Chakinis and Cohn elected Pair of Year

by Bill Fascary

In a pair of closely-contested battles, Bert Cohn and Mae Chakinis were elected Man and Woman of the Year. These elections were held on April 15 in the MC conference room. The winners were announced at the end of the meeting. Cohn was elected Man of the Year, and Chakinis was elected Woman of the Year. The candidates were chosen by a secret ballot, and the results were announced at the end of the meeting.

Applications in publication jobs accepted

Applications for publication jobs at Tech News are now being accepted. The applications must contain the name, address, and major area of study, and must be submitted to the Tech News office by May 1.

Cunningham donates train fare to crusade

The "Dollars for Defense" campaign got a boost when Dean Cunningham donated his train fare to the cause. Cunningham is a student at Illinois Tech and is a member of the Illinois Tech Student Council. The campaign is aimed at raising funds for the defense of the United States.

Relax at dance tonight, Honor I urges students

Now is the time for all good Technews to come to the aid of --

Nearing the midway point of the semester, students are looking for a way to relax. One way to do this is to attend the upcoming dance, which will be held on Friday evening.

Junior prom bids on sale this week

Junior Prom tickets are now on sale for the upcoming prom, which will be held on May 10. Tickets are available at the Tech News office and at the student union.

ITSA by-law now affects organizations

The ITSA Board of Directors has passed a new by-law that affects the operation of student organizations. The new by-law requires that all student organizations must have a minimum of five members and must hold a meeting at least once per month.

Beginning next week IIT will start recording programs for the air on FM station WGN. For three consecutive weeks, IIT will present six hours of recorded features. The majority of the programs will be recorded in whole or in part by the students. A student ARPS will record the shows each day for 30 minutes. In a meeting with music department advisor, A. Shalor Brown of Public Relations announced that much of the work is being done by students. He stated that he needs more students to work on the programs. "Anyone who wishes to help in a special way is welcomed," he said.

For the time being all recording will be done in secret on the second floor of the music department. Programming will begin at 2 p.m. on Tuesday, April 16. Tentative schedule is as follows:

- April 16: "This Morning Event" (program designed and arranged by Tech News)
- April 17: "A Program of Popular Music" (program designed and arranged by Tech News)

"Music for the Night," a program designed and arranged by Tech News, will be broadcast on April 18.

This program schedule will be subject to change from week to week. Other participating institutions include University of Illinois, Northwestern University, and Loyola University.

The Illinois Institute of Technology is celebrating its 10th anniversary. The Institute was founded in 1933.
Discipline board gives students responsibility

Campus leadership is again in the hands of the students. We commend the confidence the disciplinary committee has shown in student leadership. In accepting the suggestions of a group of student leaders the committee has averted a situation that might have resulted in a less desirable relationship to the administration. The suggestions concerned the committee ruling that all members of BON be served first without prejudice to other members of the student body. The proposal was that the committee must have the entire student body present to serve first, which would result in a number of races, the step by step, the move, the show, and the content.

Costumes which are not in the budget, the budget committee, the planning of the event, and the events of the event.

The Junior A. G. was in the stage, all the people were in charge of the performance will and voice.

To help the campus the let's the original, the entire things are going to be done around don't know who the students.

To help the Junior A. G. will be a parade with the campus.

The Junior B. G. will be a parade with the campus.

And in front of the building we'll be the students women and men.

Another will be a parade with the campus.

ID staff is a movie.

Scenes of the movie simulate a movie at the instant. The film, plus faculty, and direction will describe the lives of the characters, their situations, their relationships, and other incidents in the movie. The students will be given an opportunity to tell their own story, to see the movie, and to be involved in the creation of the movie. The story is about the life of a student who is dealing with the challenges of being a college student. The story will be shown in a series of scenes that will be developed by the students themselves. The scenes will be shot on location, with the help of the students and the film crew. The final product will be a movie that tells the story of the student and his experiences in college. The movie will be premiered at a special screening for the students and faculty, followed by a panel discussion with the filmmakers and the students. The movie will also be available for screening at local theaters and on college campuses. The movie will be a powerful tool for discussing the challenges of being a college student and the importance of telling one's own story.
Publish activities schedule for JW

Jr. Week 1952 will be held on May 7 to 10. During these four days all classes will be on an ungraded basis. The history of the Junior Week was initiated in 1950, since then the students have enjoyed a variety of activities and events.

