 17TH REPRESENTING:

- American Telephone and Telegraph Co.
- Bell Telephone Laboratories
- Western Electric
- Sandia Corporation
- (Atomic Energy)
- Illinois Bell Telephone Co.

Opportunities with these companies are available in all parts of the country. If you're interested in a good starting job with an unlimited future, arrange now for an interview.

For an interview, sign up in the Placement Office—Room 223, MC Building.

For more information attend our GROUP MEETING WEDNESDAY, MARCH 19, 9:00 A.M. IN THE NORTH STUDENT UNION LOUNGE.
News in Brief

Catholic literature will be available to all Tech students at the Newman Center Library which is open for circulation today. The books can be found in the extension room of the library. Recent books, magazines, and pamphlets are among the selections which reflect the Catholic viewpoint.

The annual meeting of the Tech Literature Society will be held at 8 p.m. tonight at the Atlee Prayer room. The meeting will be followed by a discussion of the Library. The meeting will be held at 8 p.m. tonight at the Atlee Prayer room.

The Illinois Institute of Technology will present a program at 8:30 p.m. on Friday in the Student Union. The program will include music, drama, and poetry. The proceeds will be used to support the library.

BE's upset Aces 60-58 for intramural championship

by Ben Cooney

Connaught Alexander's lone one-handed push shot gave the BE's a well deserved upset win over the ME's 60-58, in the IM basketball championship contest played yesterday in the gym. The win, giving the BE's the intramural crown, gave them the right to meet the IF championship.

The highly touted ME squad built up a 12-5 lead with less than two minutes of play remaining. It appeared that the outcome had been settled, but not outmatched BE's were not going to allow their elation victory over the ME's. However, Skipper, a member of the IF-sufficer squad, tied the contest with a driving lay-up shot.

On this shot, the BE's won. The BE's defeated the ME's three times last season, and bested them in the championship game last year. The ME's 1971-72 season included a 14-point win over the ME's, 86-72, in the championship game.

An opportunity for the ME's to mend their fortunes came when Skidder, a member of the ME's, lost the contest with a driving lay-up shot.

The ME's were off to a 12-5 lead, but the ME's were unable to hold onto their lead. The ME's 2nd quarter proved to be their undoing, as the ME's were outscored, and their lead was cut to 12-8 by the ME's.

The ME's 3rd quarter proved to be their undoing, as the ME's were outscored, and their lead was cut to 12-8 by the ME's. The ME's 4th quarter proved to be their undoing, as the ME's were outscored, and their lead was cut to 12-8 by the ME's. The ME's 5th quarter proved to be their undoing, as the ME's were outscored, and their lead was cut to 12-8 by the ME's.

The ME's 6th quarter proved to be their undoing, as the ME's were outscored, and their lead was cut to 12-8 by the ME's. The ME's 7th quarter proved to be their undoing, as the ME's were outscored, and their lead was cut to 12-8 by the ME's. The ME's 8th quarter proved to be their undoing, as the ME's were outscored, and their lead was cut to 12-8 by the ME's.
Fraternity men choose team to challenge IM star cagers

Trying to break into the wide column of the Telephone News All Star Series will be the IM representatives of the 1F league. The Delta XI, champions of the fraternity basketball squad for the past three years, played Alpha Sigma Phi and Sigma Phi Epsilon in a 103-to-90 victory over the CATS. The Alpha Sigma Phi's standout Law Reed, both in the 15-point average at guard, and Bob Sitterson, center on the Delta, will handle the strategy for the IM team.

The first practice for the IM stars will be Sunday at 10:30 a.m. Pictures of all players will be taken for the Telephone News on this date at 10:00 a.m. There will be no charge for admission, so let's have a real live turnout for the game.

Last, but not least, is Sherwood Small, Sigma Alpha Mu's candidate for the post position sporting a 13-point average. Small has not had a chance to play in the 1F league, but he will show up. The game will be played Monday, March 31, at 4 p.m. There will be no charge for admission, so let's have a real live turnout for the game.

**Met E plays large part in industry**

by Don Nears

From the early years of manufacture when savages made arrowheads and knives of iron until the present day that furnaces, men have measured the progress of a better understanding of metallurgy. For thousands of years, metals have been available in some form; but their production, improvement, and utilization have been an art, usually discovered by accident and passed along from master to apprentice.

It was not until the present century that tremendous technological developments were experienced. The science of metallurgy has finally emerged as one of the leading sciences in the development of American industry. Here at Illinois Tech, the metallurgical engineering department, programs and courses for their future is the desire of most engineers and scientists. The department has a curriculum designed to provide a sound and fundamental training in basic engineering and in the science of metals. Equally it is based on fundamental principles with theoretical and practical parts of metallurgical engineering treated separately, while the description of metals is kept to a minimum.

A student under the leadership of Dr. Otto Zernitski, head of the metallurgical engineering department, becomes familiar with the fundamentals of the subject, and working of metals for industrial purposes. Courses are also offered in powder metallurgy, metallurgy and structural analysis of metals, etc. Research as well as education plays an important part in the organizational program of the metallurgical engineering department. Prof. Fred Katzenberg, in connection with the NSF, is conducting research on the reaction of titanium and its alloys. Dr. Zernitski is performing experiments on the problem of the pink phase in heat treating alloys. Dr. Lucio Mondolo is investigating the general problem of the age-hardening and grain refinement of aluminum alloys.

As with all research centers, the students must be independent and must work as a team with the students in the field, it provides a broader understanding of the science.