Preregistration announced for summer and fall

Preregistration for the summer and fall terms will be held from April 14 to April 22. All students who plan to attend UV in either term should preregister with their department counselors. A preregistration bulletin listing the courses to be offered may be obtained at the registrar's office. A list of prerequisites may also be obtained from the bulletin.

The maximum study load which may be taken is 15 hours. Any student who wishes to take more than this must have his preregistration card approved by the proper academic dean.

Those who fail to preregister will not be allowed to register with their alphabetical group at the beginning of the next semester but will be forced to register on the last day of registration.

VE director Lindgren leaves for AOS post

Ted Lindgren, director of Visual Education, leaves for post at Illinois Institute of Technology today to become assistant director of the Osteopathic Fund of the American Osteopathic Society. This will terminate a stay of six years at the institute. In his new post he will make slides and motion pictures for motion picture promotion.

Mr. Lindgren is a graduate of Michigan State University. He has had experience with medical comedy at Wisconsin and has worked with Hollywood on other movies of a hospital nature.

Lindgren will be replaced by Vincent Marchetti, former student in the school and a former member of the Tech News staff.

HE fudge sale

The traditional fudge sale, sponsored by the Home Economics club, will be held from 10 a.m. to 3 p.m. on April 15 in the SU lobby.

All proceeds from the sale will go to the IEA club scholarship fund, which aids gets to continue their education at Illinois Tech.

TREES

In the church steeple, while the birds sang, and the sun shone, and the children played, and the happy families laughed, and the trees were magnificent, and the beautiful flowers bloomed, and the clear blue sky was filled with wonderful sound and the sweet fragrance of the earth, and the happy people were happy, and the happy children were happy, and the happy families were happy...

Sticks

I think I feel a stick in my shoe. I wonder if it is not by any means wondrously peculiar.

Fall Reminiscence in June

I am writing this letter to let you know that I have been feeling quite well lately. I have been trying to get back into the swing of things.

Tennis court and field

I am going to the tennis court and field every day now. I have been feeling quite well lately.

ID students, staff to make movie of city

Students of Chicago from the University of Illinois will compose a movie now being produced at the University of Illinois. The film, produced by students and faculty of the University of Illinois, will be shown on television in the city's first showing.

Prize winners

The winners of the film contest will be announced at the end of the film. The winners will receive a prize for their work.

Polish club offers $300 scholarship

The Illinois Tech Polish club is offering a $300 scholarship to any student of Polish descent in the Chicago area planning to attend ITT. The scholarship will be for two semesters and will pay one half of the tuition per semester. Any student receiving the scholarship must intend to major in engineering or one of the sciences. Full particulars may be obtained by contacting Thaddeus C. Caplanka, chairman of the Educational committe, or the director of admissions.

The Polish club offers opportunities for all who are interested in Polish culture and in promoting Polish-American activities. The funds for the scholarship were raised from the proceeds of a dance and through donations from patrons. Although this is the first time such a scholarship has been offered, it is planned to award the scholarship annually.

Queen feted at IF ball ceremonies

Diane Wagner, 18-year-old freshman at Chicago Teachers College, was chosen as queen of the annual Polish American ball, Representing Sigma Phi Epsilon Piaternity.

A petticoat received from Jim Zolomick, IF president, was also presented to a bouquet of roses, a pearl necklace, and a pair of earrings. Each member of the queen’s court was examined at the end of the night by a member of Sigma Phi Epsilon Piaternity, it being presented to Diane.

The music of Jimmy Raye and his orchestra, beautiful girls, and a spirit of camaraderie and good will combined to make the ball one of the best in ITT history. A touch of harmony was added at the dance closed, when the song of Beto Quema Nu gathered around the microphone and sang several of their better-known songs.

Departmental exhibits for OH

The Open House program of May 8 and 9, will present at Technology Center exhibits representative of the research and scientific activity. The OH committee, headed by Steve Valovic, has set up two sub-committees to assist in the planning.

The Open House publicity committee has set up two classifications for the judging of departmental exhibits. Division A consists of those departments which will use laboratory facilities and equipment in their exhibits. Division B consists of those departments which will use laboratory facilities and equipment in their exhibits. The exhibits will be judged on their overall effectiveness, their exhibition of the department’s work, and their display of the department’s work.

The third department to be exhibited will be in the engineering department. The exhibits will be judged on their overall effectiveness, their exhibition of the department’s work, and their display of the department’s work.

Tutoring class services to be expanded

The tutoring services will soon be expanded to include all 1200 engineering students, according to a telephone survey of engineering students and faculty conducted by the College of Engineering.

The tutoring services will soon be expanded to include all 1200 engineering students, according to a telephone survey of engineering students and faculty conducted by the College of Engineering.

They were asked if they had any plans to continue their education beyond the bachelor’s degree. Forty percent of the students said they did not plan to continue their education beyond the bachelor’s degree. Forty percent of the students said they did not plan to continue their education beyond the bachelor’s degree.
Seek student opinion toward dating contact

Would you be interested in having a bureau that would furnish a much needed date for a party or dance? Approximately seven major universities, among them Syracuse university, and Iowa Teachers college, are using such services.

Past experience has shown that the bureau could be as useful as an ice cube in a water fountain. It could be placed on public exhibitions, allowing girls to be known from such ice-cube organizations. A survey of the campus made it clear that considering the date bureau is not only desirable but also a service that would be much better than such a date.

But what about an organization which would list allen physical and otherwise? As well as interests of prospective dates, and to the same time list some community for individuals using the service. Contacts could be made with nurses in hospitals as well as students on campus, dating contacts is not primarily a date bureau, but operates on the premise of having a bureau to the service, not counting on the risk of being rejected.

News in Brief

"Political Questions of 1957" will be the subject of a lecture to be given by Professor Donald S. Smithburg, acting chairman of the political science department at the next meeting of the IT Women's club in the ITSU lounge, Professor Smithburg has a cited reputation in the field of current political analysis both at Northwestern University and at IT.

Mrs. Elsie Schuh will be present of the concept of social music following Professor Smithburg's talk.

The Iota club will have its next meeting at noon on Tuesday in 105 MC. The topic for discussion will be "The Importance of the Theme and the Different Means in Which It Is Carried Throughout the World." The meeting is open to all.

The Fire Protection Engineers Society will meet Tuesday at noon in 105 MC to discuss the possibility of holding a society dinner rather than the usual seminar of campus parties.

Performance on April 18 of a dance, "April in Paris," will be presented by Hunter's Inter-Society Council. The dance will be given Friday, April 18, at the ITSU lounge.

Sr. Archs on top of IM volleyball

by Rob Abrams

As the IM volleyball season rolls on toward the end, another tight race seems to be shaping up in the Sr. Archs and Major Kemps remaining in the tournament leaders are John’s Boys, the NORTC Fresh, LSA, and the Trojans.

A number of close, exciting games featured competition during the past week. The Major Kemps whipped Fowler Hall in a hard-fought game, winning the first two sets 15-11, losing the second 13-14, and coming on to win the decisive game 15-14. In another hard-fought battle, the Major Kemps also defeated the CEI 2 games to 1. The Kemps were off to a good start, winning the first game easily, 15-2. They ran into trouble in the second, however, dropping a close one, 17-15. The third game was very close and hard-fought, as the Kemps battled their way to a 15-13 victory.

In other important games, the NORTC Fresh whipped Fowler Hall, 15-5 and 14-13, the Trojans handed the LSA their first loss, taking the first game, 15-13, and running up a shutout in the second, 15-0. In addition, John’s Boys edged the NORTC Destroyers, 2 games to 1, LSA defeated the CEI 2 games to 1, and the Trojans rallied to win a tough game against CEI.

Assignments for the playoffs and awards were announced by Coach Ed Gieger, director of intramurals. Each team will play a full schedule of games once the season begins. At the completion of a full schedule for each team, the first three teams will play off for the championship, with the first place team drawing a by. The second and third place teams will play off for the right to meet the first place team in the championship game. Awards will be given to the winner and to the runner-up.

BAYE SULHAINI grabs the sphere despite the frantic efforts of Bruce Tettam and Harry Doeneman. Suhaini led the IM’s best period as he scored an All-Silver out of nowhere before the IM team emerged victorious.

IM All-Stars beat IF team for fourth consecutive time

The IM team kept up a substantial margin in their favor throughout the first half. The IM’s aggregate score was 15-14 at one time, but that didn’t last long. They got a tough break when Slimy Meagher had his ankles just before the end of the half. The ball ended with the IM team ahead, 28-14.

The final quarter matched the IM All-Stars, scoring along on their own. The IM team was short of their target, but kept up a solid defense and finally regained the lead. Sparked by Bob Sullivan of the Medallions, who was energized by the crowd and the good news that the game was an American game, the IM team emerged victorious.

Golf tryouts on Saturday

Coach Sam Bibbo will hold golf tryouts Saturday at the Silver Lake Country Club. The session will start in the morning, with the exact time and other details to be obtained from Coach Bibbo, Dick Johnson, or the IM office. The golf course, which is on the Tech team’s home ground, is located at 171410 and 63rd in Oak Park. Anyone who can break 100 is invited to try out for the squad which last year but only one match and captured the Chicago Collegiate Championship.

Only one member of that team has left. However, Sam Robinson, who graduated, was the team’s number one man. Not only can newcomers take over this vacant place but they also have an opportunity to displace some of last season’s players. So if you can hit the ball then come out for the squad.

Tech talent

Although rights to practice are not yet certain, the Alpha Pi stag last year.

Tryouts will be held every day in the IM office, 4, and will continue until the first six players have been selected. Only six players will be chosen, and first six players will be notified at the end of the week.

The IM team needs three infielders, two second basemen, and two catchers. Any three positions are open to anyone willing to accept the challenge to make the team.

COUSIN ALEXANDER, of the 45 Club, received the annual IM trophy presented by TM during basketball season. TM awarded Slimy Meagher as the IM’s most valuable.

back of the free throw circle who wheeled and shot his famous one-hander on the basket just as the final horn sounded. As everyone in the gym held their breath, the ball hit the rim, bounced around the exact 3 seconds and finally fell through, sending the game into overtime.

The overtime went along just as the first three quarters, with the IM leaving the IF, 7-6. The IF boys threw their last minute salute, were no match for Slimy Meagher. The IM boys led 10-7 before Slimy Meagher entered the game and McCune. The game ended with the IM All-Stars fourth consecutive defeat, 25-17. This was the second consecutive time that the game went into an overtime period.

Slimy Meagher again proved his worth as he insisted that the champions better and better. Slimy Meagher again proved the IM’s luck and again proved better.
Tech nine seeks new talent to bolster lineup

Although the Chicago White Soxes have relinquished their rights to Ogden Field, there will still be a championship team practicing every day from 3 to 5 p.m. in their place. Coach Ed Glancy is seeking replacements for his squad which won the Chicago College Tournament last year.

Training are being conducted every day in the gym from 3 to 5, and whenever the weather permits, practice is held outdoors. The need for new material is quite apparent since only six veterans from last year's team are eligible to compete this year.

Due to graduation losses the team needs at least three more pitchers, two more catchers, a third baseman, a reserve infielder or two, and several more outfielders. Coach Glancy says that there are plenty of boys interested and that anyone who is interested in making the team should come now so that they can get into playing shape early.

Returning veterans include Captain Fred Geister who will be one of the team's key men. Ed Snee and Bob Peer will be back in top form, and many others will also be back.

In addition to the nine regulars, the team will have a number of reserves who will be called upon in case of injury or illness.

Tennis team announces new squad for advancing season

Looking forward to a highly successful season, the Illinois Tech tennis team is practicing itself for its ninth meet schedule. Last Saturday at Lombard Park, the squad held elimination matches to determine the calibre of the squad and the six men who will start against north central.

After Saturday's workouts, Coach Steenstra announced the top six players. They are, in order of rank, Paulsee, Jack Friesen, Oven Krieger, Ken Banks, and Owen Konig. The three doubles combinations are Kubitz, Friesen, and Banks, and Krieger and Konig.

In actual competition the top six men of Tech will play the corresponding men of the opposition. In addition, the three doubles duos will play a similar combination from the opposition. Thus the Techmen hope to gain at least five of the nine possible points in each match and sweep through the schedule undefeated.

One point which Coach Steenstra stressed was that at any time in the season any of the top six men can be challenged for his position by one of the other five or by anyone who is not even on the squad. Anyone who would like to play on the team should ask Coach Steenstra concerning further details.

Schedule:

April 3 North Central
April 9 Chicago Teachers
April 14 Wayne
April 16 North Central
May 3 Valparaiso
May 6 Valparaiso
May 10 Navy Pier
May 17 Illinois Preparatory
May 24 Navy Pier

All home games are to be played at Jackson Park.
